THE NEWS AND THE PRESS.

SAINT JOHN, N. B., NOVEMBER 12, 1880.

NEW BRUNSWICK.—Melick, the St. John forger, at the Dorchester penitentiary, spent two days of last week in a dungeon for making a remark about a keeper's wife....The returns from the Fredericton Police Magistrate for the year ending 31st October, were $905.55 being an increase of $285.97 over last year....The *News* says, the iron mines at Jacksonville have started in full activity. Large quantities of ore are being blasted daily to be hauled to the works at Upper Woodstock as soon as snow flies ...Mr. Alexander Gibson (says the *Capital*) has purchased from Hon. Mr. Beckwith all his interest in the Gibson Tannery, for the sum of $19,500. Mr. P. A. Logan is to represent the stock and be Secretary-treasurer of the Company, at a salary of $1,000. Mr. McCausland will continue manager. Mr. Gibson also lends the company $10,000, taking a mortgage on the building as security....Work is being performed on the Fredericton Post Office building with a view to having it in condition for occupation about New Year..... A convict named Goodine, who had been ill and had been granted rather more freedom on that account, is missing from the Dorchester Penitentiary. *He* was sentenced for horse stealing at Caraquet for seven years and had served seven months.... *The Capital* states that the new railway and highway bridge across the St. John, at Woodstock, will be built next summer, about a mile above the present bridge. It is estimated to cost $15,000, using the superstructure of the present bridge. The Government, the New Brunswick Railway and the New Brunswick & Canada Railway are each to bear a proportionate share. It is also probable that a change will be made in the line of the New Brunswick Railway, so as to obviate the necessity of a branch line to Woodstock....The Savings Bank statement at Moncton for the month of October, is as follows :—

