"FIRST-CLASS GOODS,"
In which merit is at once recognized, are now, and always have been, imitated, especially the manufactured article. After years of labor, and the expenditure of a fortune, in perfecting and placing before the public that which people appreciate and demand, some one who never had an original idea offers a counterfeit or substitute to compete with the genuine. Curtis Davis & Co., makers of the "Welcome Soap," find the above true in their case at least, the excellence of whose productions are everywhere acknowledged as the "standard" of quality, being imitated in every way that competition can suggest. But in the use of their goods, the consumer realizes the full benefit of value received. Wel.

come Soap confirms and sustains their great reputation "FIRST-CLASS GOODS."
