A remarkable family of fat children live in Barren County, Ky. The father, Smithland Chamber, weighs 130 pounds, and his wife only 112, but a six-year-old daughter weighs 230 pounds. The latter is as tall as other girls of her age, but measures eighty-four inches about the waist. A son died when about five years old weighing 200 pounds, and some younger members of the family are growing fat rapidly.

Scientific men have been making all sorts of suggestions to prevent or remove the terrible fogs which envelop the city of London. The latest proposal is to blow away the fog by a great explosion of dynamite in some large open space, such as Hyde Park. The *Court Journal* says: "Any one who has had to live for months together in an atmosphere of the density and color of pea soup will forgive the apparent lunacy of this brilliant suggestion."

The Rev. Henry Morgan, of Boston, known as the "Crying Preacher," always thought to be a man of great literary ability, has been sued by his secretary, Ward Smith, for a royalty on a book lately published by Morgan. Smith claims that Morgan never wrote a word of the book, and that it was written by himself and Jepson, private secretary for Morgan for ten years, and who, Smith says, wrote most of Morgan's lectures. Smith also asserts that several other works attributed to Morgan were produced by other parties.

The Irish Church Gazette thinks it a great scandal that at conventions, Sunday-school centenary celebrations, etc., in Dublin, the Episcopal "clergy are put on the same footing as ministers of all kinds of schismatical bodies. Everything of this kind," it says, "is calculated to make Romanists think that we pretend to no higher position than that of Presbyterians, Methodists and Independents, with whom we thus publicly coalesce. What can Romanists think of us if we pretend to nothing higher for our orders than that a call of a congregation can give? What can they think of us if we deny schism to be a sin?" The *Gazette* has our sympathies.

Since the accession of Queen Victoria she has witnessed some remarkable changes. She has outlived every bishop and judge whom she found seated on the benches in Scotland, England and Ireland. She has witnessed the funeral of every Premier under her rule except Mr. Gladstone and Lord Beaconsfield. Not a single Cabinet minister of her predecessor's day now survives. Four only of the Privy Council, who in June, 1837, administered to her the oath are still living. She has received the homage of four Archbishops of Canterbury, four Archbishops of York, and five Bishops. She has twice appointed Chief Justices. She has received the addresses of four Speakers of the House of Commons. She has entrusted the Great Seal of the Kingdom to no less than nine Lord Chancellors, Twice she has escaped assassination. And she still lives a model mother, and the most illustrious lady who has ever graced a throne.

The united circulations of the MONTREAL WITNESS publications is by far larger than those of any other publishing house in Canada. They are as follows:—DAILY WITNESS, 13,300; WEEKLY WITNESS, 28,300; NORTHERN MESSENGER, 59,000; AURORE, 900—in all 101,500. Now, estimating the population of Canada at 4,500,000, and five souls to a family, there are 900,000 families in the Dominion, from which it will be seen that one of these WITNESS publications—if not two were taken in the same family—would be sent to one out of every nine families in the Dominion, including all races and religions, and, besides, leave a good fraction over to cover the foreign circulation. The publishers of the WITNESS are not satisfied with this wonderful success, and are endeavoring to increase the proportion of subscribers by some certainly very attractive inducements, which can be explained to those interested by every subscriber of the Montreal WEEKLY WITNESS or NORTHERN MESSENGER.

Probably the most remarkable picture of the age is "CHRIST LEAVING THE PRETORIUM," now on exhibition in the Dore Gallery, London, England. It was begun immediately before the opening of the Franco-Prussian war, and during the horrors of the seige and Commune was kept folded up and buried in a place of security, uninjured by shot and shell. For several years it has been on exhibition in London and has attracted universal attention, being considered the principal feature of the wonderful Dore Gallery. The canvas measures 40 feet by 30, on which are painted some one hundred and seventy distinct figures, the central one being Jesus leaving Pilate's Judgment Hall for the place of crucifixion. The scene as depicted by the renowned artist is one that can never be forgotten. The publishers of the Montreal WITNESS have had this picture faithfully reproduced for the benefit of their subscribers. Every subscriber to that paper who, in renewing his own subscription, sends that of another person not now a subscriber, is entitled to a copy of the picture, and the new subscriber gets one as well—each paying but $1.10, the usual price of this excellent paper. The picture is only supplied to subscribers to the WITNESS, who, if they do not get the second subscriber, may have the picture by sending 25 cents in addition to the ordinary subscription of $1.10.

