should be singled out as distinctive and typical in its character. The moderate Republicans, of course, prefer the anniversary of the present Republic, but the Radicals are making an immense effort to secure the 14th of July—anniversary of the destruction of the Bastille, of revolutionary notoriety. The triumph of either one of these views is the triumph of a faction, and therefore a matter of great importance. The 14th of July is a perpetual reminder of the fearful days of terror and bloody violence, and the drift of public opinion in this direction betokens no good. The matter is soon to be settled by Parliamentary action, and therefore society is greatly agitated with the question. The leading Liberal journals of Paris demand this date, because the old Revolution was virtually the mother of the present Republic, but a mother of ominous record.

THE ARMY WORM.

(Montreal Witness.)

The invasion of the army worm in many parts of the United States, and the ravages inflicted by him upon the crops have put many inventive minds to thinking what plans could be adopted to get rid of his expensive and disgusting presence. Mr. Henry Phillips, of Lynn, Mass., has been, it appears, fairly successful in his experiments. A fire was lighted which ran through the dry surface in quick time, but seemed to do no good—the worms appeared rather to like it, and "warmed up" to their work more voraciously than ever. Mr. Phillips then tried trenching, by plowing a deep furrow around the land, and into this he poured kerosene. This work had the effect to cause the fellows to tumble into the furrow in winrows and to halt there to taste of the oil.

SENSIBLE.

(Canada Presbyterian.)

While a good many are crying out against the appointment of the Marquis of Ripon to the position of Governor-General of India, a notice of motion has been made in the United Presbyterian Presbytery of Edinburgh to the effect that "the Presbytery welcomes such appointments as a testimony to the principle of religion not [illegible] test of eligibility to civil position," and "as fitted to maintain the peace and consolidation of the Empire, inasmuch as they assure our Roman Catholic fellow-subjects that, however strongly the governing class in the nation may be opposed to their religion, official position in national affairs is yet to be free to them equally with Protestants."

SOUTH AFRICAN DIAMONDS.

(From Frazer's Magazine.)

The produce of the South African mines is enormous, and the quality of the stones, which is frequently marred by a somewhat tawny complexion, is reported to be improving. Indeed, a twin "drop" from the Vaal River, skilfully mounted by Mr. Streeter, was declared by experts to be of Indian extraction. Vast profits have, of course, been realized. One gentleman's "claim" is said to have cleared in two years £45,000. The new Rush mine alone yields £5,000 a day. In 1875, when the diggers had been at work only four years, gems to the value of £3,500,000 had been extracted from it. The packets of diamonds sent by post-bag from Kimberly to Cape Town in 1876 weighed 773 pounds, and were worth £1,414,590. Nor does there seem to be any present prospect of the supply coming to an end. On the contrary, there is every reason to believe that only a very small portion of the diamantiferous regions of South Africa has yet been explored.

THINGS IN SHORT METRE.

[BY PEN AND SCISSORS.]

There are now 350 Christian Churches in Burmah.

There are 44 Evangelical German Churches in Philadelphia.

One of Brigham Young's daughters is bringing up her children as Roman Catholics.

The Friends, of Great Britain, have two congregations in Palestine, numbering together about 500 hearers.

For the education of negroes at the South the American Missionary Association has expended $3,000,000 during the last nineteen years.

A little girl, defining "bearing false witness against your neighbor," said "it was when nobody did nothing, and somebody went and told of it."

The State of Virginia hires out 525 convicts to work on her railroads and other public improvements, for whom the State receives twenty-five cents each a day.

A movement has been inaugurated for the purpose of uniting all Presbyterians of Great Britain in one General Assembly.

Italy has allowed Protestant preaching only twenty years, but hardly a town of any importance is now without a Protestant church.

A negro woman in Emanuel County, Ga., is a grandmother at the age of twenty-eight years. She was a mother at thirteen, and the daughter married at the same age.

Spurgeon is one of seventeen children, their mother one of twenty-two. He was converted a Methodist, and began to preach at sixteen years of age.

Of the thirty-seven graduates of the class that graduated lately from the Union Theological Seminary, New York, seven are going as missionaries to foreign lands

The Baptists of Virginia boast of five men who have held pastorates for upward of 25 years. Two have held pastorates over 40 years, one over 31, one 33, and one 31.

