settle it into its seat, yet when it has been held in the hand for a short time the expansion is so great that it cannot be made to enter except by the use of much force. It is said, too, that the scales used for weighing gold in the Essay Office at New York are so delicate when brought to a balance with two pieces of paper of equal size and weight, the mere writing of a name on one piece with lead pencil will add enough weight to the paper to turn the scales in its favor.

Church debts have been supposed to be burdens peculiar to the Protestants of our great American cities. But revelations made concerning the condition of some Roman Catholic Churches are surprising. A new priest in St. Aloysius parish, in Washington City, made an examination into the condition of his Church when he entered upon the charge, and found that the debt on the Church property was $192,000. He has since reduced this by the sum of $35,000, and thinks when he gets the indebtedness down to $100,000 it will be quite manageable. So says a correspondent of the Catholic *Mirror*.

The feeling against the Roman Pontiff is deepening in his own city. A public meeting attended by about 4,000 persons, had been held in Rome to protest against the laws which guarantee his palaces to the Pope. It was presided over by Signor Petroni, who spent sixteen years in the Papal prisons. Telegrams of adhesion were received from General Garibaldi, and Louis Blanc in the name of Victor Hugo was read. Signor Lemmi then began to read a resolution, but the police delegates interfered, and a scene of great confusion ensued. Ultimately another speaker succeeded in reading the resolution which was considered voted by the deafening cheers of the audience, who at once rapidly dispersed before the police could attempt to close the meeting.

A trustworthy writer states that the habit of opium smoking is common all over China, but that it is in the west, in the comparatively unknown half of China, west of the one hundredth and tenth meridian, that it is most prevalent. In some parts of Western Hu Pei and Eastern Szechuen it is all but universal; there are few adults in any station of life who do not take an occasional whiff, and the very streets of the towns and villages reek with opium fumes. The practice there, he says, is indulged in in the most open manner, and no more stigma attaches to it than to smoking tobacco. This puts a very different construction on a most important part of the influence for the worse usually asserted as exercised, primarily, by Western nations on Chinese civilization. The opium habit is most prevalent where Europeans have little or no access, and the inference is obvious that beyond and above any display of outside force the opium trade was an invited one.

LITERARY NOTES.

NATIONAL TEMPERANCE ALMANAC and TEETOTALER'S YEAR BOOK for 1882, is just published, and is filled with new and important information for every family and every friend of temperance. In addition to the calendar and astronomical calculations it contains the latest and most reliable statistics of intemperance, official tables of internal revenue receipts, beer and the brewers, results of prohibition, etc.; also eighteen choice engravings, with stories, illustrations, puzzles, etc.

It is one of the best documents that can be circulated in any community or temperance organizations.

The Almanac contains seventy-two pages, printed on fine tinted paper, and is beautifully illustrated with choice engravings.

Price 10 cents, single copies: $1 per dozen; $7 per hundred; $60 per thousand. Sent by mail on receipt of retail or dozen price. J. N. STEARNS, Publishing Agent, 58 Reade Street, New York.

The November number of WIDE AWAKE, which has recently been enlarged, has two excellent Thanksgiving features: a fine, historical poem by Mrs. Margaret J. Preston entitled "The First Thanksgiving, A. D. 1622," and "How The Little Steadmans Had A Good Time," by Mrs. Henrietta K. Eliot, telling how some little girls cooked the Thanksgiving dinner themselves. The number opens with one of Lungren's fine frontispieces, an arctic snow storm, illustrating a Kamschatkan story, by George Adams, "Riga in the Chimney." Another capital story of adventure is the one by Sarah Winter Kellogg, "Rix' First Errand," illustrated by Sol Eytinge. Some excellent short papers appear, among them "The Boy King of Egypt," and Rev. E. E. Hale's long letter upon the "Personal Duties of the President." The readings of the C. Y. F. R. U. for the current month are even finer than for October, inspiring and breezy. There are three fine illustrated poems, "Miss Tipty Toes" by John Albee, "All-Hallowe'en" by Miss Wilkins, and "Boys and Banties" by Rev. J. K. Nutting. The serials, "Sharon," "Having His Own Way," and "Polly Cologne," never more interesting, are evidently drawing to a close; and the readers of the magazine probably are of the opinion that three such capital serials cannot be secured for next year. We refer such to a reading of the four-paged Prospectus for 1882 which is given in this number.