☞ We notice that Mr. E. M. Shaw of Victoria Corner, C. Co., is to have a big sale of stock, crop, farming implements, &c., at his farm on the 28th inst.

☞ The man Thibeau, charged with the murder of Charlotte Hill near Annapolis, N. S., has just been tried, and found guilty of murder. The trial closed on Tuesday. He was sentenced to be hanged on the 8th of February, 1881.

☞ President Hayes in his last message to Congress asks that General Grant be appointed Captain-General of the United States army. To provide for Grant seems to be one of the chief anxieties of the Republican party.

☞ Griffith's valuation, which has been mentioned so frequently of late in the Irish despatches, as the basis which the tenants of lands were willing to accept, is the valuation of the land of Ireland made in 1825 by Sir Richard John Griffith.

THE NEWS AND THE PRESS.

SAINT JOHN, N. B., DECEMBER 10, 1880.

NEW BRUNSWICK.—The Petitcodiac, Lumber Company's mill, at Petitcodiac, has been sold to Mr. Daniel L. Trites, of Petitcodiac, for $11,000. The Spool Factory was brought by other parties for $6,000.... Five tons of smelts passed over the St. John & Maine Railway on Thursday.... We hear that for the first time in the history of the country, boards and deals manufactured on the Miramichi will be brought to St. John this winter by the Intercolonial Railway for shipment. They will be the product of the Fish mill at Newcastle, which is expected to run a good part of the winter. ....Owls are very thick this year in all parts of the province. Arctic owls were never more plentiful. Since the owl trapping season commenced this fall, Mr. Carnell has stuffed seventy-five birds of the species.... Moore & Co. are finishing their contract of 200 tons of spikes for the Grand Southern. Two tons and a half of spikes are required to the mile.... During the past year Messrs. F. S. Simms & Co., of this City, brush and broom manufacturers, used up one hundred tons of broom corn, which was made into 120,000 brooms.... It is stated that the New Brunswick Railway Co. have sold stumpage on their lands this winter to the extent of seventy million feet, equal to a revenue of $105,000, or about 5 per cent on their entire investment.... The sea cable, including the section between Grand Manan and Campobello, and from the Welch Pool to Eastport, will cover about nine miles, the cost of which is $1,500 per mile. The land wires cost about $100 per mile. It is expected that the cost of a cable despatch between Grand Manan and Eastport will be twenty-five cents. The land wires are not yet completed.... A schooner from Yarmouth was frozen in, in the last storm in Lower Bay du Vin with 400 barrels oysters, which were intended to be shipped to Halifax.... It is understood that Mr. G. S. Fisher is to erect a manufactory for roofing felt. As soon as plans can be perfected he is to commence operations.... It is said that the government have purchased the Woodstock Bridge for $5,000, the rails excepted, and will maintain it at the public expense. The proposed new bridge at Upper Woodstock will be erected immediately by the New Brunswick & Canada Railway Company and the New Brunswick Railway Company, the former bearing one-third and latter two-thirds of the expense.... The *Sun* say a valuable Manganese property in Albert County, from which several tons of manganese have been shipped at various times, is offered for sale. It was formerly owned principally by the Messrs. Steadman, Mr. John Murphy being now the principal owner.... F. A. Alger, Esq., President of the Lake George Antimony Co., left St. John for home on Saturday after nearly a fortnight's visit to our Province. Mr. Alger has made an excellent impression on our business men and has done much to create a warm New Brunswick interest in the success of the enterprise in which a number of Boston capitalists have invested their means. We hear that Mr. Alger, though a comparatively short time at the head of this promising enterprise, has his arrangements so far perfected that the service of a first-class mining engineer will be utilized immediately; an offer has been received from a leading smelting house in New York city to erect smelting works for the reduction of the Company's ore; and one of the first metal houses in New York stands ready to buy the entire refined product of the mine. It is understood that the Company can sell their antimony either in England or in the United States.... Mr. Walter McFarlane, of St. Mary's, is doing a large business in making haimes, turning out 250 a week. He has customers in Nova Scotia and Quebec, as well as New Brunswick.... The Moncton Refinery is now going into active operation, and it is said sugar will be placed on the market in a very short time.... Daniel Holland, jr., aged twenty, while drunk, went to his home on Erin street, Monday night and struck his mother. His father interfered and succeeded in putting his son out of the house. The young man soon returned and struck Holland, senr., a murderous blow on the head with a hatchet. He was arrested. ....The Bank of Nova Scotia has established a branch bank at Moncton.... Overseer Wyse made a seizure of 55 boxes of smelt at Newcastle on Wednesday last and holds them until proof of their legal catching is made.