The attorney-general of Texas reports that there are in that State six thousand fugitives from justice, of whom one thousand are charged with murder.

The Brahmins in India are divided by the question whether the water of the Ganges, their holy river, will not lose its sanctity after it has been bridged over by Europeans.

The peculiar religious sect called the Dunkards is now holding a great convention at Lanark, Ill. Full 30,000 people are in attendance, and the scene resembles an immense army encampment.

A whaling captain, lately returned from the North Pole, declares that a new breed of whales have made their appearance in those waters. They are supposed to have emigrated from the open sea at the Pole.

In China, which has the densest population in the world and feeds its millions without the importation of foreign food, no manure is applied to the land in a solid form; it is all liquefied.

A Clergyman in Boston recently aroused his sleepy audience by asserting in the most positive manner that "notwithstanding the hard times, the wages of sin have not been cut down one iota."

The arithmetic man has been at work in a good cause, and declares as the fruit of his labors that New York pays more for tobacco than for bread and more for liquors than for the aggregate amount which it spends for schools and churches.

The Jewish Messenger says of American Judaism: "The time is fast approaching when it will be necessary to organize a new party in American Judaism. That the people are weary of the torpidity of the old and the madness of the new cannot be disguised."

It seems to be decided that the use of the drum is to be abolished in the French army. The reasons assigned for this step are that the drum cannot be heard amid the din of the battle or on the march by the ranks in the rear. Then the drum is useless in rain, as well as an incumbrance in the field.

The effort made by the English Baptists to raise annuity funds for the support of retired pastors, and of the widows and orphans of ministers deceased, makes encouraging progress. The total of these two funds is now about $375,000. It is proposed to make it $500,000.

The French Government is determined to enforce its decrees against the Jesuits. They are to be ruthlessly expelled from France. It is evident that events are gradually tending towards a separation between Church and State in that country. The expulsion of the Jesuits will hasten the crisis.

A Juror in Colorado asked to be excused from service, assigning as a reason that he was "a common gambler," and could not attend to jury duty. The judge promptly ordered his arrest on his own confession, and in due season the grand jury indicted him. Instead of helping to administer the law, he will have the law administered to him.

Dr. Graves, of Memphis, the old Land-marker, has now gone one step further. Not content with communion with those immersed by non-immersed ministers, he now is contending that "Intercommunion between Baptist churches is unscriptural and inconcistent." He has got a book out on the subject, which is closer than a miser's fist.

These are the words inscribed on the tomb of Robert Raikes: "When the ear heard me, then it blessed me; when the eye saw me, it gave witness to me; because I delivered the poor that cried, and the fatherless, and him that had none to help him. The blessing of him that was made to perish came upon me; and I caused the widow's heart to sing for joy."

A London lecturer stated recently that the organization known as the "Salvation Army" comprises 5,280 public speakers, and that during the "Salvation year" ending last month the people to whom they preached had subscribed $73,345. This amount, we presume, is exclusive of the subscriptions received from sympathisers with the movement. There were 151 stations connected with the army, and the rent-roll for public buildings amount to over $40,000 annually.

We are all accustomed to hear now and then of the meagre saleries paid to ministers of the gospel in olden times; and even in these days in small parishes, especially in western home missionary work. Rev. R. G. Moore, who recently died at the advanced age of 84 years, had the distinction of holding the poorest living in England, that of St. James, Shipton, which yielded fifteen dollar a year. He had held the living over fifty years.

An exchange says: "The Japanese Sunday-schools disaprove of the fictitious tales with which our library books for young people are loaded. They want true stories or none. A number of American and British Sunday-school library books have been translated into Japanese, but the youthful Japs refused to give head to those which contain fabulous narrations. Dry biographies and uninteresting 'memoirs,' which the American child long ago laid aside as boras, delight the Japanese mind because of their real or supposed historical accuracy."

A tract distributor, named King, was tried recently in Dublin, Ireland, and fined $5, with the alternative of 14 days' inprisonment, for handing a priest a handbill inviting him to a meeting for "friendly discussion." An appeal was taken to the Court of Queen's Bench; but the Court refused to quash the conviction. It was not proved that the man had used offensive language or obstructed the priest, but the judge held that the offering of a handbill of the kind was an insult to the priest, and might have led to a breach of the peace.

