

News of the Week.

NEW BRUNSWICK.

Sir John A. Macdonald is expected to arrive in Saint Andrews Friday next, August fifth. Sir Leonard, who has been confined to his bed three days this week, was able to sit up part of today; he has not been well since his return from Boston.

The St. Stephen correspondent of the *Calais Times* writes to that paper as follows: "The Scott Act is proving itself to be workable after all. The police magistrate has paid the treasurer about \$800 in fines from liquor men this month and there are more to follow. One man refused to pay last week and was sent to jail, but he evidently did not like his lodgings and concluded to pay up, which he did."

—It is reported from the Miramichi district, that the water rose two feet in the S. W. branch of the Miramichi river on Thursday. This will expedite the ingress of salmon from the ocean as they will now be able to get over the bars. —Reporter

The annual convention of the New Brunswick S. S. Association will be held in St. Stephen this year. The date has not yet been fixed. At a meeting of the executive of the Association, held in St. John last week, it was resolved to endeavour to secure the attendance of Mr. B. F. Jacobs and Mrs. Crafts, two prominent Sunday school workers in the States, and the opinion was expressed that if this be accomplished the convention will be a memorable one and the entertaining capacity of the town taxed to its utmost. Although only one delegate is asked from each school, arrangements will be made with boarding houses and hotel keepers to furnish accommodation at reduced rates to all who may wish to be present, and all who come will be heartily welcome to the convention.

A Steamer is in course of construction at Sackville to go on the route of the *Sir John*, which was burned about a year ago, when she had been on her route but a few weeks.

At a meeting of the stockholders of the Tobique Valley Railway held in Woodstock, John E. Stewart, president of the road, and Moses Burpee, chief engineer of the N. B. railway, were appointed to negotiate a loan for construction purposes and to report back to the company by the middle of August. The stockholders have now strong hopes that the success of this enterprise is assured.

The election in Kent Co. for the Local Assembly will be held on the 10th inst, nomination being on the 3rd. There are four Candidates, Messrs LeBlanc, Phinney, Sayre and Johnson.

The contract for the construction of the Railway bridge across the river here has been signed, and work will be begun at once. The *Farmer* says the bridge will be one of the finest structures of the kind in Canada. Its length will be 2,027 feet, consisting of six, 242 feet spans from the Fredericton side, and two, 165 feet spans at the Gibson end, with a swing or draw of 245 feet, of two openings each 106 feet wide, in the third span from the Fredericton shore.

The work is to be completed May 1st, 1888.

The McMackin house at Gagetown was destroyed by fire, Thursday morning. The fire is supposed to have been of incendiary origin.

Two wood boats, loaded with steel rails for the Central railway, have been taken up the Grand Lake, where the work of track laying will be begun at once.

It is reported that the Central railway will connect at Marysville with the Northern & Western instead of running direct to Gibson.

Lightning struck the barn of R. Ruddick, M. D., West Quaco, on Tuesday morning, killing his horse and injuring the barn.

Mackeral are plentiful at Shediac. About 130 barrels left Point du Chene for Boston. On the same day Mr. Albert Smith took 40 barrels in his seine.

Strawberry culture has proved profitable in Madawaska, some eighty tons having been exported to the States this summer.

The jam of logs at Aroostook falls is still in the same condition that it has been for the last two months, and it is reported that no further efforts will be made this year to dislodge the logs as it would be of no use owing to the low water. Next year when the water is high, explosives will be put under the logs and they will be blown out of their present position.

PRAISE WORTHY.

"Last summer I was entirely laid up with liver complaint, a friend advised me to use Burdock Blood Bitters, I did so, and four bottles cured me. I cannot praise this remedy too much." John H. Rivers, Orr Lake, Ont.

NOVA SCOTIA.

The pay roll of the Springhill mines contains in the vicinity of 1,400 names. It is reported that \$40,000 per month is paid in wages alone.

What came very near being a drowning tragedy occurred at Annapolis, Tuesday. Three young men, Sanford Bishop, Arthur Harris, and Bert Clark, went out in a boat to shoot a porpoise. In the excitement consequent upon the discharge of the gun, the boat was upset, and all three precipitated into the water. The accident was witnessed by people from the wharves, and a boat immediately pulled out and rescued the imperiled men.

Four Yankee seiners passed through the Strait of Canso on the 29th. Two had 150 barrels each, and the other two 310 each. A Canadian seiner had 420 barrels. The Acadia and Yantic passed for North Bay.

One hundred square miles of timber land near Cow Bay, C. B., have been destroyed by fire, and it was with difficulty that the Reserve coal mine was preserved from the flames. The drought has been unprecedented, and the citizens of Cow Bay have been obliged to obtain their supply of water from Black Brook—a distance of eight miles—by rail.

Messrs. Isbister and Reid have signed the contract for the construction of a section of the Cape Breton railway. Work will be commenced at once.

