BE CAREFUL.

An ugly or slighting word spoken of your pastor in the presence of your children may make it impossible for him to do them any good.

"I WONT."

(The Wesleyan.)

At the late Prison Association meeting in Saratoga, Warden Brush, of Sing-Sing, said that one cause, greater than any other, that leads to prison, is disobedience in the family. Some time in life every one must learn to obey, and when I hear a child say to a parent, "I wont," when told to do something, I see a candidate for prison. The governor of 1,500 convicts believes that the want of family government and subsequent disobedience of children is the most frequent cause of crime.

In Russia, a priest hearing in confession anything about political conspiracies is bound by law to break the secret of the confessional, which is inviolable in cases of parricide.

"*Pray*, Mr. Professor, what is a periphrasis?" "Madam, it is simply a circumlocutory cycle of oratorical sonorisity circumscribing an atom of ideality, lost in a verbal profundity." "Thank you, sir."

The deaths from cholera in Spain since the beginning of May have certainly numbered 91,000; but medical men believe that the real figures exceed these by 5,000.

Will the English language become universal? The question is decided in the affirmative by De Candolle, a Geneva scientist, who reasons from the rapid spread of English-speaking people throughout the world and their almost invariable retention of their native tongue.

A Philadelphia bibliomaniac has a collection of nearly seven tons of newspaper clippings on nearly every conceivable subject. There are biographies of every prominent man and woman in the world, anecdotes about them, and editorial comments on their failures and successes.

The Russian dissenters are reckoned by competent specialists at no less than fifteen millions, about one-fourth of the entire rural population. They spread and muliply every day, and all the truly religious elements of Russia are comprised in them.

The type used upon one issue of the newspapers of the United States weighs 6,700,000 pounds, and would set up 2,885 ordinary 12mo books. The composition done on the dailies in one year would fill 10,000 volumes of the size of Appleton's Cyclopedia. Eight thousand presses are required for the press work; and the proof-slips, pasted end to end, would much more than cross the continent.

Philadelphia turns out daily 20,000 samples of the "Great American Dessert" pie. She has five large pie factories and innumerable small ones. The cost of material required for the making of these amounts to about $800 for flour, $90 for shortening, $200 for fruit, and 275 for sugar, to say nothing of eggs and flavoring materials.

South Carolina prohibits divorce absolutely. It prohibits the sale of liquor in the rural districts, allows it in incorporated towns with the privilege of local option, of which about half the towns avail themselves. It forbids the running of all freight trains and of all passenger trains except such as carry the United States mail on Sunday. It classes duelling with murder, and disfranchises the lottery-ticket dealer.

The most thickly inhabited portions of New York city show 750 of population to the acre. But London is said to have 1,600 souls to the acre in its denseat regions. That is as much as to say that there are a thousand people living in every ordinary half-block. An army could scarcely stand in rank more closely.

The best policy in political matters is to keep cool and take no offense. Ex-Mayor Hardy, of Lincoln, Nebraska, who rendered himself obnoxious to a certain element by his radical stand upon the temperance question, found a coffin significantly at his door. He good-humoredly took it down town, sold it for thirteen dollars, and put the money in the treasury of the temperance society.

The Mormon Bishop, John Sharp, pleaded guilty to the charge of unlawful cohabitation, and promises to abandon polygamy and hereafter obey the law, and advises others to do likewise. The assumption is that Bishop Sharp's course will be followed by many of the "Saints," and that his action is the most seveve blow that polygamy has yet received.

A prominent citizen of Jones County, Miss., who stood high in the church, made a visit to Meridian recently, and upon his return told his neighbors he had seen ice manufactured in that town with the thermometer standing at ninety-eight degrees. It soon became a settled fact in the minds of the members of the church that Brother Blank had degenerated into an able liar. Charges were preferred against him, and a committee of church members were appointed to visit Meridian and convict the the erring brother of lying. They went, saw the ice manufactured, and, returning home, so reported to a meeting of all the church members. A look of astonishment on the faces of the assembled brethren soon gave way to one of indignation, and Brother Blank and the entire committee were incontinently expelled from the church.

