The supplementary estimates for the next fiscal year, 1888, were brought down Tuesday. They amount to \$1,957,020, of which \$383,946 is to be charged to capital, and the balance to income. This makes the total estimates of ordinary expenditure for next year \$36,998,875. Supplementary estimates for the current year, amounting to \$3,213,639, were also laid before the house. The estimates for next year include:

For civil government.....	\$ 7,525
For legislation (full indemnity being granted to late members Moffatt and Campbell).....	8,970
For agricultural societies in the Northwest.....	10,000
To provide additional railway accommodation at Halifax.....	150,000
To light Intercolonial express trains with electric light.....	\$ 24,400
Canals.....	234,700
Public buildings in Nova Scotia.....	11,310
Public buildings in New Brunswick.....	17,800
Public buildings in Quebec.....	46,000
Public buildings in Ontario.....	222,312
Public buildings in Manitoba and territories.....	131,205
Refund to Nova Scotia government on account of harbors and piers.....	71,512
Totals for harbors and rivers.....	291,187
Telegraph lines.....	29,000
Steam communication between Halifax and Newfoundland.....	2,000
Steam communication between Canso, Arichat, Port Hood, etc.....	5,000
Northwest rebellion claims.....	513,000

Nearly the whole amount of the estimates for the current year are to cover amounts that have been already expended under governor's warrant or revotes.

Hon. Mr. Abbott in the senate made the important statement that the Short Line between Montreal and the Maritime winter ports is now all under contract and being rapidly constructed, that at no time did C. P. R. ever entertain the idea of a winter port in any other but the Maritime Provinces of the Dominion, in St. John and Halifax, the whole object and intention of the government by this route being to secure the quickest and easiest access to the Atlantic through Canadian shipping ports, and while in many cases the government's desires were not always realized, in this case it would be.

News of the Week.

NEW BRUNSWICK.

John Woodward of this city died a few days ago in an Indian town. He went away a couple of weeks ago for his health.

Work on the Victoria Hospital is going on.

Four fellows in this city the Barker House, Queen Hotel, Grievous and Guion were last week fined for Violation of the C. T. act.

Mr. Walter Armstrong son-in-law of Hon. John Costigan, has been appointed Collector of Customs at Grand Falls, in place of Mr. F. W. Brown.

Mr. M. Adams has procured 25,000 young salmon from the Restigouche and placed them in the head waters of the Miramichi. This is an experiment which may prove of value to the salmon fishery on the Miramichi.

The St. Martins and Upham railway has been purchased by Dr. Bortem of Paris and Mr. Davies of Philadelphia. The first payment of the purchase money has been made and the transfer legally effected.

The Gibson cotton mill now employs 200 hands.

The St. Croix cotton mill has adopted the ten hour system.

An old man, Joseph McCluskey, a pauper boarded by the parish of St. Patrick, at John Cathcart's St. Andrews, strayed away on the afternoon on Wednesday, the 8th inst., and no tidings of him has since been heard. It is feared that he perished in the woods.

On Thursday a large pile of lumber, alongside Richards & Hickson's mill, Newcastle, was destroyed by fire. The lumber was insured for \$18,000. The lumber was owned by Wm. Richards.

There is a jam of 12,000,000 of logs on Aroostook Falls, and it is in bad condition. It is said that unless there is a heavy rain the logs will be likely to stay there. Connor's big drive on the main St. John is coming along all right, but it is probable that the Allegash logs will hang up. Trouble is being had with the logs in that section.

The summer arrangement on the N. B. railway will go into effect on the 27th inst. Under the new timetable the Fredericton express will make the run to this city in two hours and twenty minutes, while passengers for Boston will leave

here at 6.40 in the morning and arrive at Boston at 9.40 the same evening. Trains will run as follows, the time given in all cases being standard; The Flying Yankee will leave St. John at 6.40 a. m., due to arrive in Boston at 9.40 p. m. Passengers leaving here by it will be landed at Grand Falls, 5 p. m.; Presque Isle, 5.30 p. m.; Woodstock, 1.25 p. m.; Houlton, 1.20 p. m.; St. Andrews, 11.50 a. m.; St. Stephen, 11.20 a. m.; at Fredericton at 9.20 a. m. The St. Stephen accommodation will leave here at 9 a. m., stopping at all stations, and arriving at St. Stephen at 4 p. m. The Fredericton express will leave at 4.45 p. m., and will arrive at the capital at 7.15 p. m. The night train for Bangor will leave at 8.30 p. m. The day train from Bangor will arrive at 2.20 p. m. The Fredericton express, leaving Fredericton at 6 a. m., will arrive at 8.20 a. m.