Only $2.50 a year. D. Lothrop & Co., Publishers, Boston, Mass.

☞ A Temperance Convention is to be held in Yarmouth on Tuesday, 8th inst.

☞ Sussex covered itself with glory in the election of a County Councillor last week.

☞ A son of the late Dr. Morley Punshon is now a student of the Wesleyan Theological College.

THE NEWS OF THE WEEK.

SAINT JOHN, N. B., NOVEMBER 4, 1881.

NEW BRUNSWICK.

Two hundred tons of manganese were shipped from St. Martins last week for Boston.

The potato crop is a failure in Northumberland County this year, some parties not digging more than three barrels for one barrel of seed.

The frame for the new spool factory, at Newcastle, is up and the construction of the building is being pushed rapidly along.

A despatch from Fredericton states that all the mining licenses for Albert County have been purchased by Hugh Davidson and A. E. McLeod.

The lobster canners in New Brunswick will hold a meeting on November 15th. The main question for consideration is to have a more suitable season fixed for lobster fishing.

Richard Willis, living on City Road, was severely injured yesterday afternoon, by the falling of a stage on which he was at work, on Mr. Andrew Lawson's house, Union street.

The Grand Southern people intend building a temporary depot in Carleton. The site chosen is the lot at the head of Rodney wharf, opposite Appleby's Corner. This is included in the lease the Grand Southern got from the Carleton Branch.

The Campobello Company recently held a meeting, at which it was voted to appropriate funds sufficient to provide still further accommodations for next season. The stockholders expressed themselves as highly gratified with the progress of the enterprise and their confidence in its success.

The new wing of the Provincial Asylum at Fairville, is almost completed. Mr. Wm. Lawlor, the contractor, says there is only six weeks more of work to be performed. The walls are all up and the roof is being rapidly boarded in. The "wing" has a frontage of fifty-eight feet and a depth of 123 feet.

A fire on Wednesday afternoon destroyed the steam grist mill of L. & W. Thompson, in the lower part of St. Stephen. There was several thousand bushels of corn in the mill at the time, which, with a large quantity of wood adjoining, was also consumed. The wind was blowing a gale at the time, and nothing could be saved. The building was partially insured.

The California salmon eggs, recently laid down in the Rapid-de-Femme Hatchery, are developing rapidly, and a very successful hatch is anticipated shortly. In addition to these eggs, there were brought from the Tobique, on Thursday night, some 100,000 eggs, which reflected great credit on Mr. Mowat, who procured them. They were in very fine order when laid down, notwithstanding the inclement weather prevailing during the operation of spawning, and the subsequent conveyance of the eggs.

The first cargo of deals that ever went from St. John to Rio de Janeiro was taken last week by the bark *Windward*. The shipper is a New York dealer, and he has bought another cargo, and is negotiating for a vessel to go to the same port. The deals were 3x9 inches and not less than fourteen feet in length. If there is a demand in Brazil for spruce deals it might be supplied by our own merchants, instead of the trade being in the hands of New York parties. The existence of such a demand will enable St. John to supply the vessels of the Canada and Brazil Steamship Company with return cargoes, and this port, therefore, instead of Halifax, would be the best one for her to come to in winter.—*Sun.*