A Jury in Dodge County, Nebraska, recently gave a judgment of $2,800 for the plaintiff in a suit where it was plainly shown there was no claim at all. The explanation was that one of the jury had slept during the hearing of the testimony; another had been reprimanded by the Judge for eating peanuts and wanted to get even with him; and another carried through the argument that the defendants being agents of the Pacific Railroad, and the railroad being an object of hostility owned by non-residents, while the plaintiffs were local residents, it was their duty to decide for their own citizens and defend their homes.

LITERARY NOTES.

The *Mother's Magazine* for July is to hand. It is good as usual, which is saying a great deal.

In *Good Company*, No 10, under the guise of a fish story, Mrs. L. W. Champney happily hits off in her usual vivacious style various theological isms. Another contribution tells of "isms" in dress which was once badly given to them, Seneca Falls, including the origin of the Bloomer costume. It seems that Mrs. Bloomer was not the first to wear it, though it took its name from her. E. S. Gilbert has a most seasonable study of nature, Along the Brook; George M. Towle writes of The Three Emperors; there is an account of an interesting historical collection of wax-works in Westminister Abbey, Contributions from Mrs. Edward Ashley Walker and Miss Katharine Carrington; poems by Dora Read Goodale, T. S. Collier and Walter Learned; and the pros and cons as to decorating Confederate graves. An article in the Editors' Table rejoices in the cheap books now so plenty, and expresses the opinion that in the long run they will tend to promote the sale of bound books.

The following note from the English Premier was written with reference to the biographical sketch of himself which appeared in *Good Company Number Three*. The sketch was the first of Mr. Towle's series, Certain Men of Mark, which included among others Beaconsfield, John Bright, Victor Hugo and Gambetta, and is to appear in book form.

LONDON, April 21, 1880.

"DEAR SIR,—I have now read the article so kindly sent me twice over, and I congratulate you as an author on a paper of so much ability and so much discernment.

"In its praise it is far too liberal. To only one of the items set down on the other side do I take any exception. I really do not admit myself to have been a bad follower. There never was any opposition between Lord Hartington and myself on the Public Worship Bill. On the Eastern Question, I was too deeply committed by antecendent action, as well as by conviction, to be simply obedient; for which, however, on various occasions, I made great efforts.

"I remain, dear Sir,
"Your faithful and obedient
"W. E. GLADSTONE.

"George M. Towle, Esq."

The *Preacher and Homiletic Monthly* for July has the following comments:—Sermonic: "The Nature of Prayer," by Rev. Octavius Perinchief; "Gospel Illustrations in the Story of Charley Ross," by S. V. Leech. D.D.; "The Lay Preaching," by Thomas Armitage, D.D.; "The Childhood of the Affections," by J. H. Rylance. D.D.; "The Great Scheme Started," by Rev. Thomas Kelly; "Spiritual Blindness and Its Cure," by Prof. Roswell D. Hitchcock, D.D.; "The Christian's Wealth," by A. E. Dickinson, D.D.; "The Christian Away from Home," by Rev. Prof. E. P. Thwing; "Can God Do More for Man?" by Rev. James G. McClure; "Christian Conflict," by Bishop J. F. Hurst, D.D.; "Ingersoll Reviewed," by Rev. Wm. S. Heywood; "Christ the Creator," by Rev. D. R. Frazer; "The Condition of Salvation," by Rev. A. H. Zimmerman; Installation Service: "Not Ashamed of the Gospel," by R. S. Storrs, D.D. In addition to the above, we have the following excellent papers: "Studies in the Book of Revelation," by Rev. D. C. Hughes; "Light on Important Texts," by Howard Crosby, D.D.; "Suggestive Scripture for Revival Sermons," by J. O. Peck, D.D.; "Prayer-Meeting Service," by Rev. L. O. Thompson. Also, much other matter in the way of Sermonic Criticisms, valuable Hints to Preachers, &c. This magazine has become a necessity to the clergy, and is almost universally read by them. Subscription, $2.50 year, 25 cents single number. I. K. FUNK & Co., New York.

GRAND FALLS AND THE UPPER ST. JOHN is the title of a neat little pamphlet intended to be a guide to sportsmen and tourists. It contains a good deal of information, and interesting reading for others than tourists. Mr. F. H. Risteen is the author, and this, his first venture, is creditable to him. The price is 15 cents.

