

year resulted as follows: Mrs. C. T. Phillips, President; Mrs. S. H. Shaw, Corresponding Secretary; Mrs. Richard Alexander, Secretary-Treasurer. Adjourned by singing Doxology, and benediction. An adjourned meeting was held on Monday at 10 A. M., when the following officers were appointed: Mrs. S. McLeod, Auditor; Mrs. S. H. Shaw, Treasurer of Home Mission Fund. Adjourned to meet at time and place of the next District Meeting.

A public missionary meeting was held on Monday at 2 P. M., which was large and deeply interesting. After the meeting was opened by singing, reading scriptures and prayer, the President, Mrs. C. T. Phillips, made some appropriate remarks with regard to the advancement of our Society since its organization. The Secretary read the report. Rev. J. W. Clark made some interesting remarks in relation to the great good done by the efforts put forth in the work. Elder Taylor spoke of the union existing among the workers. The Corresponding Secretary read some extracts from Mrs. C. Weyman's and Mrs. Hooper's reports, referred to Mrs. Smith's work in India, and spoke also of the sad loss we had sustained by the death of one of our active workers, Mrs. Charles White, of Tracey Mills, Assistant Secretary. Rev. C. T. Phillips followed with a stirring address, referring especially to the sacrifice of the missionary elect, Mr. A. B. Boyer, B. A., in leaving home, friends and high professional prospects; said he had done something noble and grand; and urged that by sending out these missionaries we were enriching ourselves; great good will come to us by giving, not our worst, but our best; a church that does not work grows weak. Singing, "Go to tell the World of His Love." Mrs. Shea presided at the organ. Mrs. S. McLeod spoke of the work of missions; 600,000,000 of our sisters in darkness; are we willing to do all we can to send them the light? If the Church of Christ stood in the light much more would be done. Then followed A. B. Boyer, B. A., who said if they do not get the gospel from us they will go without it. He spoke of the territory in India to be cared for by Free Baptists; for more than 4,000,000 there were only sixteen missionaries; he spoke of his call to the work being so forcible that he could not resist; he had counted the cost. Miss Shea briefly spoke of her call to the work, making an excellent impression. A collection was taken amounting to \$31.05. Closed by singing Coronation. An adjourned meeting was held in which it was resolved that half of collection be given to F. M. Society.

Mrs. Richard Alexander,
Secretary-Treasurer.

THE BOARD OF MANAGERS of the Free Baptist Woman's Foreign Mission Society met in the vestry of the Waterloo street church, St. John, July 2nd. Two applications for work in the foreign field were before the Board. Miss Hooper, of Fredericton, returned missionary, and Miss Belyea, of Woodstock. For want of funds but one could be accepted at present. Miss Hooper was accepted and money for her outfit and passage voted. She is expected to return to India in the "fall." May the day come speedily when money will be as plenty as the missionaries.

NOVA SCOTIA.

CARLETON, N. S.—Two persons were baptized and received into the church at Carleton last Sabbath (4th inst.).
J. J. BARNES.

QUARTERLY MEETING.—Harmony Quarterly Meeting Free Baptists of Nova Scotia met with Harmony Church, Caledonia, Queens Co., N. S., June 25th, 26th, and 27th, 1886. Met Friday afternoon for business. Bros. Sam'l Foster, Geo. Selden, Henry Coffin, Ezra Parker, Jacob Wagner, James E. Cushing were chosen delegates to General Conference, with power of substitution. After hearing Bro. J. E. Morton, of Halifax church, relate his Christian experience and call to preach the gospel, and an examination conducted by the clerk at the request of Conference, it was voted, "That whereas, The relation of his Christian experience and call to the gospel ministry together with the way in which he has answered the questions asked by the clerk are satisfactory to the Conference,

Therefore be it resolved, That this Q. M. Conference grant Bro. J. E. Morton of Halifax church a license to preach till July, 1887." Friday evening there was a good meeting, led by the clerk, in which Bros. Kinney, Francis, Morton, Bleakney, (Baptist) and brethren and sisters of Caledonia took part. Saturday, Social Conference. In this Conference forty-nine spoke. One feature of interest was that Father Chas. Cushing, nearly ninety-six years old, was able to be there and give his testimony for Jesus, and was followed by a young brother 10 years old. One mother in Israel, Sister Cushing, testified of sixty-eight years in the service, and a young sister testified to the joy of the four months in his love. It was a good meeting.

