Baptist) was filled to overflowing, Rev. J. W. Clark pastor of the church, presiding. Short addresses were made by T. B. Bassett and J. Colter White, during which time Prof. Foster, M. P., was refreshing the inner man (as he was late arriving) after which he spoke half an hour in terms appropriate to the occasion and in his usual happy style. The chairman made a few telling remarks, and the entertainment closed with what was to be but (was not the National Anthem. Receipts of the meeting $65.—*Sun.*

Mr. Braithwaite succeeded in capturing six bears within three days, at Burnt Hill Brook, last week. This place is a sort of rendezvous for bears, on account of it being the depot for the supply camps of Evans & Co., and William Richards. Mr. Braithwaite killed two by a right and left shot. One was in the trap and about to escape, and he immediately discharged one barrel of the gun at him. Hearing a noise behind him, he turned and saw another huge animal just going into the bushes. He immediately discharged the other barrel at him, killing him almost instantly. This is about as good a catch as has been made for some time.—*Capital.*

Bears are troubling the farmers of Dutch Vale, Sussex, very much this season. Mr. Henry Flewelling lost five sheep in one night and several on other nights, and Mr. Edward Flewelling also lost several. The bears did not destroy the carcasses but sucked the blood. The farmers mustered to the number of twenty, in Mr. Flewelling's house the other night for the purpose of destroying bruin as soon as he should show his nose, but after a hard day's work the toilers of the soil slept soundly and the bears in tearing off the boards from the barn did not wake them. The country is covered with traps, but at latest accounts the traps were not occupied. —*News.*

The death, by his own hand, of Robt. Kennedy, of Letang, Charlotte County, was recently announced. It appears the event caused some excitement in the neighborhood. The Calais *Advertiser* says: "Kennedy was an old crippled man, aged 76 years, a native of the county Derry, Ireland, but for the last 40 years a resident of the parish of St. George, and for the last three years lived on his farm at Letang, with his neice and her husband, one John Gray, of Portland, St. John, and to whom, some time ago he had willed the property. The man being a cripple it was considered strange how he could manage to hang himself, and suspicions of foul play were creted." The investigation showed, however, that his death was clearly a case of suicide, and the Coroner's Jury so decided.

The Town Council of Miltown adopted the following resolution at a meeting held on Tuesday evening.

Tuesday's Evening *Globe* gives the following graphic description of a thunder storm which took place in this city the day previous "The electric storm of yesterday, as far as reports show, was severest in St. John, though at Gaspereaux on the St. John and Maine Railway telegraph poles were destroyed and the railway's wire rendered useless. The rain fell in torrents for a time, the rate for ten minutes, when the storm was at its worst, being within a fraction of 4½ inches. One of the pinnacles of St. John's Church was knocked off by the lightning, and a chimney on the Congregational Church was demolished. Mr. Wm. Finlay's house on Union street was struck, but the lightning appeared to run down the water spout, shattering it only. In the manufacturing department of the London House eight young women were prostrated by the lightning, and two remained unconscious for an hour and a half. Three in Robinson & Company's Shoe Factory were quite seriously affected, and medical assistance had to be called in before one of the three revived. A number of telephone wires were damaged by the storm, during the progress of which the streets were entirely deserted except by persons who occasionally ran out from under shelter to stop a runaway horse. In the Western Union Telegraph offices the operators had to leave their instruments, some of which were damaged by the lightning. Throughout the city there was considerable alarm among the nervous. One manufacturer who went into his work rooms during the storm found that all the girls had hid themselves in a dark room."

AN IMPORTANT OMISSION.

Sir L. Tilley in his return in reference to tall chimneys omitted to mention a very important industry, and one which has not only given employment to many hands, but has through the influence of the N. P. relieved thousands from physical suffering. We refer to that great remedy for corns, "PUTNAM'S PAINLESS CORN EXTRACTOR." Sure, safe, and painless. Sir Leonard may exclaim, "Canada for Canadians," but we most emphatically exclaim, "Putnam's Painless Corn Extractor for corns." Sold everywhere.

A PEDLAR'S TESTIMONY.

Pedlars know what articles are wanted and will sell well. They are not likely to carry much unsalable stock on their backs or in their waggons. One of these writes: "Within the last year I have disposed of about five hundred bottles of Dow's Sturgeon Oil Liniment. There are endless calls for it, both from parties who have used it and know its virtues, and also from those who have heard of it from others. Last week it cured a man who had been lame with a sprained ankle, by two applications." This Pedlar's statement but re-echoes that of hundreds of dealers throughout Canada.

Never despair of becoming a good writer when Esterbrook's steel pens are within the easy reach of all, both in the ease with which they can everywhere be procured from the stationers, and the low price at which they are sold.

PENNY WISE AND POUND FOOLISH.