A sad accident occurred in the harbor on Saturday morning, a laborer named John R. Smith being killed by a falling deal while loading the steamer *Sibylla*. Smith was about 28 years old, married, and lived on Camden street, Portland. Coroner Earle held an inquest at the house on Saturday evening. The only witness examined was Richard Mitchell, who said:—I belong to the city of St. John; am a laborer on board ship. I have known the deceased about three years. About 11 o'clock this morning I was on the deck of a woodboat. She was on the port side of the steamer *Sibylla*. I was unloading the lumber into the steamer. Deceased and I were working together slinging deals; there were eight deals in the sling, which had got half way up the ship's side, when some of the deals fell out of the sling. In falling two deals struck him near the temple knocking him down. After falling he never spoke. He was bleeding from the nose and ears. He lived about ten minutes after being struck. The deals are slung with chains. They are slung about seven feet from the ends. I have worked at the other steamers this summer. I thought it was slung securely. The surveyor on the woodboat called to deceased to stand clear and be moved a short distance thinking he was out of danger. The end of the deals struck him before striking the deck. A verdict of accidental death was returned.

NOVA SCOTIA.

Sailors are very scarce in Halifax. The captain of the steamer *Regent* wanted two men a few days ago, and could not obtain them.

Halifax has two Sour Krout factories which will put up not less than 4,000 barrels this season. It is mostly shipped to the United States.

The recent gale has caused great loss to some of the Western Shore, N. S., fishermen. A man from Portuguese Cove says, the loss of nets and gear from there alone will come to over $500.

An excellent lead of copper ore has been discovered at French Vale, Sydney, C. B. It is near eight feet in thickness, and of a superior quality. American capital has been invested and work is progressing rapidly.

Halifax is crying out against the extravagant fees collected by the Prothonotory, and claims that they should be reduced, a return of them required, and all but a sum sufficient to fairly compensate that officer, paid into the public treasury.

At Boston, Monday afternoon, Peter Davis, 25 years old, one of the crew of the schr. *Hattie B.*, of Shelburne, N. S., had his leg caught in a turn of a line which he had thrown to a tugboat. The limb was torn almost from his body. His recovery is very doubtful.

Complaints are made against the extravagant freight rates on the Windsor and Annapolis road. It costs 48 cents to take a barrel of potatoes worth $1.50 from Kingston to Halifax, less than 100 miles, while a barrel of flour is brought from Toronto to Halifax 1,500 miles for 20 cents.

The steamer *Creole*, which cleared from Halifax for London on Monday, took from this port 3,530 cases lobsters, 1,023 barrels apples, a large quantity of dead meat, and other freight, of a total value of $35,118. She had also 342 barrels apples and other freight from Annapolis.

The gold mines at Mount Uniacke are now in full blast and that there is gold worth seeking for is shown by the fact of the rapid increase of people at the mines. The inhabitants now number about 300 and wages average about $1.25 per day. There are about seventy men and boys at work, three crushers are operated day and night.

Angus McLeod, of the Inland Revenue Department, Halifax, who was up Tuesday morning before the Stipendiary Magistrate for examination, was admitted to bail by Judge James, himself in the sum of $4,000 and two securities in $3,000 each. He will appear at the next criminal sitting of the Supreme Court in March. He is charged with embezzling $1,800.

A few days ago Judge Weatherbee, of Pictou, sentenced Kate McDonald to two years in the Dorchester Penitentiary for breaking into Thomas Jennings's shop and stealing dry goods. At the same time the Judge sentenced William Pigott to six years for stealing money from Mr. Grady of the three mile house, Pictou. Both prisoners reached Dorchester on Thursday.

ENGLISH AND FOREIGN.

LONDON, Oct. 28.—Gladstone, in replying to an address presented to him at Knowsley, denied that the Government has avowed that the Land Act had been the outcome of the Land League. He then contrasted the opinions and policy of Daniel O'Connel and Parnell, and said he considered the doctrine of "no rent" sheer rapine. He denounced Boycotting, saying that he knew of upwards of one thousand cases in which Boycotting had been practised. He concluded by pointing to the fact that people who had been urged to pay no rent were coming forward with their money, while the Land Court is working well.

