THE NEWS OF THE WEEK.

SAINT JOHN, N. B., APRIL 15, 1881

NEW BRUNSWICK.

Sailors are very scarce and can hardly be obtained for love or money.

The first steamer of the season went from this city to Fredericton on Monday.

Squire Harshman has been committed for trial at Moncton on the charge of perjury.

A house and three barns, the property of Mr. Henry A. Estabrooks, of Lower Burton, Sunbury County, were destroyed by fire with most of their contents on Friday night. Cause unknown. It is a great loss to Mr. Estabrooks.

Mrs. Peter Fairweather, a widow living at Apohaqui, lately stuck the prongs of a common table fork into her thumb which caused her considerable suffering until she was finally compelled to have her arm amputated above the elbow. The woman is now doing well.

The Chatham *Star* says Messrs. Boss & Southwood have closed a contract for fitting up six Allan Line steamers with freezers for carrying fish and meat across to Great Britain this spring. These gentlemen fitted up two steamers the past winter, with freezers, for a firm in Amherst for the same purpose

It is gratifying to know says the *News* that our City Life boats are to be put in good condition presently. The Common Council has been rather careless in this matter. The results of its neglect might easily have been serious. Hereafter, we hope, our life-saving appliances will be kept in as efficient condition as possible.

Isaiah Tingley Esq., of Harvey, A. Co., lost his dwelling place by fire the other day. Nearly all his furniture, provisions, &c., were consumed. The cellar contained about $9,000 worth of trees and shrubbery which were entirely consumed by fire. There was $3,000 insurance on the trees, but none on the house or furniture.

The *Courier* says, the proposed route for the Grand Manan steamer is as follows: Leave Grand Manan on Monday for St. John, calling at Welchpool, Fairhaven and St. Andrews, returning on Wednesday; leave Grand Manan for St. Stephen on Friday, calling at the same places and returning to Grand Manan on Saturday. The Company is now making every effort to obtain a boat.

A Sussex correspondent of the *Sun* says a Mrs. Lester whose husband lately died, attempted Sunday afternoon to commit suicide. She walked into the river near Roache's Bridge, and but for several young men who had noticed her she no doubt would have accomplished her purpose. It is said she had trouble about the property her husband lately left her and this has worked upon her mind.

Messrs. G. Fleming & Sons have been awarded a contract for seven heavy passenger locomotives, 17x24 cylinder. The whole amount of the contract is about $75,000. Messrs. James Harris & Co have received a contract for a number of box and platform cars—about thirty of each. They will average about $600 each. It is evident that the work of our St. John contractors is giving satisfaction.

By some means the grass in the Church of England Burial Ground caught fire Sunday afternoon. The flames ignited the palings around a number of the lots, and the Portland hose cart had to be sent out to subdue the conflagration. Quite a large amount of fencing was burnt and the loss to the lot owners will be heavy. A portion of the graveyard is badly wrecked, some of the most valuable trees being destroyed.

The following are the names of the applicants for admission to law-student and attorneyships for the present term:

For Attorneys—Messrs. Forest, Welsh, Milligan, Tuck, Walker (col'd), a graduate of G. G. Gilbert's office, St. John.

For Students—Messrs. W. S. Carter, John Boden, Jas. T. Connors, F. C. Ackerman, T. Trafton; J. W. Hickson, Sanford Pugsley, F. M. McLeod.

The *Times* was a few days ago, shown a cheque for $93.00 sent to a Moncton gentleman by a young man now in the land of the free, &c., to repay a loan, with full interest thereon, which the young man made under circumstances not in accordance with law, but grossly in violation thereof. Though not wishing to recall an unpleasant occurrence, it will be best perhaps to say that the loan was obtained from Oliver Jones, Esq., through the use of forged names, the crime not being detected until long after the misguided youth had crossed the lines and placed himself out of reach of our laws.

At the last meeting of the Portland Town Council a communication was read from Mr. John H. Parks, in which he stated that it was proposed to erect a cotton mill near the Intercolonial railway station. It would employ about 300 hands to be increased in a few years to 800 to 1,000 men. Mr. Parks asked if the Council would exempt the mill from taxation for a number of years.

The Chairman referred to the act that Mr. Parks and a number of English gentlemen were interested in the mill. The people of Sussex had made liberal offers, but Mr. Parks, being a St. John man, favored this place. The petition was referred to the Town Officers Committee.