The St. Stephen accommodation leaving there at 12.20 p. m., will arrive at 7.40 p. m. The night train from Bangor will arrive at 5.45 a. m.

PERRY DAVIS' PAIN-KILLER.—Its effects are almost instantaneous, affording relief from the most intense pain.

NOVA SCOTIA.

The catch of mackerel in the traps had been falling off, but on Monday large catches were made, traps taking from 80 to 118 barrels each. About 630 barrels of mackerel, packed in ice, were shipped by rail to Digby Wednesday morning, for shipment to Boston.—*Yarmouth Times.*

A Lockeport despatch June 16, says the schooner Clifford, of Shelburne, from the banks with 1,100 quintals of fish, struck last night on the breakers off South Gull rock and sank. She will probably be a total loss.

An old subscriber at Bear River informs us that in 1886 he took thirty-nine American buckets full of maple sap, equal to ninety-seven wine gallons, from one tree. Of this quantity, eighteen buckets full were taken within three days.—*Digby Courier.*

On Thursday between 12 and daylight a daring and successful burglary was committed at the store of G. W. Cox & Co. Londonderry Iron Mines. The thieves blew open the safe and carried off the cash box containing \$200, and various papers, and three pocket books containing considerable money. The damage to the safe is \$100.

Herbert Jones of Weymouth, has been nominated by the liberal conservative party in convention to have as a representative of Digby Co.

The "Royal Flavoring Extracts" are made of great purity and strength. Take no other.

OTHER PROVINCES.

A revised estimate places the loss by the burning of the Canada Chemical Works at London Ont., Sunday night, at \$100,000, with \$45,000 insurance.

BRITISH AND FOREIGN.

Zanzibar despatches say that a slave show attacked the launch of a British man-of-war and wounded an officer and five men. The show was however, sunk by the force of the launch and the slaves upon her, 43 in number, were rescued.

The *Times* correspondent at Rome says that the Pope has no sympathy with Parnell's Irish campaign, but that no official opinion to show how the church regards the movement has yet been given because energetic pressure which is brought to bear by the majority of Irish bishops holds the normally conservative tendencies of the vatican in check. The correspondent adds that nothing more definite is known regarding the question of reconciliation between Italy and the vatican or of the establishment by England and the vatican of diplomatic relations.

A revolution is imminent in Honolulu. King Kialakua has fortified the palace and never goes out without a bodyguard; 20,000 to 30,000 Chinese are on the island, and are particularly discontented on account of the king's misappropriating large sums paid him, by two Chinese companies for the opium monopoly. They have armed themselves with rifles and revolvers. The whites have also organized rifle companies, and asked the home government to protect them. Trade is at a stand still. The king is extravagant and arrogant, and it is thought may be deposed and a republic established.

From an official source it is earned that information has been received by the London police which leaves no doubt that arrangements have been made by dynamiters for the perpetration of a series of out-ages during jubilee week. The authorities have full knowledge of the conspiracy, however, and their

accurate information fixing the identity of persons engaged in it is sufficient to defeat the end of the plotters.

The Central News makes the following announcement: The Queen has become alarmed by reports that the police have discovered that dynamite plots have been arranged to be carried out during the jubilee week. The home office authorities were angry because the police disclosed information about the existence of the plots. The police said they made the matter known in order to deter desperadoes from carrying out any plots which may have formed.

FOR BRONCHIAL AND THROAT AFFECTIONS, Allen's Lung Balsam is unequalled.

TEMPERANCE NOTES.

—Kansas has saved not less than \$12,000,000 since she turned her back on the whiskey traffic.

—In an address at Philadelphia, Canon Wilberforce, after stating the fact that France has undertaken the experiment of living without God, made the significant comment that last year there were 7,952 suicides there from chagrin, misery, and despair.

—A speaker at a great temperance meeting in Reading, Eng., said that if that teetotaler in the United Kingdom were to secure another, and the process were annually repeated, the entire population would become teetotalers in four years.

—With certain recent cases of atrocious murder of prominent temperance men committed with impunity by liquor-sellers in mind, the Burlington, Iowa, *Free Press*, with biting sarcasm, represents a prominent lawyer replying to the question of an Iowa citizen, "Is it murder to kill a man?" "Yes, in every instance except when he is trying to suppress the liquor traffic!"

—"Why haven't I a 600-acre farm as well as that man riding by in his carriage?" yelled a red-noised anarchist orator as he glanced at the crowd. "Because he saved \$600 and bought his farm when it cost him \$1 an acre, and you poured \$600 down your throat," responded a man on the back seat, and the orator asked no more conundrums.