LONDON, Oct. 28.—The British steamer *Calliope Odessa* for Bremen has been totally lost on the Spanish coast; only one person was saved.

LONDON, Nov. 1.—Heavy snow storms and gales are reported throughout England.

All the collieries Southwest Lancashire have stopped till Thursday.

Municipal elections were held throughout England and Wales to-day. In a great many cases they show Conservative gains.

A troop ship will leave Portsmouth to-day with 520 men to reinforce various regiments in Ireland. Orders have been received at Athlone to have a flying column in readiness to proceed immediately to any part in Westmeath or Roscommon.

LONDON, Nov. 2.—*Truth* says the late Baron Jas. Rothschild incurred losses on the Bourse in October amounting to 80,000,000 francs and that anxiety caused the bursting of an avenrism.

LONDON, Nov. 2.—The first complete railway train, carrying 100 passengers, passed through St. Gothard Tunnel on Tuesday in 50 minutes.

LONDON, Oct. 27.—A Dublin correspondent says at the opening of the new market in Dublin by the Lord Mayor, groans and hisses and an organized demonstration, in revenge for his rejection of E. Dwyer Gray's motion to confer the freedom of the city upon Parnell and Dillon, prevented him from being heard.

LONDON, Oct. 28.—The *Standard's* Dublin despatch says all Ladies' Leagues throughout the country are to be immediately suppressed.

DUBLIN, Oct. 30.—Already there are 1,500 cases before the Land Court. There seems to be a reaction setting in. Although there are 400 leaguers in prison, occasional events show that the spirit indulging League movements still survives. It is probable that Parnell will be sentenced to 14 days' privation of visits for having written a letter published in the *Freeman's Journal*. The officers of the prison are in a state of apprehension that sworn inquiries be held touching the letter.

DUBLIN, Oct. 31.—The pastoral of Archbishop McCabe was read in all the Catholic churches of the Dublin diocese on Sunday, and created considerable sensation. Passages from the pastoral were printed last night, and demonstrations against it, to be made to-day, were at once organized. At the pro-Cathedral one hundred and fifty young men rose at the moment when the priest began his references to the Leagues, and drowned the speaker's voice in noisy demonstations, which they made in leaving the building. At Arronquay Chapel a similar incident occurred, and in other chapels dissenting noises and gestures were made.

DUBLIN, Nov. 1.—The Archbishop of Tuam, in a sermon to-day, condemned the doctrine of "no rent" in unsparing language.

The first decision under the Land League was given at Monaghan to-day. The commissioners, after viewing a holding in the case reduced rent by 50 shillings for the next fifteen years.

Sexton has been released from prison on account of ill-health.

LONDON, Nov. 1.—Parnell was seized with violent spasms on Sunday, suffering several hours.

Parnell has been unanimously elected chairman of the Cork Chamber of Commerce.

BERLIN, Oct. 28.—Prince Bismarck's son, William, was defeated in Mulhousen by 5,000 votes, by a Liberal.

The Opposition may prove strong enough to necessitate the dissolution of Parliament.

BERLIN, Oct. 30.—A funeral service in memory of Gen. Garfield was celebrated to-day in the principal saloon of the Town Hall, which was draped in mourning. Many persons were present, including members of the Diplomatic Corps and high military and municipal authorities. Prof. Greist delivered an oration.

The results in 368 election districts are as follows: 36 Conservatives, 24 Free Conservatives, 89 members of the centre party, 32 National Liberals, 30 Secessionists, 25 Progressists, 12 Polls and 21 Protestors and Particulars

PARIS, Oct. 27.—A semi-official despatch is just published announcing that the column from Susa, under Col. Elionn entered Kairouan on Wednesday without opposition, the Insurgents having retreated to the southward after pillaging the city.