☞ There are good indications of reviving trade in Canada. Report says that week before last the arrivals of wheat and corn at Montreal from the West were the largest on record. The excess of wheat over the corresponding week of last year was 280,000 bushels, and of corn 170,000 bushels.

☞ The Lewiston *Journal* says that from the census returns so far reported and from careful estimates, it is now calculated that the total population of the United States will reach 47,500,000, against 38,556,000 ten years ago, or a total increase of about 9,000,000 in the last decade.

☞ The editor of the *Independent* gives a needed rebuke to a certain class of newspaper correspondents when he says that "no man of sense ever rolls a manuscript, and only one of unfathomable nonsense folds the sheets separately."

☞ Rev. Mr. Spencer, Seamen's Chaplain, reports that his work among the seamen in this port has been more than usually successful; that the attendance is better than in past seasons, and the captains and officers, as well as the men, take a deeper interest in the services, and show him great courtesy when visiting their vessels.

THE NEWS AND THE PRESS.

SAINT JOHN, N. B., JULY 9, 1880.

NEW BRUNSWICK.—The salmon fry, which were hatched out of the St. John River Hatchery, Rapid de Femme (some 180,000) have been placed by Mr. Barber, in the following rivers, viz.: St. John, Salmon, Beckaquimic and Big Presque Isle, the great bulk of them being turned into the main river, at Rapid de Femme, and the remainder conveyed by road and rail to their new homes.... Mr. Wm. Tidlie had a barn with fifteen tons of hay, and a large quantity of growing grass on his farm a short distance above Woodstock Junction, destroyed by forest fires on Sunday week last.... Messrs. James Harris & Co. have received an order to supply stoves, cooking utensils, etc., required for the Dorchester Penitentiary Harris & Co.'s "Climax Range" being principally used, and wood and other stoves and other articles manufactured to order at their foundry, home manufactured being preferred to imported goods.... Capt. Fanjoy, of the woodboat *Ida May*, rescued a party of three men, three women and a child, who had been upset from a sail boat on Thursday, near Boar's Head.... The *Sun* says, Mr. P. Dean, jr., of the Country Market, received the other day several head of fine beef cattle. Two steers from Mr. Reed Slipp, of Long Island, weighed 1860 and 1700 respectively, and two from Mr. Asa Slipp of the same place, weighing 1720 and 1660 respectively. He also received from Mr. A. B. Raymond of Norton, K. C., a steer weighing 1600, and from Messrs. Wheaton & Hatfield of Springfied, another of the same weight.... The *Sentinel* says, it is said that the N. B. Railway has changed owners, a majority of the bonds and stock having been sold to the Bank of British North America for, it is said, a Montreal Co. Messrs. A. Gibson and E. R. Burpee are credited with being still owners of stock to the amount of $250,000 each. There is talk of the gauge being widened and the road continued north to River du Loup.... Potato bugs have entirely disappeared from Lincoln, Sunbury County, without doing as much damage as was at first expected.... There arrived at Chatham up to June 30th, 105 vessels of 50,915 tons, and there cleared 81 vessels of 38,399 tons, leaving 24 vessels of 12,526 tons in port. The exports during the month of June were 33,626,000 feet of deals, 877 tons timber, and 862,000 palings.... The *Pilgrim's Progress*—an admirable name for a fishing smack, hailing from St. George—arrived here from a fishing venture off Annapolis bank, in the Bay, with two tons of fresh halibut, the result of one week's fishing. The whole lot was bought by Mr. James Griffin, fish merchant. The *Pilgrim* which is under Capt. Holmes, is handled by a crew of four, and their week's work cannot fall far short of $200. The smack has already made five trips this season, all of them tolerably successful.... Archibald Rogers was released from the Penitentiary on the 30th ult. Rogers, it will be remembered, was condemned to death five years ago for the murder of Seely, which sentence was subsequently commuted to imprisonment for life. Rogers has been a well-conducted prisoner. He has been ill for the last two years.... Mr. Chas. Sharp, of Northampton, Carleton County, buried five children this week, from diphtheria. Two more are not expected to live.... Forest Fires in Grand Manan have done a great deal of damage. In the vicinity of Grand Harbor several fields of grain were destroyed, but fortunately no houses were burned.... The *Sun* says, it appears that the announcement of the discovery of a four foot vein of Albertite on the Belleau property was premature. It is said that the report was due to a miscalculation on the part of the acting manager. To whatever cause these reports, from time to time, are due-and that the Directory are free from blame in the matter will be believed by all who are acquainted with the members of the Board—it is not in the interest of the Company that such erroneous information is given to the public. The parties having the largest interest in the works have faith in the ultimate success of the enterprise, and anything that happens to shake the faith of others is to be regretted.... The *Telegraph* says, a man named Murray, while passing along Pond street at a late hour on Saturday night, was accosted by four young men who knocked him down and then robbed him. He at first attempted to call for assistance, but they soon found a way to prevent him attracting the attention of any one. They placed something over his mouth and after extracting $10 gave him a few kicks and then ran off. Mr Murray recognized two of his assailants Sunday morning and threatened them with prosecution if they did not restore the money to him.... On Thursday last a spark from the chimney igniting on the roof, caused the destruction of Mr. George Erb's dwelling house in Kingston Parish, King's County. He succeeded in saving a portion of his furniture. The loss will prove a serious one to Mr. Erb as he had no insurance on his property.... The *Globe* says a poor milkman has been the subject of persecution for some time because the residents of Hazen street did not get good measure from him. A woman was discovered the other morning going from porch to porch drinking the customers' milk which was put in pitchers at their doors awaiting the rising of the inmates. The milkman nearly choked her.... The *Sun* says gold quartz—very rich—has been found on the Nepisiguit, in Gloucester Co.... The statement of the St. John branch of the Dominion Savings Bank tor the month of June is as follows:—

