

THE TUBULAR HEATING STOVE.

Patented in Canada, December 12th, 1876, and now manufactured in FREDERICTON for the Canada Tubular Stove Company, in Three Patterns, including a Parlor Stove.

FOR WOOD ONLY.

This Stove has 7,382 Square Inches Heating Surface.

WARM ROOMS, EVEN TEMPERATURE, NO COLD FLOORS, NO COLD FEET.

WILL SAVE THE PRICE OF THE STOVE IN WOOD THE FIRST SEASON.

Send for Circulars.

Don't Buy, or Promise to Buy, a Heating Stove until you see the Tubular.

E. C. FREEZE,

BOX 83, FREDERICTON, NEW BRUNSWICK.

out of ten criminals in this country have not been educated in public schools, but a very large proportion are Catholics, and have received what little education they have from Catholic priests.

Evangelical Churches in Rome.—It is announced that the third Baptist meeting-house will shortly be constructed in the Trastevere; its pastor being the Rev. Alessandro Petroschi, who has been for two years a laborer in that city. There are now nine different Evangelical bodies in Rome, viz., the Wesleyans, the Wesleyans, the Methodists, the Episcopal Methodists, the Free Church, the Presbyterians, the Plymouth Brethren, the American Baptists, and the Apostolic Baptists, numbering 700 Italian adherents in all. The Wesleyans have purchased a site for a new church in the Piazza de Santi Apostoli, and the American Baptists are at this moment building a place of worship near the Teatro della Valle, which will be opened next month.

A correspondent of the "Associate Reformed Presbyterian" speaking of a place which he visited in East Tennessee, says: "The Plymouth Brethren in the person of Lord Cecil have introduced themselves in that section, and we learned that one man had become so enthralled with their doctrines of full assurance and the soon and sudden advent of the Saviour, that he has his wife lying in a clean shirt on his bed-post at night, so that if the Lord should suddenly appear during his slumbers he might be able to speedily present a clean exterior. This is the dangerous and destructive tendency of such teaching, to make clean the outside of the cup while it may be filled with filth and pollution."

The official report of the recent Old Catholic Synod shows no substantial change in the statistical condition of the body. It gives in connection with the Synodical questions a letter from the Janesville Archbishop, of Wisconsin, to the Bishop of the United States, written before the Synod was held. In this letter the fear is expressed that if the proposal to abolish compulsory celibacy should be adopted the Janesville might see themselves compelled to withdraw from communion with the Old Catholics. Since then, however, the Janesville Archbishop has sent Deacon Sprunt to assist Bishop Reinkens at a conference in Des Moines, with the assurance that after repeated deliberations, he and his Janesville fellow bishop had come to the conclusion that it was not necessary to break off communion on account of the change.

Charles Reed is 64 years old; Jacob Abbott, 75; Edmund Abbott, 50; William T. Adams (Olive), 56; A. A. Alcott, 79; T. B. Aldrich, 42; Berthold Annerberg, 39; George Bancroft, 78; Robert Browning, 66; Carlyle, 84; R. L. Clemens (Mark Twain), 43; G. W. Curtis, 54; R. H. Dana, 61; Darwin, 69; Diamond, 73; Hephworth Dixon, 77; Emerson, 75; J. A. Froude, 69; W. E. Gladstone, 66; Bret Harte, 39; J. G. Holland, 59; Dr. Holmes, 69; Julia Ward Howe, 59; Thomas Hughes, 55; T. H. Huxley, 63; George Eliot, 58; Longfellow, 71; B. J. Loring, 65; D. G. THE AMERICAN AGRICULTURIST FOR SEPTEMBER comes to hand with 56 engravings of animals, various useful contrivances for the Farm, Garden, and Household, and upwards of 100 articles and items, mainly upon the practical work of out-door and in-door life. The seven columns of hints, suggestions and directions for the work of the month are prepared from the latest experience of practical men in each department, in this as in every number, are worth more than the cost of the entire paper. The illustrations are described and illustrated. Sunday Hums are exposed. "Ridding furniture and of Moths," is an important article that should be read by every housewife. Among the valuable articles are: Breaking and Training Colts; Talks on Farns, by One of Them; Wheat Culture; Agriculture at the Paris Exposition; The Poisonous "Leech" or "Crayfish" of the West; and a fine, new very early Peach; Notes from the Pines; Home and Garden; and a new and interesting article on Turkeys, etc., etc. Orange Juice Company, Publishers, New York. \$1.50 a year; 15 cents a number.