The Fifteenth Annual Report of the Resident Physician and Secretary of the General Public Hospital for the year ending December 31st, 1880, is a carefully compiled document covering a good deal of information. The receipts from all sources amounted to $21,150.78, and the expenditures, including interest on bonds, to $15,806.07, leaving a balance to the credit at the close of the year of $5,344.71. The number of patients in Hospital on the 1st January, 1880, was 34, and the number admitted during the year 339—in all 373. Of these there were discharged during the year as cured 191, improved 42, incurable 23, disorderly 7, and by request 20. Death had taken off 18, and there remained at the close of the term 13 patients. Twenty-five were classified in the Eye Report. St. John City and County supplied 112 patients, other Counties in New Brunswick 85, and the Dominion and Foreign Countries 176.

The first of the steel rails for the New Brunswick Railway arrived on Saturday in the steamer *Tantallion*, Captain Hunter, from Barrow-on-Furness, England. The entire cargo of the steamer is made up of 2,000 tons of steel rails. The remainder of the 14,000 tons of rails ordered will be shipped as quickly as the Steel Company can turn them out. The rails will be taken over the St. John and Maine and New Brunswick and Canada Railway to Woodstock.

It is fully expected that the work of changing the gauge will be begun this month and every effort will be made to carry the work on to completion with all possible speed. The sleepers have all been got out and are now being distributed along the road. Five new locomotives have been purchased from the Intercolonial Railway and flat box and passenger cars are being built at the Company's works at Gibson.

The new railway bridge is completed and will be opened to-day. No bridge of the same size has ever been erected in this Province with greater rapidity, the work having been only commenced about three months ago. The bridge is 1,100 feet long, and every possible care has been taken to make this bridge strong and durable while the ornamental features have not been neglected. The Company are now awaiting a decision of the Municipal Goverment of Presque Isle when the road will be extended fifteen miles beyond Caribou.

The track laying is to commence at Woodstock and continue north to Grand Falls, after which the section between Woodstock and Gibson will be done.—*Tel.*

NOVA SCOTIA.

Windsor has resolvd to establish a cotton factory.

A great mine of mica has been discovered in the Mountains in Cape North, C. B.

Gold has been discovered in Neil's Harbour, Cape North, C. B.

$60.000 is the ofier from an American Company for McKensie's Copper Mine near Sydney, C. B.

The Central Board of Agriculture lost $56 on their recent sale of imported thoroughbred stock.

It is asserted that the Steel Company at Londonderry will shortly mine their own coal. They use 100,000 tons a year.

Nearly forty car loads of potatoes, 350 bushels to a car, have been recently shipped from Berwick station.

The Attorney General of Nova Scotia has introduced a bill to amalgamate the office of Queen's Printer with the Department of Mines, the present Queen's Printer to perform the duties of a department clerk at a saiary of $1,200, instead of $1,600, as at present.

A Lunenburg N. S. shopkeeper recently found a man in his store robbing the till, which only contained fifty cents. He searched him and found the fifty cents and twenty dollars besides which he appropriated, and then kicked the burglar out. Pretty sharp practice.

There have been three changes in the appointments of sheriff this year. In Colchester County Mr. Leander J. Crowe takes the place of the late Mr. Blanchard, in Kings, Mr. Stephen that of Sheriff Caldwell, and in Inverness Mr. Hugh McDonald that of Mr. R. McDougall.

Mr. Donald Archibald has brought in 72 ozs. of gold from his mine at Moose River, as the result of one hundred days work, done on the tribute, by which operation the miners each made four dollars per day, after paying Mr. Archibald ten per cent, out of proceeds. The value of the gold was about $1,400.

Deposits in the Government Savings Bank at Halifax during March amounted to $111,700, and the withdrawals to $54,710. The deposits during the nine months ended the 31st March were $1,196,680, and the withdrawals in the same period $686,797. The returns from other points show a proportionate increase.

For several years Mr. Samuel E. Frost, of Lower Norton, Kings County, has been shipping potatoes to a merchant named B. F. James, in Bermuda. Mr. Frost has already received 70 barrels from the latter gentleman, for seed purpose, and when the harvesting season arrives Mr. James is to set sail with his vessel for this port and return with the gathered crop in the fall.

