I was greatly afflicted with Rheumatis a and Dropsy. My legs were swollen to an enormous size; I could not even get from my bed without the aid of my wife, for several days at a time. I tried all kinds of patent medicines and a number of bottles of Dr. Thomas' Eclectric Oil, and also Johnson's Liniment, but found myself growing worse, and I applied to several doctors from whom I neceived no benefit. In the following summer I went to Halifax, to the Provincial Hospital, and there lay under the doctor's treatment for eight weeks. I had my leg tapped twice, and blistered several times. I suffered day and night everything but death. I then left that institution and returned home, having received little or no benefit, and expecting never to get any better. I was benefit, and expecting never to get any better. I was then advised by a friend to resort to your valuable medicine.
