

could be summed up in the Bible statement: "Whose ever sins ye remit, they are remitted unto them; whose ever ye retain, they are retained." This, he believed, was to be taken literally, and he asserted that Mr. Wells, by overlooking the power with which he declared and pronounced to the people, being penitent, the abolition and remission of their sins. The pity that Dr. De Koven, and those who follow him, do not learn to preach the gospel Mr. Moody preaches, instead of the Church and Sacraments. Their success would be more real and evident."

The Chinese pay their physicians for keeping them well, but discontinue the salary while they are sick. A physician in Springfield, Mass., has adopted a similar, though modified plan. During two years past he has entered into an arrangement with some fifty patients by which he is paid a small yearly fee for giving hygienic advice and for suggesting preventives of disease. If one of these patients becomes ill the doctor visits him at half rates. This is hardly up to the Chinese plan in offering inducements to physicians to keep the patient well, but is an improvement. It is suggested as an improvement on the Springfield plan that where one of the doctor's charges is the maintenance of the hygienic principles impressed upon him he should pay double fees instead of half rates, which he would otherwise be charged.

**MORE DANCES.**—The Dances continue to be attracted to their splendid settlement in New Denmark, in this Province. Some come from the Western States; others cross the ocean. About a dozen persons, all told, came out by the *Peruvian* to Quebec, and from that point came on to St. John, whence they are being forwarded by Colonel Shivers. The Danish settlement is sure to be a great success.—*Td.*

**JOURNALISTIC.**—The *Daily Sun* staff on Saturday took possession of their new quarters in Hon. T. R. Jones' building, Canterbury street. The office is said to be thoroughly equipped. Mr. H. T. Stevens, editor and proprietor of the *Moncton Times*, has recently added to his printing office a steam engine.

**ESCHERICH'S LOSS.**—The Montreal *Witness* expatiates on the enormous loss caused to individual farmers and to the whole country by the making of bad butter. It is just as cheap to make good butter as to make it bad. Only it requires a little more care and patience. Three-fourths of all the butter in Canada, our contemporaries think, will be sold as low as ten cents a pound, or lower; whereas if it had been well made it would be worth two or three times the amount.

The Halifax *Witness* says that in Nova Scotia too, a great deal of bad, very bad butter is made, to the loss of all concerned. Perhaps some New Brunswick butter-maker will need to make a note of this too.

**FIRE.**—A very disastrous fire occurred at Cape May, New Jersey, on Saturday. The telegram says the place was burned up. Forty acres of ground were burned over, and the loss of property amounts to \$400,000. Nine or more hotels were destroyed.

#### CAUTION!

About this time of year, publishers find it necessary to caution subscribers to be sure in writing the letters which accompany their remittances to give the exact name and Post Office address to which the paper goes. No person should suppose that the publisher can remember his P. O. address, but should give it just as though the publisher had never seen it. If subscribers will observe this rule a great deal of hard and annoying work will be saved, and possible mistakes avoided.

If a subscriber wishes either his name or Post Office changed, he should be careful to give that to which it now goes, and then the one to which he wishes it to go. Please read this carefully, and remember it.

The *Telegraph* are to have a hymn book in their own language for use in their missions. It will contain a number of Moody and Sankey lyrics.

Col. C. R. Ray, is spoken of as a probable candidate for Mayor of this City. He is President of the Reform Club.

There is talk of the recall of Lord Lytton, Viceroy of India; and it is rumored that, in case of his recall, Lord Dufferin may succeed him in the Viceroyalty.

At the beginning of this century the Congregationalists contributed an average of 8 cents each for missionary purposes; now the average is \$1.52 per annum.

One of Mr. Spurgeon's sermons has been translated into the Serbian language, and sent to each of the twelve hundred priests and teachers in that country, where there is no Protestant preacher.

Mr. Moody weighs two hundred and forty pounds, and has gained fifty-five pounds in five years. He says that he hopes after some years of revival work to make his permanent home in Chicago.

M. D. Conway says that Lord Beaconsfield intends to "restore the route which Solomon was established along the Euphrates, in order to make Jerusalem the centre of oriental trade."

The statement is made that the Y. M. C. A. is embarrassed financially; and that some of the creditors have offered to settle at 50 cents on the dollar. Hard times.

