evolent purposes. reminds one of the ministers who kept a pair of utes. "Litany Boots." His Excellency, Gov.-Gen., has been compelled to decline an invitation to be present at Boston on the occasion of the two hundred and fiftieth anniversary of the settlement of the city.

Cardinal M'Closkey is having a new edifice erected for himself on Madison Avenue, at a cost, exclusive of the ground and the furniture, of \$75,000. In 1822 Jefferson predicted that Unitarianism would ere long be the religion of the majority. In 1880 Dr. McCosh writes : " Unitarianism has died, and is laid out for decent burial."

Good Company is doubtless right in its statement Sunday because they are tired, make a great mischurch at least once." It is reported that the dentists in this country use

\$500,000 worth of gold yearly in plant people's teeth. Now the Grammer school children can figure out how much the accusists make, supposing they use 25 cents worth of gold in a tooth and charge \$5 for it. A writer in the Pall Mall Gazette says the priests of Spain "are less well educated than the average Spaniards of the middle class, himself, perhaps, the

worst educated man in Europe." For this state of things the concordat is to be thanked chiefly. Sixty million dollars is the estimated cost of the projected Euphrates Valley Railroad, which is intended to facilitate the intercourse of England with India. The road will be over a thousand miles long, and will be very difficult to build.

That nine women should have been sentenced to hard labor in the Siberian mines for an aggregate for the market, they are taken up and shipped not period of sixty-nine years, for political plotting, only over the country, but to Europe as well. And affords a striking illustration of what at present passes for civilization in Russia.

While Peace Societies are laboring to do away with wars, the annual production of gun and powder for military use is one hundred million pounds. This would be equivalent to 10,000,000 pounds of fertilizing nitrogen, the productive capacity of which in the soil would be equal to 500,000,000 SAINT JOHN, N. B., JUNE 25, 1880. pounds of bread.

It is stated that the bottom of the James River for twenty miles from its mouth is one enormous oyster bed. An idea of the magnitude of this industry the growing of oysters, may be obtained from the assertion that during two months of the season just closed a half million bushels of oyster "plants' were taken from a single five-hundred-acre shoal of the James, or an average of one thousand bushels to the acre. These plants are mostly deposited in the Chincoteague Bay, where it is understood they remain for about eighteen months. Then, ready these Chincoteague beds are only a small part of the oyster industry of the United States.

THE NEWS AND THE PRESS

A sexton at Madgeburg caught a little girl picking while being hauled to the Intercolonial freight staa flower in the cemetery recently and thrust her into tion, broke through the planks, was successfully nial Railway. The World's Favorite!

1,300,000 IN USE.

The only MACHINE which received the FIRST PRIZE, A GOLD MEDAL, at the last World's Fair at

The only MACHINE which received TWO DIPLO-MAS of HONOR and TWO MEDALS of MERIT, at the Centennial Exhibition, at Philadelphia in 1876.

And the only MACHINE which ever received FIRST PRIZE at any World's Fair ever held, at which Sewing

THESE JUSTLY CELEBRATED

Sewing Machines

so that for CASH, notwithstanding the increase of Tariff, one can be obtained at about the same price as

The principle qualities which recommend them over the Common Machines in use, are—

They make the same "LOCK STITCH" as Shuttle Machines, but use simply a Metal Speol for the under thread, thus doing away with the trouble and delay of threading the Shuttle. All parts of the Machine are made so perfectly "true fitting," that any piece can be duplicated and put in place by an ordinary mechanic, or experienced lady operator, without the aid of a regular Sewing Machine Repairer.

All parts, which require to be, are made of the Finest Quality of Steel, while even the Castings are of such Superior Quality that they defy comparison. THEY RUN LIGHTER, AND MAKE LESS . NOISE, AND ARE MORE SIMPLE TO LEARN THAN ANY OTHER

MACHINE

But most important of all they make THE MOST PERFECT STITCH obtainable with a Lock Stitch Machine, as a comparison with the Stitch of any Shuttle Machine will easily prove.

MACHINES sold on Monthly Payments, Notes and at LOW PRICES FOR CASH. All Orders addressed to our Principle Office for New Brunswick, No. 80 King Street, will be promptly at-

Instruction Books accompany each Machine, 图 Send for Illustrated Price List to WHEELER & WILSON M'f'g. Company