Saturday evening a missionary meeting. Elder A. Kinney presided, and speeches were made by Bros. Kinney, Royal, Francis and by Bros. Bleakney and Fletcher (Baptists). Lord's day morning there was preaching at Caledonia by the clerk, after which we gathered around the Lord's table; at Westfield by Bro. J. E. Morton; at Kempt by Bro. Geo. F. Francis. In the afternoon at Upper Kempt by Bro. Kinney, and at Northfield by Bro. Francis. In the evening Bro. Kinney preached at Caledonia Corner, and Bro. Royal at Northfield. The brethren at Caledonia have improved the appearance of their place of worship both externally and internally. They have added a tower which

decidedly improves the appearance of the whole building; and they have painted and repaired the outer walls. Bro. James E. Cushing made them a present of three pulpit chairs, a very neat and suitable set. Sister Susie Smith made them a present of a neat chandelier. The Ladies' Circle obtained carpeting, matting, window shades, etc.; and thus the whole building has been improved in its appearance. The improvements are a credit to all concerned. The weather was fine, the congregations large, the singing and music good, the preaching the best the brethren could do, and it was appreciated, especially at Kempt, Westfield, the afternoon service at Kempt and Northfield and the evening services at Caledonia. The morning prayer-meeting was a glorious season.

O. M. Clerk.

RELIGIOUS NOTES AND NEWS.

—It is reported that a popular clergyman, recently galvanized a dull prayer-meeting, by announcing that he "didn't propose to act as umpire for a sleeping match!"

—The total receipts of the British and Foreign Bible Society for the year ending 1885, amount to \$1,680,106.94. These two organizations during the entire period of their existence, have issued 155,198,515 copies of the Scriptures, making an average of 18,000 per day.

—"It is no uncommon experience," said Dr. Hall, "for me to receive a letter from a hired servant, regretting that she would be unable to come the next Sunday, as it was her day to stay at home, and inclosing perhaps five and, in one case, ten dollars for the foreign missionary collection."

—The circulation of the Scriptures during the past year has been as follows, in twenty languages: English—Bibles, 2,134; New Testaments, 3,318; Portions, 10,614; total, 16,066. Foreign—Bibles, 926; New Testaments, 12,517; Portions, 158,229; total, 171,772; English and Foreign being 187,865.

—There are 3,424 languages and dialects in the world, viz., 937 Asiatic, 587 European, 276 African, and 1,624 American, while the Scriptures may be purchased in ninety-one languages, of which 37 have entire Bibles, thirty-four complete New Testaments, while the remaining twenty consist of one or more books of the Old or New Testament.

—Rev. Narayan Sheshadri, the distinguished native preacher of India, is meeting with great success in his ministry at Jalna and vicinity. He is carrying on extensive evangelistic work in the region, preaching to large companies of natives as he has opportunity. Many converts are being received into the Churches in the different villages.

—The rapid growth of the Salvation Army in England proves that there is field for its unique work. While, in 1882, it numbered 320 "corps," it now includes 1,582, and its officers have increased from 766 to 3,602. In the last four years it has leased or erected halls whose seating capacity aggregates half a million. Some of the leading men of the Church of England bear cordial testimony to the value of its work, a work which undoubtedly is better adapted to the conditions of life in that country than in this, although in localities it has been valuable here.

TEMPERANCE NOTES.

—Three hundred distinguished sons of Maine sat down to a sumptuous dinner at Quincy House, Boston, last month, with not a drop of intoxicating liquor to drink. Prohibition educates in the right direction in Maine.

—Paul Boynton, at the close of an auction sale of the fixtures of his saloon said: "Gentlemen, I thank you for helping me to leave a business I have felt to be a curse upon me ever since I entered it. I would rather cultivate bricks than touch the gin trade again."

—Out of a caravan of eighty-two persons who crossed the great desert from Algiers to Timbuctoo, the present summer, all but fifteen used wine and other liquors, as a preventive against African diseases. Soon after reaching Timbuctoo, these all died save one; while of the fifteen who abstained, all survived.—Quoted by Edw. C. Delavan in 1860.

—The *Railway Age* says, very pertinently: "We urge all railway employees in the land to strike—against rum. Whiskey is an infinitely greater evil to them than long hours or poor pay. Vastly more money is squandered in strong drink than any advance in wages can offset. Intemperance—not capital—is the great oppressor of labor. Let the Knights of Labor and all other labor organizations inaugurate a determined strike against strong drink, and the greatest evil of the age and of the world may be overthrown."

