Made of good American Cotton with great care, Correctly numbered and Warranted Full Length and Weight. WE would ask the purchasers of Cotton Warp to re W member that our Yarn is spun on Throstle Frames, which make a stronger yarn than the Ring Frames, used in making American yarn. It is also better twisted and more carefully reeled; each written application to the Secretary for Agriculture hank being tied up in 7 leas of 120 yards each. This makes it much more easy to wind than when it is put up without leas—as the American is—and also saves a great leal of waste. Those acquainted with weaving will understand the superior to those of any former Exhibition, and the corgreat advantage it is to them to use yarn put up in this dial support of Agriculturists, Manufacturers, and of the COTTON CARPET WARP, Made of No. 10 Yarn, 4-Ply Twisted. WHITE, RED, BROWN, SLATE, &c. All fast colors. Each 5 lb. bundle contains 10,000 yards in length and the different Agricultural Societies, or at the Office for GILBERT BENT & SONS. will make a length of Carpet in proportion to the number of ends in width. We have put more twist into this warp than it formerly had, and it will now make a more durable Carpet than can be made with any other material. Since its introluction by us, a few years ago, it has come into very gen-
