Mr. Jarvis, the teller, did not know, Lewin, and as the cheque was for quite a large amount, he declined to cash it. Lewin then proceeded to Messrs. S. Jones & Co., and finding Mr. D. Carleton Clinch at his desk asked him to cash the check. Mr. Clinch, taking the check, gave him \$700 in bank notes and S. Jones & Co.'s check for the balance on the Bank of British North America He saw that the man endorsed the check Christian name he supposed it was all right. While the whole passage. Lewin was in the office Mr. Oliver T. Stone arrived, and after Lewin went out Mr. Clinch showed Mr. Stone the check and the endorsement. Mr. Sfone saw that the wrong name had been signed, and it was also then noticed for the first time that the check was dated Nov. 19. Mr. Clinch went out to look into the matter, and found at the Bank of B. N. A. that Mr. Gibson had been paid the money called for in the check. Meeting Lewin on the street the latter talked to him of buying a draft on Chicago. Mr. Clinch took him to his office, and there Lewin was told there was something wrong about the check, and that he must return the money. He said he would do so,—first remarking that he thought Mr. Gibson was good for the amount. Mr. Clinch went with him to No. 10 Elliott Row, where Furlonge boarded, and brought from Furlonge's room the \$1,500 which he returned to Mr. Clinch on receiving back his check. It appears that Lewin next went over to Messrs. Courts'

meat store, Portland, and having asked and obtained an envelope said he wished to put a valuable document in their safe. The "valuable document" was placed in the safe, and Lewin went away. He returned in a short time, however, and, getting the envelope, tore it up, and the contents and threw the pieces into the fire. Then he returned to the house on Elliott Row, and while there waiting for Furlonge he was arrested by the police. He was asked for the check, and said he hadn't it,-that he had returned it to the man from whom he had got it, viz., Mr. McLaughlin of Musquash. The charge upon which he was arrested was for robbery—that is stealing the check,—and it was made jointly by W. E. Collier, Manager of the Bank; D. Carleton Clinch, and Chas. E. Furlonge. Furlonge was interrogated by the Bank Manager, and he insisted that he was innocent-that Lewin | the use of that marvelous remedy, Hop Bitters. ANTI-BILIOUS PILLS Purely Vegetable.

THESE PILLS are not offered to the publi as a novelty or a universal panacea for "al the ills which flesh is heir to;" they have been extensively used, and their virtues are well known to many who will be glad to learn that the proprietor has made arrangements to connue the manufacture on a scale equal to the creasing demand. The Pills are all made nder his personal supervision, and can there ore be relied upon as being equal to those which ave given so much satisfaction to all who have used them. The oft-repeated assertions that in ous disorders and the various diseases of the ver, there is no remedy but by the use of Mercury, in Blue Pills or some other form, have en proved false by ample testimony from those who have used these purely Vegetable Pills. I s true, however, to remedy a derangement of e bilious secretion you must have somethin act directly and powerfully at times upon the iver; but it is not true that Mercury is the ly agent capable of producing this specification. e simple combination of Vegetable principles these Pills produces the same positive action oon the Liver as Calomel, and will correct the angement of that organ just as surely, withit the risk of any unpleasant or injurious conuences; at the same time they have an altere and tonic effect, which is the secret of their eat superiority.

The circumstances under which the formula r these Pills came into the possession of the oprietar, some years ago, were peculiar, and duced him to prepare from time to time such nantities as would enable him to supply the ants of his friends; but owing to the astonish g results produced by their use, the demand as increased so rapidly that he is compelled to anufacture on a much larger scale than was entemplated, and the unsought testimony from arious quarters of the great efficacy and unirmly gratifying results experienced, in cases bilious affections and other disorders arising m derangement of the biliary organs, prove yond all doubt that these Pills are capable of ecting the most surprising cures on record nd ought to be available by all who suffer i ny way from derangement of the functions of