Deposits	$110,919 25
Transferred to 5 per cent. stock	18,500 00
Withdrawals	49,970 35

The statement for June of the Moncton branch is as below:—

Deposits	$6,144 00
Transferred to 5 per cent. stock	500 00
Withdrawals	5,295 00

The Moncton *Times* says that Messrs. Gray & Wheaton's mill, at Salisbury which was burned on Monday last, was valued at $10,000, and insured for $3,000. Messrs. Gray & Wheaton also lost about 20,000 feet of pine lumber. Messrs. Johnson & Mitton, who had the mill leased and were working it, lost heavily, in lumber and shingles, and they are not very well able to bear the loss. The Messrs. Gray & Wheaton have been most unfortunate in their milling business. A year ago last March they were burned out and sustained a loss of $9,000—having no insurance. Their mill burned on the 28th was a saw and grist combined, and contained a rotary saw, edger, trimmer, shingie machine, and three run of stones. They will not rebuild, and the absence of the grist mill especially will be some inconvenience to farmers who had gone into growing wheat extensively, as this mill was well fitted out, having an immense run last fall.

NOVA SCOTIA.—A son of Charles Patterson, Athol, aged 11 years, died of hydrophobia on the 19th ult. He had been bitten by a dog a few weeks previously.... Another attempt was made on Tuesday last to wreck the Vale Coal Company's train by placing sleepers across the track. This is the third time within a few months.... Twenty tons of maple sugar was shipped from Athol this spring.... Mr. Ellershausen is about to purchase a valuable lead and silver deposit at Placentia, Newfoundland.... This appears to be a bad year for Savings Bank agents in the rural districts of N. S. Not long ago the clerk in the Sydney Bank agency, disappeared, and an examination of his accounts showed that he was a defaulter. More recently a similar case occurred at Little Glace Bay. Now we learn the postmaster at Liverpool has been suspended under a charge of failing to account for about three thousand dollars.... A young man at Herring Cove (Halifax) was struck by lightning on one of his hands during the late thunder storm, and his hand and arm have since been numb and useless.... The crop reports from most parts of Nova Scotia are favorable on the whole; hay in many Counties will be light owing to the backwardness of the season up to a few weeks ago; the fruit and root crops promise well at present.

If you are going West, purchase your Tickets from G. A. Freeze, the agent on Water Street, St. John. Passengers for Winnipeg or other western points have choice of route. Cushioned seats provided for all classes and baggage checked through. ap23-1y

RESTORE THE HEALTH.

