

News of the Week.

NEW BRUNSWICK.

It is said that the money received for blueberries shipped from New Brunswick to the states this season will amount to as much as \$10,000.

Cold Brook Rolling Mills Company are cutting 200 tons of spikes required for use on the New Brunswick road.

While stepping over a fence at Torryburn, Wednesday afternoon, a young woman, named McGill, had her right leg broken at the ankle.

The Central railway has purchased locomotive No. 31 from the I. C. R., and will take it by woodboat to Chipman, Queens county.

Mr. H. L. Sturdee, receiver, and F. W. Holt, superintendent of the Grand Southern Railway, have gone to New York to consult with the bondholders relative to the proposed improvements on the road-bed and rolling stock.

In the Northumberland Circuit Court, the case of Geo. A. Vye versus Alexander Merchant, of Campbellton, was tried Wednesday. This was an action of libel in an article published in the *Moncton Transcript*, charging Mr. Vye, the restaurant keeper at Campbellton with extortion from immigrants for provisions supplied during the snow blockade last March, and for fraudulently charging the government for meals not furnished. The defendant denied writing the article. A verdict was given for the plaintiff for \$400.

The public is warned against a deaf mute named Henry Picton, who is collecting money ostensibly in aid of Abell's institution, St. John, but in reality to secure means to keep him on a drunken carousal.

The hotels on Campobello have closed after a moderately successful summer. The Owen has not been opened this season, but the Tyn-y-coed and its annex, the Tyn-y-maes have been well filled with permanent and not transient guests.

As the result of four days fishing last week, Captain Beverley Mitchell took from his weir, at Cocabec, Ch. Co. herring the proceeds of which grossed \$1736.

The privilege of torch fishing, which for the past two or three years has been permitted on the coast of Charlotte county, N. B., will be cancelled.

In the Insane Asylum 457 persons are undergoing treatment. About 200 of these are women. In the Annex 100 persons are being treated. Insanity, according to the officials of the institution, is increasing.

Capt. Joseph Bishop, of Hopewell Hill, Albert Co., was struck by a train while walking on the track between Wakefield and Boston on Saturday, and has died since from his injuries. He was master of the coasting schooner Alaska.

Twenty miles of track are now laid on the River du Loup R. R. Over fifteen miles of the new road a special train was run from River du Loup, carrying a good number of excursionists, making the time in three quarters of an hour. They expect to have the road running in December.

Winfred Smith, son of Robert Smith, of Harvey, Albert Co., died on Thursday night from the effects of taking chloride of potash in mistake for a dose of Rochelle salts. He had been ill during one week in consequence of his act, but was thought to be improving.

Potatoes are rotting badly, and the trouble does not seem to be confined to any particular section, but is widespread. Some of the farmers along the river say their crops are hardly worth digging. In Maine, the statement is made, that there will not be one-third of the usual crop in that State this year. The Bangor Commercial is authority for the statement that a vegetable parasite causes the rot, and the damp, warm weather has been very favorable to its growth. The price for potatoes remains unchanged.

We find the best Condition Powders are "Maud S."

NOVA SCOTIA.

As the Quebec express was leaving Truro, Monday evening, James Gaston, of Stewiacke, was bidding good-bye to a brother, the train started, and in hurrying to get off, he fell, and the wheels went over his leg above the knee and again below the ankle, crushing it frightfully. He died next morning in great agony.

American speculators are already in Kings county, Nova Scotia, buying up potatoes.

The Parrsboro river is nearly full of vessels. Three or four trains a day cannot bring the coal fast enough.

Pictou celebrated its 114th anniversary on Thursday last.

The Intercolonial railway coal shed at Springhill junction was destroyed by fire on Monday. Four gondola cars, one of them loaded with coal, were also burned. There were about 100 tons of coal in the shed, which ignited and was destroyed. The shed and trestle work were burned to the ground within an hour. The loss, including the shed, cars and trestle, will be about \$6,000.

It was found that the brigantine Salisbury, which put into Shelburne, N. S., in distress, while on a voyage from St. John to the United Kingdom, had a 1 1/2 inch augur hole in the counter of the vessel, about six inches below the load line.

