

## News of the Week.

## NEW BRUNSWICK.

Kent Co. Council has imposed a tax of ten dollars on pedlars.

C. S. Ingraham has been appointed clerk to J. A. Vanwart, revising barrister for York.

The new steel bridges on the New Brunswick Railway are now completed, and trains running over them.

The January session of the York County Council commenced to-day. Benjamin A. Everitt was elected Warrenton without opposition.

A little niece of Mr. Geo. Oram, of Sheriff street, Portland, was playing with a pistol Thursday night. The bullet entered the inside of Mr. Oram's leg near the hip.

Last Thursday morning three bears were captured in their dens at Oliver Brook, Manners-Sutton, York county. The skin of one of the bears has been sold for \$8 and the carcass for \$7. John J. Little is the lucky Nimrod.

Mr. Leverett Peters and Mr. Daniel Worden, of Lower Prince William, while chopping in the woods, the other day, came upon the winter quarters of a bear. With a few blows of the axe they soon made way with him. When dressed he weighed 275 pounds, minus the hide.

The Minister of Marine and Fisheries has ordered the "Lansdowne" (government steamer) round to St. John from Halifax for the rest of the winter and the spring in order that she may be in readiness to afford necessary aid in the Bay of Fundy.

Letters have been received in Carleton by several friends of the boys who went to the Northwest with Inspector Howe as mounted police, in all of which the writers express the wish that they had remained at home, and say that they would give anything to be able to get back now.—Globe.

On Monday of last week the carpenter shops and storehouse, together with the office of the mechanical superintendent of the New Brunswick railway at McAdam Junction, were totally destroyed by fire. Nearly all the machinery, etc., was saved. The cause of the fire is unknown. A temporary shop is now being built, and the foundation for a large car works will be commenced immediately.

There is a very good prospect now that a woollen mill will be established shortly in this vicinity, under the conditions for a bonus offered by the County Council. Mr. Fairall, of St. John, proprietor of a woollen mill there proposes to remove his establishment to Woodstock, making large additions to its plant and capacity. He met the Council this week and the action of that body was such as we believe was satisfactory to him.—Woodstock Sentinel.

At the meeting of the Charlotte County Municipal Council the fishery question was brought up, and resolutions were adopted, setting forth the grievances of the Canadian fishermen in consequence of the Americans being allowed the use of our fisheries, while our fishermen are shut out of the American markets. It was resolved to send a copy of the resolution to the Minister of Marine and Fisheries, asking him to take the necessary steps "to enforce the provisions of such a treaty as will tend to and secure the protection of Canadian fishermen against the intrusion of United States fishermen into our waters, or to bring about such measures as will secure to our fishermen their just and legitimate rights in fishing matters."

His honor the lieutenant governor has been pleased to make the following appointments:—

Kings—Sancton Belyea, Henry G. Fowler, Robt. M. Bockus, Alfred F. Marr, J. Westra Barnes and William J. McGarrigle to be justices of the peace.

Carleton—Wm. T. Drysdale, Harry Golding, John Martin, Wakefield; Uriah R. Hanson, and T. W. Dickerson, Debec; to be justices of the peace.

M. H. McGinley to be registrar of deeds and wills in and for the county of Gloucester.

Charles A. Peck to be a notary public.

Wm. J. Robinson to be a school trustee and chairman of the board of school trustees for the town of Moncton, in room of James McAllister, resigned.

The result of the University honor examinations have been announced, and are as follows:—

Seniors—Mathematics—W. C. Murray, W. S. Raymond.

Science—W. D. Rankin.

French—T. Cushing.

Metaphysics—W. J. S. Myles, William Murchie, A. K. Neales, A. F. Johnson, E. A. Hughes.

Classics—W. C. Murray, A. St. G. Richardson.

Junior Science—W. A. Kerr, Geo. S. Grimmer, T. D. Walker.

Mathematics—W. A. Kerr, W. K. Hatt.

English—W. K. Hatt, J. D. Harrison.

Freshmen—Classics—A. McKenzie, T. M. Dineide, T. Wilson.

Science—J. B. Sutherland, James Penke.

English—J. B. Sutherland, C. J. Milligan, equal.

Mathematics—Frank Barbour, J. R. Kerr, Mr. McNichol, B. Stratton, E. P. Raymond, Oscar Watson, F. A. Paterson.

