### **Sworn Statement**

Dear Sir,-From exposure I took sick about nine years ago with Rheumatic Fever, from which I suffered about four months. When I recovered from the fever I found myself suffering with pain in my side and constipation, which brought on the piles. I consulted a physician, and paid him over \$200 for attending me, and all the while I was gradually Boston had taken my case in hand.

On consultation between several of the leading physicians, they concluded my complaint was asthma | p. m., after arrival of noon train from Boston, for Eastand general debility. I had great difficulty in breathing, and an inhaler was required to afford me breath. Through the treatment of one physician I took from 75 to 100 boxes of calomel pills; and faithfully tried all the medicine that each physician prescribed. From my long sickness, and the vast amount of medicine used to overcome the great pain, my kidneys became badly affected, and I suffered excruciating pain in the small of my back,

with great difficulty in passing my urine.

One physician said I was diseased all through my o great that it was impossible to keep any solid food on my stomach, and the whole nature of my

I also took a prescription from a celebrated Eng-

lish physician, whe said my trouble was Bronchitis and Dyspepsia. I took 18 bottles of medicine especially prepared for Dyspepsia, and I have used a great deal of medicine from apothecaries' prescription. I have taken Sarsaparilla until you could count the bottles by the dozen, and indeed I have given nearly all the popular advertised medicine a fair trial. I had a dreadful cough, and did not average over two hours' sleep a night for 8 years. A brother policeman urged me to try Vegetine, but for a long time I refused, having got completely discouraged from taking so much medicine with out any benefit; however, after urgent persuasion, nger depot of the Ohio and Mississippi Railroad, I concluded to try it, and before I had used one cluding a large quantity of flour, general produce, bottle I could eat and hold on my stomach a beefsteak, a thing I had not been able to do before for years; indeed, I obtained more substantial benefit from the first bottle of VEGETINE than from al other medicines which I had taken. I kept on improving, and kept on using the VEGETINE, until I was perfectly cured and able to do duty all day, eat and digest my food, sleep well at night, and I am now 40 pounds heavier than I ever was before in my life, and am, as I think, a living contradiction of New England, for with all of their combined wisdom, they could not accomplish so much as that simple vegetable medicine called Vegetine to which EUGENE E. I lay in bed from under any circumstances. ing June, and on an average did not sit up two hours a week; I had eight of the best physicians in the State, but got no help, and constantly grew worse. They agreed that I had heart disease, Quinine Wine prepared by Northrop & Lyman of Toronto, and in a short time you will feel the whole system invigorated and strengthened. It neverabe any better. I was reduced in weight 50 pounds, which is much, for I am naturally thin. In June, finding I was failing under the treatment of the physicians, I commenced the use of VEGETINE through the earnest persuasion of friends, and I am happy to state, with good results. I have gained ten pounds in weight, and can sit up all day, walk half a mile and ride six.

I am greatly encouraged, and shall continue using the Vegetine if I can get it. I am a poor man, but happy to state, with good results. I have gained