Deposited	$8,402
Withdrawn	9,419
Transferred to 5 per cent stock	3,000

The issue of 5 per cent. bonds ceased with the close of October, and to this fact is due the large transfers to stock during the month....The Moosepath Rolling Mills as well as the Coldbrook Nail Works, are again in running order. The Rolling mills are making nail plates only for the Nail Works. ....The Queens Manganese Mining Company intend more fully prosecuting their works. A great deal of costly machinery, including steam engines and other apparatus, have been put in use. The last piece which arrived here is a drill for perforating the earth. It cost nearly $1,000....Mr. Jesse Matthews, of Fredericton, takes the place of P. A. Logan, resigned, in the position of Mechanical Superintendent of the New Brunswick Railway. ....Last week a school house, in Brymer's district, Tobique was maliciously burned by some miscreants who, if descovered, will be prosecuted to the full extent of the law. The building was insured for $200 in the Canada Fire and Marine....The *News* says, the proprietors of three city hotels were questioned by a reporter as to the amount of business done this year compared with that of last. One reported an increase of thirty per cent., one of twenty per cent., and the third twenty per cent....Timothy Murphy, of Waterford, K. C., died in the woods near his dwelling on the 27th. He had been at the Municipal election the day before, and drank a great deal, but when found, a bottle which had contained poison was near him....Arrangements are prefacing for a conference of the butchers and stock dealers of the city with the Board of Trade in regard to a monthly steamer between this port and a port in England for the accommodation of the cattle trade. The date has not yet been decided upon....The Suspension Bridge road is undergoing extensive repairs. The hills are being cut down and the hollows filled in. When the repairs are completed the road will be quite level, and a drive over it much more pleasant than previously.... The *News* says a few days since a lone woman, Mrs. Catherine Kennedy, who had no relatives in this country, died at Williamstown, Carleton Co., leaving $1,800 in money and considerable property for the use of an heir, when one shall be found. She left no will and no one as yet has been found to claim the legacy. The money is now in the Dominion Bank at Woodstock....Mr. Oscar Hanson, of Lepreaux, made application to Judge Palmer in the Equity Court on Friday afternoon, the *News* says, for an order to wind up the affairs of the New Brunswick Anthracite Coal Company, alleging that it is insolvent, that it owes him $1,100 for more than a year, and has not yet paid him; that it has been inoperative for more than a year, etc., etc. On Saturday morning, an affidavit was filed on behalf of the Conpany that it is not bankrupt; that the account of Mr. Hanson is in dispute; that the Company has mining properties, etc., valued at over $400,000, and that operations in the works are simply suspended until spring. His Honor decided to hear testimony in the case on Wednesday next. Mr. J. Gordon Forbes is counsel for the petitioner; Mr. E. McLeod represents the Company....The medal of the British Royal Humane Society, procured by Mr. W. F. Best, was presented to Tom Sloven on Saturday afternoon....The *Sun* says on Saturday, a man named Joseph Kinnear, aged 68, belonging to Anagance Station, on the Intercolonial Railway, King's County, was brought to this city, to be taken to the Provincial Lunatic Asylum. His case was a sad one. Mr. Kinnear has been in business for some time past in Machias, Me. When he went there he was worth $11,600 but he sank it all in business, and it is thought that the loss of his money has turned his mind. He was recently brought home by his brother, but he was found to be too violent to be allowed to go at large. He once attempted to set his brother's house on fire, and would frequently throw himself violently down on the floor and lay there until some one picked him up, although perfectly able to rise himself. Coming down in the train he threw one of his boots out of the window of the car and the remaining boot and his hat had to be taken from him for fear he would serve them in a like manner....Monday morning, says the *Sun*, Police Magistrate of Portland held a preliminary examination into the case of policeman William Malone, of the Portland force, charged with shooting John McFarlane on the 2nd inst. It was held in the County Jail, and John F. Godard was clerk. G. R. Pugsley, Esq., appeared for the crown and John Kerr, Esq., for the prisoner. James Clark, the informant, was the first witness examined, his testimony being the same as on the inquest. Mrs. James Walsh, Dr. Harrison, Capt., Rawlings and James Cleary also gave the same evidence. Edward Walsh, a new evidence, was examined, He said :—I was down on the beach at work near Barnhill's mill on Tuesday afternoon. I heard two shots fired up on the road. I went up to see what it was, and going up I saw John McFarlane coming towards me running. Malone followed, turning the corner of Richard Walsh's house. He slipped on the grass as he was coming and fell, and as he rose, he raised his hand and fired. McFarlane let a curse out of him as he fell back and his hat fell off. Malone then came up and shook McFarlane, and asked a young fellow to go and get some water. I remarked, "The chap is dead; it is no use to get water; and for all Portland I would not have that on my shoulders." Malone said he was sorry for it. Before I saw the prisoner running I heard some one shouting "stop him," and I supposed it was Malone calling to anybody to stop McFarlane. —Cross-examined by Mr. Kerr—My recollection was that Malone said he did not do it intentionally. I am almost sure that Malone said so, but I was excited at the time and would not swear positively. The evidence was read over to the prisoner and Mr. Tapley committed him for trial at the Circuit Court which sits on the 16th inst. Yesterday morning Coroner Rigby was served with an order granted by Judge Palmer admitting the prisoner to bail in $8,000; himself in $4,000 and two securities of $2,000 each. Bail will not be offered. ....On the same day in the City Police Court, Police Magistrate McAvity began an investigation into the case of Pieter Haentjes, charged with stabbing James Haddon. Charles Nelson, steward of the bark *Hollenside*, on board of which the cutting took place, said he was in the galley on Friday last at 12.30 and heard high words in the port forecastle between Pieter and Haddon. Pieter was then lying on the floor with his arm over his face as if to guard it, and Haddon had his foot raised as if to kick. After some talk Pieter got up and they grappled. Haddon then cried out, "Take the knife away from him, steward, I am stabbed." Pieter had a knife in his hand and his arm raised in the air. Witness took the knife.—Patrick Haggerty said on Friday at noon Haddon was starting a fire, and said to Pieter, "We'll have that stove of yours over to-night." Pieter—"No, you won't." Haddon—"Who will stop me!" Pieter—"I will." Haddon—"If my fingers were better you would not." Pieter—"Come on deck." And they both went out. Some time after Haddon cried out, "Paddy, I am stabbed."—Francis Fox, second mate, identified the knife, and said he often heard Haddon say he would take Pieter's stove. Pieter was a peaceful man. The examination was postponed a week pending Haddon's condition.