French—E. J. Milligan.

The Chief of Police presented his twenty-third annual report to the common council this afternoon. The total number arrested last year was 1,030. The chief in his remarks says: "I feel a source of congratulation because the reports show a decrease in the number of arrests and criminal offences dealt with as compared with any year in the last quarter of a century." This, he says, is in a great measure due to the

vigilance and attention to duty on the part of the police force. He refers to the need of a reformatory, citing the cases of the four boys who were tried in the last circuit court. The evidence in this case he considered disclosed a bold organized method of plunder. This and similar bands have been broken up. The central station and lock-ups are in good order; he suggests that the court room and other offices be painted, and concludes by hoping that the kind and friendly relations that now exist between the police and fire departments may continue, and thanking the mayor and council for the consideration he has always received at their hands.

## NOVA SCOTIA.

The *Australia* took over six thousand barrels of apples to London.

Employment is now furnished for 1,000 men in the Spring Hill mines.

172 vessels of 92,087 tons sailed from Nova Scotia ports last year, carrying 79,647,765 superficial feet of deals, etc., 8,389 tons of birch timber and 13,346 palings.

Matthew Nickerson, of Halifax, has been committed for trial on a charge of attempting to burn the warehouse of McCurdy, McMillan & Co., at Antigonish.

A man calling himself John Wright, of New Brunswick, was arrested at Annapolis, Jan. 23rd, for robbing Henry Robinson of Port Williams, of one hundred dollars. He confessed and eighty-one dollars were found on the prisoner.

The number of deaths occurring in Halifax during December was 73. Diphtheria, 3; typhoid fever, 2; erysipelas, 2; constitutional, 13; local, 48; developmental, 3; violent deaths, 2. The number of deaths in St. John during the same month was 55.

The Windsor, N. S., *Journal* has issued its annual list of Hants Co. shipping. Some 5,058 tons have been added the past year, which, the *Journal* says, does not look as if Hants builders had altogether lost faith in wooden vessels.

There are numbers of people unemployed in Halifax, and for the benefit of those who are able to work, the stone shed is again in operation. The inmates of the Poor House are not quite so numerous as at this date of last year. Happy provisions of all kinds are cheap and abundant.—Witness.

James E. Harvey, of Lockhartville, Kings Co., N. S., aged 45, was found dead on the road near his residence on Friday evening. He was seen on a sled on his way to the woods a short time before, apparently in his usual health. Heart disease was supposed to be the cause of death.

A meeting was held at Port Hood, C. B., on Tuesday. Resolutions advocating the building of a trunk line railway through Cape Breton Island by the Dominion government and branch lines by the local government, were passed; also, a resolution recommending the building of an insane hospital in Cape Breton Island.

The temperance alliance in King's county, N. S., are holding meetings in the various wards for the purpose of nominating temperance candidates for the local and Dominion parliament. The Kings county council at its Jan. session passed a resolution by which the county becomes responsible for all expenses incurred in enforcing the Scott Act. Some doubt is expressed as to the constitutionality of the motion.

The Halifax board of trade recommended the city to purchase the Dalhousie college buildings and land on the grand parade, provided the property can be obtained for \$25,000. The price asked is \$30,000. The college authorities are negotiating for the purchase of what is known as the Miller property at the south end of the city, where, in case a purchase is made, new buildings will be erected.

Windsor is greatly agitated over the will of the millionaire, Bennett Smith, who died a few days ago. His eldest son, Thomas B. Smith, for many years representative in the Legislature for Hants county, and who was leader of the Liberal Opposition from 1878 to 1882, is out of without a dollar, but twenty dollars a month is left for the support of his family. Two hundred and fifty dollars per annum is left to each of his married daughters, the wives of Dr. Haley, M. P. P., for Hants, J. A. Shaw and Capt. Ayward.

Insufficient sums are left to the children of these ladies. The whole of the vast shipping interests, marine insurance and bank stocks and land is left to his two sons, Charles and John Smith, and the residue of the estate to their children. Not a cent is left to any charitable or religious institution. His only unmarried daughter is to get seven thousand dollars and a house.

