GATES' LIFE OF MAN BITTERS

INVIGORATING SYRUPS.

From the Roots and Plants of Nova Scotia. Formerly manufactured by Mrs. Gates, of Wilmot, who was pronounced incurable of Liver Complaint and Dropsy by nany skilful physicians, when producing several receipts rom an eminent French physician, she was entirely cured, and afterwards cured hundreds of cases for which at first there seemed no hope. We offer these remedie to the public through the persuasion of those who at present consider they are indebted to them for the preservation of their lives. These preparations have been thoroughly tested in Nova Scotia for the last 35 years, in some the most severe and apparently hopeless cases, which few of the numerous certificates we possess, and which will appear from week to week in this paper, loudly tes-Pimples and Humors on the fy. These medicines are extracted entirely from the coots and plants of the Vegetable Kingdom, such as Life of Man Roots, Sarsaparilla, Consumption Roots, Male and Female Nerve Roots, &c., which make up our compound of different remedies, viz.: Nos. 1, 2, and 3 Bitters, Nos. 1 and 2 Syrups. These being made in a liquid are easily taken even by children, and the Syrups operate as a raild and centle thesis without origing or pair, and do I had consulted several physicians and also tried several preparations and obtained no relief. I thought I would try Vegetier, as I had heard several speak in its favor, and before I nad used the first bottle, saw I had the right part a healthy tone and vigour before unknown. These nedicine. I have used three bottles and my health is sery much improved, and the Pimples have entirely disappeared from my face and body. I recommend Vegrander to all who are troubled as I was. Yours truly, J. OSBURNE.

J. OSBURNE.

J. OSBURNE.

J. OSBURNE. I am personally acquainted with Mr. J. Osburne, and know the above to be a true statement of the facts. I sold him the Vegetine.

I was Yours truly, J. Osburne, and know the above to be a true statement of the facts. I sold him the Vegetine.

I am personally acquainted with Mr. J. Osburne, and know the above to be a true statement of the facts. I sold him the Vegetine. ning Sores, Stoppage of Menses, Measles, Kidney and Gravel Complaints, Consumption, Spitting of Blood, Bronchitis, Erysipelas, and all impurities of the Blood. All admit so effectual a remedy for Dropsy never was known. If your liver is torpid and inactive, if you are

oubled with the Jaundice only try our medicines, be ared and believe. Ladies in the turn of life will find in them just what they want. Young ladies in particular just budding into womanhood above all others should never be without them, they are what they want at this critical period. Mothers should see to this and provide their daughters with them. Children crying their little lives away, while worms cat up their vitals, may be cured, their tormentors killed and driven away by the imely use of these effectual remedies. We do not pretend to offer them to the public as a erfect cure for every disease, which every intelligent mind knows is out of the question. We only wish to make known what they positively will do and no more. Therefore we submit this statement to those who are willing at least to make a trial, their judgment we sanwilling at least to make a trial, their judgment we sanguinely await knowing it must be the same as thousands have already given. We wish to inform all that our medicines are prepared with great care, especially for family use, and also admirably calculated to preserve health, remove disease and restore nature to its own state, that no family should be without them. These medicines are carefully compounded upon scientific principles by those thoroughly acquainted with the medicinal properties of each article used, as well as the effect the combination will have on the system, consequently we feel safe nation will have on the system, consequently we feel safe in recommending our medicine with the greatest confidence. It has become an undeniable fact that when the system becomes infected with malignant diseases seated in either the nervous, muscular, or glandular parts of the body, it can only be made healthy by cleansing the blood; and this done the disorder lets go its hold and nature resumes her original standing. A medicine that does not therefore strike at this, the root of all diseases, cannot nor should have any claim to public attention. The blood is the grand consideration then, and it becomes the duty of the strong as well as the weak and unhealthy, to guard well this part on which so much of our comfort depends. No one should neglect, especially in the spring of the year, to take a few bottles of No. 2 Bitters and

No. 1 Syrup, which will extract the water and purify the blood, regulate the bowels, increase the appetite and renovate the system. Full directions on label and # For sale everywhere at 50 cents per bottle. Manufactured by