Information having been received by the local government of Nova Scotia that the publication of reports concerning a cattle disease at Pictou in the United States was serious by interfering with the trade in horses and hides between Nova Scotia and the United States, prompt steps were taken to have the facts of the case made known to the United States authorities. The provincial secretary and the secretary for agriculture called on Consul General Phelan, who kindly promised to give his attention to the matter, and to assist in having the facts correctly placed before his government. *Chronicle.*

THERE ARE MANY Cough Mixtures, but only one Allen's Lung Balsam; try it.

OTHER PROVINCES.

It will require three trains per day for 194 days to move Manitoba wheat for export.

This year's exhibition at Toronto has been an immense success. The gate receipts amounted to \$50,051, being an increase of \$11, 144 over last year.

Another important witness has been secured in the Margate P. E. I. tragedy case. It appears that a young girl, daughter of a neighbor of Millman, had called there on the night of the murder, while all the family but one or two were out. About 9 o'clock Millman, the accused, came in, and she noticed that his clothes were wringing wet from the waist down. When questioned, he said he had been swimming. There seems to be little room for doubt that he is the man.

Ten liquor sellers at Souris, P. E. I., have been summoned for violation of the Scott Act. Others are to be proceeded against.

A TRUSTY FRIEND—Perry Davis' Pain-Killer. Safe to keep and to use in every household.

UNITED STATES.

The supreme court of Illinois has delivered an opinion in the Anarchists' cases, affirming the judgment of the court below. Their execution is to take place Nov. 11.

The mackerel fishing in Penobscot Bay this season has been a complete failure. Probably not over three barrels have been taken in the whole bay. Old fishermen never knew the like before. Some years ago the mackerel kept away a few weeks followed by large fish, but why for the whole season cannot be understood.

Thursday morning, when the Elmwood mill in Providence was opened, every warp on the looms, had been cut by some person or persons. There are about 175 looms, and every warp was slashed across as if with a large and strong-bladed knife. The managers of the company are unable to account for the dastardly behavior. All the yarn in the mill had also been cut. This will entail a loss of several thousand dollars upon the company, and stop the manufacture of cloth for a short time.

THE QUESTION OF THE HOUR—Where can I get a good Flavoring Extract? Ask for the "Royal." They are the very best.

BRITISH AND FOREIGN.

The Spanish government some time ago decided to establish a coaling station on an island in the Red Sea. A Spanish gunboat on the Red Sea to take possession of the island found a British man-of-war there and the British flag flying from the island. The papers demand that the government protest against the English action.

It is reported that a Russian engineer has discovered a new explosive, which is destined to drive all existing ammunition out of use, being equal in strength to pyroxylin. It said that the Russian war office will build a special factory for its manufacture.

A pamphlet that has been circulated in St. Petersburg announces that the reorganization of the Nihilists has been fully successful and that the centres of action are fully provided with everything requisite for the carrying out of their plans. Nihilism is fast spreading in Siberia, where during August, 45 guards abandoned and 23 prisoners escaped.

General August Von Werder, who commanded the third army corps of the Crown Prince of Russia's command in the Franco-Prussian war, and who completely defeated the French under General Bourbaki, is dead. He had just entered his 79th year.

The official press confirms the statement made Saturday that Prince Bismarck has absolutely refused to mediate between Russia and Bulgaria. The *North German Gazette* announces that Bismarck cannot assent to the proposals and declines the request that he act as mediator, because he does not wish to assume responsibility in the Eastern question; neither does the German government desire, in view of the European situation, to increase its labors or divide its strength.

The Count of Paris, the aspirant to the French throne, has issued a Manifesto making large promises as to what shall be done when he shall come to the kingdom.

The British Parliament was prorogued on Friday.

On Friday the midland train was standing on a crossing a mile from Doncaster, Eng., while the tickets were being collected, when the Liverpool express dashed into it. The guard box was smashed to atoms. The first carriage of the Liverpool train was telescoped by the succeeding carriage and broken to splinters. Long before the injured and dying wedged in the ruins could be rescued, 24 persons were killed. Many of the injured cannot recover. The accident was caused by defective signalling. Seventy persons were injured by the accident.

