LITERARY NOTES.

We have before us a copy of "KERR'S BOOK-KEEPING" advertized in this issue, and find that the work merits careful examination. It is no hasty compilation, but is evidently, as Mr. Kerr states in his preface, "the result of honest work." The noticeable features appear to be (1) the unity of idea pervading the work, -the opening sentence defining the nature of the business transaction, appearing to be the key note to the whole; (2) the discarding of numerous rules and the enforcement of principles instead; (3) the great amount of valuable matter the ingenious plan of the work has enabled the author to get into the book; (4) the chapter on negotiable paper, a feature which we understand is to be found in no other work of the kind, but which we would pledge to be almost invaluable; (5) short methods of working interest; important matters respecting discounts, interest on partial payments of a debt, partnership settlements,

The Edition of the HAND-BOOK OF NEW BRUNS-WICK just published by Mr. John. R. Hamilton, contains much important information, and is superior to previous editions. A considerable portion of it is intended especially for readers in Great Britain where it is to be freely circulated. To travellers the maps, routes of travel, &c., must be of much value. The Messrs. BEWARE OF IMITATIONS.

Since Dr. Thomas' Eclectric Oil has become celebrated, a number of unprincipled persons have been endeavoring to palm off Electron and Electric Oil for the genuine Dr. Thomas' Eclectric Oil. Beware of these similar named articles. If their originators had any faith in the healing properties of their own medicines they would, like honest men, give them a name of their own, and not try to sell them on the reputation of another; but as they know their preparations have no merit they resort to the most unprincipled means of selling them by getting a name as near as possible to Eclectric. We therefore ask the public when purchasing to see that the name Dr. Thomas' Eclectric Oil is on the front of the wrapper, and the signature of Northrop & LYMAN, the proprietors for Canada, on the back.

Dr. Wilson's Anti-bilious Pills relieve constipa tion, correct acidity of the stomach, increase the appetite so that the coarsest food is relished. When this is accomplished all other complaints must yield to the restoring influence of these pills.

SLEEPY CONGREGATIONS.

Sometimes clergymen unjustly blame themselves for the drowsiness that prevades their congregation at the evening services, and the congregations, with seeming justice, are often of the opinion that their pastors deserve all the blame they get. The true case, not infrequently, is the improper position of the lamps or gas-jets, which throw the light into the eyes in such a way as to make closing he lids involuntary. By the use of proper reflectors the lamps can be

placed near the ceiling, and a soft, pleasant light will be diffused throughout the reom, of sufficient strength to read ordinary print with ease.