Nothing is more foolish than to suffer when there is a remedy at hand. Still some people are so prejudiced that they would permit their cough to degenerate into consumption rather than spend twenty-five cents for a bottle of Dr. Wilson's Pulmonary Cherry Balsam. Its merits and wonderful efficacy is acknowledged on every hand. It has cured hundreds of persons whom physicians pronounced incurable. It is pleasing to take. It is rapid in its cures. It leaves no evil results behind. It always gives satisfaction. It does its work thoroughly. It gives immediate relief. It has stood the test of years. Yet prejudice prevents some from using it. But those who prefer their false prejudices to Dr. Wilson's Pulmonary Cherry Balsam are only doing themselves harm and wilfully casting aside that remedy which would ensure their cure.

Do you wish to curtail your medicine bill and retain sound health. Use Dr. Wilson's Anti-bilious and Preserving Pills. They are adapted to every disease having its origin in impure blood, and it can be scarcely necessary to remind the reader, that the purity of the blood determines every person's health and vigor.

Jas. Shannon, Leaskdale, writes:—"For many years my wife was troubled with chilblains, and could get no relief until about two years ago; she was then not able to walk, and the pain was so excruciating that she could not sleep at night. Your agent was then on his regular trip, and she asked him if he could cure her. He told her *Dr. Thomas' Eclectric Oil* was a sure cure. She tried it, and judge of her astonishment when, in a few days the pain was all allayed and the foot restored to its natural condition. It is also the best remedy for burns and bruises I ever used."

WHAT THEY SAY OF IT? A FEW FACTS FOR THE PEOPLE.—There are but few preparations of medicines which have withstood the impartial judgment of the people for any length of time. One of these is Dr. Thomas Eclectric Oil. Read the following and be convinced:—Thomas Robinson, Farnham Centre, P. Q., writes, "I have been afflicted with rheumatism for the last ten years, and have tried many remedies without any relief, until I tried Dr. Thomas' Eclectric Oil, and since then have had no attack of it. I would recommend it to all."—J. H. Earl Hotel Keeper, West Shefford, P. Q., writes—"I have been troubled with liver complaint for several years, and have tried different medicines with little or no benefit, until I tried Dr. Thomas' Eclectric Oil, which gave me immediate relief, and I would say that I have used it since with the very best effect. No one should be without it. I have tried it on my horse in the case of cuts, wounds, etc., and think it equally as good for horse as for man."——A. Maybee, Merchant, Warkworth writes, "I have sold some hundreds of bottles of Eclectric Oil, and it is pronounced by the public, 'one of the best medicines they have ever used;' it has done wonders in healing and relieving pain, sore throats, etc., and is worthy of the greatest confidence."—— Joseph Rusan, Township Percy, writes: "I was persuaded to try Dr. Thomas' Eclectric Oil for a lame knee which troubled me for three or four years, and I never found anything like it for curing lameness. It is a public benefit.

PAIN CANNOT STAY
WHERE
Universal Liniment
IS USED.

Universal LINIMENT

Is warranted equal to any article for all Diseases of Man and Beast.

Universal Liniment.

An external application for Sprains and Bruises, Sore Throat, Quinsy, Pains and Soreness in the Bones and Muscles, Paralysis or Numbness in the Limbs, Pains and Stiffness of the Joints, Swellings and Tumors, Rheumatism, Gout, Tic Doloureux (Neuralgia), or Pains in the Nerves, Milk Leg, White Swellings, Chilblains or Frost Bites, Ringworm, Pains in the Chest, Side and Back, &c., and useful in all cases where Liniments, Rubefacients, Blisters, Sinapisms, &c., or any other kind of Counter-Irritant is required.

Directions for Using Universal Liniment.

This Liniment should be liberally applied to the parts affected, three or four times a day (and even more frequently in severe and dangerous cases), and rubbed well into the skin with the hands and fingers, or with a small piece of flannel, saturated with the Liniment, so that more or less irritation or smarting is produced in the parts to which it is applied.

CHILBLAINS. — They are inflammatory swellings of the feet, especially about the toes and heels, with painful itching and burning; and are caused by exposure to cold. Sometimes blisters form which become bad ulcers.

Treatment.—Wash with castile or tar soap, and apply UNIVERSAL LINIMENT freely. Wrap them in lint saturated with the Liniment and keep it on during the night. Keep the feet warm and dry during the day.

LAMENESS.—It is the result of over use. There is soreness, accompanied by pain on exertion, in the affected part. The celebrated UNIVERSAL LINIMENT is unequalled in curing lameness. Bathe the tender portion with the Liniment at night, and on going to bed, and again in the morning.

BUNIONS.—They consist of enlargement or thickening of the sack about a joint, usually that of the big toe of the foot. Caused by tight boots.

Treatment.—An easy boot or shoe is essential. Bind on lint soakad with the UNIVERSAL LINIMENT and covor with oil silk every night.

ERYSIPELAS
Positively Cured.

ST. CROIX, October 30th, 1881.

C. GATES, SON & CO.:

Dear Sirs,—I have been afflicted with Erysipelas in my legs for three years, suffering pain more or less during that time, and some of the time being unable to work or to walk. At last I was advised to try your Life of Man Bitters No. 2, and Invigorating Syrup No. 1. After taking two bottles I began to feel better, and I kept on using it until I had taken nineteen bottles, when I found myself perfectly cured. It is now six months since I stop
