TO SUNDAY-SCHOOL WORKERS.

To the Editor of the RELIGIOUS INTELLIGENCER:

Dear Sir.—Allow me to call the attention of S. S. workers in the province, to the meeting of the Provincial Convention to be held in Fredericton, on the 14th-15th inst. Programmes and circulars with full information have been issued to county secretaries along with a blank delegates' certificate for each school. Any superintendent who has not received these should write at once to the secretary of his County Association, or to Mr. Geo. A. Henderson, 176 Duke Street, St. John. Those who intend to be present should notify Mr. John W. Spurden, Fredericton, by the 8th inst. Those who fail to do this cannot be assured of accommodation. The usual half-rates have been obtained from the R. R. and Steamboat lines.

Will not the S. Schools of the province, send us a large and interested delegation. The programme is inviting, the season of the year most pleasant, the Capital now looks its loveliest, everything combines to make our annual rally of S. S. workers a most delightful occasion. Come and encourage us with your presence, be encouraged by what you hear, and help us to devise liberal measures for the future.

Yours sincerely,

F. F. FOTHERINGHAM.

THE PYRAMID OF MEXICO.—A recent writer tells us a marvellous tale of an immense pyramid and remarkable cliff dwellings a few miles south of Magdalena, Mexico, in the State of Sonora. The statements may be, and probably are, correct, as it is said that these remains of an ancient race have attracted a good deal of attention. Among the ruins is one pyramid alone with a base of 4,320 feet square, and an elevation of 750 feet. It has a winding roadway, leading by an easy grade, from bottom to top, wide enough for carriages. This is several miles long. In the sides of this pyramid as one ascends he passes hundreds of chambers, cut in the solid rock, with walls, floor, and ceiling hewn with a precision truly remarkable. These chambers vary in size from five to ten, sixteen and even eighteen feet square. There are no windows, and but one entrance, which is always from the top. The height of the ceiling usually is eight feet. The walls are covered with hieroglyphics, and figures of men and animals. In some places feet and hands of human beings are found cut in the rock. In this pyramid fortress, with thousands if not tens of thousands of defenders, were the homes, in times of war, of those living in the valleys and fields around. Who constructed these rock dwellings is not altogether known. Some claim that they were the ancestors of the ancient Aztecs or Toltecs; but they might have been the remains of the present Zuni tribes—if so, with them tradition has forgotten its usual cunning.

THE AGITATION IN central and northern Europe in favor of better observance of the Lord's day is gaining in breadth and depth. In Alsace-Lorraine two petitions in favor of the reform have lately been circulated. The first one, originating in Roman Catholic circles, has already 140,845 names, but many on this monster petition are Protestants. The second petition was started by the Protestant Pastoral Conference at Strassburg, and has now 6,367 subscribers. In Paris the "Society for the Better Observance of Sunday" recently offered prizes for the best popular discussion in pamphlet form of the Sunday question, the condition being that only workingmen were to send in their essays. No less than 41 manuscripts were received, five of which took prizes.

ALL SORTS.

"What's in a name?" a recent traveller was heard to exclaim. "Why, about the hottest country on the globe is Chili."

There are in all 4,842 letter carriers employed in the various carrier post offices in the United States.

A plan for putting electric wires under-ground in the city of New York has been determined upon, and the construction of the system will be commenced almost immediately.

A scientist has found that a woman's ear can perceive higher notes than a man's. This is the reason why the woman always wakes up first when the baby cries at night.

A Chicago man, recently back from Europe, was asked what he thought of the scenery in Switzerland. "I don't think much of it," he said, "it's too hilly. Give me Illinois for scenery every time."

When Rev. John Wesley was on his voyage to Georgia with General Oglethorpe, the general threatened revenge upon an offending servant, saying, "I never forgive." "Then I hope, sir," said Mr. Wesley, "you never sin."

A Frenchman thinks the English language is very tough. "Dere is 'look out,'" he says, "which is to put out your head and see, and 'look out' which is to haul in your head and not to see—just contrairie."