PARIS, Oct. 31.—The Chamber of Deputies, today, validated a great number of elections, including that of Gambetta for Belleville.

USKOHAMA, Oct. 28.—Cholera is spreading in the southern provinces and a quarantine has been proclaimed in Manila against vessels arriving from Japanese ports. A money order system has been established between Great Britain and Japan.

HONG KONG, Nov. 1.—The American ship *Humboldt Reynolds*, from Shanghai for New York, is totally wrecked in China Sea. Part of the crew was saved.

UNITED STATES.

ATLANTA, Ga., Oct. 26.—The cotton exposition formally opened at 2 o'clock to-day. One feature of the day was the making of two suits of clothes, one for Governor Colquitt, of Georgia, and one for Governor Bigelow, of Connecticut, from seed cotton, picked at 7 o'clock this morning. The suits were worn at the receptions this evening.

NEW YORK, Oct. 27.—Of the shipment of 75 English soles and 35 turbot for the American fish commissioner by the steamer *Parthia*, only three soles and six turbot survived. Prof. Baird, yesterday, planted the survivors off Coney Island.

NEW YORK, Oct. 27.—Chief Engineer Newton states that at the present rate of water consumption the supply in storage added to the natural daily flow from Croton River will be exhausted in nineteen days. Insurance men are nervous over the scarcity, and in printing establishments the fear of water being cut off, even for a few hours per day, is dreaded. Street sprinkling, or the waste of water in any way, is prohibited.

NEW YORK, Oct. 30.—There was a light rain today, but the effect in replenishing the city's failing water supply has been very meagre, and the most rigid economy in the use of water is still necessary.

WASHINGTON, Oct. 27.—Judge Charles J. Folger, of New York, has been confirmed for Secretary of the Treasury, Gov. Morgan having declined the position. Frank Holton, of Iowa, has been made First Assistant Postmaster General. Silas P. S. Hubell, of New York, has been nominated Consul at St. John's, Quebec.

WASHINGTON, Nov. 1.—A deficiency of $623,434 has been discovered in auditing the accounts of the late Collector Cook of this district.

PITTSBURG, Pa., Oct. 28.—The Treasurer of Beaver County was knocked down and the safe robbed of $13,000 this morning. There is no clue to the perpetrators.

DAVENPORT, Iowa, Oct. 28.—As the steamboat *Gilchrist* was coming down the Mississippi yesterday morning, when opposite here, the cam rods of the engine gave way, causing the machinery to become unmanageable. The river being very high and unusually rapid, carried the helpless vessel at a rapid rate. The steamer was thrown with tremendous force against the abutments of a bridge. She careened, causing the weights on the safety valves of the steam chest to break off, and the steam in the boilers poured out and enveloped the crew and passengers, scalding many in an awful manner. The steamer began sinking, in which condition she was carried past the city; the shrieks and cries for help by the victims being distinctly audible by the large crowds who thronged the banks, but could extend no assistance. There were twenty-three passengers, four of whom were females, and a crew of fifteen. Only eight persons were saved, and some of these badly scalded. Three of the lady passengers are known to have been killed or scalded to death.

BELLOWS FALLS, Vt., Oct. 28.—Ezra P. Cook and wife, an aged couple, were found dead in their house to-day. The woman had previously shown signs of insanity and, it is believed, she administered poison to her husband and then took her own life. There were no signs of violence other than a cut on the woman's head, which might have been made by falling.

LOUISVILLE, Oct. 29.—The Warren Tabernacle, Presbyterian Church, the finest in the city, was burned last night; loss $150,000. The origin was supposed to be incendiary.

SAN FRANCISCO, Oct. 30.—The ship *County of Aberdeen*, which arrived to-day from Rio, reports that on Aug. 9th, in lat. 37. 36 south, long. 51 32 west, between 9 and 11 a. m., passed ten corpses. Some of them, from the clothing, appeared to be seamen; the others were nude.