"THE SOUL OF SOCIALISM."—Professor W. G. Sumner's paper on "Socialism," in *Scribner's Monthly* for October, is attracting wide attention. The New York *Evening Post*, reviewing the article at great length, under the title "The Soul of Socialism," says: "Professor Sumner's article is not a long one, but so compact is it, and so directly does the author go to the heart of his subject, that it is, without exception, the most notable and instructive to the most effective exposition of the real nature of the prevalent political disease which has been printed in any of the magazines or reviews since socialism first seriously threatened the life of society in this country. And again, in an editorial based upon Prof. Sumner's paper: 'He tells the hundreds of thousands of persons who read *Scribner's Monthly* the most important truth in this country. A paper by Prof. Sumner, *Greenbacks* will appear in an early issue of *Scribner*.'"

"THE TRANSPORTATION QUESTION."—Stephen D. Dillaye's paper in the September *Scribner* on "The Transportation Question" has attracted much attention.

The third edition, 79th thousand, of the number containing this paper is now ready, and may be had at the newsstands. An able paper on the other side of the gauge question is soon to appear in the magazine.

TUBULAR STOVE.—We wish to direct the attention of readers to the advertisement of the Tubular Stove Company. We believe the stove to be all that it is claimed to be. In this country of long and cold winters the stove that will give most heat at least expense is just what the public need. The Tubular Stove "fills the bill" exactly.

THE NEWS AND THE PRESS.

SAINT JOHN, N. B., OCTOBER 11, 1878.

NEW BRUNSWICK.—Apples are selling at about as low a rate as ever before in this city. The market is abundantly supplied. Mr. R. McElroy and Mr. A. L. Scullary, who have had several contracts in St. John, have received new orders for new post-office, Fredericton, and are commencing immediately.

The ship *New City*, in which Mr. and Mrs. Luke Stewart and Mr. Magee sailed as passengers, arrived at Liverpool on Wednesday, having made the passage in 21 days. Building operations have already commenced at the corner of Garden street and the extension of Charles street, which is to run from Dorchester street, and is only about half completed. The tenement house in the city in Moncton has been brought to a close. There were 100 signatures to the pledge during the week. Field strawberries, in October, are unusual for this climate, but over a dozen ripe berries were picked in front of Mrs. H. Robertson's residence, on Monday. Flares were observed by Officer Doucet, about 4 o'clock on Monday morning, in the cellar of Mr. T. S. Wood. The Colonial Trust Corporation has been summoned to the scene. The fire worked its way to the floor above and was checked at that point. There was but little damage.

The workers in Gregory's Mill, Carleton, are on a strike, owing to a reduction in their wages. Mr. Enoch Campbell, of Grafton, Carleton Co., had his right arm badly broken, on Monday evening last, by the kick of a horse. A dispatch from Fredericton states that Mr. R. Napier, manager of the Bank of British North America, lost two of his children, Monday, by diphtheria.

S. L. T. Rankin, who was sentenced to the penitentiary for five years, for embezzling from the post office, was released on Friday from that institution, having served about three years of the term.

Captain Charles McQuibbin, of Upper Mills, St. Stephen, was found in the field about a quarter of a mile back of his residence, on Sunday morning, dead, with a bullet in the side of his head. He was lying on his back with his legs crossed and his hands down by his side, the right hand holding a

pistol. The deceased had been for nine years master of the St. John barque *Seward* (Hull & Fairweather). He was 34 years of age, and leaves a wife and child. An inquest was held on Sunday afternoon by Coroner Ross, and the jury returned a verdict of "came to his death by a pistol shot by his own hand."

