LITERARY NOTES.

HARPER'S MAGAZINE for March contains many excellent articles, that has a strong claim upon the attention of readers. Its illustrations are fine. The opening article is a description of St. Louis, splendidly illustrated. This is followed by a descriptive article, entitled "The Yorkshire Coast,"

It was with the greatest difficulty that he reached picturesquely illustrated.

grows more and more interesting. This month's to render any assistance, and until he was safe the paper, "The Early American Presidents," is inter- wildest excitement prevailed. - Times. esting in two particulars: it shows how French questions divided Americans, and it gives a graphic picture of the manners of the time when the old

regime was passing away.

There are two articles of distinctively literary in terest—the paper on "The Poetry of the Deaf," and a sketch of Will Carleton, with a fine portrait of the popular author of "Farm Legends.

The poems of the number are all noticeable. Mr. George William Curtis in the Easy Chair discourses upon the "elevation" of Mr. Tennyson, private lives of public men, Margaret Fuller, and the opera season in New York. The Literary Record is full of able and valuable reviews of new books, evidently prepared by a writer who reads the books before he notices them. Mr. Charles taining Drawer, prefaces it with a charming essay on the Right of Discovery, or the Objections which some Peoples have to being Discovered. Altogether, this is one of the most varied, interesting, and brilliant Numbers of Harper's that has ever been issued.

The majority against the repeal of the C. T. we stated last week-it was 1874.

A MARVELOUS STORY

FROM THE SON: "28 Cedar St., New York, Oct. 28, 1882. Gentlemen: My father resides at Glover, Vt. He has been a great sufferer from Scroft ula, and the inclosed letter will tell you what a marvelous effect

Ayer's Sarsaparilla

has had in his case. I think his blood must have contained the humor for at least ten years; but it did not show, except in the form of a scrafulous sore on the wrist, until about five years ago. From a few spots which appeared at that time, it gradually spread so as to cover his entire body. I assure you he was terribly afflicted, and an object of pity, when he began using your medicine. Now, there are few men of his age who enjoy as good health as he has. I could easily name fifty persons who would testify to the facts in his case. Yours truly, W. M. PHILLIPS."

FROM THE FATHER: "At is both a pleasure and a duty for me to state to you the benefit I have derived from the use of

Ayer's Sarsaparilla.

Six months ago I was completely covered with a terrible humor and scrofulous sores. The humor caused an incessant and intelerable itching, and the skin cracked so as to cause the blood to flow in many places whenever I moved. My sufferings were great, and my SARSAPARILLA in April last, and have used it regularly since that time. My condition began to improve at once. The sores have all healed, and I feel perfectly well in every respect - being now able to do a good day's work, although 73 years of age. Many inquire what has wrought such a cure in my case, and I tell them, as I have here tried to tell you, AYER'S SARSAPARILLA. Glover, Vt., Oct. Yours gratefully, HIRAM PHILLIPS."

'AYER'S SARSAPARILLA cures Scrofula and all Scrofulous Complaints, Erysipelas, Eczema, Ringworm, Blotches, Sores, Boils, Tumors, and Eruptions of the Skin. It clears the blood of all impurities, aids digestion, stimulates the action of the bowels, and thus restores vitality and strengthens the whole system.