The Penitentiary was so full last week, that eight short-termed prisoners had to be discharged to make room for a new batch. The jail also is full. Run does all this. And yet run selling is considered by some, a very respectable business.

Halifax people are expecting over so many thousands of visitors when the Governor-General and Princess Louise arrive, and are corresponding by happy. Probably their expectations will be gratified.

One of the papers says that Bartlett Langley, formerly of this City, has been living in San Francisco in good style for some time. A letter from that city says that financial reverses have again overtaken Mr. Langley, and that many business men are heavy losers by the disaster.

Run added another victim to its already large list, in the person of Henry Cunningham, who died in the Hospital on Sunday. He came from the Penitentiary on Friday, got some run at once, became ill from its effects, went to the hospital, and died. What about the law that furnished him with run? What about the law that authorized it? What about the responsibility of the people who permit the law to remain?

#### THE NEWS AND THE PRESS.

**SAINT JOHN, N. B., NOVEMBER 15, 1878.**

New Brunswick. Mr. Wilfred Alexander has been appointed U. S. Consular Agent at Grand Manan. The dealers in groceries and liquors, who were reported to the Police Magistrate, as the chief cause of the disturbance at Grand Manan, all possible speed. Success is again to have a restaurant at the railway station. The old buildings east of the station, which have long disgraced our place, are to be removed, and on this site the new restaurant is to be built. It is rumored that Mr. Hallett, who formerly kept the restaurant, will be again placed in charge. The house and shop of Mr. Jacob Robertson at Wolford, was burned Sunday. The loss will be about \$1,000. A defective stove-pipe was the cause of the fire. —Duncan B. Myhrhall, Esq., M. D., is gazetted a coroner in and for the County of Charlotte. The *Globe* reports a serious fire at Gouda Point on Friday morning. The house was occupied by Mr. Smith a farmer. Shortly before 1

o'clock on Friday morning Mr. Smith's little daughter was awakened by the noise of the falling of a window, and getting out of bed she found the house in flames. She immediately ran to her father's room and gave the alarm. The fire had made great headway, however, and all efforts to save the dwelling were useless. In fact the family could do no more than save themselves, and one child was obliged to run out in its night clothes. By great exertion, and with the assistance of Mr. Richardson and his sons, who live in the vicinity, Mr. Smith succeeded in saving his barns. This was fortunate for him, as they contained a large quantity of produce, the result of the season's work. Everything in the dwelling, however, was lost. The fire is supposed to have been the act of an incendiary. The building was insured. A joint stock company, to be known as "The Albert Shipbuilding Company," is about to be organized at Hopedale, with a subscribed capital of \$20,000 in shares of \$20 each. —The *Elgin* (Albert Co.) Spool Factory was destroyed by fire on Thursday night; loss \$20,000.

Charles Riley, a laborer, was drowned in the Falls Friday afternoon. Riley went through the Falls in a small boat to get a load of barrels, and returning was caught in a whirlpool in which his boat was turned upside down. The man got on the bottom of the boat, took off some of his clothing and jumped into the water to swim ashore, but he was caught in the whirlpools again and was never seen more. The St. John river this fall is full for shipment to the United States. One Judson town merchant alone handled over 7,000 barrels. It is estimated that 55,000 barrels have been shipped from this port to the United States this fall. A young man named Thomas, who was killed by his right hand blown off by the bursting of a gun Friday, Scott, who is a ship carpenter and lives on the other side of the Marsh Bridge, went out shooting in company with two other young men. Sighting a woodpecker on the Loch Leomond road about 15 miles out, Scott took aim with his gun at the bird, and with the falling of the trigger the firearm burst, blowing off his right hand. The gun was blown to pieces and apparently the force of the explosion was very great. —Capt. William Cook was found dead at Cook's Cove, Dorset Island, on Monday. It is supposed that his boat capsized on the passage from Eastport to the Island.

