The circumstances under which the formula or these Pills came into the possession of the roprietor, some years ago, were peculiar, and luced him to prepare from time to time such uantities as would enable him to supply the ants of his friends; but owing to the astonish ng results produced by their use, the demand as increased so rapidly that he is compelled t anufacture on a much larger scale than wa atemplated, and the unsought testimony from rious quarters of the great efficacy and uni ormly gratifying results experienced, in case bilious affections and other disorders arisin om derangement of the biliary organs, prove eyond all doubt that these Pills are capable fecting the most surprising cures on record, nd ought to be available by all who suffer in

The few compositions which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary rtues. Perhaps no one ever scured so wide a reputation, or naintained it so long, as AYER's CHERRY PECTORAL. It has been known to the public about forty

It still makes the most effectual cures of Coughs, Colds, Consumption, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors to a great extent, and given a feeling of immunity from their painful effects, that is well founded, if the remedy be taken in season.