Golden Elixir acts directly on the blood, vitalizing and enriching it to a surprising degree, building up the system and throwing off the germs of disease. It thoroughly recuits the generally bodily health and restores the nervous system to the proper healthy condition, no matter from what causes impaired.

THE GREAT SPRING MEDICINE

Golden Elixir cures all humours from the worst Scrofula to a common Blotch, Pimple or Eruption, Erysipelas, Salt Rheum, Fever Sores, Scaly or Rough Skin; in short, all diseases caused by bad blood are conquered by this powerful, purifying and invigorating Medicine.

RESTORE THE APPETITE.

Golden Elixir will vitalize, purify and enrich the blood, regulate the supply of blood to diseased nerves, acts as a general tonic, invigorates the whole system, affords a ready mode of gaining strength, is pre-eminent as a means of restoring the appetite. apr. 15 June 11—1y.

Mr. James, Martin Maitland, N. S., writes that he took cold a year since, which settled on his lungs, so that he raised corruption and blood. His life was considered in danger, but a few small bottles of Wilson's Pulmonary Cherry Balsam entirely cured him.

Dr. Wilson's Family Anti-Bilious Pills are adapted to all ages and conditions, in all climates. Containing neither calomel or any deleterious drug, they may be taken with safety by anybody. They remove obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Rev. J. Vanwart, Prince William, N. B., desires to say that he has been a great sufferer from rheumatism, could not rest at night for severity of the pain. Crippled in both knees; tried Dow's Sturgeon Oil Liniment, and was cured by it.

BRITISH AND FOREIGN.

PARIS, June 30.—Throughout the provinces, today, the Jesuits quitted their establishments under a protest, declaring that they only yielded to compulsion. At Avignon and Marseilles their sympathisers were somewhat disorderly. At Lyons and Angers the Jesuits have constituted themselves as a civil society, and the question thus raised will be decided by courts on the 2nd of July.

ATHENS, June 30.—The Duke de Richelieu is dead.

CABUL, June 30.—The Ghalzais are harassing the British communications. They attacked a convoy, killed six and wounded two of the escort.

PARIS, July 2.—The religious establishments broken up yesterday numbered 39, with 475 members. There remain about 30 which, being educational institutions, were allowed to exist until August 31. At Chambery, two Italian orders, one of men and the other of women, received 48 hours notice to quit France. This measure was taken under the law of 1849, providing for the expulsion of foreigners obnoxious to the Government.

LONDON, July 2.—In the Commons, this morning Mr. Sullivan moved an amendment making the resolution moved by Mr. Gladstone prospective instead of retrospective. It was rejected by 274 to 236. The resolution agreed to by the Government and moved by Mr. Gladstone, admitting all elected members to affirm who may claim to do so, instead of taking the oath, was then adopted without division, and a subsequemt motion by Mr. Gladstone, that the resolution be a standing order, was also agreed to without division.

LONDON, July 3.—The action of the Commons on Mr. Gladstone's resolution, permitting Bradlaugh to affirm, has given great satisfaction to the supporters of the Government.

ST. PETERSBURG, July 2.—A treaty has been concluded between Russia and Japan for coal and other stores.

The rinderpest is raging in forty-three districts on the shores of the Black Sea, and has appeared in the Zoological Gardens here.

LONDON, July 7.—A Berlin despatch says: Political circles here consider that war between Greece and Turkey is inevitable. The news from the East is not reassurring.

UNITED STATES.

NEW YORK, June 30.—Two hundred and twelve deaths occurred here on Tuesday, 17 by heat.

NEW LONDON, July 1.—An accident on the Northern Railroad, resulted in the death of President D. W. Lincoln, of the Boston & Albany Railroad, and Mrs. Dr. Appleton, of Boston.

MINNEAPOLIS, Minn., July 1.—This morning, on the Minnetonka, the pleasure steamer Mary, while lying at the wharf of St. Louis Hotel, exploded her boiler, wrecking the boat, which sunk immediately.

JERSEY CITY, N. J., July 2.—Mary O'Connor, 45 years old, murdered her three children at two o'clock this morning by cutting their throats with a razor. Mrs. O'Connor says she had been sick for a long time from malaria and, being unable to take care of her children, she thought by killing them they would go right to heaven, and there was no other cause for her killing them. She was committed to jail.