—The liquor-men sometimes affirm that prohibition "increases the sale of liquor," and yet are very careful not to allow their sales to be "increased" in that way if they can help it. Occasionally, however, they tell a different story. Not long ago the secretary of an Ohio distilling company is reported as saying to a representative of the Cincinnati *Times-Star* that the present prohibition agitation, especially in the South, had decreased the consumption of whiskey forty per cent. He said: "Look at Georgia, with its 134 counties; 113 have prohibited the sale of liquors, and another county will fall into line in a short time. In South Carolina forty-two counties are 'dry,' as we call them; in Alabama fifty-two, in Arkansas eighteen, while just one-half the counties in Mississippi are 'dry.' There are six 'dry' parishes in Louisiana, and even Texas, which is held up as an example of all that is tough, has twenty 'dry' counties where whiskey cannot be had for love or money." Even in Kentucky, the long-time headquarters of the distilling

business, many localities have, under the local-option law, declared against the liquor-traffic. It is not on the whole surprising that the liquor-men, who so often proclaim the "failure" of prohibition, are always on the alert not to allow it an opportunity to "fail," if they can prevent it.—*Nat. Temp. Advocate*.

AN EXPEDITION.—The *New York Times* has fitted out and despatched an expedition to explore the St. Elias Alps in Alaska. The expedition sailed from Port Townsend, W. T., June 14. Lieut. Schwatka, of Arctic fame, who is a well-seasoned explorer, has it in full charge. It will be remembered that he led a company sent out by the United States government in '79, to get information of the Sir John Franklin party. In '83 he made a trip through Alaska in the employ of the government, exploring the great Yukon River from its source to its mouth. He expects to make the ascent of the highest mountain on the North American continent, Mount St. Elias, which reaches an altitude of 19,500 feet. He will strike the snow line 3,000 feet from the plain, which will leave him some 16,000 feet of eternal frost to encounter. It is believed that the summit of this mountain is above the limit where snow falls. The expedition includes scientific men who will make such geological and mineralogical observations as may be possible. Miners and frontiersmen will be added to the party which expects to be able to return to the United States by the middle of September next. The world will wait the result of this exploration with interest. Comparatively little is known of Alaska and its resources.—*Advocate*.

ALL SORTS.

Coupling cars is a duty in which, according to Prof. Arthur T. Hadley, there are 15,000 persons injured every year.

In Russia, a coffin fair is held once a year. Every peasant who has an aged parent buys a coffin. The present is always acceptable, for the receiver feels assured that he will have a Christian burial, and is proud of the son who thus cares for his last resting place.

A blind man was sitting in company with some visitors, when one of the company left the room. "What white teeth that lady has!" said the blind man. "Why," said a friend, in great surprise, "how can you tell?" "Because," answered the blind man, "for the last hour she has done nothing but laugh."

In the Capitol, Montgomery, Ala., is religiously preserved a large Bible, printed by the American Bible Society in 1851, and bearing upon a fly-leaf this sentence: "The oath of office, as first President of the Provisional Government of the Confederate States of America was administered to Jefferson Davis upon this Bible by Howell Cobb, President of the Provisional Congress, at the front portion of the Capitol in Montgomery on the 18th day of February, A. D. 1861." The book, it may be added, is still used in swearing in Governors of the State.

An *Unprejudiced Criticism*.—Highly educated Teuton, who knows everything: "Der fault I haf to find mit der English is dot it has not dot perspikooty dot der Tchernan has. Now, for example, in der English you say 'science.' Dot conveys no idea. In Tchernan we haf der simple word, 'Wissenschaftlichen,' vich is melodious and comprehensiv. It is der same mit your papers. You haf a 'Real Estate Journal.' Dot is three words. In Tchernan we say 'Grundgegenthum-zeitung,' in one. It is more flexible. In your theatres you haf a paper called der 'Entracte.' We call such a paper theaterzeitungsaktzeszeitung. It is more peaceful. English is a weak language; it unt, pesides, Tchernans speak it unt write it petter as der English."—*Boston Gazette*.

THE VICTOR'S CROWN

Should adorn the brow of the inventor of the great corn cure, Putnam's Painless Corn Extractor. It works quickly, never makes a sore spot, and is just the thing you want. See that you get Putnam's Painless Corn Extractor, the sure, safe and painless cure for corns.

Housekeepers are cautioned against vile counterfeits on JAMES PYLE'S celebrated PARLINE, with names of a similar sound, and in packages of a similar shape. Parline is the only safe article to make washing easy, quick and cheap.

ADVICE TO MOTHERS.—Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of Cutting Teeth? If so send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it; mothers; there is no mistake about it. It cures Dysentery and Diarrhoea, regulates the Stomach and Bowels, cures Wind Colic, softens the Gums, reduces Inflammation, and gives tone and energy to the whole system. "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind. jun16lyr

COMPELLED TO YIELD.

Obstinate skin diseases, humors of the blood, eruptions and old sores are cured by Burdock Blood Bitters, which purify and regulate all the secretions.