NOVA SCOTIA.—Robert McKean, recently an employe of the Western Express Co., at Halifax, has been arrested for embezzling about $200 belonging to the Company. A man named Vaughan has been arrested as an accessory.....Mr. James Foster, of Dartmouth, and those associated with him, have sold, through Mr. James Brady, Mining Engineer, of Montreal, a three-quarter interest of their gold property on Moose River, comprising about 28 acres, containing 16 gold-bearing quartz lodes, to Mr. Comstock and others of New York, for $30,000. The purchasers are to work the mines at their own expense and, in addition to the purchase money, are to pay those from whom they have bought the property one-fourth of the profits. Mr. Brady is now here engaged, under the direction of the new owners, in putting the property in order and work will be commenced at once and be vigorously pushed....Following are the full particulars of the loss of the barque *County of Richmond* and the drowning of seven of the nine men composing the crew, as related by her mate, Roderick Macdonald, brother of the unfortunate captain. He states that the *County of Richmond*, Captain James R. Macdonald left New York, Oct. 3rd, loaded with 602 tons of coal for St. Thomas. On the 12th of Oct., the vessel sprung a leak during the heavy weather and also lost her rudder. On the 14th, about 7 o'clock, the cargo shifted on account of the heavy seas. At 8 A. M. of the 15th, the vessel foundered in lat. 31.04 west, lon. 66.37 west. Only two of the crew were saved. The mate, Roderick Macdonald, and Henry Lang, seaman, were saved by building a raft, and after six day's floating around without food or water they were picked up by the Austrian barque *Leandro*, Capt., Gladulich. Great praise is due Capt., Gladulich and his crew for the dangers they risked in rescuing the shipwrecked men and for the care they took of them when rescued. The crew of the *County of Richmond* consisted of nine men, composed of the captain, James R. Macdonald, his brother, the mate, Roderick, and Lang and six others whose names could not be ascertained, as they shipped in New York. The *Richmond* was owned by Messrs. I. & E. Kenney of Halifax. Capt. Macdonald was about twenty-seven years of age, his brother Roderick, about twenty-four, and both belonged to Prince Edward Island. Lang is about twenty-seven years old. Roderick Macdonald was sent by the British consul to the city hospital.

WINTERLY DRAWBACKS.—Cold and damp winds are noted for producing great disturbance in the circulation, whence proceed bronchitis, asthma, and Pulmonary disorders, generally resulting from our variable temperature. A chill, cold, or cough should have instant attention, before serious consequences spring from neglect. All may use with perfect confidence, Dr. Wilson's Pulmonary Cherry Balsam, with the certainty of curing their ailments, and adverting all future danger. This Balsam will soothe your irritable membranes, and give indescribable relief from that torturing cough. If taken at bedtime it will give sound, unbroken, and refreshing rest.

The quickest and surest remedy for subduing pains, taking soreness out of harness galls, sore shoulder, is Dr. Dow's Sturgeon Oil Liniment. If you want to relieve the pain successfully you must use the doctor's preparation.

Mr. A. T. Cook, Richmond, N. S., writes that he has been troubled with costiveness for five or six years which caused him a great deal of suffering. Dr. Wilson's Anti-bilious and Preserving Pills have cured him, and he is now as regular as ever he was in his life. He is anxious our readers should know there is such a remedy.

THE PERFUME OF AN HEMISPHERE.—Throughout an area occupied by more than one hundred millions of civilized beings, MURRAY & LANMAN'S FLORIDA WATER is to-day the standard perfume in society.

THE GREAT BLOOD PURIFIERS.—Bristol's Sarsaparilla and Bristol's Sugar Coated Pills are a sure remedy for every form of Scrofula. Hundreds of cases that seemed beyond hope have been permanently and completely cured by them.