NOVA SCOTIA.—The Central Board of Agriculture of Nova Scotia has imported a fine lot of short horns, comprising six yearling bulls, one young cow, and two heifers. They were selected by Mr. Thornton, the best judge of short horns in England. They came out in good condition and will be sold within a few months.... A proclamation of the *Royal Gazette* offers a reward of $100 for information leading to the conviction of parties who recently attempted to wreck trains on the Eastern Extension and Western Railways.... A few evenings ago a youth named Chapman, at Fort Lawrence, N. S., was passing the graveyard, when two or three young men, on mischief bent, covered with white sheets, ran out. The boy was terrified, has been since in a state of delirium, and it is feared his reason has fled.... And now Halifax is in trouble about water supply. The residents of South Brunswick, Albermarle and Grafton streets, have been without water for nearly a week.... The Nova Scotia Government is negotiating for the sale of the railways which have been built by the Province, some 341 miles in all, and efforts are making to induce capitalists to embark their money in the scheme. ....The steamship *Alhambra*, from Halifax for New York, took two live moose for Central Park. ....A terrible accident occurred near Morden Road Station, on the Windsor & Annapolis Railway, about 4 o'clock on Thursday afternoon, by which a young girl named Rutherford met with instant death. It appears that two sisters ran across the track, just as Conductor Clarke's Annapolis express train was approaching. One girl got across safely, but the younger one—ten years of age—turned to run back again, when she was struck by the cow-catcher, and thrown with great force against the post of the railway fence. The train was immediately brought to a standstill, but when Conductor Clark reached the body life was extinct. Death must have been instantaneous.... The Nova Scotia Forge Company and the Acadia Foundry at New Glasgow are employed in the manufacture of some heavy shafts and cranks, to be used in the Quebec Graving Dock... Over $70,000 were paid out last month in wages by the different coal and railway Companies in Pictou.... The coal shipments from the Port of Pictou, for the fortnight ending Nov 20th, amounted to 5,182 ton. Total to date from the four Companies, 248,858 tons.... A correspondent of the *Sun* writing from Bear River, N. S., says there are four vessels of varying sizes now building there, to be ready for launching next spring. The shipments of cordwood to the American market have been very extensive, about 7,000 cords being shipped already this season. About 6,000,000 feet of pine lumber has been shipped to the West Indies this year. A gold mine has been discovered about one and a half miles from the village. A prospecting license has been taken out and the result of the assay is said to have been highly satisfactory.... Extensive preparations are being made for the woods this season and the operation will be largely in excess of anything for years.... The receipts at the Halifax Custom House for the past month show an increase of $17,204.13 over the the same month last year. In the Inland Revenue department the increase is $7,713.... The Halifax County Agricultural Society on Monday resolved to request the City Council to make early application to the Dominion Government for holding the next Dominion Exhibition in Halifax.... It is stated that the gold mine at Cranberry Head, four miles from Yarmouth, N. S., in which a number of St. John gentlemen are interested, is in a fair way to prove a good paying investment. The crusher, which was until recently driven by water power some two miles from the mine, has been removed to the mine itself and is being driven by steam power, a 30 to 40 horse-power engine having been lately purchased from the Burrell-Johnson Co., of Yarmouth. The Company have not been at work over 3 or 4 months and in that time, at comparatively light expense, about $3,200 worth of gold has been realized. With inferior appliances for securing the gold the quartz has yielded $16 per ton. The latest improved apparatus under this head has now been procured and is probably at work by this time, which will ensure at least $20 worth of gold per ton.... It is reported at North Sydney that a small schooner belonging to Cape North was lost off Aspy Bay on the 22nd ult., and seven persons drowned.... A serious accident occurred on the Intercolonial R. R., at Hopewell, N. S., on Saturday while the express train was coming into the station. While Mr. Hector McLean was crossing the track with horse and wagon, the animal took fright and ran off, upsetting cart and all, and pinning the unfortunate man to the ground crushing one of his legs dreadfully, besides inflicting other injuries. Mr. McLean was highly respected and is one of the oldest magistrates in the County of Pictou.... A numerously signed petition was forwarded to the Governor General, praying to commute the sentence of Robert Smith, convicted of the murder of John Huey at Lunenburg, N. S., to imprisonment for life. Last week the Sheriff was informed that the Governor General had decided to allow the law to take its course. Smith will therefore be hanged in the jail yard on the 20th January next. It will be remembered that Smith shot Huey while in the former's field, supposed to be stealing apples.... On Friday a man from the country presented a cheque for $600 at one of the Halifax banks, which was duly paid. The paying teller discovered, when he made up his cash in the evening, that he was short $600. He thought the transactions of the day over and concluded that he must have paid it to the countryman who presented the $600 cheque. He sallied forth in search of the aforesaid countryman, but could not find him. He then called Sergt. Power, about 10.30, and gave a description of the man. In a short time the man was found, who stoutly denied receiving more money from the bank than the $600. His manner, however, was not that of an innocent man. After considerable parley and bluff his trunk was searched and the roll of bills was found concaled in a pair of socks innocently folded together.