There is a class of persons to whom indifference is the test of high breeding. According to their idea, if you educate a man to the insensibility of a post, you make him a gentleman; if you cultivate the heart out of a young woman, and make her seemingly as pulseless as a turnip, she is the lady to perfection. Some people have strange ideas of what constitutes a lady or a gentleman. A woman was brought before a police court one day, and said: "Me and another lady was a-having a few words, and she called me a 'hindewidual,' and I ups with a pail of water and chucked it all over her; and that began the row." Me and another *lady!* The following notice was once put up over a show: "No *lady* or *gentleman* admitted to this exhibition in a state of intoxication." Once when I was in St. Louis I saw a handbill on the wall: "One hundred rats to be killed by one dog in ten minutes. None but *gentlemen* are expected to be present on the occasion."—[J. B. Gough.

LITERARY NOTES.

The greatest co-operative experiment in the world is that at Guise, France, where in 1860 M. Godin built his great *Familistere* in connection with his enormous iron-work. There are now over 1200 workmen participating in the profits of this great enterprise, according to their importance in the business and the amount of the wages directly earned, capital reaping its share on the basis of the usual rate of interest. As the wages amount to eight times this interest, labor gets eight times as much of the profit as capital, and the profit of five years have reached over $1,000,000. Mr. Edward Howland, gives a full account of this suggestive experiment in the forth-coming (November) HARPER'S, with a portrait of M. Godin.

THE HOMILETIC REVIEW for October is one of remarkable interest. Joseph Cook leads off with a masterly paper on the question "Ought Prohibition to be Made a Political Question?" Dr. G. F. Pentecost gives some startling facts and stirring argnments bearing on the Evangelization of Cities. Rev. Chas. E. Little, gives an excellent paper entitled "Biblical Illustrations in the Pulpit." Prof. Grubbs finishes the eighth contribution to the Symposium on Romans. Rev. S. W. Dike writes clearly on the Divorce question. Dr. G. M. Stone gives his views on Ministers' Vacations, while Dr. Pierson continues his "Leaves from a Preacher's Note Book." The Sermonic Section contains seven sermons in full or in outline, some of which are of sterling value, particularly Dr. Cuyler's on "The Drinking Usage," and Dr. Christlieb's entitled "The Shepherd-Faithfulness of the Son of Man in Seeking the Lost," and "The Problem of the Age," by Dr. D. S. Gregory. The Prayer-Meeting Service, the Missionary Field, Short Pastorates, the Positive Side of the Amusement Question, and the various Editorial departments all furnish good reading. Published by Funk & Wagnalls, 10 and 12 Dey Street, New York. $3.00 per year; 30 cents per single number.

He and some of his comrades were up shooting on the Douglas Islands, when the gun which he was handling exploded, badly mangling his wrist and part of the arm. The charge grazed his head. It was a narrow escape.—*Gleaner*.

B. Mooney & Sons have been awarded the contract for building the round-house and machine shops of the Miramichi Valley Railroad at Gibson. The buildings will be of brick, over half a million of which will be required for the work. The contractors will complete the buildings at as early a date as possible.

The fishway which the Government is placing in the Magaguadavic River at the falls at St. George, will, when completed, be superior to any that has been placed in this section of the Province. Although but partly built, great numbers of fish make their way into it at every tide. It is calculated to be of great value to the fishing interests of the river.

Daniel Moore, about 55 years old, and an inmate of the Alms House, was found, about dusk a few evenings ago, lying dead on the road side, within a quarter of a mile of the institution. He had been used as a messenger for the institution and had been into the city during yesterday. It is supposed that Moore had been drinking during yesterday as a bottle which contained a small quantity of liquor was found on his person.

C. W. Kinney's cheese factory at Florenceville, Carleton Co., has closed for the season. During the three months it has been in operation about 15 tons of cheese have been made. This quantity would have been increased by probably one-fourth, had the bridge on the river remained. Mr. Kinney is quite satisfied with his season's work, the only discouraging circumstance being the extremely low price offered for the cheese.

Warren Daggett, a young man from Baring, while at work in what is known as the Duren mill, near St. Stephen, Saturday afternoon, caught his foot between the block and the lay wheel of the gang. His foot and ankle were dragged through a space of only one and a half inches wide. It required the strength of six or eight men with bars and prys to lift the wheel out of its place before the young man could be extricated from his perilous position. His ankle was badly crushed.

John Nolan, aged 26 years, was drowned in the harbor, off Rankine's wharf, early Saturday morning. Nolan, who lived on Acadia street, Portland, was last seen about 12 o'clock on Friday night, at the corner of Black Spring Road, opposite the police station. The body was found lying on the beach at Rankine's wharf, by John Thompson, a little after six o'clock on Saturday morning. It was face downward, and the only marks on the body were a bruise on the forehead and one on the nose. An inquest was held by Coroner Earle and a verbict of accidental drowning returned.