ENGLISHMAN'S COUGH MIXTURE,

The great remedy for curing Coughs, Colds, Asthma, Hoarseness, Spitting of Blood, Bronchitis, Loss of Voice, Whooping Cough, Influenza, Soreness of the Throat, Chest and Lungs, and all other diseases leading to Consumption. It will not make new lungs, but will prevent the disease from spreading throughout the whole substance of the lungs, therefore facilitating recovery. Don't fail to try it. We will give a large reward for a better remedy than ENGLISHMAN'S COUGH MIXTURE.

RINGBONE CURED.

AUGUSTA, Me., March 8th, 1880 —*Dear Sirs*,—I have had occasion to use FELLOWS' LEEMING'S ESSENCE on a horse so lame from Ringbone that I could not use him. I have been using is about three weeks, and find it does all you claim for it, as the lameness has gone and the enlargement has almost disappeared. I firmly believe a few days more will make an entire cure. Respectfully yours, JAMES T. PARKER.

HORNER'S ANTI-BILIOUS PILLS.

SYMPTOMS OF A TORPID LIVER.—Loss of Appetite, Nausea, bowels costive, Pain in the Head, with a dull sensation in the back part, Pain under the shoulder-blade, fulness after eating, with a disinclination to exertion of the body or mind, Irritability of temper, Low spirits, Loss of memory, with a feeling of having neglected some duty, Weariness, Dizziness, Fluttering at the Heart, Dots before the eyes, Yellow Skin, Headache, Restlessness at night, highly colored Urine.

If these warnings are unheeded, serious diseases will soon be developed.

Horner's Pills are especially adapted to such cases, one dose, effects such a change of feeling as to astonish the sufferer.

ENGLISH AND FOREIGN.

DUBLIN, Nov. 5.—The State prosecutions against the indicted members of the Land League commenced at 12 o'clock this morning when the counsel for the Crown applied for an adjournment until January.

LONDON, Nov. 5.—A correspondent at Berlin says that the health of the Czar is reported very unsatisfactory.

The *Standard's* announcement that the channel squadron has been ordered to the west coast of Ireland is believed to be true. Instead of the Government sending ironclads to overawe the people shot behind the walls, the public would be better pleased with an increase of troops.

The Cabinet is considered much too placid. Sir Stafford Northcote has offered the assurance of his party for the maintenance of order.

PARIS, Nov. 6.—The tragic comedy of the execution of the decrees against non-authorized religious bodies is fast drawing to a close. Yesterday the Dominican Capuchins, Morists, Oblats and a number of other Monastery orders in Paris were expelled. By this evening all will probably be finished except in Corsica and Algoa. The resistance of the Monks was fully as melodramatic here as in the provinces, but fortunately no blood was shed as at Lyons and Nantes. The ejectment of non-authorized religious bodies took place to-day at Little Roubaix, Valleneiennes, Alby and Pau. Five persons were arrested in Paris.

ATHENS, Nov. 6.—The Minister of Finance has asked for an extraordinary credit of 36,000,000 drachms for the War Ministry.

CAPETOWN, Nov. 6.—On October 31st, the mountain stronghold of the Basuto Chief Moletsan, was successfully stormed by Colonel Clark's forces. During the operation 5,000 Basutos attacked the Colonial detachments, holding Chief Lerothodis' village, and before reinforcements could arrive a small body of them were surrounded on all sides and five were killed. The enemy advanced in great numbers, compelling the colonials to retreat in an orderly manner and relinquish their positions. The Tembu are now in open rebellion, and reinforcements are being sent to all important points.

YOKAHAMA, Oct. 17., via London, Nov. 6.—The American steamer *Courcier*, which arrived at Hakodadi from North on the 12th October, reports the arrival at Petropaulorska, of a steam whaler, which announced that according to information received from the natives, some whalers had been lost, with their hands, the vessels having been crushed in the ice.

Reports continue to be received from various parts of the empire of the disastrous results of the recent typhoon. In Tokio alone over 1,000 houses were totally demolished. The lives of hundreds of fishermen were lost in the bay.

UNITED STATES.

NEW YORK, Nov. 4.—The returns show the following results: House of Representatives.—Republicans, 146; Democrats, 141; Greenbackers 6. Senate: Democrats, 39; Republicans, 37.