IT REMOVES WRINKLES AND SOFTENS THE SKIN. The regular use of MURRAY & LANMAN'S FLORIDA WATER at the toilet tends to prevent and remove wrinkles, the softness of the skin produced by it taking away the natural inclination of the cuticle to form into ridges and furrows.

IN BRISTOL'S SARSAPARILLA we have the most potent and reliable of all purifiers and regulators, and in BRISTOL'S SUGAR-COATED VEGETABLE PILLS we have the best purgative and regulator of the bowels and liver that has, thus far, been discovered by the medical faculty.

ENGLISHMAN'S COUGH MIXTURE,

The great remedy for curing Coughs, Colds, Asthma, Hoarseness, Spitting of Blood, Bronchitis, Loss of Voice, Whooping Cough, Influenza, Soreness of the Throat, Chest and Lungs, and all other diseases leading to Consumption. It will not make new lungs, but will prevent the disease from spreading throughout the whole substance of the lungs, therefore facilitating recovery. Don't fail to try it. We will give a large reward for a better remedy than ENGLISHMAN'S COUGH MIXTURE.

RINGBONE CURED.

AUGUSTA, Me., March 8th, 1880 —*Dear Sirs*,—I have had occasion to use FELLOWS' LEEMING'S ESSENCE on a horse so lame from Ringbone that I could not use him. I have been using it about three weeks, and find it does all you claim for it, as the lameness has gone and the enlargement has almost disappeared. I firmly believe a few days more will make an entire cure. Respectfully yours, JAMES T. PARKER.

HORNER'S ANTI-BILIOUS PILLS.