The Local Government has appointed Hon. Samuel Locke, of Lockeport, to be a member of the Legislative Council, in place of Hon. Freeman Tupper, deceased. The *Herald* says that Mr. Locke's appointment will give general satisfaction, more especially when it is known that he is a firm believer in the policy of abolishing the body to which he has been appointed.

Several borrowing projects are about being launched on the public in Halifax. The city wants to borrow $150,000 to fund its uncollectable taxes and $40,000 for water extension, and the local Government wants to borrow $400,000 to re-loan to Counties. The effort to raise capital to start a cotton factory has failed, only about $60,000 of the $300,000 being subscribed, although the city would have given freedom from taxation and free water for twenty years and a free site for the factory.

ENGLISH AND FOREIGN.

The Duke of Argyle Lord of the Privy Seal, has left the Cabinet, on account of the Land Bill.

Lord Carlingford, formerly Mr. Chickester Fortescue, has accepted the office of Lord of the Privy Seal, vice the Duke of Argyle, and will take charge of the Land Bill in its passage through the House of Lords.

LONDON, April 12.—Bradlaugh was re-elected to Parliament on Saturday, defeating Corbett (Conservative) in Northampton by 125 votes.

LONDON, April 13.—Beaconsfield is restless and is not inclined to take nourishment.

ST. PETERSBURG, April 11.—It has been known for some time that Lord Dufferin will be appointed Ambassador at Constantinople and Sir Augustus Paget will succeed him as British Ambassador here. Lord Dufferin will probably leave this city on Friday.

Sentence of death was finally read to-day in the presence of the prisoners. They were allowed 24 hours to appeal.

THE RECENT EARTHQUAKE AT CHIO.

LONDON, April 9.—A despatch from Chio to the *Times* says that a medical commission is now sitting to consider the expediency of covering the rubbish in the fortress with earth, there is no hope of saving any lives, and the disinterment of the dead might produce an epidemic.

It is believed that throughout the island, which contained 70,000 inhabitants 6,000 or 7,000 were killed, and a quarter of the survivors wounded.

The French, British, United States and Austrian gun vessels are doing all in their power to assist in the work of relief.

Only ten of the inhabitants of Chesme were killed, but many houses are in ruins, and 30,000 people are without shelter.

The *Times'* correspondent at Chio telegraphs under date of the 7th inst.: I have just arrived here from Constantinople, and find a picture of desolation, such as is rarely witnessed. The town looks as if it had been terribly bombarded. Hundreds of houses have been transformed into a shapeless mass of ruins under which lie buried an unknown number of victims. A majority of the remaining houses are already cracked and roofless, and may fall at any moment. Nearly every building in the town has suffered more or less

The inhabitants wander about anxious to search for missing relatives or lost property, but are afraid to risk their lives in the perilous work of clearing away the rubbish. Many who are willing to expose themselves to the danger are prevented by friends or by the police. Fear, grief and despair are depicted on nearly every face, and all have some sad or tragic tale to tell.

The first shock was felt on Sunday afternoon, at about 1.30 o'clock. Immediately the houses began to fall and wild shrieks were heard on every side. Then followed an awful silence of some minutes and the terrified survivors gradually ventured into the narrow lanes and reached the open spaces. Shortly afterwards another terrible shock completed the devastation; then it remained quiet until sunset, then it again began to shake the Island throughout as severely as before. All night the shocks succeded each other at short intervals, and each one was preceded by dull sounds like subterranean explosions.

LATEST.—ANOTHER TERRIBLE EARTHQUAKE.

SCIO, April 11.—A violent shock of earthquake, lasting four seconds and increasing in strength has just passed over the island, followed by falling of houses on all sides.

SCIO, April 13.—The latest returns from Chio state that 8,000 persons were killed and 10,000 injured by recent earthquakes. The locality which suffered most is Novita, where 1,200 were killed.

VERSAILLES, April 12.—Prince Pierre Napoleon Bonaparte is dead.

UNITED STATES.

WASHINGTON, D. C., April 6.—Information has been received by the Chief Signal Officer that the Missouri River continues gorged at Yankton, where the water has risen three feet during the past twenty-four hours. The observer reports over fifty lives lost at Gaysville, Vermillion and Meekling.

