The Rev. Z. P. Wilds, well-known city missionary in New York, and brother of the late eminent Judge Wilds, of the Massachusetts Supreme Court, writes

ns follows:

"78 E. 5kth St., New York, May 16, 1882.
hirssns. J. C. Ayer & Co., Gentlemen:
Last winter I was troubled with a most ancomfortable itching humor affecting more especially my limbs, which itched so intolerably at night, and burned so intensoly, that I could scarcely bear any clothing over them. I was also a sufferer from a sovere catarrh and catarrhal cough; my appetite was poor, and my system a good deal run down. Knowing the value of tyer's Sarsaparhlla, by observation of many other cases, and from personal use allower years, I began taking it for the above-named disorders. My appetite impored almost from the first dose. After a short time the fever and itching were allayed, and all signs of irritation of the said disappeared. My catarrh and cough were also cured by the same means, and my general health greatly improved, until it is now excellent. I feel a hundred per cast stronger, and I attribute these results to the use of the Sarsaparhlla, which I recommend with all confidence as the best blood medicine ever devised. I took it in small doses three times a day, and used, in all, less than two bottles. I place these facts at your service, hoping their publication may do good.

Yours respectfully, Z. P. Wilds." The above instance is but one of the many onstantly coming to our notice, which prove he perfect adaptability of AYER's SARSAwater to the cure of all diseases arising impare or impoverished blood, and a

TO THE ELECTORS

----OF THE --

COUNTY OF YORK

The speedy construction of the Miramichi Valley Railway is, at the present time, a question of vital importance for the interests of a large portion of the County of York, which has hitherto been without proper means for developing its splendid natural resources.

The construction of a railway and passenger bridge at Fredericton, for the convenience of people on both sides of the river, and as a means of completing our inter-provincial railway connection, is also a pressing necessity at

the present time.

Although the National Policy has been fixed for Canada for several years to come by an overwhelming majority of the electors of the Dominion, I shall ever be ready to support any modifications of the present tariff which experience proves to be conducive to the best interests of this county and the Dominion at large.

I regret year much that the Dominion at large. I regret very much that the shortness of the time at my disposal before the day of election, and the difficulty of travelling at this season of the year, will make it impossible for me to visit, personally, many parts of this large county. I shall, however use my best endeavors to meet as many of the electors as possible, when I shall be prepared to explain my views on public questions at greater length.

I beg to assure you that, if honored with a majority of your votes, I shall devote my best energies to the promotion of the interests of the County of York.

I remain, gentlemen, Your most obedient servant, THOMAS TEMPLE. Fredericton, Jan. 5, 1884.
