News of the Week.

NEW BRUNSWICK.

There are at present 46 prisoners in the common-jail—the smallest number of persons housed in that institution for a long time.

Mr. Donald Munro has been appointed registrar of deeds for Carleton County. Mr. Munro is a son of the late registrar.

Quantities of moose meat are being shipped to the United States over the I. C. R. and N. B. railroads. The moose are captured up north.

Several "outsiders" have gone to work in the St. Croix cotton mill, and the mill is again in partial operation. The strikers are still out.

Moncton is agitating for a fire alarm telegraph system. Estimates have been obtained which fixed the cost at \$1,002.50.

Some of the residents of Sussex and Studholm are making an effort to have a new parish formed which is to include a portion of both parishes.

It is said that the owners of the steamer "Flushing" intend to place another boat on the Grand Manan route as soon as a suitable one can be obtained.

Miss Moffat's house and outbuildings at Central Kingsclear, York, were burned on Sunday. There was \$1,000 insurance on the latter.

The Catholic church at Saint Francis, Madawaska County, familiarly known as the "Red Chapel," was totally consumed by fire a few days ago, together with the presbytery and its contents.

The Northern & Western railway is buying a large quantity of birch timber on the bank opposite Fredericton. The timber is cut in and around Cross Creek. The future supply of birch from that section of the country will be very large.—Telegraph.

The chief superintendent of education has received a notification to the effect that the educational exhibits for the colonial exhibition need not be shipped for London until March 20th, and in consequence he has extended the time for forwarding specimens to the educational office from February 15th until March 1st.

While the employees of the Record Foundry and Machine Company in Moncton were celebrating the expiration of the apprenticeship of two of their comrades by firing a salute from the foundry cannon, a man named Dixon had one finger blown off, and was thrown some distance. Another man named McEvin received quite serious injuries, and two others were slightly hurt.

On Wednesday a young woman named O'Neil, a domestic in the family of Ald. Potts at Crouville, went to the well near the house to get water. There was considerable ice about the well, and it is surmised that she slipped on this ice and fell in. About one o'clock she was missed, and a search being made her body was found in the well. Assistance was summoned but the woman was dead.

A sad drowning accident occurred at Flag's Cove, Grand Manan, Tuesday morning. Two men named William E. and George Brown, brothers, were returning from herring nets, when their dory upset about one quarter of a mile southeast of Swallow Tail light-house, and both men were drowned before assistance could be rendered.

While attending service in the Portland Baptist church Mrs. Wm. Ferris became suddenly ill. Her friends removed her to the vestry. Dr. Christie was sent for, but before he arrived the lady had passed beyond all medical aid. The deceased lady was about 60 years of age. Prior to her death she had been in excellent spirits and health.

For some time past the residents back of the Nerepis have asserted that they frequently heard the howls of wolves, but many discredited the story. On Sunday, however, a party of men were passing Capel Lake, about five back of the Nerepis, and they saw nine wolves playing on the ice in the lake. It is said that deer are quite plentiful in that vicinity.

The Lieutenant-Governor has been pleased to make the following appointments:

Christian A. Robertson, to be chairman of the commissioners of slaughter houses for the city and county of St. John.

George McEwin, to be commissioner of the civil court for the Parish of Kingsclear, York Co.

John G. Connolly and Charles Luther Brown to be justices of the peace in York County.

The trade of St. John for the last three months of 1885 shows an improvement over the same period of 1884. Imports of all dutiable goods have increased from \$561,902 to \$604,441. Imports of free goods have advanced from \$195,076 to \$238,173. The value of dutiable goods entered for consumption shows an advance from \$591,944 to \$619,808, and of free goods \$197,085 to \$240,344. The value of exports for the last three months of 1884 was \$758,019 and for the same period of 1885, \$885,801.

NOVA SCOTIA.

The Halifax Herald gives the names of 180 persons who are preparing Nova Scotia exhibits for the Colonial Exhibition.

An American gentleman who recently purchased a farm at Pembroke, Yarmouth Co., has ploughed in his fields in December, January and February, and hopes to do the same in March.

The total value of imports into the port of Halifax for January, 1886, was \$720,052, of which \$468,818 was in coin, and \$140,815 in free goods. The total value of exports for the same period was \$240,313.