SYMPTOMS OF A TORPID LIVER.—Loss of Appetite, Nausea, bowels costive, Pain in the Head, with a dull sensation in the back part, Pain under the shoulder-blade, fulness after eating, with a disinclination to exertion of the body or mind, Irritability of temper, Low spirits, Loss of memory, with a feeling of having neglected some duty, Weariness, Dizziness, Fluttering at the Heart, Dots before the eyes, Yellow Skin, Headache, Restlessness at night, highly colored Urine.

If these warnings are unheeded, serious diseases will soon be developed.

Horner's Pills are especially adapted to such cases, one dose effects such a change of feeling as to astonish the sufferer.

apr. 15—1yr.

IMPORTANT TO EVERYBODY.—Everybody wishes most certainly to be well. How to obtain that desirable state and keep free from coughs and colds, the forerunners of consumption, was a disputed question prior to the introduction of Dr. Wilson's Pulmonary Cherry Balsam. No one need hesitate to take this balsam to banish his cough. It will cause an expectoration of any matter which may have entered into the lungs, and thereby, by casting out such noxious matter, prevent the formation of any tuberculous deposit. It acts so gently and is so pleasant to take, properties peculiar to itself which preclude it from being unsuited for any constitution, or proving hurtful under any circumstance.

The world wide renown of Dr. Wilson's Family Anti-bilious Pills is too well known to require much comment from us; but they are without doubt the most efficacious remedy for all the ills flesh is heir to. Many of our readers have derived immense benefit from using these pills in case of bile and general derangement of the stomach and bowels, and no disordered liver can resist their effect.

We do not know how Dr. Dow came to hit upon so successful a combination of healing ingredients as is contained in his Sturgeon Oil Liniment. Its success has been very great, and it is seldom so many cure-all virtues are contained in any one article.

ENGLISH AND FOREIGN.

DUBLIN, Dec. 2.—Dr. Mayers has been elected Lord Mayor of this city for 1881.

DUBLIN, Dec. 3.—The reign of terror is spreading. The government has resolved to prosecute Gayeer, the proprietor of the Sligo *Champion*, for alleged treasonable utterances in connexion with the existing state of the country, and for its defence of atrocities of the Land League. Upwards of £3,000 have already been subscribed for the defence of the traversers.

The rumor that several magistrates intend to resign is confirmed.

Boycott's farm is a complete wreck.

LONDON, Dec. 3.—There is reason to believe that orders have been sent to the Viceroy of India for the evacuation of Candahar, to commence as soon as the weather permits.

A Shanghai despatch states that a second treaty with China provides that Americans shall not import opium, or carry the product coastwise, or sell it.

The correspondent of the *News* at St. Petersburg understands that the programme of the new Finance Minister comprises several reductions in the army and navy expenditures in time of peace.

Advices from Buenos Ayres, say that the Government is trying to start a British colony on Rio Negro. President Roca offers a grant of land free for 50,000 Irish immigrants.

LONDON, Dec. 4.—The Earl of Dufferin is to be transferred from St. Petersburg to the British Embassy at Constantinople, in place of Mr. Goschen. Sir Edward Thornton, now minister at Washington, will be raised to the rank of an ambassador and sent to succeed the Earl of Dufferin at St. Petersburg. The post vacated by Sir Edward Thornton will be filled by the promotion of Francis Clare Ford, Esq., formerly Secretary of the Legation at Washington, who succeeded the late Mr. G. Buckley Matthew, in June, 1870, as British Minister at Rio Janeiro.

Mass-meetings were held in various parts of Ireland, yesterday, for organizing land leagues, many landlords accepting Griffith's valuation. Several Roscommon and Tipperary landlords are giving in and accepting the government valuation.

Cable specials state that the Lord Chancellor has in hand a land bill, intended to enable English tenants, occupying farms, to convert their terminable tenures into perpetual tenure on certain conditions, and subject to a modified rent.

ATHENS, Dec. 6.—The deficit in the budget will be covered by loans. The army is to be raised to 80,000 men.