NEW CANAAN, CONN., April 7.—A dwelling and seven other buildings of Stephen Hoyt's Sons' Nursery were burned last night. Thos. Gray was burned to death. The books, spring orders and many thousand dollars worth of nursery stock were destroyed; partially insured.

BOSTON, April 8.—Stephen N. Stockwell, for many years connected with the editorial and reportorial management of the Boston *Journal*, died this morning from complication of diseases, aged fifty-eight.

NEWARK, N. J., April 13.—The drying department of the Peters' Oil Cloth Works was burned to-day. Loss $30,000.

Every Free Baptist Minister in New Brunswick and Nova Scotia is authorized to act as agent for the INTELLIGENCER, and will receive and forward subscriptions, old and new.

When a paper fails to reach a subscriber, or is received by him irregularly, he should promptly notify us. We can have no knowledge of the trouble unless notified.

NOW!

There are yet a good many subscribers in arrears. They have received statements of account, and know just how much is due. We do not wish to erase their names from the list; and they certainly ought not to expect us to do so under the circumstances. We hope they feel they cannot afford to be without the paper in their homes.

We need the money they owe, and make this additional appeal to them, hoping they will respond at once. Make an effort to send your subscription by the next mail.

HINTS.

Every subscriber, in sending his subscription should give his correct Post Office address. He should never assume that the editor or mailing clerk will know the P. O. Address simply by seeing the subscriber's name.

It is best always to remit by Post-Office order, when one can be obtained.

A GOOD MEDICINE. Mr. J. Wyatt, of Rockingham, N. C., has a little boy, five years old, who has been suffering with a skin disease, breaking out all over, ever since he was born. He informs us, he saw the advertisement of Dr. J. C. Ayer's Sarsaparilla in the Danville *Times*, and bought a bottle of it. He administered it to the boy, and states there has been a wonderful improvement. The breaking out is rapidly disappearing, and the boy's appetite is good for the first time.—*Danville Va., Times.*

AYER'S SARSAPARILLA is sold by all druggists, and is a positive remedy for impurities of the blood. April 1st—1m.

A WORD OF WARNING. To protect the public, and prevent them from being imposed upon by the worthless counterfeits and imitations of our MURRAY & LANMAN'S FLORIDA WATER, we have prepared paper in which the words "LANMAN & KEMP, New York," appear in pale letters when a leaf of the little pamphlet is held up to the light; and whenever Florida Water is offered for sale wrapped in a pamphlet that does not have this water-mark or stamp on it, then it is counterfeit, and should be rejected.

AS A MEANS of purifying the blood and humors, there has never been anything superior to BRISTOL'S SARSAPARILLA AND PILLS; and where they are faithfully used, we venture to say that no disease, however aggravated or severe it may be, can long withstand their cleansing, healing, and restoring power.

ARE YOU IN GOOD HEALTH?—If not, send your address (mentioning this paper) to DR. SANFORD, 164 Broadway, New York, and receive free, a 100 page book, treating of numerous diseases, and by which you can probably learn the nature of your complaint and what to do for it.

Were man to conform *more* to the laws of health and of nature, and be less addicted to the gratification of his passions, it would not be necessary to advertise Fellows' Compound Syrup of Hypophosphites as a restorative of the brain and nervous system, while the world's progress and enlightenment would indeed be marvellous.

THE SECRET OF HEALTH.

Keep the pores open, the digestive organs free from obstruction, and the blood and bile pure, with an occasional dose of HERRICK'S SUGAR-COATED VEGETABLE PILLS, and you are safe. They never fail in any case of sickness or inward pain. Try them.

FOR ASTHMA AND PHTHISIC.—Mix one teaspoonful of Perry Davis' Pain-Killer in three teaspoonfuls of Syrup, and take two or three teaspoonfuls of the mixture every fifteen minutes, till relief is obtained.

Mr. A. L. Orchard, of Queens County, N. B., cannot refrain from informing us of a remarkable cure effected by Wilson's Pulmonary Cherry Balsam. His sister caught a severe cold, which settled in quick consumption. "I procured two bottles of the Balsam, which wrought auch a change, that by its after use she was entirely restored to health."