At a conference of Irish landlords, resolutions were adopted by a unanimous vote denying that the present rents prevailing in Ireland were excessive or that generous and reasonable abatements have been refused in times of distress. Rents had not been raised in Ireland, between 1840 and 1880, while in England, Scotland and Wales rents for the same time were increased 34 and 49 per cent. The landlords of Ireland render important services to Irish agriculture and do not, as alleged, neglect their duties towards their property or the community. "If" says the resolution, "we were guided by the most selfish motives, we would still be fools to evict tenants whose bankruptcy our forbearance would prevent. We deplore the alienation now existing between landlords and tenants and desire to restore amity. The recent evictions were forced on us through political motives." In conclusion the resolution says: "We demand that the government speedily finally settle land legislation in Ireland on just terms to all concerned, including compensation to landlords for the loss of exclusive ownership and the reduction of public charges on land."

—According to the Book Buyer, it is \$494,600 which Mrs. Grant has received from the sale of her husband's work represents 70 per cent. of the gross profits on the publication, which have thus far amounted to about \$706,000. The gross receipts from the sale of the work have amounted to not far from \$3,000,000. There have been sold 312,000 sets at an average of probably \$9 a set, which foots up to \$2,808,000 as a fair estimate of what the public has paid for this work. The skins of 7,000 goats and 20,000 sheep have been used for the covers of these volumes. How this last statistical item was ascertained we confess we regard as a mystery.

—Captain Barrie, one of the Hudson Bay observers, who wintered in the straits, found near his observatory an anchor and some guns of great age. One of the guns he has brought to Ottawa, and it bears evidence of rough usage for many years in the Frozen North. A fort appears to have been erected a century or so ago with a view probably to putting the right to the straits with rival European claimants, and the guns and an anchor are all that now remain to mark its site.

IN HABITUAL CONSTIPATION, Campbell's Cathartic Compound is used with great success.

Take Ayer's Pills and be cured. Misery is a mild word to describe the sufferings of body and mind, caused by habitual constipation. A moderate use of Ayer's Pills will invariably regulate the bowels.

A SEVERE TRIAL.

Francis S. Smith, of Emsdale, Muskoka, writes, "I was troubled with vomiting for two years, and I have vomited as often as five times a day. One bottle of Burdock's Blood Bitters cured me."

INDISPENSABLE.

"I have used Dr. Fowler's Extract of Wild Strawberry for summer complaints, and have given it to my friends. It gives instant relief when all other remedies fail. I would not be without it in my house." Mrs. T. Boil, Weidman, Ont.

UNKNOWN.

There is no remedy known to medical science that can excel Dr. Fowler's Extract of Wild Strawberry as a cure for cholera morbus, diarrhoea, dysentery, or any form of summer complaint afflicting children or adults.

Mrs. D. Morrison, Farnham Centre, P. Q., writing about Dr. Thomas' Electric Oil, says: George Bell used it on his son, and it cured him of rheumatism with only a few applications. The balance of the bottle was used by an old gentleman for Asthma, with the best results. It acts like a charm."

O. Bortle, of Manchester, Ontario Co., N. Y., writes: "I obtained immediate relief from the use of Dr. Thomas' Electric Oil. I have had asthma for eleven years. Have been obliged to sit up all night for ten or twelve nights in succession. I can now sleep soundly all night on a feather bed, which I had not been able to do previously to using the Oil."

A LUCKY ESCAPE.

"For six years I suffered with my throat and enlarged tonsils. I was very weak; I doctored four years and had advice from three doctors; they said I would have to undergo an operation. I tried B. B. instead. One bottle cured me." M. A. Squelch, Raglan, Ont.

Several colds are easily cured by the use of Bickle's Anti-Consumptive Syrup, a medicine of extraordinary penetrating and healing properties. It is acknowledged by those who have used it as being the best medicine sold for coughs, colds, inflammation of the lungs, and all affections of the throat and chest. Its agreeableness to the taste makes it a favourite with ladies and children.

