NEW BRUNSWICK.

Mr. John Shaughnessy, of Hillsboro. Albert county, has been appointed harbor master of that place.

The lobster catch of Kent county will be much larger this year than Gloucester vessels came here and their last. Already many lobsters have been brought to the factories. Besides being more plentiful, the lobsters are of a larger size.

The Fredericton branch of the New Brunswick railway is being relaid with steel rails. The rails are distributed along seven miles of the road and the section men have laid three miles of new rails, starting from the junction. New sleepers are being placed where they are wanted.

In Moncton, the Gas Co. has undertaken lighting with electricity, taking their steam power from the Sugar Refinery. There are now thirty lights, (the full power of their dynamo) in sight. The Americans saw her some operation. Of these, six are in the railway department. They are getting another dynamo to meet the increasing discussion as to the three mile limit, demand. The lights are very satisfactory.

Captain Robinson, of the barque "Arcadia," was arrested Thursday night on a warrant issued at the instance of a German sailor. The captain is charged with assaulting and illusing the sailer on the voyage from Pascagoula to this port. The sailor claims \$200 damages for injuries received. Capt. Robinson was subsequently released on bail to appear at the July sitting of the court. An effort is being made to compromise the matter. - Globe.

Town Marshal W. B. Snow, of Woodstock, has laid 43 informations for violations of the Scott Act before P. M. Dibblee within the last few days. Ten cases have been adjudged, of which nine have resulted in conviction. As soon as the procedure in the Scott Act is fairly settled, as it was before the passage of the license act, the liquor traffic will shortly be reduced to a small compass here. There was a time just prior to the operation of the license act that the illicit traffic in intoxicants there was well nigh stopped.

Hon. James Mitchell, who was appointed commissioner to investigate the serious, but apparently absurb charges made by Abell and his agents, against the officials and pupils of the Fredericton Deaf and Dumb Asylum, commenced his inquiries Tuesday morning. Several witnesses were examined at the Institution by Mr. Mitchell, in the presence of Dr. Brown, medical attendant at the Institution, and Rev. Dr. McLeod and Rev. Mr. Tippet, trustees. The evidence was stenographed by Mr. Risteen. Particulars of course, are not now obtainable, but it is understood that the evidenge will establish beyond a deubt, the atter falsity of Mr. Abell's charges as to the alleged shooting in St. John. Mesere. Woodbridge and Powers are able to prove a complete alibi, the former having been in the State of Maine collecting subscriptions during all the time Abell's place was said to be beseiged, and Powers in Fredericton. The inquiry is being continued. -Farmer.

A despatch to the Sun from Canso. June 11th, says : The fleet of American mackeral seiners which anchored here yesterday suddenly disappeared to-day. Early in the week several captains announced that they were going to fish in Chedabucto Bay, one of Canada's richest mackerel fishing grounds. The collector here informed them that they could not fish within three miles of the headlands, which would keep them fifteen to twenty miles off the shores, and a long way outside the fish. Thereupon they went to Halifax, consulted Consul General Phelan and returned to this port, where they anchored and during the night took up positions for fishing inside the mouth of the bay. Early this forenoon the cruiser "Houlette which had been hovering along the secluded parts of the coast, hove in miles off and made immediate prepara. tions to sail. To Windsor, Ontario, belongs the honor of having the first electric railway in the Dominion. The line is a mile and a half long; the car passes this distance in eight minutes, but can be made to do it in half that time. The car looks like an ordinary street car. The electric current giving the motive power is generated at the lighting station, in Windsor, and transmitted to a motor in the car by means of 5-16-inch copper wire strung over the car. From the copper wire the current is led into the motor in the car through a smaller wire fastened to an ingeniously contrived traveller, which runs along the copper wire. An associated press reporter who was detailed to remain Thursday night on the scene of the Belfast riots, reported as follows: "I remained among the rioters all night. The greatest damage in the way of wrecking and looting was done along the Shank Hill and the York Roads. The fighting in both thoroughfares was desperate and continuous. The mob was composed of the lowest ruffians. The bayonets of the police had no terrors for them, and in many cases I saw the mob, in overwhelming numbers, press up against the bayonets of the police and drive them back. The only instances in which the police drove the mob at all, so far as I observed, were those in which the officers, in compact lines, fired, at close range, rapid volleys of buckshot.
