Catarrh. For this complaint the only substantial benefit can be obtained through the blood. Vegetine is the great blood

Constipation-Vegetine does not act as a cathartic to debilitate the bowels, but cleanses all the organs, enabling each to per form the functions devolving upon them.

Piles. Vegetine has restored thousands to health who have been long and painful sufferers.

If Vegetine is taken regularly, according to directions a certain and speedy cure will follow its use. Faintness at the Stomach. Vegetine is not a stimulating bitters which creates a fictitious appetite, but a gentle tonic which assists nature to restore the stomach to a healthy action.

Female Weakness. Vegetine acts directly upon the causes of these cor plaints. It invigorates and strengthens the whole sys tem, acts upon the secretive organs and allays inflamms

In this complaint the good effects of the Vegetine are realized immediately after commencing to take it; as debility denotes deficiency of the blood, and Vegetine acts directly upon the blood.