On Thursday afternoon last, a little girl, one and a half years of age daughter of Mr. John Woods, of Welsford, was kicked in the forehead by a horse. The blow fractured her skull, and a portion of the substance of the brain escaped from the wound. On Saturday evening, the condition of the little patient had so far improved as to warrant the doctor in permitting her to return home. A correspondent writes:—As Mr. Robert D. Ackley of McDonald's Point, was walking along a private road on his premises, in company with Messrs. Case and Doney, he saw a fox in a field near by, which, upon seeing them, hid himself in a ditch. Mr. A., aiming himself with a two pound shot, concealed himself behind a bush near the road, while Mr. Case went out around the fox, so as to drive him toward it. The fox came on at full speed and jumped the fence within twenty yards of Mr. A., who threw the stone at him, striking him over the head, killing him instantly. New cases of diphtheria are still showing themselves in Sussex.

The members of the Seamen's Union have struck work in consequence of their wages being reduced from \$2 to \$1.50 per day. Monday evening the schooner *Diply*, Capt. Larkin, of and for Yarmouth, loading in Robertson's Ship, careened over at low water on account of having too much cargo on one side, and in falling stove in the starboard bilge. When the tide commenced to rise the masts were attached to the masts and carried to the mast heads of the *Seehy* lying in the Alexander Slip, and the work of righting the *Diply* commenced. At half past five the ship was got upon even keel, and now lies in the slip submerged in water. The *Diply* had the most of her cargo, consisting of flour and like apologetic articles on board at the time of the accident. A quantity of lime in casks on deck burst their coverings as soon as the water reached them. —Fire—(see unknown)—destroyed Robinson & Glenn's saw mill, near Canterbury station, last week. Loss \$9,000. Insurance \$6,000. Although grappling operations have been carried on at the Falls since the accident by which Riley lost his life, his body has not been discovered. —The Bank of New Brunswick building on Prince William street, on the site next to the Post Office destroyed by the fire, will be ready for occupancy about the first of January. The building is built much after the style of the old Bank.

**NOVA SCOTIA.**—The various committees in Halifax are actively at work preparing for the reception of the Marquis of Lorne and Princess Louise. The Imperial authorities will provide a number of arches and other decorations; the Gas Company will also do some handsome work; and a number of societies and individuals are making preparations for the Marquis and his suite. The Marquis is expected to arrive on the 21st inst. It is understood that the *Black Prince*, of which the Duke of Edinburgh is commander, will come out several days before the Marquis, and the Duke will meet the Viceroyal party at Halifax. It will probably be the first week in December before they reach Ottawa. No troops will be sent out from England, but the Lord-Lieutenant recommended the Government to place a permanent guard at Eddison Hall. —Willie Perry, aged about sixteen, was kidnapped from the residence of his adopted father, Mr. Freeman Dennis, Yarmouth, N. S., on Sunday night by three villains, chained and carried a few miles into the woods and secured. After enduring the rigors of the past few days, he succeeded in extricating himself and was found Friday morning. There is no little excitement in town over the matter. The lad's story is doubted by many. —Mr. Frank Roman, Hopedale, injured a few days ago by being thrown from a carriage, died Saturday. —On the night of the 31st ult., Mr. Thomas B. Dane, of Yarmouth, N. S., met with a painful and almost fatal accident, while en route from Digby to Yarmouth. It appears that while the stage was changing horses at Sauter's mill, Mr. Dane was walking in the stable when one of the horses, a notorious kicker, suddenly hit out and struck Mr. Dane on the fleshy part of the right side of his neck, the other foot striking under his jaw, breaking and loosening some of his teeth, and cutting his tongue. Mr. Dane was rendered insensible, and remained so for three hours. —A man named John McLean, Fraser River, was found dead on Friday morning, for cattle before breakfast on Wednesday morning last, and failing to return in a reasonable time his friends began a search, which was unsuccessful until yesterday morning, when the missing man was found dead in the bushes close by the Antigonish post road, about half a mile from New Glasgow. —The death is announced of Very Rev. John Langham, a venerable and aged Catholic priest of the diocese of Halifax, who, over fifty years, was pastor in charge of Halifax. The Rev. gentleman was an active temperance man. He died at Sydney, C. B. —Clement's lobster factory at Cape Negro, Shelburne county, N. S., was totally consumed by fire on Sunday night last. Loss \$5,000. Insurance \$4,000. —At Mill Village, Queen's county, N. S., on the 20th ult., a house owned by Wm. Gibbons, was destroyed by fire—the work of an incendiary. A dispatch from Halifax on Monday says: "H. M. S. *Orient* arrived at this port to-day with the 101st Regiment, having sailed from Bermuda on Monday last. Of the 1,000 troops, only 100 were men having been compelled, through sickness, to remain at Malta, Gibraltar and Bermuda. They landed this afternoon and took their quarters at the Wellington Barracks. A number of the men are sick with Cyprus fever, but there have been no deaths. The 26th Regiment has been ordered by telegram received this morning, to immediately get ready to embark either on Wednesday or Thursday. —A man named Tom is to appear at the Halifax Assizes on Monday next. Mr. Field's dwelling house at Truro was burnt on Wednesday night. Furniture saved. —The following are fuller particulars concerning the death of John McLean. He was a man of about 40 years of age, and was a native of New Glasgow, N. S., reported in Saturday's *Telegraph*. —John McLean had been in New Glasgow for some weeks before his death, having changed his farm for a house there. He was a man of the bargain and it weighed on his mind, causing severe nervous depression, which caused many sleepless nights. It is possible that weariness of body and mind overcame him when in search of his cattle, and that he sat down, fell asleep and became chilled to death. He said frequently that his father, his mental distress would kill him. His father, brother and a brother all met with sudden deaths."

