

tried to get what sport they could out of the son bow to teach, and what is essential, who under and daughter of the farm-house. Martha, a pretty, quiet girl, who was her mother's faithful help, they styled " Nancy Matilda ;" and Sam, a handsome fellow of nineteen years, they called "Jonathan." He worked in the harvest-field with the hired men, and ate with them in the kitchen, except on Sundays, when he dressed up.

famous lake, some eight or ten miles away. The But even these simple studies he made so repulsive farmer's wife, mother-like, wanted her daughter to that the boys hated him. go too ; but although she prepared a nice lunch, and her husband spared "the Deacon" to take them, ulated study and punished mistakes. Of course no notice whatever was taken of Martha or Sam. that teacher thought his boys dull. They were One gentle girl went so far as to say, " It. does however, active in hating him ; and young Mason, seem too bad.

But a heartless little miss retorted scornfully : "I should as soon think of inviting one of old Ma'am Bowman's hens to go, as that stupid girl and her clod-hopping brother !"

As they rode off the young driver called back to I forgot to ask the way to Melton Pond."

" Take the main road for three miles till you cross the bridge at Willow Creek, then go on three miles farther. The first left hand road will take you to Melton Grove, on the edge of the pond. Be sure to take the left hand road, which turns round a great, red farmhouse, because the right hand one leads into-"

"Oh, thank you, thank you, kind sir," said the hand from our left without the aid of an old red farmhouse !"

So they rode on laughing, chattering and sing-Smith lived," and other nonsensical questions.

They got into a great gale of fun, and the time flew by very rapidly, till a fellow in the back seat shouted to the gay driver, "Here Latham, you were to turn to the left at this red house !"

"No, I was to take next left-hand road after passing it," was the reply.

"No !" " No !" " Yes !" " Yes !" " No ! No ! sounded from the noisy group ; and yet no one but I can teach you trigonometry at once, but you the driver seemed confident in the matter. They rode on and on, without a glimpse of Mel-

ton grove or Melton pond.

It soon seemed more like exploring a chaos than "nearing a paradise of wild flowers-cardinals and rules with which you work. Now which course do pond lillies"-as Sam had said. Latham looked you prefer to pursue ?" around and said, "This is 'a paradise' of mud that great fool has sent us into."

Belle Grey, the girl who had said, "It is too bad," replied, "He is not a fool, Latham. He is study. thought which opened before him, and therefore ing at the Argricultural College, and is working at felt happy. Sixty years after, when he had become grandfather's farm, scientifically, when he gets the Bible ever so interested him as did Euclid. through."

At this Latham laid his hand on his heart and groaned, and the party all laughed at this evidence as if to play. Returning home he would often study of wit.

And still they were riding on, over a most abomiway to the Deacon's knees.

"Here's a pretty mess ! lost away in a bog What can people be looking for here? I see wheeltracks and hoof marks all around. I can't get the teacher, meeting the boy's father, remarked, "Your old nag on much farther. Shall we turn back, and son may do the first, try the second, but he had betlet Belle Grey take the reins, and start afresh from | ter let the third alone." the old red farm-house for paradise ?'" cried La- That night the boy did the problem he was to

stands boys. An incident in the life of Dr. Mason, a learned and successful missionary in Burmah, illustrates where. She said :

the point we would make. Being the son of a poor Englishman, a shoe-maker.

he was sent to a cheap school. The master only rence with which some good parents regard any taught the three R's-reading, 'riting, 'rithmetic -These young folks were going off one day to a though now and then he threw in a little grammar.

> He had but one resource-the ferrule. It stim the dunce in his master's eyes, vowed to his mates

" I'll lick him when I get to be a man." The threat, as foolish as it was wicked, was never carried out, for Mason's father moved to another own, and his son accompanied him. Disgusted with school, he found employment in a shoe-shop.

Sam, from whom he had just taken the reins, "Oh, But one day, as he passed along the street, a new life opened its door, just wide enough for him to

enter, if he wished. Stopping at an old book-stall, a large geography met his eye. Turning over its pages he became interested in an explanation of the methods by which the distances of the heavenly bodies are measured. Returning home he begged his mother to buy the book for him.

She, sympathizing with his new thirst for knowyoung fellow in an undertone which the winds car- ledge, scrimped the family for a week or two. With the table ; but as the years go by, and I see my ried to Sam's ear. " We happen to know our right the money thus saved the geography was bought. It gave his first mental impulse, and made him a athematician

As he read, he discovered that the science by ing, sometimes two or three airs at once. They which stellar distances are measured, is called trigstopped farmers in their wagons, and asked them onometry. He had never heard of that word. But "the nearest way to Canada ;" or, " where John by inquiry, he learned that a retired naval-officer taught it, and to him he went.

"Have you room, sir, for another pupil in trigonometry ?" he asked. The old man pulled off his glasses, and after look-

ng the youngster all over, smilingly said, "Yes, take a chair.' "Do you wish, my boy," he continued, taking

down a Euclid, " to understand the principles will not understand the principles on which its calculations are based. If you study this book," holding up Euclid, " and then take up trigonometry, you will understand the reasons of the rectly

" I want to know the reason of things," replied

young Mason, " and I will study geometry first." The boy was interested in the new world of home in his vacation. He is going to cultivate his a learned scholar, he recorded that no book except charged. The accurate boy'grew to be a wealthy, He worked on the shoe-bench from seven in the

morning till seven at night. Then he went to school until the clock struck two. In three years he mas-

Novelties

one could make my children happier than I can, so I always try to be at leisure in the evening, and to arrange something entertaining. "When there is a good concert, lecture or enterainment, we all go together to enjoy it ; for what-

ever is worth the price of admission to us older people, is equally valuable to the children ; and we let them see that we spare no expense, where it is to their advantage to be out of an evening.

"But the greater number of our evenings are spent quietly at home. Sometimes it requires quite an effort to sit quietly, talking and playing with them, when my work-basket is filled with unfinished work, and books and papers lie unread on London House Wholesale. boys and girls growing into home-loving, modest

young men and maidens, I am glad that I made it my rule to give the best of myself to my family."-Exchange.

LEARN ACCURACY FOR ONE THING. Every boy and girl should determine to be accurate. In studying lessons be sure to get the exact meaning ; in talking, state the truth of the thing ; in working, do everything just right. I have lately Girdles, Buttons, and Trimmings in endless Variety heard of two boys who worked in the same store. They were named John and James. Their duties in all lines ; Clothing in all makes. were alike, and they were required to be at the store at half-past seven in the morning. John was always there on the minute, or a few minutes before the time ; James came the same number of minutes after. When John arranged the goods in the windows they were accurately marked and priced; James forgot to put the number on, or priced them incor-

These are only two of the things which marked the distinction between the two boys. But every day and week they grew further apart-John doing his work accurately, and therefore well ; James slighting all he conveniently could. Soon John was promoted for carefulness in his duties. James was warned to alter his manner, and finally disself-made man. Men liked to deal with him ; they were sure of being treated fairly. James tried several positions, but lost them on account of his inaccuracy in little details, and though he gets
