

He has satisfied himself that it is a distinct poison, even in small doses. The cigar smoker, who is told, absorbs the poison, and the latter in turn, who smokes pipes, and the smoker who takes the precaution of using an apparatus which conducts the smoke through water, redones the deleterious effects of tobacco to a minimum.

Recent investigations have led to the discovery that as early as 1564—thirty-four years prior to short-hand system of Timothy Bright—John Jewel, Bishop of Salisbury, had written a treatise on the others as a notary in the examination of Ridley and others, using what were described as "character," answered in some measure to modern short-hand characters.

A preacher noted for his originality enlightened his hearers by the remark, "A conclusive proof that God is benevolent is seen in the fact that He has placed death at the end instead of at the beginning of life."

This is about equal to the reasoning of the Pasha who saw an unmistakable evidence of a great First Cause in the fact that the river, in place of flowing in a straight channel, were made to curve so as to reach the great cities and afford them the benefits of water navigation!

LITERARY NOTES.

An important feature of Babyhood for January is an article by Dr. Yale on "The First Steps," in which the earliest development of the Baby's power of locomotion is described in a practical manner, with suggestions as to the avoidance of "bow-legs," "knock-knees," etc. Parents of little folks as yet nameless may find this a valuable feature in the amusing sketch by Rev. Edward Everett Hall, entitled "Naming the Baby." Mrs. Christine Ladd Franklin makes "The Infant's Mind" a subject of most interesting study. The "Light of Asia," by Edwin Arnold as Poet and as Pageant-writer, and "The Light of Asia," examined by its literary critic, by William Cleaver Wilton. This is much more than a mere critique; it is a valuable exposition of the main facts in the life of Buddha, and the claims which his religion can justly make upon mankind. Mr. Wilkinson believes that Mr. Arnold's poem has had a weak effect on the faith and conscience of America, and in a most trenchant yet courteous fashion he lays bare the discrepancies between the facts and the fictions in reference to Buddhism. His dealing with the literary qualities of "The Light of Asia" starts one at the very outset with the boldness and candor of his denunciation. He recognizes the strength of the popular sentiment, and the literary sentiment as well, with which he has to contend, but he is apparently too sure of his footing to be deterred thereby. When one agrees or not with his conclusions, one cannot help reading with admiration; for the enunciation of the critic is felt on every page, and the skill of the diction reveals itself in every sentence. The volume is a volume of generous and severe, the points made are sharp and stinging, and the good-natured railway at Mr. Arnold and at some of his eulogists becomes at times very amusing. The new edition of Mr. Arnold's poem makes the critique especially timely. Published by F. V. Co., 110 and 112 Dey Street, N. Y. Standard Library. Paper, 15 cents.

Mr. Moody has been holding meetings in Richmond, Va., and much interest has been awakened. The plan of Collector Wallace, of Sussex, for advertising N. B. Brunswick farms in Great Britain, is being helped on by Canada's High Commissioner in England. The lists of farms Mr. W. has forwarded to England have been distributed to the Government's agents.

Mr. George F. Smith is arranging for the construction of an iron ship of about 1,500 tons. Levi Tuck has been appointed postmaster of Georgetown, Queen's County, in the place of the late Edward Simpson, deceased. Leverett Estabrook, Esq., of Prince William, was elected Warden of York County at the meeting of the Board on Thursday of this week. Robert McMillin, of Blainy Ridge, 70 years old, died the other day from injuries received at Prince William Station, N. B. Railway. It is rumored that Mr. E. B. Chandler, who is boring for albertite in Middleland, Elgin, has had the good luck to strike a lead of considerable thickness. Capt. Walsch has arrived from New York, coal laden. His vessel was badly up. When she was at New York, the crew suffered greatly from the cold and exposure. Mr. Thomas Curran, well known as a hotel keeper at Kingston, Kent Co., was found dead in his bed on Friday morning. He had been moving about the house in apparently his usual good health on Thursday. Beatty Steeves' house, woodhouse and barn on Academy st., Hillboro, Albert Co., were burned down on Thursday night. John Joyce, a boy of thirteen years, who was asleep was saved with difficulty. Scher. Gipsy arrived from a fishing cruise down the Bay. Capt. Harned reports a large number of fishing crabs between Lethbridge and last Harbor, with good catches, the fish having "struck in" during the past six or seven days. On Thursday of last week a daughter—12 years old—of Mr. J. H. Harned, of the same place, was drowned. She attempted to swim in a half mile Point Du Sene to school, and broke through the ice. Nothing was known of the accident till late in the afternoon. George Wilson and James Jamison killed three bears on the 15th, in the woods east of Magog-davie Lake and near the Magog-davie settlement. They came upon the bears dead, in a hollow log, and killed them. One was a large animal, and the other two were cubs. Howard Teakles, of Portage, while feeding a threshing machine at Petticoat, on the 15th, had misfortune to get his right hand caught in the machine. The hand was mangled off past the wrist. It is probable that it will have to be amputated at the elbow. The Capital learns that Mr. Thomas E. Wheeler struck honey the other day while cutting wood on Currie's Mountain, in Douglas, York Co. He chopped down a hollow tree, in which he found two live bees well stored with honey. The bees were informed that the honey taken from the tree turned the scales to 120 lbs.