A letter to the *Halifax Herald* signed *Observer* contains the following:

After reading the very interesting table published in the *Herald* a few weeks ago showing the total liberality of Christian and church-going Halifax to be \$94,000, and to benevolent institutions \$40,000, making a total of \$134,000, I thought it would be a good idea to place side by side what un-Christian Halifax spends upon her pride and pleasure. Now let us see what the total amounts to, as spent by Halifax in pride and pleasure in the year of grace 1885:

Amusements.....\$76,000  
Liquors.....600,000  
Cigars, tobacco, pipes.....103,000  
Ladies' luxuries.....310,000

Total.....\$1,089,000

Just nine times as much as the churches of the city contributed for religious and benevolent purposes last year. It would build 113 \$10,000 churches; it would send out 1,137 missionaries for home and heathendom, and pay them \$1,000 each.

## OTHER PROVINCES.

Robinson and Fisher, charged with shooting the boy Fitzpatrick, near Charlottetown, last October, have been acquitted.

Small-pox has broken out at Eagle Hill, three miles from Deseronto on the Mohawk reserve. The local health authorities are taking every precaution to prevent the scourge spreading.

The length of the proposed subway between Prince Edward Island and the mainland is nine miles, and the cost of the subway is estimated at \$4,000,000.

In Kingston, Ont., there were three incendiary fires Friday night. The most serious was Skinner & Co.'s drug store, where the loss amounts to \$20,000—insured. The incendiary was caught, and proves to be the son of R. M. Horsey, a leading merchant.

A delegation has been appointed by the P. E. I. government to proceed to England to support the petition recently forwarded asking that the terms of Union regarding winter communication be carried out. The delegates are Premier Sullivan and Dr. Ferguson, provincial secretary.

The Montreal smallpox epidemic cost the city \$145,000. This of course does not cover private losses from decrease of business, suspension of industries, &c. Of the amount stated \$9,988 is the cost of the anti-vaccination riots, damages to property being \$2,034 and volunteers pay list \$7,952.

It is reported that three Chiuamen were found starving to death in a tent at Port Haney, British Columbia, Monday. It is claimed that there is great destitution among those on the mainland, and that many are dying of hunger. The situation is little better at Victoria, many coolies subsisting on garbage. The city authorities have decided to take steps to relieve them.

The *Mail's* special correspondent sends another letter from Fort McLeod, dated 11th January. He says that there in the very midst of the supposed disaffected Indians, near the very spot where, if there should be any trouble, an outbreak would occur, he never hears the question of Indian grievances mentioned, let alone discussed, and no reference whatever made to any anticipated uprising unless under process of interview. The consensus of opinion amongst the settlers, there is no more danger of an outbreak than there ever was, though it is admitted that so many armed, idle and unemployed Indians, amongst whom must necessarily be some bad ones, cannot be otherwise than a standing menace, in a sense, to the peace of the country. However, the probability of any uprising seems so remote that the people generally don't appear to give it a second thought. Mr. Ham had an interview with John MacDougall, son-in-law of Red Crow, head chief of the Bloods. MacDougall said he was glad to have opportunity of contradicting false reports about Indian troubles. The Indians were quiet and well disposed, and there was not the least danger of an uprising. It was impossible for them to have evil intentions without his knowing it, as Red Crow would not think of taking any step without consulting him, and he has said he has had enough fighting and wants peace. To pacify the Indians, the Government should put an official in charge of them who has influence with them, a man who understands their nature and whom they would listen to. Regarding the rebellion, he said the Bloods knew two years ago that Big Bear and the half-breeds intended rising. It was arranged at that time, the half-breeds grievances being about their scrips and Big Bear's about his reserve. However, it was not intended that they should rise until a month later than they did spring. The great Blackfoot chief, who was anxious to go on the war path, and if Red Crow had consented to join them there would have been a general uprising. The punishment of Croes at Battleford had a greater effect than any he believed and they knew now there was no use going to war.

## BRITISH AND FOREIGN.

At Cork Wm. Sheehan, convicted on Dec. 19 of the murder of his mother, sister and brother at Castletown, Roche, in 1877, was hanged Tuesday.

In her speech at the opening of Parliament Her Majesty said her relations with other powers continue friendly. Differences with Russia regarding the Afghanistan boundary had been satisfactorily adjusted. She trusts that the work of the Russo-English frontier demarcation commission, already far advanced, may tend to secure the continuance of peace in Central Asia.

