VALUABLE INFORMATION.

MR. H. R. STEVENS :-Dear Sir,—My only object in giving you this testimo niai is to spread valuable information. Having been badly afflicted by Salt Rheum, and the whole surface of my skin being covered with pimples and eruptions, many of which caused me great pain and annoyance, and know ing it to be a blood disease I too's many of the advertise blood preparations, among which was any quantity Sarsaparilla, without obtaining any benefit until I commenced taking the Vegetine, and before I had completed the first bottle I saw that I had got the right medicine. onsequently I followed on with it until I had taken seven bottles, when I was pronounced a well man, an my skin is smooth and entirely free from pimples and eruptions. I have never enjoyed so good health before and I attribute it all to the use of Vegetine. To benefit ome afflicted with Rheumatism, I will make mention also of the Vegetine's wonderful power of curing me of this acute complaint, of which I have suffered so in-

FOR PURIFYING THE BLOOD.

This compound of the vege / table alteratives, Sarsaparilla. Dock, Stillingia, and Mandrake with the Iodides of Potash and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system,

that undermines health and settles into troublesome dis orders. Eruptions of the skin are the appearance on the surface of humours that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they lisease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas Pimples, Pustales, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side and Head, Female Weakness, Sterility, Leucorrha arising from internal ulcero tion and uterine diseases, Dropsy, Dyspepsia, Emaciated
