LOUISVILLE, KY., Feb. 16, 1877. Dear Sir, — Three years ago I was suffering terribly with Inflammatory Lheumatism. Our minister's wife advised me to take Vegetine. After taking one boddle, I was entirely relieved. This year, feeling a return of the disease, I again commenced taking it, and am being benefitted greatly. It also greatly improves my digestion. MRS. Safe and Sure. MR. H. R. STEVENS. In 1872 your VEGETINE was recommended to me; and,

yielding to the persuasions of a friend, I consented to try it. At the time I was suffering from general debility and nervous prostration, superinduced by over work and irregular habits. Its wonderful strengthening and 14 75 curative properties seemed to affect my debijitated system from the first dose; and under its persistent use rapidly recovered, gaining more than usual health and good feeling. Since then I have not hesitated to giv VEGETINE my most unqualified indorsement as being safe sure, and powerful agent in promoting health and restoring the wasted system to new life and energy, Women's Aid Society, North Head Grand Manan, per Vegeting is the only medicine I use, and as long as 813 40 VEGETINE is the only medicine S13 40 live I never expect to find a better. Dear Sir,—About ten years ago my health failed. through the depieting effects of dyspepsia; nearly a year later I was attacked by typhoid fever in its worst form. It settled in my back, and took the form of a large deep-seated abscess, which was fifteen months in gathering. when a friend recommended me to go to your office, and talk with you of the virtue of VEGETINE. I did so, and by your kindness passed through your manufactory, noting the ingredients, &c., by which your remedy is produced.

By what I saw and heard I gained some confidence in VEGETINE. I commenced taking it soon after, but fett worse from its effects; still I persevered, and soon felt it was benefiting me in other respects. Yet I did not see the results I desired till I had taken it faithfully for a little more than a year, when the difficulty in the back was cured; and for nine months I have enjoyed the best of health.

I have in that time gained twenty-five pounds of flesh, being heavier than ever before in my life, and I was never nore able to perform labor than now. During the past few weeks I had a scrofulous swelling

as large as my fist gather on another part of my body. I took VEGETINE faithfully, and it removed it level Let your patrons troubied with scrofula or kidney disase understand that it takes time to cure chronic diseases; and, if they will patiently take VEGETINE, it wiii, With great obligations I am
