

Parliament.

Parliament resumed business on Wednesday.

Mr. Prefontaine asked whether the proclamation published on the 17th July, 1886, announcing an amnesty of persons implicated in the troubles in the Northwest in 1885, cover the case of Gabriel Dumont. Is he free to return to Canada and reside there without being molested or liable to criminal or civil prosecution.

Hon. J. S. D. Thompson replied that the amnesty would be found to apply to all not guilty of homicide. Whether this order covered Dumont's case depended on his conduct.

Mr. Perry of P. E. I. asked, is it the intention of the government to cause a survey to be made during the present season of the Straits of Northumberland with the view of building a subway across the straits as promised by the first minister in a letter to Senator Howland, dated January 28th, 1887.

Sir John replied "It is not the intention of the government to cause a survey with the view of building a subway."

The premier said the matter of liquor permits in the Northwest was engaging the attention of the government.

Mr. Robertson of P. E. Island moved for papers respecting winter communication between the island and the main land.

Hon. Geo. E. Foster said that the government had received many conflicting opinions as to the proper kind of a ship. In a few days he hoped to be able to state to the house the conclusion to which the government had come.

Mr. Davies changed the character of the discussion by fiercely attacking the government. He charged that Sir John had written a letter before the elections promising a survey this summer and had today declared in reply to the question that such survey was not intended.

Sir John remarked that the question to which he had replied negatively today was whether the government proposed to have surveys made with a view of the construction of the tunnel. His letter to Howland promised to have a survey made with a view of ascertaining whether the scheme was feasible and what might be the cost. If he had been asked this question today he would have given the same answer. The government had not changed its policy.

A number of private bills were advanced a stage.

Mr. Edgar moved the second reading of the bill to amend the election act. The Minister of Justice proposed that the debate be adjourned and the matter left open for the present. The government was considering the question of amending the law and would be glad to include in one bill all improvements which members could suggest.

A return brought down by the Hon. J. H. Pope shows that between July 1st, 1885, and May 31st, 1887, one million one hundred and thirteen thousand six hundred and eighty-six bushels of grain was carried on the Intercolonial railway from River du Loup to Halifax, the freight on which amounted to \$41,318.

On Thursday Mr. Watson of Marquette, Manitoba moved the consideration of a resolution on which to found an address to the Governor General against the disallowance of charters to railways connecting Manitoba with the United States railway system.

After speeches by the mover and Messrs. Tupper, Cartwright, Blake and others, the resolution was lost. Messrs. Skinner, Mitchell and Hale voted with the Government.

The Minister of Justice introduced an amendment to the Electoral Franchise Act. The measure provides that electoral lists as revised last year shall remain in force during the present year without further revision.

The Minister of Railways has given notice of the following resolution. That the agreement entered into between Her Majesty and the Western Counties Railway Co. in relation to the completion of the line of railway from Yarmouth to Annapolis in the province of Nova Scotia bearing date the 31st January, 1887, be hereby confirmed, and that the sum of five hundred thousand dollars be hereby granted to Her Majesty to enable her to comply with the provisions of section five of the said agreement.

News of the Week.

NEW BRUNSWICK

The roadbed of the Fredericton Branch is to be ballasted and relaid with steel rails this summer.

O'Dells Dry Goods store in St. Andrews was broken into Friday night. The burglars got no money.

A boy named James Powe, 17 years of age, died at Little River, Elgin, Albert county, from eating wild roots he found in the woods.

Four young women—Jennie and Maggie Mavors, Lexie Scott and Annie Patterson—were thrown off a truck wagon at the corner of George and Northumberland Sts. Wednesday evening. The wheels passed over all of them. Miss Patterson was most injured, the wheels having passed across her cheek.

The board of health was appointed at the last meeting of the City Council, and is composed of Mayor Fenety, Dr. Coburn, Ald. Richey, Ald. Limerick and Ald. Gance. The salary of the secretary was fixed at \$100, and that of the inspector at \$300.

A peculiar accident occurred at Kingston, Kings Co., last week by which Mr. Chas. Bruce lost one fine horse and badly injured another. He was engaged harrowing some land and when turning the horse upturned the harrow. The horses tripped on it and both of them fell on the sharp, upturned harrow teeth which wounded them in twenty places.

