The White House is a rather expensive institution, aside from its president's salary of \$50,000. The staff of employes in and about the executive office requires \$32,000 a year, and the stationery and miscellaneous appointments some \$8,000 more. This is exclusive of \$10,000 a year for care and repairs of the mansion, to 15,000 for lighting the to take back the statement he had made, feeling house and grounds, \$2,000 for fuel, \$5,500 for the quite satisfied that Costigan's assertions were corgreenhouse, and a single item of \$30,000 for refur- rect. Christian K. Ross, the father of Charley Ross, is quoted as saying: "The only tidings I have ever received of Charley since he was stolen was the

demand for a ransom of \$20,000. If I had paid that I would have had him long before this. As it is I'have spent \$60,000, and have not got him. I still have detectives employed and hope in time to find him. I have examined more than three hundred lost children in the search, some of whom had been stolen, but none of them was Charley." The Boston school committee has finally settled the disputed question of corporal punishment by the adoption of an order in a modified form which provides that corporal punishment shall be inflicted only by the principal or by his express authority, and only at a session subsequent to the one at which the offence was committed; also, that corporal punishment shall not be inflicted on any pupil in the high schools or on girls in the grammar schools. St. Peter's Cathedral Church, which has been in progress of erection in Montreal nearly ten years, and would have been the largest church edifice. when finished, according to design, on this continent, it is doomed to destruction. When almost ready for the roof, and after hundreds of thousands of dollars had been expended, as well as many lives of workmen lost in its erection, it is found that the undertaking was too great, and it has been determined by the Catholic Church authorities to have the building razed to the ground and a church of moderate dimensions erected in the east end of city, where the Catholic population resides.

Gortschakoff, the distinguished Russian diplomat, is entirely unfitted for further service in the Russian Cabinet, in consequence of old age. His silvery locks and tottering step give evidence that he cannot survive a great while longer. He spends the summer months in Baden-Baden and the winters in Southern France or Italy, having ignored Russia as a place of residence. It is said that his mind has become weak and childish, and that be constantly mourns over the ingratitude of his country in not reinstating him in power, as in days gone by.

There was a burial scandal in the village of Lowton, in Lancashire, a fortnight ago. The vicar of the parish objected to the interment of an "outparishioner," unless according to the rites of the Church of England. The deceased was a Nonconformist, and the father insisted upon the service antee that there should be no breach of the peace.'

Parker Memorial Hall, Boston, is in danger it appears. The Free Religious Index publishes a double-leaded appeal for help to pay off the mortgage and save the Hall, for which the trustees have received an offer to purchase. "This Hall," it says, "was built to perpetuate the memory and work of Theodore Parker. His name is inscribed on its walls. To divert it to any other uses, to let it pass from the hands of those who are its special guardians is like taking down a monument. Are there not gratitude, pride, faith, public spirit enough left among the Liberals of Boston and Massachusetts to avert this disgrace?"
