 INSURING FRAUDULENT PAPER MONEY.—It has been well known for a long time past that parties in the city have been carrying on a business of putting in circulation money which if not counterfeit is utterly worthless, and by the means of a system of circulars principally forwarded to the rural districts of this Province and parts of Nova Scotia and Prince Edward Island, have made known to the agents or dupes the nature of their business and the mode of its transactions. This nefarious system has been carried on under the eyes of the police for a considerable time. The operations of the firm were carried out under the well known name of "North Star Co."

The attention of the police authorities has been directed through the press, and privately, from time to time to G. G. Corey, who carries on a business as a manufacturer of rubber stamps, but no action seems to have been taken to establish his identity with the North Star Company, and cut short his career until within a day or two, when as it now appears, it was the intention of the police to attempt to entrap Corey. This was done by means of a decoy duck from Moncton, who having by conversation with the police entered into correspondence with that individual, and was sent to the city on his North Star Market street Wednesday evening, where he was arrested by Sergeant Weatherhead in the act of handing a parcel of the "new" or "supposed" dupe. Frasier is to be examined Thursday.—G. B.

A boy named Robert McKinnon was run over and killed by the local train on the Pictou Branch, near the Iron Bridge, New Glasgow. The boy was on his way to school at the chapel with some other children, and on reaching the bridge he did not see the train, and was struck on the head by a projection on the engine, killing him almost instantly. He was over nine years of age.

It is reported that the "Northern Light," after ineffectual attempts for several days to get across to Pictou, returned to Georgetown on Monday, and the mails have been ordered to the Cape route, to cross in the ice boats. The Cape route, "Northern Light" states there is more ice in the straits between Georgetown and Pictou than when the steamer stopped running last winter.

The dwelling house of Hugh McGillivray at Brasley's Brook, Pictou Co., N. S., took fire on Wednesday, and with its contents, burned to the ground. Two families lived in it. The estimated loss is \$800. No insurance.

An accident, fortunately unattended by fatal results, occurred on the Windsor and Annapolis Railroad last week. Shortly after the train from Annapolis had passed Mount Uniacke station it jumped the track owing to an unplaced rail. After leaving the track it ran about thirty feet, when the entire train with the exception of the engine toppled over. There were twenty passengers on board, all of whom were badly knocked about. Father Driscoll, who had just recovered from a severe illness, was injured on the chest; a brakeman was struck on the head and remained insensible until brought out of the bottom of the second class car, and some of the lady passengers were injured. Considerable loss of baggage was sustained. The engine and the cars were more or less wrecked.—S. M.

A dwelling house at Lower Stewiacke belonging to Robert Kent was destroyed by fire Monday morning, 8th inst. Mr. Kent rose early and went to a fire in the kitchen stove and then went to the barn, and on his return found the house to be on fire, it having caught from wood near the stove. The house was a good one. 200 barrels of potatoes besides other vegetables in the cellar were destroyed and mostly all the furniture. The loss is very heavy, no insurance, and this in connection with the fact that Mr. Kent lost a large new barn, several years ago, makes his case a sad one and we trust that the good people of the surrounding settlements will act generously towards him.