THE NEXT BEST THING TO HEALTH.—Next to possessing good health we may fairly rank the means of acquiring it. This is not to be done by stimulating the organs into a false appetite or momentary vigor. Those who resort to such expedients will find that they eventually increase the evils they wish to remove. But it is to be effected by creating a new tone in the stomach, by purifying the blood, and altering the secretions. Then the first symptoms of returning health will be felt in a glowing elasticity of spirits, and a relish for labor, whether bodily or mental, which is always characteristic of a sound body. Make the experiment, then, and as the best means of ensuring success, try Dr. Wilson's Family Anti-Bilious Pills.

Jas. Taylor writes us that Dow's Sturgeon Oil Liniment cured his horse, injured while ploughing and trying to step over a stump, almost cutting his hind leg in two; and, also, that he has used it in his family ever since introduced, and it is the best remedy for cuts, sprains, rheumatism, &c., he ever used.

ORGANS AND PIANOS.—We advertise on another page Beatty's Celebrated Organs and to which we refer our readers. Daniel F. Beatty began business only twelve years ago, and in that time it has swelled to immense proportions. Perseverance, industry and energy, and the fact that Mr. Beatty's instruments are just what he represents them to be, nothing more or less, together with liberal advertising, have brought upon him the crown of success. Mr. Beatty was also the first Organ Manufacturer to cut off the enormous profits of agents by selling direct to the purchaser. Send for an illustrated catalogue and see his prices for yourselves, or better still, visit his Factory at Washington, New Jersey, and see the instruments made.

WHEN EXAMINED AFTER DEATH, the lungs of those who have died of tubercular consumption are found to be honey-combed with little cells full of purulent matter. To this terrible condition the lungs of any one may be brought who neglects a cough or cold. Unfortunately, many so-called cough remedies are ineffective as well as impure, containing ingredients absolutely prejudicial to the physical well-being of those who use them. There is, however, a source of renewed health and strength upon which persons harrassed and weakened by lung and bronchial affections can depend with certainty. We refer to Northrop & Lyman's Emulsion of Cod Liver Oil and the Hypophosphites of Lime and Soda, which is justly esteemed throughout the Dominion for its effectiveness and purity. The medical faculty have long recognized the value of purified oil, obtained from the cod's liver, in throat and lung affections, and the Hypophosphites are universally prescribed in cases of pulmonary decline and general debility. In this preparation the phosphorus which it contains (phosphorus being an important natural constituent of the physical organism) serves to supply stamina and vitality, by enriching the blood, while the lime and soda are of incalculable service in solidifying and strengthening the bones. This medicine not only counteracts pulmonary inflammation and arrests physical decline, but is a valuable remedy in scrofulous cases. As a means of checking and compensating for the tremendous waste of bodily tissue caused by lung and chest diseases—of healing and soothing the irritated membrane of the breathing organs, and of promoting the development of pure, rich blood, this preparation has no equal. All druggists sell it. March 18—2m—eow.

QUARTERLY MEETING NOTICE.

RINGBONE CURED.

AUGUSTA, Me., March 8th, 1880.

DEAR SIRS: I have had occasion to use **Fellows' Leemings' Essence** on a horse so lame from a Ringbone that I could not use him. I have been using it about three weeks, and find it does all you claim for it, as the lameness is gone and the enlargement has almost disappeared. I firmly believe a few days more will make an entire cure.

Respectfully yours,
JAMES T. PARKER.

SPAVIN CURED.

ST. JOHN, N. B., January 6th, 188—

DEAR SIRS: In regard to your favor of a few days ago, I would say: About one year ago a horse owned by me contracted a large Bone Spavin for the cure of which I tried a number of the liniments and lotions advertised to cure the same, without any effect, and he became very lame. A friend of mine recommended me to try **Fellows' Leemings' Essence**. I acted upon his advice, and now I am happy to say the lameness has ceased and the spavin disappeared. I now consider him entirely cured, and would cheerfully recommend **Fellows' Leemings' Essence** as being the best remedy in the market for all lameness that horses are subject to.

Yours truly,
THOMAS F. FEE.

Pearsall's Pure Teeth.

Language fails to give expression to the beauty or the utility of a beautiful set of teeth. With no other charm the possessor may well feel proud. **Enamelline** is unequalled for cleansing, preserving, and beautifying the teeth, giving them a pearl-like whiteness and hardening the gums. Enamelline removes all tartar, hardens the enamel, arrests decay, and imparts to the breath at all times a most delightful fragrance. Price 50 cts.