Messrs. James Harris & Co. have just completed 40 box cars for the I. C. R., and are about commencing work on 40 flats of a contract of 200. In the same establishment is being built for the N. B. R. a combined postal, baggage and express car. A number of passenger and baggage cars for the same road are being repainted and fitted up for summer travel.

The great scarcity of Sardihe Herring still continues, and the usual spring catch is virtually over.

NOVA SCOTIA.

Last week at Canada Creek, N. S. Wm. Collins aged 76 and his wife aged 75, died on the same day, the husband's death being only four hours before his wife's.

A man named McLean in Truro has been arrested for choking and otherwise abusing his wife. Mrs. McL. was a "Christian Scientist," and had undertaken to cure McLean of fits and afterwards married him. He may have been cured of epilepsy, but his ugliness seems to have remained.

The strike of the miners at Reserve mine, C. B., has been settled. There is a coal famine in Halifax, owing to the stoppage of navigation from Cape Breton by the ice blockade.

The first catch of mackerel this season was taken near Halifax harbor Wednesday.

An extraordinary freak of lightning is reported from Guysboro. During a heavy thunder storm lightning entered the window of a house, struck and killed a three-year-old child sleeping between its parents, then killed a dog, demolished the stove and departed without doing further damage. The escape of the parents was most remarkable.

The Sumichrast-Hind libel suit in Halifax was settled by counsel, after the jury had been empaneled and sworn. Judgment was entered by consent against Hind for \$1,500 and costs.

The Herald states that 240,000 bushels potatoes have been exported this year from the eastern section of King's County.

Half a million dollars are to be devoted to the Western County Railway by the Dominion Government. This is good news for Yarmouth.

OTHER PROVINCES.

Two men at Alberton, P. E. I., got into a dispute about religious teaching, one being a Catholic and the other a Protestant—and in the altercation McKinnon stabbed Currie.

A St. Johns, Nfld., despatch says the coasting steamer Plover ran in to the schooner Trist H. in Trinity Bay on Saturday night and two women and three men were drowned, five men and one woman being saved.

At the meeting of the Montreal City Council a jubilee address to the Queen was adopted, and \$10,000 was granted to the Imperial Institute.

On Wednesday Chief of Police McRae of Winnipeg, was shot and seriously wounded last night by Joe Fant, a notorious cattle thief, whom he had arrested.

John Thomson, boat builder of Hamilton, Ont., went out Wednesday evening in a small skiff with his wife, Miss Vincent, his wife's sister, and three small children. Next morning Mrs. Thomson's body was washed ashore and, in the afternoon, Miss Vincent's body and the boat were recovered. It is supposed the boat upset in a bad squall.

Never before in the history of Manitoba have there been such prospects of an abundant crop.

Sir George Stephen, president of the Canadian Pacific, says his company proposes to go into the grain handling and purchasing business in the Northwest and Manitoba on an extensive scale. Extensive mills are to be built at Keewatin.

On Wednesday a meeting was held in Winnipeg, to discuss the railway situation, all parts of the province being represented. The proposed railway to the boundary was endorsed and resolutions condemning the disallowance policy and Sir George Stephen's recent telegram and urging the immediate construction of the road were adopted. Ground has been broken at Grand Forks, Dakota, for the Northern Pacific extension to the boundary to connect with the Manitoba line.

It is reported that the Manitoba government will aid the Hudson Bay railway by a guarantee of \$4,500,000 on condition that the company raises an even sum and gives satisfactory assurance for the completion of the road.

UNITED STATES.

As a fast train west, was nearing Kittanning Point, Pa., the wheel of a car on a freight train, east, burst, and the car crashed into two passenger coaches, with terrible effect, killing instantly four men, and injuring many others.

A fire in New York Friday morning consumed all the tenement houses on 53rd Street from Tenth to Eleventh avenue, together with all the tenement houses on Eleventh avenue from 53rd to 54th streets and the silk factory corner of 54th Street and Eleventh Avenue was burned to the ground. The car stable are a total loss. Sixteen hundred horses were burned to death, and all except four cars belonging to the Belt line, the largest car company in the city, were burned up. The wind was brisk and a number of frame buildings near by served only to carry the flames further. One woman is reported burned to death.

BRITISH AND FOREIGN.

A fire in a Paris Theatre Wednesday night caused the loss of sixty lives.