CHARLESTON, S. C., Oct. 30.—The entire business portion of Edgefield Court House, S. C., was burned to-day. The loss will reach $100,000. There are not provisions enough left to last forty-eight hours.

COLUMBIA, S. C., Oct. 31.—The fire in Edgefield is believed to have been set by a man named Malloy, who fled, and a party has gone in search of him. The first house burned was the Tillman House, belonging to Congressman Tillman. There was no water, and only three houses escaped.

CONTOCOOK, N. H., Oct. 31.—At 1.40 this morning there was a slight shock of earthquake here and at Hillsboro'; and it was quite severe at Henniker.

MILWAUKEE, Oct 31.—Two conductors of the Wisconsin Central Railroad are under arrest, and twelve others are suspended for conspiracy to defraud the company on passenger fares.

NEWARK, Nov. 1.—It is roughly estimated that the suspended Mechanics' National Bank's assets will pay depositors 50 to 60 per cent. The amount of defalcation is stated to be $2,600,000. The surrender of Nugent's factory property is demanded on the ground that it was acquired by money obtained from the Bank under the promise of turning it over in case of necessity.

OSHKOSH, Wis., Nov. 2.—The water from Lake Winnebago is rising constantly, and the damage to business is estimated at $5,000 per day.

OTTAWA, Nov. 2.—Rev. F. W. Gales, Secretary of the Dominion Alliance, has been furnished with a copy of the order in Council passed on the 31st of October, deciding that the Dominion Government will indemnify both appellant and respondent in the appeal case from New Brunswick now before the judicial committee of the Privy Council of England.

The members of the Syndicate now in New York, it is said, seek Vanderbilt's assistance in their struggle with the Grand Trunk for the control of the western traffic through Canada.

Publishers' Department.

Every Free Baptist Minister in New Brunswick and Nova Scotia is authorized to act as agent for the INTELLIGENCER, and will receive and forward subscriptions, old and new.

HINTS.

Every subscriber, in sending his subscription should give his correct Post Office address. He should never assume that the editor or mailing clerk will know the P. O. Address simply by seeing the subscriber's name.

It is best always to remit by Post-Office order, when one can be obtained.

When fractions of a dollar are to be sent Post stamps can be used. *One cent stamps are preferred.*

When a paper fails to reach a subscriber, or is received by him irregularly, he should promptly notify us. We can have no knowledge of the trouble unless notified.

If you are going West, purchase your Tickets from G. A. Freeze, the agent on Water Street, St. John. Passengers for Winnipeg or other western points have choice of route. Cushioned seats provided for all classes and baggage checked through. ap23-1y

ALMOST YOUNG AGAIN.

My mother was afflicted a long time with Neuralgia and a dull, heavy inactive condition of the whole system; headache, nervous prostration, and was almost helpless. No physicians or medicines did her any good. Three months ago she began to use Hop Bitters, with such good effect that she seems and feels young again, although over 70 years old. We think there is no other medicine fit to use in the family." A lady in Providence, R. I.—*Journal.*

REST AND COMFORT TO THE SUFFERING.

"BROWN'S HOUSEHOLD PANACEA" has no equal for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, Lumbago and any kind of a Pain or Ache. "It will most surely quicken the Blood and Heal, as its acting power is wonderful." "Brown's Household Panacea," being acknowledged as the great Pain Reliever, and of double the strength of any other Elixir or Liniment in the world, should be in every family handy for use when wanted, "as it really is the best remedy in the world for Cramps in the Stomach, and Pains and Aches of all kinds," and is for sale by all Druggists at 25 cents a bottle. jan. 28 1y.

MOTHERS! MOTHERS!! MOTHERS!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere at 25 cents a bottle. jan. 28. 1y.

THE COMMON EXPRESSIONS, "*I feel so dragged, My food don't digest,*" "*I do not feel fit for anything,*" which we so often hear during the *Spring and Summer* months are conclusive evidence that the majority of people require at that season especially a *reliable* medicine that will *strengthen the organs of digestion*, stimulate the *circulation of the blood*, and "tone up" the debilitated constitution.

