

News of the Week.

NEW BRUNSWICK.

Alex. Hoyt's house and granary in Queensbury have been destroyed by fire. Insured for \$1,000.

Houlihan, of whom mention was made as being shot by his son a few nights ago in the Saddleback settlement, died of his wounds.

Robert Donaldson, a N. B. railway engineer, had \$42 stolen from his residence in Fredericton. The thief was George Cooper, aged 15, an emigrant boy whom Donaldson had befriended and taken to his house to live.

Mrs. Moore, of Three Tree Creek, Sunbury Co., this province, has recently come into possession of \$600,000 by the death of a brother in Ireland. Mrs. Moore was not wealthy in this world's goods and the fortune has fallen into good hands.

The St. Croix Courier says: Mr. James H. Ganong and other enterprising gentlemen are arranging for the development of a valuable mineral spring situated on the line of the Grand Southern railway, between St. George and St. Stephen, near Lake Utopia.

Saturday morning John W. Bennett was arraigned before Police Magistrate Peters, charged with bigamy. Wm. Pugsley was present in the interest of the complainant, and John Kerr for the prisoner. The only witness examined was Wm. Jones, brother of the complainant, who testified to being present at the wedding of Bennett and his sister in July, 1879, by Rev. G. A. Hartley.

Several masked men entered the farm house of John Wright, at Barter settlement, N. B., Friday night, presented revolvers at the heads of Mr. and Mrs. Wright, and demanded Wright's money. The farmer, thoroughly frightened, complied with their demands and paid over his entire savings for years, more than \$1,000 in American and English gold. The burglars escaped with their booty.

Thomas Scott, the boss of the gravel pit on the Miramichi Valley railway at Doaktown, had some trouble with the men working under him, and on pay day a gang led by the O'Donnells and Price, undertook to "get square" with Scott and Joseph McGahey, the boss of the tracklayers. An eye witness describes the fight as a regular riot. McGahey was badly beaten about the face and had two ribs broken near the backbone. He is in a critical condition. Several persons were more or less injured.

The hay crop in the upper river sections has turned out much better than in the highlands sections of Kings, Queens and York, where there has been a very serious falling off. The decrease below an average crop in Carleton will probably be not more than 10 per cent., whereas through Kings and Queens many good judges estimated that the highland hay would fall short 30 or 50 per cent. The recent rise of water will very much interfere with securing in good order the marsh hay along the St. John, of which there was a very good crop. Unless there is a late fall, a mild winter, and early spring, the prospects are that there will be a hay famine the coming season.

The annual sale of the grass on the Kings County public meadows at Grassy Island, took place at Flewelling's wharf, Long Reach, on the 17th inst. About seventy-five people were present apparently eager to purchase, and as a consequence some lively bidding for the lots followed. The result of the total sale of lots was above \$800, and, as an indication of the general hay crops this year, about Long Reach, it might be mentioned that the grass from the same lots sold last year for \$208.25. The amount of grass on the island promised better than last year, but the quality is very indifferent and weedy.

A constable arrived in Fredericton Monday morning from Upper Kingsclear, having in charge a prisoner named Clarence Riley, who is charged with committing an indecent assault upon a girl living in that place, named Madeline Burgoine. The prisoner was arrested this morning upon a complaint laid by Miss Burgoine before Justice Cliff, of Kingsclear. The constable, after filing the proper papers with the police magistrate, before whom the prisoner is to be examined, conveyed him to the jail. His examination comes up at the police court, on Tuesday next. Riley is a young man and is a blacksmith in Kingsclear. He denies the serious charge and intends to have the case defended.—Fredericton Gleaner.

The village of Albert, Albert Co., was nearly wholly destroyed by fire August 20th. The fire was discovered in Wilbur's store and rapidly spread to Daniel Murray's store, in the same building, which has a large hall on the second floor. The fire communicated with Dickson's law office, which were destroyed. The adjoining building was occupied by R. C. Atkinson as a store and dwelling; it was burned but most of the stock was saved. The adjoining building, owned by W. Oliver and occupied by Thomas Fullerton as a liquor store, and dwelling by Samuel McCoskey, was soon reduced to ashes. The Union Hotel was soon ablaze and was immediately consumed. Atkinson's building adjoining was damaged to the amount of \$250, and Rufus Taylor's residence narrowly escaped destruction. The losses, which are heavy, will be partly covered by insurance.

The summer varieties of the orchard products are coming into market, and it is quite surprising how well matured the apples are. The apple crop in Carleton County this season will be a very good one—much more than an average. Travelling through the apple raising districts many fine views of well laden trees may now be had. Many instances are noticed of limbs

and sometimes whole trees bent or broken to the ground. The plums do not show much good fruitage. There will be quite a shortage from last fall's pick.