At the National Democratic headquarters it is stated that charges of fraud in the election in this city are being framed. The headquarters of the Republican National Committee in this city is closed, and no address to the people will be sent out by the committee.

The Democratic State Executive Committee has adopted resolutions alleging extensive frauds in the vote in New York city and requesting the county commissioners to ascertain and report on its extent. They allege the increase in the Republican vote in New York city and Kings County is due to fraud, and demand an immediate investigation on the part of the respective Democratic organizations of the country.

SAN FRANCISCO, Nov. 4.—The supreme court, today, denied writs of *certiorari* and *habeas corpus* in case of Rev. J. M. Kalloch, son of the mayor of San Francisco, charged with the murder of Charles DeYoung, editor of San Francisco *Chronicle*, last spring. The case now goes back to the lower court for decision on its merits.

NEW YORK, Nov. 5.—The barque *W. A. Holcomb*, of Bath, Me., is a total loss at Jones' Inlet near Far Rockaway, with a cargo of sugar. The latter is valued at $150,000. The wreck is buried in the sand and going to pieces.

PROVIDENCE, Nov. 6—The steamer *Rhode Island*, of the Providence Line, went ashore on the Bonnet Point near Beaver Tail, Narraganasett Bay, at 4.30 A. M. to-day. No passengers were lost, but several of the crew were hurt in the confusion and wreck age and at daylight the passengers and crew were safely landed. The steamer is considerably broken up, and there will probably be considerable damage and loss of freight.

BATESVILLE, O., Nov. 8.—A horrible tragedy became known here yesterday morning. Frank M. Biedenbourgh, a wealthy young German who, three years ago, married a daughter of a neighboring farmer, came home late on Saturday night intoxicated, and entering the room where his wife and child slept, assaulted them with an axe. His wife's skull was crushed by a single blow and then his son's throat was cut by the edge of the axe. He then went to the room where Mrs. Stephens, a visitor, and her child and servant were sleeping, and killed Mrs. Stephens and her child. The servant girl awakened, sprang toward the door, but was knocked senseless and left for dead. Recovering consciousness she gave the alarm and the neighbors came. It was not until morning that the murderer was found in a tobacco house with his throat cut, but not fatally.

CINCINNATI, O., Nov. 8.—Later.—It is now ascertained that Biedenbourgh murdered his wife in the pasture on Saturday night. He was able to tell this when found. The girl, who was the daughter of Mrs. Stephens, also murdered, is said to be fatally injured. The general impression is that Biedenbourgh, was insane.

Intelligencer for 1881

IMPORTANT ANNOUNCEMENTS!

This is the season when publishers generally make their announcements, promises, calls, &c. We fall into line, not that we may be in the fashion, but because we have some things to say—things of considerable importance to ourselves, and which we trust our readers will regard as important to them as well.

THE PAST.

In a few weeks the INTELLIGENCER will complete its twenty-eighth year. Of what it has been and done we need say nothing. Its record is before its readers. It is for them—not us—to pass judgment on it. That so many have expressed themselves satisfied with its course is highly gratifying to us. Their testimony that it has not lived and labored in vain causes us to feel devoutly thankful to God, by whose blessing it has continued on its mission all these years.

THE FUTURE.

Approaching another year we have no high-sounding promises to make. The aim of the paper shall be as in the past—to do good.

The usual variety of matter will be kept up; the same carefulness in excluding everything questionable will be exercised; the same frank expression of opinions on questions of public interest will be continued; the same advocacy of things good for society, and condemnation of things that threaten the public weal will be maintained; on questions of moral reform, especially on the temperance question it will give no uncertain sound; in a word it will continue to be a paper worthy of being received into any home, and aiming to do good to every one who may read it. Giving more attention to secular news than is generally given in religious papers, it will be especially to those families that can take but one paper, giving them a large amount of religious reading and at the same time a synopsis of the news from all quarters.

It will not fall below its present standard, and whatever can be done to make it more acceptable and profitable will be done.

ADVANCE PAYMENT.