Thomas Steens, the bicyclist, who is travelling on his wheel around the world, sailed from Constantinople for India June 23rd. He was held nineteen days a prisoner in Afghanistan, when within ten days' journey of Calcutta, by a military imbroglio.

A newly arrived chiropodist from the old country announces himself as late corn-doctor to the Court of Germany, and tells us he has "removed" from several of the crowned heads of Europe. Is that the reason why a head that wears a crown lies so uneasy?

The Peabody Donation Fund, London, originally \$2,500,000, now amounts to \$4,405,055 in round numbers. It is used for the erection of improved dwellings in that city. Those already built are occupied by 20,005 persons.

The total annual consumption of tea, it is now estimated, is 3,000,000,000 pounds; of coffee, 1,000,000,000 pounds; cocoa and chocolate 1,000,000,000 pounds. Tea is the favorite drink of Russia, Holland and England, the last country annually importing 100,000,000 pounds, or several pounds to each man, woman and child.

There has been such lack of water in some portions of New South Wales that, during the past three years, fifteen million sheep have died. There now seems to be some hope for a return of rain, as the natives are reported to be moving to higher ground, and the white ants are said to have commenced building their curious elevated dwellings, which serve them as places of refuge during wet weather. These two indications are referred to by Australian journals as unfailing evidence of a probable change in the weather.

The little prayer-book which Mary of Scotland used on the scaffold was sold at auction in London the other day. The prayers are the handiwork of some rare fifteenth-century scribe; they are written in Latin on vellum. The pages of the missal are exquisitely illuminated with elegant borders of fruit, flowers and birds; they are also decorated with thirty-five miniatures by a Flemish artist, pieces of elaborate workmanship. The little book still rests in the original oak boards, covered with silk now much worn, in which it was originally bound.

The Railroad Gazette cites one of the longest times in which fire has been kept in a furnace without the addition of fuel. A furnace belonging to the Kemble Iron and Coal Company, at Riddlesburg, Penn., was banked up and hermetically sealed in November, 1884, fire being left in. On March 5, 1886, the furnace was opened, after being closed for nearly six months. The fire was found to be still burning, the coke glowing brightly, and, on the admission of air, soon became hot enough to melt cinder. It was started as easily as if it had been standing but a week.

CORN SOWING.

Is a process conducted by the agency of tight boots all the year round. Corn reaping is best conducted through the agency of Putnam's Painless Corn Extractor, the only safe and sure-pain corn cure. Putnam's Extractor is widely imitated. Beware of all poisonous and sore producing substitutes.

WORTH REMEMBERING.

In a long letter from John H. Hall, of Baddeck, Cape Breton, N. S., he says: "I believe were it not for Burdock Blood Bitters I should be in my grave." It cured me of kidney and liver complaint and general debility, which had nearly proved fatal.

ADVICE TO MOTHERS.—Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of Cutting Teeth? If so send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it; mothers; there is no mistake about it. It cures Dysentery and Diarrhoea, regulates the Stomach and Bowels, cures Wind Colic, softens the Gums, reduces Inflammation, and gives tone and energy to the whole system. "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price twenty-five cents a bottle. Be sure and ask for "MRS. WINSLOW'S SOOTHING SYRUP," and take no other kind.

A FRUITFUL SEASON.

The fruitful season of this year is prolific with many forms of Bowel Complaints, such as Diarrhoea, Dysentery, Colic, Cholera Morbus, Cholera Infantum, &c.; as a safeguard and positive cure for those distressing and often sudden and dangerous attacks nothing can surpass that old and reliable medicine Dr. Fowler's Extract of Wild Strawberry.

UNDER FALSE COLORS. Notwithstanding the protection from which law encircles patent rights and trade marks, no sooner does a valuable patent or proprietary article make its appearance than a horde of unprincipled persons try by every means to imitate the original. PYLE'S PEARLINE, celebrated as a washing compound, has had a score of imitations, but the superiority of the genuine article over the counterfeits is so plainly apparent that very few people have been deceived.