#### ENGLISH AND FOREIGN.

**LONDON, Nov. 7.**—The liabilities of Robert Forster, Glasgow, are estimated at from half a million to two and a half million dollars. The *Times* leader on the American elections says:—Now, as often before, the good sense of the American people has come to the rescue. The elections show that the most potent forces in the Republic are on the side of financial honesty and social conservatism.

**LONDON, Nov. 8.**—London subscriptions to the relief of impoverished shareholders in the Glasgow Bank has reached \$90,000. The released Fenton, Alcorn, will be permitted, because of feeble health, to remain in Great Britain and to visit Ireland.

The Home Rule Confederation has arranged for a tour of Great Britain, commencing at Birmingham and Wolverhampton. Mr. Parnell, a member of Parliament will be chief speaker.

The Standard's Paris correspondent telegraphs:—"I can state positively that the preliminaries are proceeding for a conference respecting the revision of the Treaty of Berlin, the idea originating in Berlin or Vienna."

The London *Daily News*, in an article on the fishery question, concludes as follows:—"We wait with interest the publication of Lord Salisbury's dispatch and the statement drawn up by the Canadian Government; but there is no use trying to disguise the fact that Mr. Ewart's case has some force in it. A right has been brought into the natural course of things, will be paid for by the United States. Their right of fishing thus acquired occurred about two years before the local law was passed, and our commissioners forget to reserve to the local Legislature the right of making regulations. We fear the date fixed by the treaty for payment of the award, Nov. 22nd, will be long past before the American Government are convinced of the error of their contention. The question is one of local obligation, and it cannot be calmly discussed on both sides. A reluctance to inflict wrong should be at least as strong as the determination not to submit to one."

**CONVICTS.**—Nov. 9.—Russia is establishing a second line of defence at Adirondack. Several prominent Turks believe that the attitude of the Russian Government will lead to war with England, and Turkey are anxious to convince Russia that the best mode of fighting Afghanistan would be to engage Russia in Europe.

**LONDON, Nov. 9.**—A Berlin dispatch says that 218,000 recruits will be raised by Russia this year instead of 150,000.

A special from Constantinople says that the English boats have captured the Greek vessel, the *Greco*, in the Dardanelles, (killing the sailors), and delivering them to the Turkish authorities. The Emperor Francis Joseph has granted a general amnesty in Bosnia and Herzegovina, a proclamation to that effect will appear shortly.

The Emperor Francis Joseph in receiving the delegations, declared that the dominion of the army after occupation would be facilitated by the most satisfactory relations of Austria with all the powers.

**VIENNA, Nov. 9.**—The Press states that Austria has assisted in principle to the steps of the western powers on behalf of Greece, without specially adopting the French or English standpoint.

**LONDON, Nov. 12.**—The Standard's Rome despatch says it is thought that Count Corti, who is going to Paris and London, is commissioned to arrange for common action in the East.