Though the crop is generally but a light one, yet the abundance borne by Mr. F. P. Sharp's orchard—seven acres—is something wonderful even this year. Many trees through the field are bent prone on the ground by the masses of plums on their branches. These are generally the smaller trees, and as they are all used to being bent down to the ground in the fall to be covered by the winter snows, little or no injury accrues to the trees by being overborne by its fruit. Considerable area of wheat and oats have been cut. The grain crops generally look very well. The recent rainy weather has lodged heavy oats and buckwheat in many places and retarded gathering in some over-ripe fields. Buckwheat will be a much better crop than last year.

NOVA SCOTIA.

The body of the blind man Brown, who walked over a cliff at Low Point, C. B., into a lake has been recovered.

Several large schools of small mackerel were seen during the last week in Digby harbour. Some took the hook at Digby Strait, and what is even more unusual, were caught from the wharves by visitors.

The "Yosemite" (now the "Acadia") arrived at Halifax on Monday. She will be commanded by Capt. Scott, with Capt. Kent as first officer and Mr. Jarvis third officer. The others have not been appointed.

Large quantities of tinker mackerel were found high and dry on the Hawk Point flats on Monday morning. They had been swarming among the islands and losing their reckoning, got into shallow water, which ebbed and left them. Such occurrences were quite frequent about that place twenty years ago.

Haddock seem lately to have almost taken possession of the codfish grounds off the Cape. They make up the larger part of the boat fares now. The market price of them when salted and cured in the usual manner scarcely pays the expense of saving them.

Three years ago, Alexander McLeod, a wholesale liquor dealer, of Halifax, died, leaving an estate of \$230,000, the residue of which he bequeathed to Dalhousie college. His only brother, Archibald McLeod, who lives in Scotland, now brings suit to upset the will on the ground that the testator was of unsound mind and unduly influenced.

So far as Digby county is concerned, there is no part of our province where farmers can get a better price for their produce than they can get here, and we believe that as a class they are as well off as any farmers in the world. If they do not till a soil that never requires manure, they have no beetles, bugs, cyclones, or droughts to undo in a week or day the labors of a season.—Courier.

Three weeks ago the Gloucester seiner "Edward Holbrook" passed through the Strait of Canso and landed a man at Port Hawkesbury without entering at the customs. She was then going home from North Bay with a full fare. Yesterday, she again visited Hawkesbury on her way to North Bay for another trip, when Collector Bourinot promptly seized her, and by instructions from Ottawa will only release her upon the payment of \$400 fine.

On Friday morning Charles Sabean, an old penitentiary bird, together with his son Frank, a young man of some twenty years of age, who has been serving term in Dorchester, were arrested for burglarizing the shop of Mr. J. P. Foster, Port Lorne, on Wednesday night, 18th inst., and stealing a quantity of goods therefrom. Frank made his escape after his arrest and has not yet been retaken. The father was lodged in Annapolis jail to await his trial at the October term of the supreme court. Sabean, who has been a noted robber for many years and a terror to the country, is fifty-eight years old.

OTHER PROVINCES.

Andrew Sloan, a wealthy farmer of Bradford, Ont., was found dying in his barn, his skull having been crushed in by a blow from a heavy instrument. He lived about a couple of hours. Alfred Kelly, his hired man, has been arrested on suspicion.

The Canadian Pacific Railway Company has abandoned the idea of purchasing the Waterloo, Magog and other eastern township roads, with whom they were negotiating for the purpose of acquiring a short line railway, and will, instead, build an independent line from the end of the new Lachine bridge to Farnham, Quebec.

The Dominion Government has published an order in council prohibiting the importation of meat cattle from those countries of the United Kingdom in which the disease of pleura pneumonia is officially reported to exist. All importers of cattle will be required to certify under oath the localities from which cattle have come. Cattle importers and steamship companies should exercise the greatest precautions before shipping any cattle to Canada.

A serious shooting affair occurred at Rustico Harbor during a spree in the house of a man named McAnulty. A number of intoxicated persons got into a row and Ebenezer Marshall, a fisherman, fired at Felix Roach. The shot missed Roach but passed through the hand of a boy named Gallant and lodged in the abdomen of a married sister of Marshall. She will probably die. The parties concerned are all related. Warrants have been issued for their arrest.

A Victoria, B. C., special to the Globe says the seizure of three vessels belonging to Victoria in Behring Straits, while seal fishing, creates uneasiness, for nine are still out. Half a million dollars of capital are involved in the

enterprise. The men seized on board the vessels will return from San Francisco.

Dr. McEachran, Chief Dominion Inspector of cattle quarantine, is at Quebec superintending the slaughter and cremation of Mr. McCrea's infected herd of cattle. A large kiln, specially erected for the purpose, has been completed. The work of slaughter and cremation has commenced, and it is believed about Tuesday the whole herd will have been reduced to ashes. The sheds occupied by the infected cattle and all the manure in quarantine, amounting to over 3,000 loads will also be burnt.