PARIS, Dec. 6.—The Panama Canal subscription is more than covered already.

LONDON, Dec. 6.—The *Daily News* prints the following: "We are authorized to state that all the powers having agreed to the proposal of England that the international fleet should separate after mutually communicating their respective destinations, Vice Admiral Seymour has ordered the signal to part company."

LONDON, Dec. 8.—At the Omagh assizes to-day a farmer was sentenced to 20 years penal servitude for firing at his landlord.

A bailiff has been shot dead near Cookstown, County Tyrone, while attempting to execute a decree. The man against whom the decree was issued, and who fired the shot, has escaped.

UNITED STATES.

NEW YORK, Dec. 3.—The prevalence of small-pox in the city has a ttracted the attention of the health board, and the public are advised to vaccinate. Diphtheria is unquestionably in all parts of the city also.

It is stated $100,000 have been raised by a few friends, including Democrats and Republicans, in Philadelphia, for Gen. Grant, which will be presented to him in a few days.

NEW YORK, Dec. 4.—About $6,000,000 of gold is expected at New York from Europe during the coming week.

The Boston banks and Bank of Montreal are reported to have loaned $5,000,000 here the past few days.

The United States Treasury has already $1,000,000 worth of sixes of 1880, and it is authoritatively stated that two millions additional are on the way from the East and West for conversion into money.

PORTSMOUTH, N. H., Dec. 4.—While an employe on the fifth story of the Kearsage mill was cleaning piping with a piece of waste, at 6 o'clock, A. M., the gas jet ignited the waste, and the fire instantly ran along the oily surface of the room, the occupants being scorched in escaping, and one being burned to death. The building was destroyed. Loss half a million; insured. Several other buildings ignited by sparks, but were saved without much damage, except the Baptist Church, which was injured to the extent of $2,000; insured.

WASHINGTON, Dec. 6.—Congress opened to-day. The President's annual message was read and opens with congratulations on the nation's prosperity. It urges upon Congress the adoption of a thorough civil service reform and particularly adverts to the unreasonableness of assessing public servants for political purposes; calls for prompt and decided measures regarding the Mormon question recommends the organization of the Territory of Utah. Our relations with foreign countries are peaceful. Regarding the Fortune Bay Claim, the President says within a few weeks he has received a communication from Her Majesty's Government renewing the consideration of the subject, both of the indemnity for the injuries at Fortune Bay and of the interpretation of the treaty in which the previous correspondence had shown the two Governments to be at variance upon both those topics. The disposition toward a friendly agreement is manifested by a recognition of our right to an indemnity for transactions at Fortune Bay. Financial affairs are regarded by the President as in a satisfactory condition. The President asks Congress to pass an Act authorizing the appointment of Gen. Grant as Captain-General of the army, the rank to be legally provided, and thinks such an act would receive the country's approval.

Secretary Sherman, in his report, recommends that the further compulsory coinage of silver dollars be suspended.

NEW YORK, Dec. 8.—The American subscriptions to DeLesseps' Panama Canal project thus far amount to $6,300,000. The subscriptions to-morrow are expected to exceed either day.

BOSTON, Dec. 8.—An explosion in a portable engine owned by Marble & Clark, at Wendell Centre, to-day, smashed the adjoining building. Seven persons were killed, including both proprietors.