Depression of mind on account of such matters is thought to be the cause of the rash act. On the 10th inst. a little girl of 13, named Crandwell, while playing with some other children on the railway turntable at Hillsboro, was crushed to death by the wheels of a passing train.

Steamer City of Portland, of the International Line, which arrived Friday afternoon from Boston, left at nine o'clock the same evening, and the *New Brunswick* left for this port, also. These trips are made owing to the large amount of freight waiting transportation. The *City of Portland* has received from Bishop Sweeney the contract for erecting a new brick school house, on the site of the building formerly occupied by the Christian Brothers, on Sydney street. Mr. J. E. Irvine presided at the social held this week in the parlor of the Y. M. C. A. building. The social was opened by singing and prayer. During the evening readings were given by Messrs. L. C. T. Knowles and J. E. Irvine.

An instrumental duet on the piano by Messrs. J. E. Narraway and J. Gould was much admired. There are at present fifteen cases of typhoid fever in the Public Hospital and all are doing well. There have been thirty cases of this disease in the hospital during the summer. The total number of persons now under treatment in this institution is 49. The *Sentinel* says that the residence of Mr. James Sproule, Lower Corner, Woodstock, N. B., with barn and out-buildings, was burned on the 29th. Mr. Sproule also lost heavily in household furniture, tools, sleigh, harness, and hay. The fire originated in the woodshed, but from what cause is not known. Mr. Sproule's loss must be well on to \$1,000; insured in the Queen for \$500. A little boy, son of the late Fred T. Smith, of Sussex, died of diphtheria and was buried Tuesday. J. R. McMonaghs, Esq., a lawyer, is down with this disease. Diphtheria appears to be spreading there. The vaults of the Savings Bank, having stood the fire test in the Great Fire, will be allowed to remain, and be used in the new building.

NOVA SCOTIA.—The Grindstone business at Rockland has been fairly active this season at very small prices. Messrs. Reed, Stephen & Co. have shipped eight cargoes to Boston and New Haven. Two schooners are now loading, and two or three more cargoes will follow later in the season. Messrs. A. Seaman and Co., Lower Cove, N. S., have shipped about five cargoes. Joseph Thompson, of Little River, near Oxford, an old and respected resident, died yesterday on Wednesday. He was 80 years of age, and had been in the hospital for some time. He was buried Tuesday. J. R. McMonaghs, Esq., a lawyer, is down with this disease. Diphtheria appears to be spreading there. The vaults of the Savings Bank, having stood the fire test in the Great Fire, will be allowed to remain, and be used in the new building.

UNITED STATES.

TOPEKA, Kansas, Oct. 9.—A hand of runaway Indians arrived, when ten miles north of Hayes City, came upon a lot of cattle men, when a hand-to-hand fight ensued, resulting in the loss of 18 citizens killed and five wounded.

Boston, Oct. 9.—There were 75 deaths from yellow fever in New Orleans yesterday, a slight increase over the previous day.

The number of fatal cases in Memphis, yesterday reached 42—8 less than on Tuesday.

New York, Oct. 9.—Considerable increase has occurred in the yellow fever mortality. At 10 o'clock, yesterday, there were 71 fatal cases reported, against 42 on Wednesday. There were 60 deaths in New Orleans yesterday, and 298 new cases reported.

Two schooners are now loading, and two or three more cargoes will follow later in the season. Messrs. A. Seaman and Co., Lower Cove, N. S., have shipped about five cargoes. Joseph Thompson, of Little River, near Oxford, an old and respected resident, died yesterday on Wednesday. He was 80 years of age, and had been in the hospital for some time. He was buried Tuesday. J. R. McMonaghs, Esq., a lawyer, is down with this disease. Diphtheria appears to be spreading there. The vaults of the Savings Bank, having stood the fire test in the Great Fire, will be allowed to remain, and be used in the new building.

NEW BRUNSWICK.—The Grindstone business at Rockland has been fairly active this season at very small prices. Messrs. Reed, Stephen & Co. have shipped eight cargoes to Boston and New Haven. Two schooners are now loading, and two or three more cargoes will follow later in the season. Messrs. A. Seaman and Co., Lower Cove, N. S., have shipped about five cargoes.