Referring to the rising in eastern Roumelia, her majesty says her intention in negotiations which followed the outbreak had been to bring the inhabitants of that country, according to their wish, under the Prince of Bulgaria's rule, while maintaining unimpaired the essential rights of the Sultan.

The Queen regrets that she had been compelled to declare war against King Thebaw of Burmah, owing to acts of hostility by himself and subjects. The gallantry of the forces under Gen. Prendergast had rapidly overthrown the Burmese forces, and she decided that the most certain method of ensuring peace was to be found in the permanent incorporation of Burmah with her empire.

The negotiations respecting the rights of the French on the coast of Newfoundland had been satisfactorily concluded. With Spain also an agreement had been reached, giving the British the same commercial rights as Germans in the Caroline Islands.

Parliament would be asked to adopt certain measures rendered necessary in the convention relative to international copyright, to which the Queen has agreed.

Turning to internal affairs, the Queen said: I regret to say that no material improvement can be noted in the condition of trade or agriculture. I feel the deepest sympathy for the great number of persons in many avocations of life who are suffering under a pressure which I trust will prove transient.

I have seen with deep sorrow the renewal, since I last addressed you, of the attempt to excite the people of Ireland to hostility against the legislative union between that country and Great Britain. I am resolutely opposed to any disturbance of that fundamental law, and in restricting it I am convinced that I shall be heartily supported by my parliament and my people. The social no less than the material condition of that country engages my anxious attention. Although there has been during the last year no marked increase of serious crime there is in many places a concerted resistance to the enforcement of legal obligations, and I regret that the practice of organized intimidation continues to exist. I have caused every exertion to be used for the detection and punishment of these crimes, and no effort will be spared on the part of my government to protect my Irish subjects in the exercise of their legal rights and the enjoyment of individual liberty. If, as my information leads me to apprehend, the existing provisions of the law should prove to be inadequate to cope with these growing evils I shall look with confidence to your willingness to invest my government with all necessary powers.

Bills will be submitted for transferring to representative councils in counties of Great Britain local business which is now transacted by the courts of quarter sessions and other authorities.

A measure for the reform of county government in Ireland is also in preparation. These measures will involve the consideration of present incidence of local burdens.

A bill for facilitating the sale of glebe lands in a manner adapted to the wants of the rural population will also be submitted to you, as will also bills for removing difficulties which present easy and cheap transfer of land, for mitigating the distressed condition of the poorer classes in the western highlands and islands of Scotland, for the more effectual prevention of accidents in mines, for extending the powers of the railway commission, in respect to the regulation of rates, and for the codification of criminal laws.

I trust that results beneficial to the cause of education may issue from the royal commission which I have appointed to inquire into the working of the education acts.

The prompt and effective despatch of the important business which, in an ever-growing proportion, falls to you to transact, will I doubt not, occupy your attention.

In these and all other matters pertaining to your high functions, I earnestly commend you to the keeping and guidance of Almighty God.

## UNITED STATES.

The situation in the coke regions, Pittsburgh, continues quiet, no disturbance having occurred since Thursday. Sheriff Stuart had an understanding with the strikers and they promised to resort to no violence in future.

A collision occurred on Catawissa branch of the Philadelphia and Reading railroad Sunday morning, by which two men were instantly killed and two fatally injured. Both engines were wrecked and several cars of freight scattered around the tracks.

In the Western states there was a terrible blizzard on Friday. A St. Paul despatch says the mercury here was 24° below zero this morning. The trains on nearly all the roads were several hours late, and the Illinois Central is still blocked. The blizzard, which has been raging since last night is the worst known among railroads for years. In every direction, it is very cold and blowing at a terrific rate, filling cuts, and, in the southwestern part of the country, making it impossible to keep them clear long enough to run trains. Trains on the southern Minnesota division of the Milwaukee road were abandoned. It is 57° below zero at St. Vincent. For suddenness and severity the present blizzard has no superior and few rivals within the memory of the oldest inhabitants.

## MARKET REPORT.

CORRECTED WEEKLY BY GEORGE LYMAN, ESQ. DEPUTY CLERK.

Beef, Country, per lb	04 to 06	06