**ROME, Nov. 11.**—The *Panfulla* says that Russia has ordered the construction of several ironclads.

**ST. PETERSBURG, Nov. 11.**—*Golos* considers Lord Beaconsfield's speech pacific, though it shows that the basis of his policy is still enmity to Russia.

#### UNITED STATES.

**NEW YORK, Nov. 8.**—The police have not as yet discovered any clue to the parties who robbed Stewart's jewelry store, nor have any arrests been made. Anxiety is felt over the non-arrival of the Antwerp steamer *Hermann Ludwig*, which left here Sept. 28th, and was due Oct. 13th. She had three passengers and a crew of thirty, with a large assortment of goods.

Five men drew revolvers, entered Johnson's jewelry store on 8th Avenue, last evening, intimidated the clerks and outsiders, stole \$2,000 worth of jewelry, jumped into a cab and fled.

**CASE MAY, Nov. 9.**—A large fire broke out in the Merchants' Hotel and Congress Hall were in flames and it was feared that a great portion of the town would be destroyed. Telegrams were sent to Camden, N. J., for assistance.

**TORONTO, Nov. 9.**—Advices from Whitehaven, received to-day, report that during the night, a lobster smack owned by A. Ogden, M. P., running between Canoe and Whitehaven, was upset and the crew of four men saved respectively.

On the 10th of Whitehaven, John Grant, a Grub-boro, Edmund Wambolt of St. Margaret's Bay, and Herbert Richards of Charles Cove were drowned.

**CASE MAY, Nov. 11.**—To-day the ruins of Saturday are still smoldering and are visited by numbers of people. The residents generally have got over their alarm and are at their avocations as usual. A tour through the burned districts shows everything in the path of the flames, covering an area of 40 acres, to be utterly ruined. A wall along the beach shows nothing but a mass of burned and ruined houses. In some cases efforts are being made to clear away the debris. The remains of cottages are only slightly damaged; several had the roofs partially burned. Some of the owners of cottages are already securing plans preparatory to rebuilding.

**NEW YORK, Nov. 11.**—There is nothing new about Stewart's remains or the Manhattan Bank and individuals are making preparations for the Marquis and his suite. The Marquis is expected to arrive on the 21st inst. It is understood that the *Black Prince*, of which the Duke of Edinburgh is commander, will come out several days before the Marquis, and the Duke will meet the Viceroyal party at Halifax. It will probably be the first week in December before they reach Ottawa. No troops will be sent out from England, but the Lord-Lieutenant recommended the Government to place a permanent guard at Eddison Hall. —Willie Perry, aged about sixteen, was kidnapped from the residence of his adopted father, Mr. Freeman Dennis, Yarmouth, N. He said frequently that his father, his mental distress would kill him. His father, brother and a brother all met with sudden deaths."

#### BUSINESS.

Those subscribers whose payments are so long due, may confer a great favour on us by remitting at once. There are several hundreds who have not yet paid this year's subscription. It is certainly true they were paid. Will our friends who are in this class have the goodness to send payment immediately? They not only owe it to us, but to themselves, to make no further delay. We need the money, every dollar of it. And we need it at once. This intimation ought to be sufficient.

**OFFER TO NEW SUBSCRIBERS.** To new subscribers paying one year's subscription to the *INTELLIGENCER* will be sent from the time of receiving the money till Dec. 31st, 1878. They will, by taking advantage of this offer, receive the paper from the date of subscription till the end of the present year free!

Will the ministers do the *INTELLIGENCER* and the cause it advocates the favour of announcing this offer from their pulpits: Other friends of the paper may help it greatly by bringing this offer to the attention of their non-subscribing neighbors. We hope to receive a large number of new subscribers.

**INVALIDS.** Do you wish to gather flesh, to acquire an appetite, to enjoy a regular habit of body, obtain refreshing sleep, to feel and know that every fibre and tissue of your system is being braced and renovated? If so, commence at once and use the Quinine Wine prepared by Northrup & Lyman of Toronto, and in a short time you will feel the whole system invigorated and strengthened. It is a well known fact that Quinine has been acknowledged by the medical faculty for many years as the best appetizer and tonic known. And for this reason, the peculiar operation of this medicine in general debility and as an appetizer, has undergone long and close observation, and it is a well known fact that Quinine has been acknowledged by the medical faculty for many years as the best appetizer and tonic known.