Though the INTELLIGENCER'S terms have been "payment in advance," it, like many other papers, has in too many cases departed from the rule, much to its own injury and loss. The departure from the rule has frequently been by request of subscribers, and always because of a belief in the honesty of the subscribers and their ability to pay. Our experience, however, like that of publishers generally, has demonstrated the fact that it is a grave mistake from a business stand-point to make the slightest departure in any case from the rule requiring advance payment. Subscribers, being permitted to delay their payments, very easily and without any wrong intention, neglect their duty from month to month and then from year to year, till before they are aware of it a large bill has been run up—a bill so large that its payment is not so easy for them, and the non-payment of which puts on the publisher a burden hard to be borne. Pre-payment is better not only for the publisher, but it is better for the subscriber also.

After a careful examination and consideration of the whole matter we have arrived at the conclusion that, beginning with the new year, we must require STRICT COMPLIANCE WITH THE RULE OF PAYMENT IN ADVANCE.

We think our subscribers will see the wisdom of our present purpose, and give us their prompt and hearty assistance in carrying it out. We are confidently depending on them to do so.

ARREARS.

In order to carry out the advance payment rule the first thing necessary is the payment of all arrears now due. An examination of our books shows a very large amount due us. That those subscribers who are in debt may know just how they stand on the books we begin this week to send out bills. For these missives we ask a kindly reception, and to them we expect a prompt response.

Business generally has so improved during the present year that there is a much freer circulation of money than for three or four years before, and we think our friends, on whom we have waited so long and so patiently, will not find it very difficult to *pay now*. They cannot fail to see that it is much easier for each one to pay the small amount he owes than for us to bear the heavy burden caused by the non-payment of so many. Regard for the golden rule will move each one to resolve to immediately pay his bill. *We shall expect to hear from every one in arrears not later than the close of this month.* LET NO ONE BE SO UNKIND AS TO NEGLECT THIS MATTER.

NEW SUBSCRIBERS,

There are many hundreds of families in these Provinces, not now visited by the INTELLIGENCER, that ought to be subscribers. We refer especially to Free Baptist families. This paper is the organ of the denomination to which they belong. It publishes the news of the churches and the denomination's work generally, which they need to be acquainted with. It is set for the advocacy and defence of the principles they hold. It is in every way especially adapted to their wants. Into every Free Baptist family in the Provinces it ought to go. They need it; and it needs them.

While every friend of the paper may do something toward increasing its circulation, it is plain that the ministers of the denomination can do more in this direction than any others. They have opportunities that no others have. We should like them to make the effort. To make the work of canvassing easier, we make the following offer:

New Subscribers will receive the paper from the time of sending the subscription ($2.00), till the end of 1881.

By this offer, new subscribers will get the paper *the balance of this year* FREE.

We hope the ministers and other friends taking advantage of this offer, will send us many new names.

Begin the work at once, and push it vigorously the remainder of the year.

THINGS TO REMEMBER.

To avoid misunderstandings we beg to remind those receiving bills, that all the bills are made out *to the end of the present year*, i. e. to *December 31st, 1880*.

If in any account there should be an error, the subscriber should write us at once stating the facts carefully, so that we may readily understand the case and make the correction, if any should be made.

Every subscriber, in sending his subscription should give his correct Post Office address. He should never assume that the editor or mailing clerk will know the P. O. Address simply by seeing the subscriber's name.

CONCLUSION.

It is, perhaps, not necessary for us to say that the work of carrying on a religious paper—its business and editorial management combined—is not a light undertaking; nor that so far as we have knowledge, such work in these Provinces has never yet been financially profitable. The conductor of a religious journal naturally looks for sympathy and active co-operation of the great body of his readers. Such sympathy and co-operation we desire. While we labour to give our readers a paper that will do them good, we solicit in return their help in prayers, prompt payments, and efforts to increase the paper's circulation. For all that has been done in these ways—and there has been much—we heartily thank our friends. We hope we are not taxing them over heavily in asking the continuance of their active interest. We would have the INTELLIGENCER enter upon the next year in every way better prepared for its work than ever before. The co-operation of its friends in the ways suggested will enable it to do so.