There was shipped last week from the Gibson cotton mill, principally to Montreal and Toronto, 126,560 yards of grey cotton, the largest quantity that has yet left there at one time. One hundred more spindles are about being put in, which will bring the number up to 375, and a cotton-flannel machine, the second of the kind in Canada, will arrive from Germany in a few days. It has been decided to light the mill by electricity, and it is probable that this method of illumination will be extended to the railway station, Mr. Gibson's store and other buildings in Marysville.

John A. Morrison's saw mill, a mile below Fredericton, a half a dozen tenement houses occupied by twice as many workmen and their families, eleven cars loaded with lumber, and a large quantity of lumber on the wharf were destroyed by fire Monday evening. The fire caught on the roof of the mill from a spark from the chimney at seven o'clock, and in an half hour the mill, which is one of the largest and most modern on the river, was levelled to the ground. From the mill the fire spread to the tenements across the railway track, consuming everything in its way. The families lost most of their effects. The two million feet of lumber, which belongs to James Murchie & Sons, of Calais, is still burning, and the steam engines have gone down to render assistance. The N. B. Railway track, which runs between the mill and the tenements, is badly wrecked, many of the sleepers being consumed. The fire brilliantly illuminated the river and the country for miles around and attracted a thousand people to the spot. There were twenty thousand dollars insurance on the mill. The mill was built in 1872 at a cost of $40,000 and had every modern improvement. It ran three gangs, besides shingle, lathe and picket machines, and employed over 100 men. This is the third mill burned on the same site—the first in 1870 and the second in 1872. There was no insurance on the tenements or lumber destroyed. Mr. Morrison's residence and store were saved with some difficulty. Mr. Morrison expected to saw till the middle of November for Murchie & Son.

The total loss in mill, wharves, lumber and cars is estimated at $75,000 or more.

The Halifax *Chronicle* says: The heading to a telegram published the other day, "Smallpox at North Sydney," might lead some who did not read the despatch to suppose that cases of the disease existed in that town. The fact was that a vessel with one case on board reached Sydney and was promptly placed in quarantine. The sailor down with the disease has since died, and no other cases are reported.

A serious case of shooting occurred at Brookfield, N. S., on Sunday. Two men named Crane and Graham got into an altercation, the cause of which we have not fully ascertained, except that it was the revival of an old feud. One produced a revolver and fired several shots. His antagonist returned fire with a shot gun. The possessor of the revolver came out second best and is now under the doctor's care. Both men are in jail.

On the shore near the factory of Cahill Bros., P. E. I., was recently found a fish, which appears to have been a curiosity. In size it was about two feet nine inches long, eighteen inches wide, and only four and one-half inches deep. It has two large round eyes, and its mouth and fins resembled those of a codfish, while its back resembled that of a lizard, and when cut it had the appearance of beef. It was viewed by fishermen who have grown gray in the business, and also by many others, all of whom declared that they had never seen or heard of anything like it.

BEWARE OF IMITATIONS.

Since Dr. Thomas' Eclectric Oil has become celebrated, a number of unprincipled persons have been endeavoring to palm off Electron and Electric Oil for the genuine DR. THOMAS' ECLECTRIC OIL. Beware of these similar named articles. If their originators had any faith in the healing properties of their own medicines they would, like honest men, give them a name of their own, and not try to sell them on the reputation of another; but as they know their preparations have no merit they resort to the most unprincipled means of selling them by getting a name as near as possible to *Eclectric*. We therefore ask the public when purchasing to see that the name Dr. Thomas' Eclectric Oil is on the front of the wrapper, and the signature of NORTHROP & LYMAN, the proprietors for Canada, on the back.

HIGHEST PRAISE.

The well-known drug firm of N. C. Polson & Co., of Kingston, writes that Dr. Fowler's Extract of Wild Strawberry has long been considered the best remedy for Summer complaints in the market, and adds that their customers speak in the highest terms of its merits. Wild Strawberry is the best known remedy for Cholera Morbus, Dysentery and all Bowel Complaints. 2i

There is no pain, no matter how severe nor what the cause, that cannot be partly or wholly relieved by *Johnson's Anodyne Liniment*, used internally and externally. It is the most powerful remedy known to medical men.

There is nothing so essential to health and happiness as pure rich blood. It prevents exhausted vitality, premature decline, nervous and physical debility, besides untold other miseries. *Parsons' Purgative Pills* purify and enrich the blood, and will change the blood in the entire system in three months.