On Thursday the Boston Towboat company brought in the crew of the bark "Roma" from Port Johnston for Yarmouth, with coal. The vessel went ashore on South Shoal, Nantucket, and was abandoned. She had seven feet of water in her hold.

An important decision has been rendered by the supreme court at Ottawa. The Bank of Nova Scotia as assignee for the defunct Bank of Liverpool, petitioned against the shareholders, who resisted the bringing of the insolvent bank within the jurisdiction of the Canadian winding-up acts. When submitted to the chief justice of Nova Scotia the result was adverse to the shareholders. An appeal to the full N. S. bench resulted in an equal division, but the ruling of the authorities at Ottawa is such that the shareholders are relieved of double liability. The case has been in litigation for many years.—*Monetary Times*.

ONE PACKAGE OF "Maud S." Condition Powders contains more real medicinal virtue than twice its weight of any other Powder.

OTHER PROVINCES.

Within a very short period four post offices, Madoc, Campbellford, Shannonville and Picton, have been broken into by burglars and robbed.

Eight hundred Icelanders arrived at Quebec Wednesday in the S. S. "Buenos Ayres," en route to the Northwest.

The Dominion cruiser Critic, Capt. McLaren, while cruising off East Point P. E. I. came down upon about 100 sail of American fishing vessels. Several of them were fishing inside the three-mile limit. Two seine boats and 14 men were captured, and the men made prisoners. The seines were full of very large mackerel.

A special cablegram to the *Mail* says: Sir Charles Tupper, Sir John Rose, and Mr. Baden Powell, M. P., had an interview with Mr. Gosechen, chancellor of the Exchequer, to urge upon him the advantages of adopting the Canadian Pacific railway as a route to China and Australia.

It is understood that Sir J. Blackwood, secretary of imperial post office department, sails for Canada on August 6, for the purpose of studying the advantages offered by the Canadian Pacific as an imperial mail route to the East. He will be accompanied over the line to the Pacific coast by Hon. Mr. McLellan, postmaster general, who will supply his visitor with all the information regarding the facilities afforded for quick trans-shipment of mails across the continent. The report of Sir J. Blackwood, will decide the prospects of this route.

There is no doubt this time that the Labrador fisherman are in want. They will be obliged to leave the country and try for a living elsewhere. British Columbia seems to furnish the most attractive prospect for these men, whose training and habits have to a large extent unfitted them for other pursuits than fishing.

The Canada Sugar Refining Co. of Montreal have made a further advance in granulated sugar, being the second since the St. Lawrence refinery was destroyed. The price to combiners is now 6½ cents per pound and to non-combiners 7½ cents.

Hon. Thomas White telegraphs that he met Gov. Dewdney at Calgary; that the latter has been over a large part of the territories and reports the crops everywhere most promising. Harvesting barley has commenced at Medicine Hat and as illustrating the crops, one farmer offers his neighbor to harvest his crop for all over fifty bushels to the acre. The wheat harvesting will begin in about one week. All along the line the people are speaking most encouragingly of the prospects. The immigrants are coming in from the American side.

The Dominion Exhibition for the present year is to be held at Toronto, from the 5th to the 17th of September next, in conjunction with the great Industrial fair. The prizes offered amount to the large sum of \$30,000.

WE FIND CAMPBELL'S CATHARTIC compound the best article we have ever used for Costiveness or Biliousness, and easy to take.

UNITED STATES.

Several acres on State and adjacent streets in Cincinnati were burned over on Friday night. The buildings were poor. The loss is \$100,000. About 150 persons are homeless. Several firemen were prostrated by heat.

The most terrible rain storm that ever struck Plainfield New York State began there Thursday at one o'clock. It was practically over in 15 minutes, but such an enormous quantity of water fell that \$100,000 will hardly cover the damage to buildings, roads and bridges.

At Ridgewood Pa., Thursday an express train ran into a wagon containing a pleasure party, killing four and fatally injuring one. They were hurled down an embankment, where the bodies were picked up.

Armour's new beef house, at Chicago, covering nearly a square, was burned on Wednesday evening, with about 25,000 hides, 4000 dressed and 1000 undressed cattle, 500 dressed sheep and 100 hogs. The loss is nearly \$300,000; insurance \$195,000.

The New York *Tribune* quotes the presidents of the leading fire insurance companies as saying that the losses by fire during the past few months have destroyed all the profit in the insurance business and that unless better luck ensues all the companies will have to greatly increase their rates or quit business. The losses throughout the country for the last two months have been at the rate of \$100,000,000 a year, or four or five times normal ratio. A good many fires are attributed to the incendiary teachings of Herr Most.

Reuben Coles, a negro, who made a criminal assault on Mrs. Richard Savage in Surrey County Virginia two weeks ago was taken from his cell last night by fifty armed men and lynched.

A collision on the bridge near Hopedale, Ill., between a construction and freight train, resulted in many casualties. Ten dead bodies were taken from the wreck. Eight men are unaccounted for.