A LOSS THAT CAN BE REPAIRED. — It is a well ascertained fact, proven in numberless instances, that the weak and nervous can repair the loss of vitality which they have experienced with Northrop & Lyman's Quinine Wine, a medicine specially adapted to invigorate those in delicate health, overcome dyspepsia and fortify the system against disease. It has a high reputation also as a remedy for bilious, remittent and intermittent fever. A pleasant taste is another of its recommendations,—Sherry Wine, of the first quality and other ingredients of an aromatic nature, being mingled with the renowned drug from which it takes its name. It contains nothing of a deleterious nature, acts with promptitude—one or two bottles generally producing the desired effect and stands pre-eminent among articles of its class. It healthfully stimulates the appetite, induces sound repose promotes a regular habit of body, banishes every trace of indigestion and relieves the feeling of depression, with which nervous and dyspeptic persons are usually troubled, in addition to the purely physical symptoms which harass them. It should be borne in mind that it is used to remedy fever and ague and bilious remittent fever, the doses should be taken in the periodic absence of the fever. The statements made here in regard to the medical properties of the Quinine Wine are not random allegations, but facts which close observations of its effects for years past fully verify. Of course it will not cure diseases to which it is not specially adapted, but that it is a medicine of surpassing efficacy in the particular line we have indicated is beyond all reasonable doubt. A wine glass full three or four times a day, about half an hour before meals, is the usual dose. Purchase only the Quinine Wine prepared by Northrop & Lyman, Toronto. Sold by druggists everywhere.

BEWARE OF FRAUD.

To protect the public against imitators and fraud, we specially caution all purchasers of

BENSON'S

CAPCINE POROUS PLASTER

to see that the word CAPCINE on the label of each plaster is correctly spelled.

BEWARE of worthless plasters offered under similar sounding names.

Remember the only object the dealer can have is that he makes a somewhat larger profit on the spurious article.

VEGETINE

WILL CURE

SCROFULA,

Scrofulous Humor.

VEGETINE will eradicate from the system every taint of Scrofula and Scrofulous Humor. It has permanently cured thousands in Boston and vicinity, who had been long and painful sufferers.

Cancer, Cancerous Humor.

The marvellous effect of VEGETINE in cases of Cancer and Cancerous Humor challenges the most profound attention of the medical faculty, many of whom are prescribing VEGETINE to their patients.

Canker.

VEGETINE has never failed to cure the most inflexible case of Canker.

Mercurial Diseases.

The VEGETINE meets with wonderful success in the cure of this class of diseases.

Salt Rheum.

Tetter, Salt Rheum, Scald Head, &c., will certainly yield to the great alterative effects of VEGETINE.

Erysipelas.

VEGETINE has never failed to cure the most inveterate case of Erysipelas.

Pimples and Humors on the Face.

Reason should teach us that a blotchy, rough, or pimpled skin depends entirely upon an internal cause, and no outward application can ever cure the defect. VEGETINE is the great blood purifier.

Tumors, Ulcers, or Old Sores

Are caused by an impure state of the blood. Cleanse the blood thoroughly with VEGETINE, and these complaints will disappear.

Catarrh.

For this complaint the only substantial benefit can be obtained through the blood. VEGETINE is the great blood purifier.

Constipation.

VEGETINE does not act as a carthartic, to debilitate the bowels, but cleanses all the organs, enabling each to perform the functions devolving upon them.

Piles.

VEGETINE has restored thousands to health who have been long and painful sufferers.

Dyspepsia.

If VEGETINE is taken regularly, according to directions, a certain and speedy cure will follow its use.

Faintness at the Stomach.

VEGETINE is not a stimulating bitters which creates a fictitious appetite, but a gentle tonic, which assists nature to restore the stomach to a healthy action.

Female Weakness.

VEGETINE acts directly upon the causes of these complaints. It invigorates and strengthens the whole system, acts upon the secretive organs, and allays inflammation.

General Debility.

In this complaint the good effects of the VEGETINE are realized immediately after commencing to take it, as debility denotes deficiency of the blood, and VEGETINE acts directly upon the blood.