The sort of Blood from which the constituents of vigorous bone, brain and muscle are derived is not manufactured by a stomach which is bilious or weak. Uninterrupted, thorough digestion may be insured, the secretive activity of the liver restored, and the system efficiently nourished by the aid of Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure. It is the greatest blood purifier ever introduced into Canada.

Mr. Henry Graham Wingham, writes: "I was in North Dakota last May, and I took a bottle of Northrop & Lyman's Vegetable Discovery with me, as I did not feel safe without it. While there a lady friend was suffering with Indigestion, Biliousness and Headache. I recommended the Vegetable Discovery to her and she tried it, and the result was that it did her so much good that I had to leave the balance of the bottle with her."

SCOTT'S EMULSION OF COD LIVER OIL AND HYPOPHOSPHITES Is sold all over the world. It is far superior to plain Cod Liver Oil, palatable and easily digested. Dr. Martin Miles Stanton, Barry Bucks, London, England, says: "I have prescribed Scott's Emulsion, and taken it myself. It is palatable, efficient, and can be tolerated by almost anyone, especially where cod liver oil itself cannot be borne. Put up in 50c. and \$1.

Not only to the sufferer wasted by disease does Ridge's Food supplement proper medicines and bring back strength needed, but the delicate mother will find in its daily use just what is needed to check and supplement the drain made upon nature's forces.

Try it mothers and be convinced. Ridge's Food is undoubtedly the most reliable food in the market for the rearing of children. Special directions for the most delicate.

RESTORED.

Mrs. J. M. Phalen, of Sydney Mines, N. S., had chronic rheumatism for two years, and got no relief until she tried Burdock Blood-Bitters. Two bottles cured her. "I was like a skeleton," says she, "before using B. B. B., now thanks to the discovery of such a valuable remedy, I am entirely restored to health."

WELL TESTED.

"I was nearly dead with cholera morbus, one bottle of Extract of Wild Strawberry cured me, and at another time I was so bad with summer complaint that I thought I would never get over it, when two bottles cured me." Mrs. E. Asket, Peel, Ont.

Canker humors of every description, whether in the mouth, throat, or stomach, are expelled from the system by the use of Ayer's Sarsaparilla. No other remedy can compare with this, as a cure for all diseases originating in impure or impoverished blood.

THE FAVORITE Washing Compound of the day is James Pyle's Pearline. It cleanses fabrics without injury and without the laborious scrubbing necessary with ordinary soap. For sale by grocers.

Express prepaid to any part of the United States or Canada. T. S. JOHNSON & CO., P. O. Box 2116, Boston, Mass.

THE MOST WONDERFUL FAMILY REMEDY EVER KNOWN.

JULY, 1887.

MIDSUMMER SALE.

WONDERFUL BARGAINS

JOHN J. WEDDALL'S

During this Month.

MR. WEDDALL, being about to make extensive alterations in his place of business, has decided to offer the balance of his stock of SUMMER GOODS at reduced prices for this month only.

Grand Remnant Sale.

To the season's accumulations of Remnants he has added two thousand yards of Print Remnants, which will be sold at Mill Prices. "Let there be no mistake." This is for CASH only; all Goods placed upon the Books will be charged Full Price.

JOHN J. WEDDALL, 204 Queen Street.

is without doubt the very best of the many foods now in the market. Its great popularity is due to its intrinsic worth, as by observing "Special Directions" not only will the feeblest infant be nourished without distress, but it will furnish a full meal for the healthy, growing child. It produces bone and muscle, not a puffy, flabby skin. For prevention of (and as a dietetic) in Cholera Infantum, Diarrhoea, etc., it is invaluable. It is neutral in its action on the bowels.

COUGHS, COLDS, Croup and Consumption CURED BY ALLEN'S LUNG BALSAM 25c. 50c. and \$1.00 per bottle.

EDGEcombe's BUILDING, 192 Queen Street, Fredericton.