Cramps and pains in the stomach or bowels, or in any part of the body, no matter how severe or what the cause, can be relieved by Johnson's Anodyne Liniment used internally and externally.

AFTER TWENTY-THREE YEARS SUFFERING

Rev. Wm. Stout, of Wiaraton, was cured of scrofulous abscess that seventeen doctors could not cure. Burdock Blood Bitters was the only successful remedy. It cures all impurities of the blood.

More than twenty years ago we had chills and fever, and the recollection of it makes us shake even now. But this disease no longer terrifies us. Parsons' Purgative Pills are a sure preventive.

EASILY CURED.

Mrs. Berkinshaw, 26 Pembroke St., Toronto, cured of a bad lameness of the knee joint, upon which the surgeons were about to operate. Other treatment had been tried in vain. Hagyard's Yellow Oil was the remedy used.

Henry Clement, Almonte, writes: "For a long time I was troubled with chronic rheumatism, at times wholly disabled; I tried anything and everything recommended, but failed to get any benefit, until a gentleman who was cured of rheumatism by Dr. Thomas' Electric Oil, told me about it. I began using it both internally and externally, and before two bottles were used I was radically cured. We find it a household medicine, and for cramp, burns, cuts and bruises, it has no equal."

FIVE YEARS OF TORTURE.

Mrs. U. Aston, of Bracebridge, writes to say that Burdock Blood Bitters cured her of headaches, from which she had suffered for five years, all other means having failed.

Jacob Lookman, Buffalo, N. Y., says he has been using Dr. Thomas' Electric Oil for rheumatism; he had such a lame back he could not do anything, but one bottle has, to use his own expression, "cured him up." He thinks it is the best thing in the market.

A MIDNIGHT ALARM.

There is scarcely any fright more alarming to a mother than the ominous sound of cough—so liable at the hour of night. When Hagyard's Pectoral Balsam (for the throat and lungs) is at hand, croup and distressing coughs lose half their terrors. It cures coughs, asthma and bronchitis.

Mrs. A. Nelson, Brantford, writes: "I was a sufferer from Chronic Dyspepsia for eleven years. Always after eating, an intense burning sensation in the stomach, at times very distressing, caused a dropping and languid feeling, which would last for several hours after eating. I was recommended by Mr. Poppelweil, Chemist, of our city, to try Northrop and Lyman's Vegetable Discovery and Dyspepsia Cure, and I am thankful to say that I have not been better for years; that burning sensation and languid feeling has all gone, and food does not lie heavy on my stomach. Others of my family have used it with best results."

A GOLDEN OPINION.

Mrs. Wm. Allen, of Acton, declares that Hagyard's Yellow Oil is the best household remedy in the world for colds, croup, sore throat, burns, scalds and other painful complaints. Her opinion is well founded.

A dilapidated physique may be built up and fortified against disease by that incomparable promoter of digestion and fertilizer of the blood, Northrop & Lyman's Vegetable Discovery and Dyspepsia Cure. It counteracts Biliousness and Kidney complaints, overcomes bodily ailments special with the feeble sex, causes the bowels to act like clock-work, and is a safeguard against malaria and rheumatism.

St. John, N. B., Oct. 22nd, 1881.

Messrs. T. B. Barker & Sons:
Gentlemen,—Having had occasion to use Fellows' Leeming's Essence at different times, I have to state that it is, without exception, the best remedy that I know of for Splints, Ringbone, Bone Spavin, and the different ailments of the horse for which it is prescribed. Horsemen everywhere should try it, and having once tried it, don't think they would run a stable without it. The cost of the preparation is a small item compared with the benefit that is derived from its use.

ROBERT BUSTIN.

Fellows'

Has been in use by Horsemen for more than thirty-five years, and thousands of valuable horses that otherwise would have been rendered useless have been cured by the timely application of this Essence, in cases of Lameness from Splints, Spavins, Ringbone, Sidebone, Splints, Strains, Bruises, etc., etc.

READ THIS.

The most serious outcome of modern social life is the prevalence of Dyspepsia and Indigestion. No one is altogether free from one or the other of the manifold forms in which this scourge attacks the human body, and it would seem that no dietetic rules can be framed which would ensure deliverance from the insidious attacks of this foe, which, however mild, are able to pass into the more confined or chronic state of the complaint particularly when they occur frequently or are neglected. Every person suffering from Indigestion, Dyspepsia, Stomach out of order, Costiveness, Sick Headache, Loss of Sleep, Wakefulness, Jaundice, Bilious Complaint, Bad Breath, Loss of Appetite, etc., should try

Fellows' Dyspepsia Bitters.
