running through unoccupied lands.

the lands as inevitably to play into the hands of

the speculators; that the provisions of the land re-

us a great deal, was likely to cost us a great deal,

and that any adopted policy about the public lands

portions of the Dominion, these had a right to ex-

pect to be recognized in the expense they had gone

that was to open up the country, regretting that the

original plan of building the road by private enter-

prise had not been adopted. That original plan

was to utilize the land of the North-West to build

the road opening it. Under that plan the Govern-

ment provided the subsidy of \$30,000,000 and \$50,

000,000 acres, reserving the rest of the land to re-

coup the people advancing the subsidy. He show-

ed that the plan of the Government of Canada was

by Charlton, in almost all rem

dentical with that of the United States, so praised

liffered it was better, as, for stance, Canada gives

160 acres free with three wars settlement, while

the United States demanded five years settlement.

He objected to Charlton's policy because it did

away with the pre-emption system and compelled

settlers to buy for cash down. No free grants-no

re-emption lands-and all for fear speculators

ould step in and hold lands without settling them

He declared that under the present system he was

that the construction of the railway would unduly

ourden the country. In the United States the

ed to pre-empt 160 more he had to pay \$2.50 an

acre down, in cash, while in Canada's North-West

the settler got his pre-emption had three years be-

fore he would be called upon to pay anything; and

iberal terms than Canada. He said he caused an ap-

ieved 50,000 will go in this year. But take 25,-

3,000 families taking up homesteads and pre-emp-

tion lands, 1,500 purchasing railway lands and

ands at all. A careful calculation showed that the

verage price of lands in the Railway Belt was

chasers took up 420 acres each, this would give for

have \$1,680,000. Careful study of the average in

crease of immigrants showed that we could calcu-

30,000 persons next year and 75,000 persons in

890. On this basis we would receive up to and in-

penses of survey and of land officers \$2,400,000, and

he nett receipts would be upon his calculation

giving the most liberal allowances was \$75,000,-

000, On his calculation we had therefore nearly

enough to recoup the country for its expenditure,