Owing to the neglect of the government in not enforcing vaccination, insolation and disinfection, small-pox has become epidemic in Santiago de Cuba. It is estimated that there are 500 cases, apart from those outside. The death rate is estimated at 60 per cent., due to the fact that some 35,000 of a population of 40,000 are supposed to be wholly unprotected by vaccination. The disease is spreading rapidly, especially among 20,000 blacks. Medical men expect thousands to be swept away if stringent measures are not taken. The epidemic in Jamaica is not over. Last month over 400 cases existed and spread all over the island, almost exclusively among the blacks. New cases are constantly appearing. The death rate is heavy.

The English yacht Thistle rescued three men in a lifeboat, belonging to the steamer Harkaway, which foundered. Sixteen lives were lost when the steamer went down. The lifeboat originally carried six persons, and three succumbed to starvation.

An explosion in a Lankashire mine on Saturday caused the death of over 40 miners.

The men on strike in the mining districts of Belgium possess arms and explosives. Many outrages have been committed, including the destruction of machinery and blowing up of abodes of the managers. At Crofesta an attempt was made to destroy the railway bridge with explosives.

The Charleroi strikers attempted to march on Brussels. They were charged by gen d'armes and dispersed without bloodshed. The strike is spreading to Liege district.

A plot to assassinate the Sultan of Turkey has been discovered. Extraordinary efforts were made to conceal the discovery. The effect on the Sultan is visible in the terror he exhibits. He made his usual weekly visit to the mosque hurriedly, instead of as usual with slow, pompous parade.

Forty bodies in a terribly mutilated condition, have been recovered from the ruins of the Opera Comique, Paris. The remains are principally those of ballet girls, choristers and machinists. The bodies of 18 ladies, in full dress, were found together at the bottom of a staircase leading from the

second story. All had escorts to the theatre, but no remains of men were found anywhere near. M. Reveillon, deputy, speaking in the chamber of deputies, estimated that 200 persons had lost their lives in the fire. The Opera Comique was insured for \$1,000,000. The chamber of deputies voted a credit of 2,000,000 francs for relief of sufferers by the fire. There have been 156 missing persons inquired for by relatives. The bottom of the theatre was flooded with five feet of water. Sixty bodies were found floating.

Our Wealthy Men.

Much has been said in newspapers of men who have made large fortunes in comparatively a few years in various business industries. Many of these articles are written by correspondents of prominent newspapers, and copied into others of lesser note. Correspondents generally are seldom men of business qualifications and wrongfully picture these men and their business as a thing of accident; this is not the case with those we have met. We find that where men have made large fortunes by their own business talent and industry; they chose with sagacity and forethought such businesses as would lead to success when handled with business judgment. No man has been brought before the public as an example of success, both in wealth and magnitude of his business (outside of stock and railroad men) more prominently than Dr. G. G. Green of Woodbury, N. J. He is at the head of many large business industries, and yet comparatively a young man. When the fact that August Flower, for dyspepsia and liver complaint and Boschee's German Syrup, for coughs and lung troubles, has grown to a wonderful sale in all parts of the world, it proves that it was not an accident or spontaneous strike at wealth. His medicines are recognized as valuable and established remedies and the business has grown gradually and permanently during the last eighteen years on account not alone of Dr. Green's abilities as a business man or his "good luck," but on the actual merits of the two preparations.—Copied from the N. Y. Week by Sun, of Dec. 22, 1886.

CONSUMPTION CURED. An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma, and all throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellow-men. Actuated by this motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, this receipt, in German, French or English, with full directions for preparing and using. A VALUABLE DISCOVERY. F. P. Tanner, of Neenah, Ont., says he has not only found B. B. B. a sure cure for dyspepsia, but he also found it to be the best medicine for regulating and invigorating the system that he has ever taken. B. B. B. is the great system regulator.

There are cheap Panaceas for various human ailments continually cropping up. Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure has no affinity with any of these. Unlike them, the article is derived from the purest sources, is prepared with the utmost chemical skill, and is a genuine remedy and not a palliative for Biliousness, Constipation, Kidney trouble, impurity of the blood, and female complaints.

is without doubt the very best of the many foods now in the market. Its great popularity is due to its intrinsic worth, as only the feeblest infant be nourished with it, and it will furnish a full meal for the healthy, growing child. It produces a bone and muscle, not a puffy, flabby skin. For prevention of (and as a dietetic) in Cholera Infantum, Diarrhoea, etc., it is invaluable. It is neutral in its action on the bowels.