HANINGTON'S "QUININE WINE AND IRON," taken according to directions, produces *buoyancy of spirits, vigor of mind* and gives *lasting* strength to the whole system. sept. 2. 3m.

Agitation in the world of homœopathic medicine has been its very soul of progress, as in politics and religion—the difficulties of opinion and the individuality of men have been parent to the disagreements by which the standard of these bodies have been elevated. So with most of our famous preparations—foremost in illustration of which truth stands the world-famous remedy to general debility and langour "Quinine Wine,"—and which, when obtainable in its genuine strength, is a miraculous creator of appetite, vitality and stimulant, to the general fertility of the system. Quinine Wine, and its improvement, has, from the first discovery of the great virtues of Quinine as a medical agent, been one of the most thoroughly discussed remedies ever offered to the public. It is one of the great tonics and natural life-giving stimulants which the medical profession have been compelled to recognize and prescribe. Messrs. Northrop & Lyman of Toronto, have given to the preparation of their pure Quinine Wine the great care due to its importance, and the standard excellence of the article which they offer to the public comes into the market purged of all the defects which skilful observation and scientific opinion has pointed out in the less perfect preparations of the past. All druggists sell it. sept. 9—2m—eow.

Time, it is said, proves everything, and among other things it has proved the value of Dr. J. C. Ayer's Cherry Pectoral as a standard remedy for diseases of the throat and lungs. This is a household medicine with thousands of people, and deservedly so, for it has been in use more than forty years, and all who use it know that it accomplishes even more than is claimed for it. Nearly every community possesses evidences of its great curative power, by persons who have been cured by it of various throat and lung complaints, and owe to it alone their recovery from the threatening symptoms of consumption. In emergencies like croup and sudden colds, Ayer's Cherry Pectoral is the remedy that every famely should have at hand for the treatment of these cases as they arise.—*Richmond, Va., Standard.* nov. 4. 1m.

IT IS SAID that among the Chinese, the Larvæ of Insects are used medically to give strength to feeble children; Caterpillar Syrup they consider a specific for Bronchitis; Dried Toads are given to give tone to the system, while the horns of the rhinoceros, the bones of tigers, the jaws of tigers, and the wings of bats all have a place in the Chinese Pharmacopœia. A simple remedy containing well-known ingredients is nothing thought of by the patient, and their doctors seem to be quite of the same mind. How different it is with us outside barbarians in this respect, where the elegant preparation, of pleasant taste, composed of well-known and well-tried remedies, such as is embodied in *Robinson's Emulsion of Cod Liver Oil* with *Lacto-Phosphate of Lime* is not only sought after by the patient but is recommended and largely prescribed by the most intelligent physicians.

For sale by druggists all over the Dominion. nov. 4. 1m.

TONIC.

Every one, at times, feels the necessity of some restoratives of the vital powers, depressed by mental or bodily exhaustion. In such conditions, let every one instead of flying to the alcoholic or medicinal stimulants, which must be followed by depression equal to their excitement, reinvigorate his deranged system by the natural tonic elements of the PERUVIAN SYRUP.

Sold by all druggists.

Fellows' Hypophosphites makes an old person look years younger. "This witness is true." Would that I could more widely make it known for its many virtues. Long may its inventor live to see the happy fruits of his invention.

ALEXANDER CLARK, D. D., Amherst, N. S.

"Aakansaw or Arkansas." It is immaterial which pronunciation is adopted in this case, but quite material that the citizens of Arkansaw with the rest of the United States and the Dominion should be supplied with good pens. Esterbrook's are popular, reliable and standard.

CAUTION.—Beware of any man who offers you an imitation article, no matter what it is, and says it is "just as good as the genuine;" they sell all kinds of "sham remedies" in this way upon the reputation of the Pain-Killer—be sure to get the genuine made by PERRY DAVIS.