PAIN-KILLER has cured cases of Rheumatism and Neuralgia of years standing.

BRITISH AND FOREIGN.

Grasshoppers are destroying the crops in various parts of Belgium. Lord Salisbury, speaking at Norwich warned the conservative party to prepare for a possible dissolution of parliament, and said parliament had often met early its termination when life seemed endangered.

Gladstone addressed the London Liberal Radical Union on the evening of the 28th. He said that the recent election gains intimated that the Liberals would triumph if parliament dissolved to-morrow.

Prince Louis of Battenberg has been appointed to the command of the British ironclad Dreadnought, over the heads of scores of seniors. It is expected that the Radicals will criticize the appointment in parliament.

Seven men have been arrested in Limerick, Ireland for participating in the riot of the striking dockmen against the imported Waterford laborers. Four policemen and many civilians were injured during the riot. The mayor declares he will call troops to aid the police if rioting is renewed.

DON'T PRACTICE false economy by buying common Flavoring Extracts. Ask for the "Royal," none other can equal them.

As age creeps on apace, the various functions of the body grow weaker in their performance. Old people who suffer from increasing indigestion, torpidity of the liver, and constipation, should give renewed impetus to the action of the stomach, bile-secreting organ and bowels, with Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, from which aid is never sought in vain. It works wonders as a blood purifier.

THE QUEEN OF PERFUMES—"LOTUS OF THE NILE."

AN OPEN LETTER.

Nov. 25th, 1886.

Messrs T Milburn & Co.,
I wish I had used B. B. B. sooner, which would have saved me years of suffering with erysipelas, from which I could get no relief until I tried B. B. B., which soon cleared away the itching burning rash that had so long distressed me. Mrs. Edward Romkey, Eastern passage, Halifax, N.S.

H. A. McLaughlin, Norland, writes: "I am sold out of Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure. It sells well, and I find in every instance it has proven satisfactory. I have reason to believe it the best preparation of the kind in the market." It cures Dyspepsia, Biliousness and Torpidity of the Liver, Constipation, and all diseases arising from Impure Blood, Female Complaints, etc.

PROMPT RESULTS.

"I was very sick with bowel complaint. Two physicians did me no good. I tried other medicines but all was no use I tried Dr. Fowler's Wild Strawberry. The next day I was like a different man." Geo. H. Peacock, of Stroud, Ont.

Mr. Wm. Boyd Hill, Cobourg, writes: "Having used Dr. Thomas' Electric Oil for some years, I have much pleasure in testifying to its efficacy in relieving pains in the back and shoulders. I have also used it in cases of cramp in children, and have found it to be all that you claim it to be."

KEEP YOUR HOUSE GUARDED.

Keep your house guarded against sudden attacks of colic, cramps, diarrhoea, dysentery and cholera infantum. They are liable to come when least expected. The safest best and most reliable remedy is Dr. Fowler's Extract of Wild Strawberry.

BROKEN DOWN.

"After suffering with dyspepsia, kidney disease, loss of appetite and pain in the head until discouraged, I heard of B. B. B. took two bottles and am happy to say I feel as well as ever." Mrs. Rufus E. Merry, New Albany, N. S.

AN OLD FAVORITE.

An old favorite, that has been popular with the people for nearly 30 years, is Dr. Fowler's Extract of Wild Strawberry for all varieties of summer complaints of children and adults. It seldom or ever fails to cure cholera morbus, diarrhoea and dysentery.

A HARD PROFESSION.

Old Dr. Johnson once said addressing a class of medical students, that the study of medicine was a most arduous undertaking; that the most comprehensive mind and the most industrious student could scarcely do more than explore the portals to medical knowledge during the brief time allotted to study before commencing practice, but that throughout his whole life responsibilities of his profession should rest upon him like a night mare.

He should explore every avenue of natural knowledge, must become familiar with chemistry, natural philosophy and natural history, but, above all, he must learn the construction of his own frame, the means by which he lives, moves and has his being. He must understand the nature of all those influences by which health is broken down and restored and by what means disease, suffering and death may be averted. Dr. Johnson further says that nothing contributes so much to the support of quackery as the present insufficiency of medical knowledge. Men do not, he says, easily abandon hope but as readily put faith in ignorant pretenders as drowning men catch at straws.

"The good that men do in this life lives after them." During the life time of old Dr. Johnson he invented what is now known as Johnson's Anodyne Liniment, a standard family remedy of surpassing merit. This liniment is both for internal and external use and it is safe to say that no single remedy ever discovered has done so much good as has this one. It is inexpensive, ready at a moment's notice night or day and may be used with absolute confidence in the thousand and one ailments that afflict humanity. In the cure of severe cramps or pains in the stomach or bowels, dysentery, diarrhoea, acute or chronic, this liniment is a sovereign remedy. In the case of chronic diarrhoea it is certainly worth its weight in gold. It has been known to cure cases of from ten to fifteen years standing after the sufferers had been given up.