Early on Tuesday morning flames were discovered in the green house at the Marine Hospital. An alarm was rung from box 46. The flames raged furiously for half an hour, until the firemen got to work, but they handled the fire ably, and in about an hour it was extinguished. The loss will be about \$300. A Globe correspondent at Butterfield Ridge, writing to the Transcript on 14th inst., says: "Sheriff Freese has been in the house and served papers for breach of promise on one Mr. Saunders, of Salem, at the instance of one Miss Carson of Spring Hill, for \$2,000."

Mr. Alexander Gibson, at noon Thursday, 15th, turned on the steam in his gigantic cotton mill at Marysville. There are at present in the mill 12,000 spindles and 272 looms. A large number of persons witnessed the ceremony. The steam was in full operation yet.

Tracy & Co., of St. Stephen, who are lumbering on the Westport, in Maine, have, up to this time, got to be building a large saw-mill on a million feet of logs. They have 120 horses and 10 oxen at work, besides those used for supplies. At one camp sixty barrels of sawed lumber are being milled out of this log in the amount this firm intends to cut this winter.

Serious Interruption to logging operations on the Nashua and St. Croix rivers, in England, has been caused by a severe winter. The ice has caused the saws and the choppers are several weeks ahead of the haulers. On the Nashua many teams are caught out of the river. In the North sections and on the upper St. John plenty of snow is reported.

Several lumber camps at Vale Verte have been obliged to discharge their gangs on account of the absence of snow.—Ed.

NOVA SCOTIA.

A branch railway to Bale Verte to open up an important section of lumber woods is being advocated by Anshut people. The carriage shop and building belonging to John P. Road at Macan station, Cumberland Co., N. B., were completely destroyed by fire on Wednesday night. The premises were insured for \$10,000.

There is evidently a growing demand in England for Canadian fruit. An Annapolis man advertises that he will pay cash for five thousand bushels of apples for shipment to the old country.

Kenneth McKenzie, a Scotchman, who was in the volunteers in the old country at the time of the battle of Waterloo, will have had today his last day, worked by his grand-children, on Dewar's farm, Wallace, N. S. A woman is still said to be living across the line, in Pictou County, at the age of 117, whose death a short time ago in his 102nd year. She was married at 14.

The Colonial Copper Co. intend to ship this week ten tons of malleable iron, to have the gold extracted from the ore, the previous half ton shipped having yielded at the rate of \$4 to \$6 per ton. The deposit of malleable iron is very extensive. It underlies the copper sandstone and is about thirty feet thick. It is a fine, clean, and is a valuable metal, as the late experiments tend to prove, it will prove extremely profitable.—Chicopee Post.

A meeting was held at Pictou, Jan. 15th, to discuss the position of the Short Line railway matters. It was addressed by McDougall, M. P., Tupper, M. P., and others. Both members stated that if the present company did not pay the claims and arrange proceeds with the construction of the road before parliament met, and if the railway was not taken over by some reliable company, the Government would itself pay the sub-contractors and the shareholders and the owners of the whole short line from Oxford to Louisbourg.

OTHER PROVINCES.

The Governor General has refused to commute the sentence of death passed on Charles Rogers for shooting a brother named Jerry, at New Westminster, B. C., Penitentiary, the 29th of November last. Rogers will be hanged at Victoria on the twenty-eighth inst.

Lord Napier, in a recent address before the Chamber of Commerce in India, said that while commencing the service in India, a return made to him relating to 18,000 men showed that among total abstinents there was no crime, but the whole of the crime was among non-abstainers.

About eighty warrants have been sworn out on the past fortnight by Rev. Mr. Munson of the Temperance Alliance, who, it is reported, will sign all the warrants taken out in the future. A. W. Wilton, of the Temperance Alliance, who, it is reported, will sign all the warrants taken out in the future. A. W. Wilton, of the Temperance Alliance, who, it is reported, will sign all the warrants taken out in the future.

Word was received at Ottawa, Jan. 14, of the drowning of the "Duchess of Devonshire," a small steamer, which was wrecked on the coast of Newfoundland, after dark on the evening of the 9th, with her father and two other children. The horse and sleigh were rescued, but the body of the little boy was recovered. This is the eighth accident. The survivors nearly perished before being rescued.

A four year old boy, son of D. Noonan, Dominion House, Summerville, was drowned off the coast of Newfoundland, after dark on the evening of the 9th, with her father and two other children. The horse and sleigh were rescued, but the body of the little boy was recovered. This is the eighth accident. The survivors nearly perished before being rescued.

REST AND COMFORT TO THE SUFFERING.

"BROWN'S HOUSEHOLD PANACEA" has no equal for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowels, Sore throat, Rheumatism, Toothache, Lumbago, and all kinds of aches and pains. It is a powerful and quick-acting Blood and Heat, as its active power is wonderful. "Brown's Household Panacea," being so highly recommended by the great Pain Reliever, and being the strength of any other Elixir or Liniment in the world, should be in every family handy for use when wanted. As it is really the best remedy for the world for Cramps in the Stomach, and for all kinds of aches and pains, it is a powerful and quick-acting Blood and Heat, as its active power is wonderful. "Brown's Household Panacea," being so highly recommended by the great Pain Reliever, and being the strength of any other Elixir or Liniment in the world, should be in every family handy for use when wanted.
