# THE RELIGIOUS INTELLIGENCER

SAINT JOHN, N. B., JULY 8, 1881

- The amount of space given to the account of the shooting of President Garfield has necessitated the omission of some other matter. It is of the kind that will keep, however.

- The consecration of Rev. Dr. Kingdon as Bishop-Coadjutor is to take place next Sabbath in Fredericton. Several bishops are announced to take part in the ceremony.

- A contemporary asks : "Whose children should be baptized?" Why anybody's children, if they meet the New Testament requirement, viz.: "Believe on the Lord Jesus Christ."

- Church of England ministers abound in Fredericton this week. They are attending the meeting of the Synod. The chief business is the election of Rev. Hollingworth Tully Kingdon, bishop- the Atlantic in a novel way-for an editor. He coadjutor, for at the last meeting they elected " Rev. | proposes to run all over southern Scotland, Eng-Henry Tully Kingdon" to that high office. - Do you attend the prayer-meeting of your rides very finely indeed.

They will travel abroad fifteen, ligious as in other things.

- And now Dr. Parker of London has spoken again, this time by cable. The report having reached him that he is accused of having plagiarized from Dr. Lormer of Chicago, he cabled Messrs. Funk & Co., of New York, that the statement is "utterly false." It is likely to be shown that the plagiarism is by Dr. L. from Dr. P., as in a former instance A nice state of affairs, certainly.

- It is announced that the appearance and immense sales of the New Revision of the Testament has not caused any falling off in the demand for the authorized version. As many of the old are called for as ever. Indeed so great is the demand that the American Bible Society has been compelled to get ar additional press which will give three hundred additional Bibles daily. These are significant and cheering facts.

- The interference of the Municipal Government of Calcutta with the missionaries in that city, in respect of open-air preaching, has been condemned by the Court before which the missionaries were summoned by the municipal authorities for having persisted in preaching without consenting to apply for the licenses which it had been ordered should be granted to them. The missionaries stood on their rights, and previous usage; and the Court dismissed the summons taken out against them : deciding, that the municipal authorities had no power te issue the prohibition which the missionaries determined to disregard. The Calcutta Municipality was wrongly and foolishly advised in this

- The failure of many a minister is not because of lack in him, but because of lack in the people to whom he ministers. They withhold the interest sympathy and practical help they should give him. Spurgeon was very young when called to the pastorate of the church which has grown so great in numbers and influence under his ministry. Some one hinted there was great risk in calling a mere boy to so responsible a position, and predicted his failure. "We'll not let him fail!" said one of the deacons. And they did not let him fail. True he was a remarkable young man; but there can be no doubt that the feeling of his people which was expressed in the deacon's, "We'll not let him fail" had and still has much to do with his marvellous success. The people have much to do with the success or failure of their minister. Strengthen his

The Freeman should investigate; it is a pity for it to be saying such silly things.

- The Camp at Sussex broke up on Saturday. Friday was a great day. The Governor General was there, as were several other distinguished gentlemen and a great host of people, not so distingcupancy of the Vice-Presidency, and especially duruished, perhaps, but quite as important. The day ing the last six weeks, he has shown all too plainly was fine. There was a review of the "troops," and a sham fight (isn't it a fact that there is a good deal exalted position which he occupies. He has openly of sham about the whole affair?), and general conespoused the cause of Conkling as against the Presigratulations on the "success" of everything and everybody. The conclusion was in the evening in dent, and has played the part of a small politician in the Senatorial contest at Albany. Should he the shape of a "hop, skip and jump" performance succeed to the Presidency, Conkling would be the known as a Ball. So ended the show. It cost 'power behind the throne," and there would enter probably \$100,000. Has any real good resulted in the administration all the worst features of the from it? ### A GOOD SIGN IN INDIA.

Dr. Phillips writes the S. S. Times that the Bible is rapidly gaining ground in India, a fact which he regards as a very hopeful sign. He says :

The Bible is fast gaining ground in this country. The Government has not yet put the New Testament into our public schools, as the ruler of Japan has done, but, what is better, the people are beginning to perceive the value of the Bible, and are asking for it. Many Christians have long prayed for some token of good from India, and I believe none could be more cheering than this, that the people are seeking the book which has for nearly a century been seeking them.

I could give you many illustrations of this remark. Only yesterday a Mohammedan tailor came to me land, and parts of France, with his son, on bicycles. for a copy of the entire Bible, bringing in his hand The father is an expert road-rider, while the boy a full bound copy, from the house of a Mohammedan friend, to show me just what he wanted. About five hundred persons were present at the opening of the services Sunday. Several clergymen were on the platform, as well as a choir of young ladies.

- The Rev Leonard Woolsey Bacon gives in The Congregationalist some interesting facts concerning A large number of soldiers, especially from the the evangelical work in France, and the willingness, even eagerness of the people to have the gospel