A SAD CASE.

The poor victim of Chronic Dyspepsia apparently suffers all the ills of life, living in continual torture. Regulate the Liver and Bowels and tone the Stomach with Burdock Blood Bitters and the dyspeptic's trouble is soon gone. 2i

NO ONE BUYS A "PIG IN A POKE"—in other words, purchases on mere guesswork—who buys for his or her relief Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure. The fact is too well known to leave room for any peradventure that it is a sovereign curative for Indigestion, Costiveness, Impurities of the Blood, Kidney and Female troubles, and other infirmities.

A SPEEDY CURE.

As a speedy cure for Dysentery, Cholera Morbus, Diarrhœa, Colic, Cramps, Sick Stomach, Canker of the Stomach and Bowels, and all forms of Summer Complaints, there is no remedy more reliable than Dr. Fowler's Extract of Wild Strawberry. Dealers who sell it and those who buy it are on mutual grounds in confidence of its merits. 2i

F. Burrows, of Wilkesport, writes that he was cured of a very dangerous case of inflammation of the lungs, solely by the use of Dr. Thomas' Eclectric Oil. Feels great pleasure in recommending it to the public as he had proved it (for many of the diseases it mentions to cure) through his friends, and in nearly every instance it was effectual. Do not be deceived by any imitations of Dr. Thomas' Eclectric Oil. Be sure you get the genuine.

A CERTAIN RESULT.

In all disturbed action of the Stomach, the Bowels, the Liver or the Kidneys the result of taking Burdock Blood Bitters is certain to afford prompt benefit to the sufferer. Burdock Blood Bitters cure when other remedies fail. 2i

Severe colds are easily cured by the use of Bickle's Anti-Consumptive Syrup, a medicine of extraordinary penetrating and healing properties. It is acknowledged by those who have used it as being the best medicine sold for coughs, colds, inflammation of the lungs, and all affections of the throat and chest. Its agreeableness to taste makes it a favourite with ladies and children.

FATAL ATTACKS.

Among the most prevalent fatal and sudden attacks of diseases, are those incident to the Summer and Fall, such as Cholera Morbus, Bilious Colic, Diarrhœa, Dysentery, etc., that often prove fatal in a few hours. That ever reliable remedy, Dr. Fowler's Extract of Wild Strawberry, should be at hand, for use in emergency. 2i

A SURE INDICATION.

Whenever there are festering sores, blotches, pimples and boils appearing, it indicates an extremely bad condition of the blood which should be speedily cleansed by that best of all medicines Burdock Blood Bitters. 2i

SUN LIFE ASSURANCE CO'Y,

OF CANADA.

UNCONDITIONAL INCONTESTABLE LIFE POLICIES.

Assets about $1,300,000.

THE objection is very often made to Life Assurance that the Companies may take advantage of some of the numerous and complicated conditions on the policies, and thus either avoid entirely the payment of claims, or compromise with the widow for a small sum. There is considerable force in this argument, but it cannot be urged indiscriminately against all Companies. THE SUN LIFE ASSURANCE COMPANY OF CANADA, issues absolutely unconditional policies. There is not one restriction of any kind on them.

The assured may reside in any part of the world without giving notice or paying one cent of extra premium. He may change his occupation at will; he may travel, hunt or do anything else without any extra of any kind. The contrast is remarkable with other policies.

Ask an Agent to show you one; it speaks for itselt.

REMEMBER THE SUN IS THE ONLY COMPANY IN AMERICA, WHICH ISSUES AN ABSOLUTELY UNCONDITIONAL POLICY.

If You Want the simplest and best form of investment policy which is issued by any company,
If You Want Term Assurance at the lowest possible rate, with an investment for your savings at compound interest,
If You Want Cheap Life Assurance while your children are young, and an endowment to yourself when they are grown up,
If You Want the accumulation of Tontine profits without the risk of losing all you have paid by missing any payment,
If You Want Assurance with an unconditional policy which is sure to be paid without delay or trouble,
Then You Want a Non-Forfeiting "Semi-Endowment" Policy in the SUN LIFE ASSURANCE COMPANY OF CANADA.

If you want to take an ACCIDENT policy, remember the SUN LIFE ACCIDENT ASSURANCE COMPANY OF CANADA.

Remember THE SUN is the only Company in America which issues unconditional policy.

"SUN" ACCIDENT POLICIES. They are the most liberal in existence, having days of grace and other privileges which are given by no other company.