THE HOG! THE HOG! THE HOG!

This important source of wealth to the Canadian farmer, is never so renumerative or so healthy as when his feed has been mixed continually with HARVELL'S CONDITION POWDERS, as they vastly improve his weight, and the flavor of his flesh.

DIED.

At his residence, Marsh Road, on the 13th Oct., John Odell, aged 46 years, of consumption, after a lingering illness which he bore with Christian patience. He leaves a sorrowing widow and two children and a large circle of friends to mourn their loss. He professed religion about 30 years ago and joined the F. C. B. Church in Kars of which he remained a consistent member until his death.

At Boston, on the 1st inst., George, third son of George Doherty, Esq., of this city.

At Hampstead, on the 23rd of Oct., very suddenly, Mr. Charles Williams, in the 64th year of his age.

In Lower Brighton, C. Co., Sept. 29th, Mrs. McGee, aged 72 years, widow of the late Geo. McGee. She leaves one son and three daughters to mourn their loss. Sister M. was one of the mothers in Israel. Her interest in the cause of Christ was deep and abiding. She will be much missed, but for her death was entering into rest. The funeral service was conducted by Rev. Thos. VanWart.

PRICE ONE DOLLAR.

SPAVIN CURED.

ST. JOHN, N. B., January 6th, 1880.

DEAR SIRS:

In regard to your favor of a few days ago, I would say: About one year ago a horse owned by me contracted a large Bone Spavin, for the cure of which I tried a number of the liniments and lotions advertised to cure the same, without any effect, and he became very lame. A friend of mine recommended me to try FELLOWS' LEEMING'S ESSENCE.

I acted upon his advice, and now I am happy to say the lameness has ceased and the Spavin disappeared. I now consider him entirely cured, and would cheerfully recommend FELLOWS' LEEMINGS ESSENCE as the best remedy in the market for all the lameness that horses are subject to.

Yours truly, THOMAS F. FRY.

Ringbone Cured.

AUGUSTA, ME., March 8th, 1880.

DEAR SIRS:

I have had occasion to use FELLOWS' LEEMING'S ESSENCE on a horse so lame from a Ringbone that I could not use him. I have been using it about three weeks, and find it does all you claim for it, as the lameness is gone and the enlargement has almost disappeared. I firmly believe a few days more will make an entire cure.

Respectfully yours,
JAMES T. PARKER.

ENGLISHMAN'S

COUGH MIXTURE!

The Great Remedy

FOR CURING

COUGHS, COLDS, Asthma, Hoarseness, Spitting of Blood, Bronchitis, Loss of Voice, WHOOPING COUGH, INFLUENZA, Soreness of the Throat, Chest and Lungs, and all other Diseases leading to CONSUMPTION!

It will not make new lungs, but will prevent the disease from spreading throughout the whole substance of the lungs, therefore facilitating recovery.

DON'T FAIL TO TRY IT!

We will give a large reward for a better remedy than Englishman's COUGH MIXTURE!

COUGHS and COLDS

should always have rational treatment, and never be neglected. Such trifling ailments are too often solemn warnings of Consumption; which may be cured or prevented by timely using ENGLISHMAN'S COUGH MIXTURE.

This popular remedy is infallible. It is highly praised by thousands of persons who have tried its wonderful efficacy, and strongly recommended by all as the best medicine ever known for speedily and permanently removing Coughs, Colds, and all pulmonary diseases.

Englishman's Cough Mixture

is a positive cure for Coughs, Colds, Sore Throat, Hoarseness, Difficult Breathing, Inflammation of the Lungs, Bronchitis, Asthma, Croup, and all Diseases of the Pulmonary organs.

Lame Horses!

FELLOWS' LEEMING'S ESSENCE will cure Sprains, Ringbones, Curbs, Splints, Swellings and Stiff Joints on Horses.