A LOSS THAT CAN BE REPAIRED.—It is a well ascertained fact, proven in numberless instances, that the weak and nervous can repair the loss of vitality which they have experienced with Northrop & Lyman's Quinine Wine, a medicine specially adapted to invigorate those in delicate health, overcome dyspepsia and fortify the system against disease. It has a high reputation also as a remedy for bilious, remittent and intermittent fever. A pleasant taste is another of its recommendations,—Sherry Wine, of the first quality and other ingredients of an aromatic nature, being mingled with the renowned drug from which it takes its name. It contains nothing of a deleterious nature, acts with promptitude—one or two bottles generally producing the desired effect and stands pre-eminent among articles of its class. It healthfully stimulates the appetite, induces sound repose promotes a regular habit of body, banishes every trace of indigestion and relieves the feeling of depression, with which nervous and dyspeptic persons are usually troubled, in addition to the purely physical symptoms which harass them. It should be borne in mind that when it is used to remedy fever and ague and bilious remittent fever, the doses should be taken in the periodic absence of the fever. The statements made here in regard to the medical properties of the Quinine Wine are not random allegations, but facts which close observations of its effects for years past fully verify. Of course it will not cure diseases to which it is not specially adapted, but that it is a medicine of surpassing efficacy in the particular line we have indidated is beyond all reasonable doubt. A wine glass full three or four times a day, about half an hour before meals, is the usual dose. Purchase only the Quinine Wine prepared by Northrop & Lyman, Toronto. Sold by druggists everywhere.

Over 2000 Druggists have voluntarily offered their Signatures to the following which can be seen at our office.

Messrs. Seabury & Johnson, Pharmaceutical Chemists.

"For the past few years we have sold various brands of Porous Plasters. PHYSICIANS and the PUBLIC prefer "BENSON'S CAPCINE POROUS PLASTER" to all others.

We consider them one of the very few reliable household remedies worthy of confidence. They are superior to all other Porous Plasters or medicines for external use." PRICE, 25 CENTS. dec.3—1m

VEGETINE.

ALL SPEAK IN ITS FAVOR.

BROCKVILLE, ONT., March 23, 1880.

Dear Sir—I have sold your VEGETINE since it was first introduced into Canada, and most cheerfully recommend it to all who are in want of a blood purifier, and believe it to be just what it is advertised to be—a purely vegetable compound. My customers all speak in its favor. My sales are steadily increasing. I have sold many articles of the same description, but VEGETINE gives the most universal satisfaction.

Vegetine

Cures Dyspepsia Liver Complaint.

OTTAWA, ONT., March 4, 1880.

MR. H. R. STEVENS:

Dear Sir—Having used the VEGETINE myself, I have much pleasure in recommending it to any afflicted as I was with *Dyspepsia* or *Liver Complaint*. I have not had a day's sickness since taking it nearly two years ago.

Vegetine.

It Has no Equal.

OTTAWA, ONT., March 3, 1880.

MR. H. R. STEVENS:

Dear Sir—This is to certify that the undersigned has sold the VEGETINE for the past seven years with the happiest results. For skin diseases and a blood purifier it has no equal. HENRY F. MACCARTHY,
(Medical Hall) Wellington Street.

Vegetine

THE BEST I HAVE USED.

BOWMANVILLE, ONT., Oct. 4, 1879.

MR. H. R. STEVENS:

Dear Sir—I have used your VEGETINE, and have derived great benefit therefrom. As an alterative and diuretic, I have found it good. During the past twenty years I have taken a great many kinds of *Patent Medicines* and consider the VEGETINE the best I have ever used.

Yours, &c., G. S. CLIMIE.

Vegetine

Good for the Aged.

WILL YOU READ THIS?

CLIFTON, ONT., Jan. 16, 1881.

H. R. STEVENS:

Dear Sir—I advise you of the good results of your VEGETINE. My wife's father, now nearly eighty-five years old, was attacked with *Erysipelas* in its worst form. His head and face was swollen so that he was blind, and one of his limbs were badly swollen and discolored, and broke out in several places and discharged. His physician said there was no remedy that could cure him, as he was such an old man. To gratify a son-in-law, he was persuaded to take your VEGETINE. Seven bottles cured him and he is now a healthy old man.

Last spring I was troubled with a disordered stomach, with a sallow skin, want of appetite, cold extremities and headache. Satisfied that this condition of things arose from poverty of the blood, I took two bottles of VEGETINE; it cured me, and I am satisfied it is the best tonic and blood purifier in the market, and am only two happy to make known these facts to the world.

Yours very truly, A. MENSIE.