The blighting effects of impure blood are sad to behold in those we meet day by day. This ought not and need not be so. Parsons' Purgative Pills make new rich blood; taken one a night for twelve weeks will change the blood in the entire system.

O. E. Comstock, Caledonia, Minn., writes: "I was suffering the most excruciating pains from inflammatory rheumatism. One application of Dr. Thomas' Electric Oil afforded almost instant relief, and two bottles effected a permanent cure."

A GREAT AWAKENING. There is a great awakening of the sluggish organs of the human system whenever Burdock Blood Bitters are taken. It arouses the torpid Liver to action, regulates the bowels and the kidneys, purifies the blood, and restores a healthy tone to the system generally.

A gentleman in a neighboring town who had suffered two years with chronic diarrhoea and was so reduced that he could not walk, was cured and restored to sound health by Johnson's Anodyne Liniment. This liniment is worth its weight in gold.

M. Sheehan, of Oscoda, Mich., writes: "I have used 'Dr. Thomas' Electric Oil on horses for different diseases, and found it to just as you recommended. It has done justice to me every time, and it is the best oil for horses I ever used."

A SURE THING.]

A SURE CURE FOR SUMMER COMPLAINTS.—Procure from your Druggist one 37½ cent bottle of Dr. Fowler's Extract of Wild Strawberry and use according to directions. It is infallible for Diarrhoea, Cholera Morbus, Canker of the Stomach and Bowels, and Cholera Infantum.

Dr. J. D. Kellogg's Dysentery Cordial is a speedy cure for dysentery, diarrhoea, cholera, summer complaint, sea sickness and complaints incidental to children teething. It gives immediate relief to those suffering from the effects of indiscretion in eating unripe fruit, cucumbers, etc. It acts with wonderful rapidity and never fails to conquer the disease. No one need fear cholera if they have a bottle of this medicine convenient.

Mr. J. McCarthy, Toronto, writes: "I can unhesitatingly say that Northrop & Lyman's Vegetable Discovery is the best medicine in the world. It cured me of heartburn that troubled me for over thirty years. During that time I tried a great many different medicines, but this wonderful medicine was the only one that took hold and rooted out the disease."

A COMPLETE BREAKDOWN.

"For ten years," says Jennie M. Harrett of Wallaceburg, Ont., "I did not see a well day—was all broken with dyspepsia, liver complaint, catarrh and debility. Three doctors abandoned hope for me, when Burdock Blood Bitters came to my rescue. It is the best medicine I have ever taken. I say this for the benefit of all suffering as I did."

THE FACE WEARS A YELLOWISH HUE, pimples appear upon it, sick headaches, vertigo, morning nausea, and pains in back, side and shoulder blade, are experienced when bile enters the system and poisons the blood. Expel it into the circulation, and direct it into its natural channel the bowels, with Northrop & Lyman's Vegetable Discovery and Great Blood Purifier, which has widely superseded mineral drugs having a dangerous reaction. Indigestion, Constipation, Impurity of the Blood, and Kidney Complaints are entirely overcome by its use.

TO THE RESCUE.

"When all other remedies fail," for Bowel Complaint, Colic, Cramps, Dysentery, &c., then Dr. Fowler's Extract of Wild Strawberry comes to the rescue." Thus writes W. H. Croker, Druggist, Watertown, and adds that "its sales are large and increasing."

St. John, N. B., Oct. 22nd, 1881.

Messrs. T. B. Barker & Sons:

Gentlemen,—Having had occasion to use Fellows' Leeming's Essence at different times, I have to state that it is, without exception, the best remedy that I know of for Splints, Ringbone, Bone Spavin, and the different ailments of the horse for which it is prescribed. Horsemen everywhere should try it, and having once tried it, don't think they would run a stable without it. The cost of the preparation is a small item compared with the benefit that is derived from its use.
