Some of our subscribers have not yet paid for the present year. We find on examining our books that they are a considerable number. Besides these there are some who are in arrears for a longer time.

To all these, and to no others, this note is addressed.

We need all the money due. We need it now. The amount due by any one person is comparatively small, but the aggregate of these small bills is a large sum, the withholding of which is a serious and perplexing matter to us.

The date on the label tells the time to which the subscription is paid. Please consult it, and send the amount necessary to pay the subscription to the end of the current year.

We hope no one addressed in this note will longer neglect to make payment. We desire to hear from them all, and we trust they will not delay. It is important.

It is without doubt the very best of the many foods now in the market. Its great popularity is due to its intrinsic worth, as by observing "Special Directions" not only will the feeblest infant be nourished without distress, but it will furnish a full meal for the healthy, growing child. It produces bone and muscle, not a puffy, flabby skin. For prevention of (and as a dietetic) in Cholera Infantum, Diarrhoea, etc., it is invaluable. It is neutral in its action on the bowels.

I was given up by the Doctors but am nearly Cured by GATES' MEDICINE.

SPRINGHILL MINES, August 3rd, 1881.

Messrs. C. GATES' Son & Co.:—Your preparations given to the public as a cure for Asthma and Consumption may be considered reliable in my experience. My neighbors can also say the same of me. They had no hope whatever, and advised my wife to spend no more money on me, thinking it was no use, as I had been given up by the doctors; but I thought I would try your medicines, and consider it is by their use only that I am living and maintaining my family by my own work. The doctors advised me not to take it, because, they said, when the cough stopped I would not live 24 hours; but I am alive, thanks to GATES' MEDICINE, and am doing better than I have been for a great many years.