BRITISH AND FOREIGN.

Serious riots have occurred at Nagasaki, Japan, between Chinese and Japanese. Five Chinese were killed and a hundred wounded.

Three hundred workmen in a farm implement factory at Viersen, France, struck for higher wages. Troops have been sent to preserve order.

Belfast is extremely quiet, but the military and police are still on duty, as the slightest incident is sufficient to produce a renewal of the disorders.

Despatches from Tientsin state that the Chinese government has decided to despatch troops to Port Lazareff as a precautionary measure against the reported design of Russia to seize that place.

A despatch from Bucharest, the capital of Rumania, states that all news from Bulgaria comes at present through official couriers. No private person is allowed either to enter or leave Bulgaria. The telegraph lines, the despatch says, have all been stopped from operation.

The magistrates of Belfast are in a quandary as to how to proceed in view of the verdict of wilful murder found against nine policemen at the secret session to-day. The policemen have not as yet been arrested. They are charged with unnecessarily firing upon citizens during the recent riots.

Pursuant to instruction from the war office various generals of the army districts have ordered volunteers to practice picket duty and be in readiness to quell rioting during the ensuing autumn and winter. Each volunteer is to be supplied with 20 ball cartridges. It is understood that action is taken under the expectancy of a renewal of dynamite outrages and Irish disorders in the northern and midland towns of England.

A despatch from Sofia, Bulgaria, says: The populace and troops quartered in the capital surrounding the palace early Saturday morning. Prince Alexander abdicated and was escorted over the frontier. The populace then assembled and adopted a resolution praying the Czar to extend his sympathy to the Bulgarian people. The assembly proceeded to the palace of the Russian agent and submitted to him the resolution, all kneeling. The agent assured them of the Czar's friendship. A provisional government has been formed.

The Queen's speech at the reassembling of parliament was short and unimportant. Parliament is notified that it is reassembled simply for the purpose of transacting only such business as is essential to the conduct of public service. The address in reply to the speech was agreed to. At the hour parliament met, a depressing and persistent rain was falling and the crowd gathered about Westminster was small. Some enthusiasm was displayed on the arrival of various prominent leaders but it was generally faint. The attendance in the house of commons was large. Many members arrived before they had breakfast in order to secure good seats.

The N. Y. Sun's London special says: M. de Giers' stiff reply to England's protest against the closing of the port of Batoum has produced a painful impression which is not likely to pass away until some action is taken by the government to suitably maintain England's dignity in the matter. To a visitor who expressed sympathy on account of his having Russian and Irish difficulties to deal with at the same time, Lord Salisbury yesterday replied that no action need be paid to Ireland when Russia moves. The cabinet was in session two hours yesterday considering the Russian matter. The situation is evidently regarded as requiring grave deliberation.

UNITED STATES.

Cutting will be released on Tuesday, the Mexican authorities believing that his two months imprisonment has been a sufficient expiation of his crime.

The body of W. Grey, jr., who as treasurer of the Indian Orchard and Atlantic Mills became a defaulter for nearly half a million, and who disappeared on Monday, was found on Blue Hills. He had shot himself.

Graham successfully navigated the whirlpool rapids with his head protruding from a barrel. James Scott, a fisherman of Lewiston, attempted to swim the whirlpool rapids this afternoon in a cork suit. His head, body was picked up at Lewiston one hour later.

Dr. C. C. Beers was arrested in Boston on Saturday on a charge of poisoning Lizzie A. Robinson, in conjunction with Mrs. Sarah Jane Robinson, who is now in jail charged with poisoning her son, W. J. Robinson. Dr. Beers has devoted his practice in Boston for some years to curing opium eating and drunkenness.

W. H. Parsons, brother of the condemned anarchist, said to a reporter the case would be carried to the supreme court of the United States if necessary. It is very well understood that the leading exception will be the

refusal of Judge Gray to give for the defence the instruction which gave to all men the right to peaceably assemble, and to compel by force any attempt, either by the authorities or private individuals, to break up such a meeting. If the supreme court overrules them on this point, they will appeal to the United States supreme court, on the ground that the question is a constitutional one.

The Chicago anarchists who threw bombs causing the death of several policemen have been found guilty of murder and sentenced to be hanged. This result of the trial was a foregone conclusion. The persecution was able to give the whole history of the anarchist plots, from their commencement, to identify the chief plotters and to confront them with unimpeachable evidence of design and premeditation. Pinkerton's detective agency has been watching these dangerous men for a long time. Pinkerton's agents, for the purpose of detection, had wormed themselves into the confidence of the leaders of the organization. They joined the society and attended its meetings until they got all the secrets of the order, and were master of the murderous designs of the criminals. The spy system has made it possible to hunt down these murderers.—Sun.
