The ordinary cough or cold, resulting perhaps from a trifling or unconscious exposure, is often but the beginning of a fatal slokness. AYER'S CHERRY PECTORA: has well proven its efficacy in a forty years' fight with threat and lung diseases, and should be taken in all cases without delay.

"While in the country last winter my little boy, three years old, was taken ill with croup; it seemed as if he would die from strangulation. One of the family suggested the use of AYER'S CHERRY PECTORAL, a bottle of which was always kept in the house. This was tried in small and frequent doses, and to our delight in less than half an hour the little patient was breathing easily. The doctor said that the CHERRY PECTORAL had saved my darling's life. Can you wonder at our gratitude? Sincerely yours,

MRS. EMMA GEDNEY."

EX SCHOONER LIZZIE G.

TO THE ELECTORS

OF THE-COUNTY OF YORK

GENTLEMEN: -Having been unanimously selected by a large and influential meeting of electors, as-sembled from different parts of this county, as a suitable person to represent you in Parliament at Ottawa, I now, in response to this nomination, place my services at the disposal of the constituency, and offer myself as a candidate for your suffrages at the election, soon to be held, for the purpose of filling the vacancy caused by the death of our late lamented representative—Mr. Pickard The speedy construction of the Miramichi Valley Railway is, at the present time, a question of vital importance for the interests of a large portion of the County of York, which has hitherto been without proper means or developing its splendid natural resources.

The construction of a railway and passenger bridge at fredericton, for the convenience of people on both sides the river, and as a means of completing our inter-provincial railway connection, is also a pressing necessity at

All questions affecting the navigation of rivers, like the St. John, are vested by law in the Dominion Parlia-ment, and consequently authority for the construction of this bridge must necessarily be obtained at Ottawa. The works above referred to, and other public works throughout the county, have, in my opinion, strong claims upon the Dominion Government for liberal support, and I am satisfied that an immense impulse can be given to the industries and prosperity of York by their completion. I believe that these claims should be pressed upon the immediate attention. upon the immediate attention of the General Govern-ment; and, if I am elected, I shall at once use every means in my power to secure for them the full consider-ation which they deserve,

I am prepared to give the Administration of the day an independent support, always keeping in view the est interests of this county.

Although the National Policy has been tixed for Canada for several years to come by an overwhelming majority of the electors of the Dominion, I shall ever be ready to support any modifications of the present tariff which experience proves to be conducive to the best interests of this county and the Dominion at large. I regret very much that the shortness of the time at my disposal before the day of election, and the difficulty of travelling at this season of the year, will make it impossible for me to visit, personally, many parts of this large county. I shall, however use my best endeavors to meet as many of the electors as possible, when I shall be prepared to explain my store as the limitation.

prepared to explain my views on public questions at greater length. I beg to assure you that, if honored with a majority of your votes, I shall devote my best energies to the promotion of the interests of the County of York.

I remain, gentlemen, Your most obedient servant, THOMAS TEMPLE.