Over one thousand fishermen at Cheticamp are thrown out of employment by the failure of the firm of Robin & Co., the famous fish merchants.

Mr. George Richard, mate of the Yarmouth schooner Winnie L., was washed overboard from the mainboom of that vessel, on her recent passage from Yarmouth to Demerara. The drowned man was 20 years of age and belonged to Tusket Wedge.

A company has been formed to connect Barrington Head with Bear Point and intermediate places by telephone, and another company to extend the telephone line from Pubnico Head to Bear Point. In a few days communication by telephone will be had from Yarmouth to Digby.—Yar. Herald.

The miners at Spring Hill are reported to be out on a strike. Some of the outers are said to have demanded higher rates because they had bad places to work in. This was not conceded by the management. These men struck and were supported by the great body of the workmen.—Halifax Herald.

Barque Napier, Charles W. Raymond, master, sailed from Pensacola, Fla., on the 16th October last for Antwerp, with a cargo of deals and boards, and has not since been heard of. Capt. Raymond was a resident of Port Maitland, Yar. Co., and leaves a widow. The crew were of various nationalities.—Herald.

A fatal accident occurred on the mountain near Bridgetown, N. S., on Thursday. Samuel Chute, aged 40, son of Burton Chute, of Clarence, was engaged hauling wood down the north mountain. He was endeavoring to fix a stick of timber, which had slewed, when it broke from the sled, rolled over and crushed him to death. Deceased leaves a wife and one child.

Two prisoners in jail at Windsor, N. S., managed to escape on Wednesday night by sawing the bars of their cell, apparently with a fret saw. One of them is a colored man named Ford, who bears a bad character, and whose offense is sheep stealing. The other's name is Eagles, and the charge against him is house breaking at Newport. The bars were finely cut and the men were not missed till Thursday morning.

Parrsboro made a good show last year on lumber shipments, having 31,383,000 feet shipped out of a total for the province of 79,647,765 feet. Amherst comes next with 16,124,947 feet, Cumberland Co. shipping over one-half the lumber from Nova Scotia. It is expected that fully one-half more will be shipped in 1886. Freighters for coasts are going up and small vessels will reap a good healthy reward this coming season.

The following dividends have been declared for the past half-year by the banking companies of Halifax: The Union Bank of Halifax, 2½ per cent; People's Bank, 2½ per cent; the Halifax Banking Company, 3 per cent; and the Bank of Nova Scotia, 3½ per cent. The Pictou Bank decided, at the annual meeting held on the 27th ultimo, to reduce its capital stock from \$250,000 to \$200,000, and the directors were instructed to obtain the necessary legislation.

On Monday the Yarmouth directors of the Kempt Gold Mining Company received word of a rich find. The foreman of the Reeves mine had discovered a lead 17 inches thick, only four feet from the surface. This on being opened up was found to be of dazzling richness. Old miners employed at the different mines, men who have spent years in other mines in this province and abroad, unhesitatingly pronounced it the richest lead ever found in Nova Scotia. Many rich mines have very little gold visible to the naked eye, but here every piece of rock broken out was richly studded with the bright yellow metal.—Times.

OTHER PROVINCES.

A malignant form of diphtheria prevails in Hull, opposite Ottawa.

The liquidators of the bank of P. E. Island have declared a further dividend of five per cent.

The marriage is announced at Carleton Place, Quebec, of Louis Sansfacon, aged 73 years, to Widow Luce Pepin, aged 63 years.

The Government has pardoned Ignace and Arcand Portas and Ignace Portas, jr., also Moise Paranteau, now each undergoing a year's sentence for complicity in the Riel rebellion.

Premier Mowat, of Ontario, has formally told a Young Liberal deputation that there will be no extension of the franchise to manhood suffrage until after the next Provincial general election.

A story has gone the rounds of the press stating that at Woodstock, Ont., a young girl of the name of Collins had been buried, and that on opening the grave to remove the body, there were evident signs that she had been buried alive, and had vainly struggled to get free. It is now stated authoritatively that nothing of the kind took place. It is probable other similar stories have had no better foundation.