ST. PAUL, July 6.—A yacht containing 14 persons, capsized in a squall on White Bear Lake, twelve miles from here, on Monday. Eight men were on board, the remainder were women and children. Seven single men swam ashore without making any effort to save the women and children, who were all drowned, with one married man who made an effort to save his family.

WASHINGTON, July 7.—Peace in Buenos Ayres is officially announced. The insurrection has been suppressed.

THE BEST RESULTS are pleasantly accomplished by that benign, invigorating, antiperiodic and promoter of digestion, appetite and sleep,—Northrop & Lyman's Quinine Wine. The laboratory of the chemist never yielded a more salutary preparation, or one in which the ingredients are more completely harmonized. The feeble and nervous derive from it new strength; sufferers from dyspepsia and loss of appetite find that it not only enables them to digest and assimilate properly, but imparts an unwonted relish for food. Invalids usually suffer from depression of mind. There is no better remedy for despondency, originated by ill-health, than this genial tonic. Pure Sherry and aromatic constituents of a choice description, enhance its remedial value, and give it an agreeable flavor. It promotes convalescence following exhausting maladies, stimulates and fertilizes the circulation, and increases the muscular power. Sleeplessness, twitching of the muscles, trembling of the limbs, and other manifestations of nervous weakness are speedily remedied by it. When taken during the absence of the fever, it is a remedy of sterling merit for bilious, remittent and intermittent fever. A wine-glassful three or four times a day will usually be found an effectual preventive of the return of the paroxysms Intelligent observation and long experience determine the efficacy of this medicine, which has met with wide recognition and won an unrivalled reputation. No absurd pretentions are put forth in regard to it: the statements in regard to it are plain, straightforward facts, susceptible of convincing proof. Though an advertised remedy, it is in no respect akin to the many cheap nostrums with which the market is flooded. Ask for "Quinine Wine, prepared by Northrop & Lyman, Toronto." All druggists sell it. may28 2m eow

NOTICE.

The Harmony F. B. Q. M. will meet Saturday, Sabbath and Monday, July 10th, 11th and 12th with the Free Baptist Church, Halifax.

S. NASON ROYAL,
Q. M. Clerk.

Caledonia, June 23rd, 1880

DISTRICT MEETINGS.

3RD DISTRICT to be held with Dumfries Church on the first Wednesday in September. To attend—Elders Perry and Taylor.

4TH DISTRICT to be held with the Upper Hampstead Church on the second Saturday in September. To attend—Elders Currie and Macdonald.

7TH DISTRICT to be held with the Fair Haven Church, Deer Island, on the last Saturday in August. To attend—Elders Perry, Reud and Phillips.

Acknowledgments for Religious Intelligencer, July 9.

Alfred Thornton, 83, 1404; Daniel Richards, 3.34, 1388; T. Taylor, Sr., 2, 1384; G. H. Snow, 3, 1271; Capt. Levi Kinney, 3, 1404; Capt. J. W. Kinney, 3, 1408; Austin F. Nickerson, 2, 1414; Harvey Nickerson, 2, 1404; Geo. H. Swim, 2, 1404; Mrs. Tennison Swim, 1, 1404; Mrs. Lydia J. Crowell, 1, 1404; Jethro N. Smith, 4, 1404; Osborn Smith, 2, 1382; Isaac Davis, 4, 1352; Mrs. D. Brown, 2, 1377; Wm. Brown, Esq., 1, 1404; Avard Wild, 3, 1340; Rev. E. B. Grey, 2, 1404; Phebe J. Banks, 2, 1300; John A. Jones, 2, 1388; Jedediah Kimball, 2, 1396; Chas. E. Boone, 1, 1404; Hugh Loudon, 2, 1352; Thos. Jones, 1, 1378; G. F. Secord, 2, 1380; S. F. Belyea, 1, 1404.

MARRIED.

BENSON'S CAPCINE POROUS PLASTER
FOR WOMEN AND CHILDREN.

Females suffering from pain and weakness will derive great comfort and strength from the use of Benson's Capcine Porous Plaster.

Where children are affected with whooping cough, ordinary coughs or colds or weak lungs, it is the one and only treatment they should receive.

It relieves pain at once, strengthens and cures where other plasters will not even relieve.

Sold by all Druggists. Price 25 Cents.