Dr. Wakeham, commissioned by the Government to aid the chairman of the Bonaventure, Quebec, relief committee in distributing the relief given by the Government, has arrived at Paspébiac from Gaspé. He reports that the distress is great between Percé and Bonaventure, but is greatest at Newport, Grand River, Nouvelle, Paspébiac and New Carlisle. The people are doing all they can to help each other, and so far have been orderly, but some have threatened to break into the stores. Many families have not tasted bread for weeks, and many families are now actually without a mouthful to eat in their houses. So far \$2,000 has been given by each Government—federal and local—which will be evenly divided between the two counties—Bonaventure and Gaspé.

BRITISH AND FOREIGN.

At Leipzig, February 11, Captain Sarauy was found guilty by the supreme court of having furnished plans and information of the German fortifications and armaments to the French military authorities, and sentenced to 12 years penal servitude. Herr Roeltger, who was on trial on the same charge was acquitted.

No new disturbances were reported in any part of London. Public confidence is restored. The government has caused circulars to be sent to officials throughout the country, enquiring into the extent of the distress among working people out of employment and inviting suggestions as to the best measures for the relief of the sufferers.

Three hundred unemployed working-men called upon the lord mayor of London, Thursday, to urge upon him the necessity of doing something to relieve distress among the unemployed of London. The lord mayor courteously received the deputation and promised to personally assist the distressed people so far as his means would permit him. He added that the lord mayor's fund for the relief of the distressed poor of the city, which had been started on Tuesday, amounted to £6,000.

The latest estimate places the damage done in the London riot at under £5,000. All witnesses agree that rioters were mainly ruffians of villainous looks and habitual criminals of the lowest order. The news of the riots created a sensation in Europe. The socialists of Paris and Berlin are jubilant. Meetings are being called in those cities to express admiration for the London socialists and encourage them. The Daily Telegraph says that the government intends to prosecute the more violent of the socialist speakers who addressed the mob.

General Winfield Scott Hancock died on Tuesday.

The Boston Grocery Clerks' Benevolent Association held an entertainment a few nights ago, one feature of which was a contest between eight clerks as to which one would tie up a certain number of bags of sugar in the quickest time and in the neatest way. Tyler Thompson, of St. John, who is with Cobb, Bates & Yerxa, was the winner. Mr. Thompson was a clerk in Mr. George Robertson's store in St. John until a short time ago.

A despatch of Sunday says owing to the overflowing of Stony brook, in the southern portion of Boston, a large section of that part of the Roxbury district is flooded with water. The inundated district comprises an area of not less than two square miles, and hundreds of houses are flooded and thousands of people have been compelled to leave their homes. For two days the police and fire departments, aided by citizens, have been at work taking people from the upper stories of their houses by means of boats and rafts, and in conveying provisions to others who are confined in their tenements and unable to escape. Many buildings have been wrecked, generally wooden structures occupied by mechanics or laboring men, but other and more valuable edifices have been permanently damaged and some of them are momentarily expected to collapse. There is a deal of suffering among the poorer classes, which is being rapidly and systematically relieved by the city.

All the railroads south are washed out and no trains have left the city in that direction yesterday or to-day. The hotels are consequently overcrowded and cots are placed in halls and corridors for the accommodation of guests. Many of the poor people who have been driven from their homes have lost all of their possessions, the contents of their homes having been destroyed by the flood. Boats and rafts are used to navigate the streets in the southern part of the city.

The waters are now subsiding and it is hoped that the climax of the flood has been passed. It will take a long time for the water to disappear, however, as the sewers are in a bad condition and there is no natural outlet for the water. The damage cannot be estimated, but conservative judgment places it between one and a half and two millions of dollars.

From all parts of New England come reports of serious damage by floods. Along the lines of the Old Colony and Boston & Albany railroads, had wash-outs have occurred, completely shutting off travel.

At Taunton, a dam on Mill river gave way, the water sweeping through the city and flooding the streets to the depth of many feet. People attending church were surprised by a sudden overflow and could scarcely reach their homes.

MARKET REPORT.

CORRECTED WEEKLY BY GEORGE LYMAN, ESQ. DEPUTY CLERK.

Beef, Country, per lb.	04	to	63