Cornelius Vanderbilt, the ablest and most respected, as well as the richest of the sons of the late William H. Vanderbilt, is quoted as saying that he would be glad to see the sale of intoxicating liquors prohibited within an eight-mile radius of every railroad station. This is an interesting expression of the keen sense of danger from the use of strong drink by their employees, and, to some extent, by passengers, which is ever present with railroad officials. They know that accidents of the most terrible nature are often caused by drunkenness, and that travelers with enough whiskey befuddling their brains to make them careless though not plainly intoxicated, often get badly hurt when they would otherwise remain unscathed. The thought expressed by Mr. Vanderbilt shows, moreover, how necessary it is to the safety and success of a great industrial concern of any kind that its employees should be sober men.

A GROWING COUNTRY.

Think of the General Assembly meeting this year at Winnipeg! What better evidence could be desired of the life and vigour of the Presbyterian Church in Canada, than the progress it has been making in the west during the last few years. "The West" Toronto used to be called the West. Where is the west now? If Winnipeg has not become the geographical centre of the Dominion, it is much nearer it than Toronto. Those of the commissioners who come from Halifax, will travel by rail 2,263 miles, and shake hands with brethren from Victoria, who shall have come 1,567 miles to meet them. Who would have believed it twenty-five years ago. That in this year of Grace 1887, there would be a Synod of Manitoba and the North-West Territories, including five presbyteries, and close upon seventy ordained ministers, and a Presbyterian College with a hundred students on its roll.—*Record.*

"BEWARE OF DOGS."—The Chicago *Tribune* says that "an elderly lady, who recently died in West Chester, Penn., left in her will \$1,500, the interest of which is to be applied to support her dog. After the death of the dog, the money is to go to St. Peter's Great Valley Protestant Episcopal Church. The provisions of the will are carried out, and the dog is likely to die of good living." The health of the animal will undoubtedly be watched with great interest; and Paul's advice to beware of dogs will not be heeded in this instance by the church, though it might well be commended to old ladies who have fortunes to dispose of.

THE WOMAN'S TEMPERANCE PUBLICATION ASSOCIATION of Chicago was founded less than seven years ago by women, and is controlled by them. It is a joint stock company, with shares at twenty-five dollars each, which must all be held in the name of white ribboners. Its finances have so prospered that it has for the last two years declared a dividend of four per cent the first and five per cent the second year.

It employs four editors, and has a total of sixty persons on its pay roll. Its types are nearly all set by women, and it published last year thirty millions of pages of temperance literature, and this year will not publish fewer than fifty millions. These cover the six divisions of the modern reform as set forth by the Woman's Christian Temperance Union; namely: Perivention, Education, Evangelization, Society, Laws, Workers' helps.

Everything useful in the forming of Juvenile Societies is provided; also literature with special reference to local option, and constitutional amendment campaigns; the White Cross movement has a varied literature of its own from the best pens in England and America devoted to that cause; and all of them are furnished by the Woman's Temperance Publication Association.

The institution is in no sense a money making affair, but is wholly conducted and controlled by, and for the use of, the National W. C. T. U., for the furtherance of the reform to which women are devoting themselves with so much of earnestness and skill.

CAMPBELL'S CATHARTIC COMPOUND is pleasant to the taste, and more satisfactory than Pills.

THE "MAUD S." CONDITION POWDER is as far in advance of its rivals, as Mr. Vanderbilt's celebrated mare is ahead of her rivals in the estimation of the public.

FACTS WORTH KNOWING.—This is the season of the year when the blood needs to be cleansed and purified. The best preparation that we know of to accomplish this is Gates' Life of Man Bitters and Invigorating Syrup, which extract the water and purify the blood, regulate the bowels, increase the appetite, excite the liver to action and renovate the whole system. A dozen bottles only cost five dollars and fifty cents, if every person should use this quantity each spring we are sure that they would save pounds in the long run as it will certainly ward off disease and save many a sickness.

Mr. R. A. Harrison, Chemist and Druggist, Dunville, Ont., writes: "I can with confidence recommend Northrop & Lyman's Vegetable Diopexic and dyspeptic Cure for Dyspepsia, Impure Blood, Pimples on the Face, Bilioussness and Constipation—such cases having come under my personal observation."

Rev. J. McLaurin, Canadian Baptist Missionary to India, writes: During our stay in Canada, we have used Dr. Thomas' Electric Oil with very great satisfaction. We are now returning to India, and would like very much to take some with us, for our own use and to give to the diseased heathen.

Messrs. Mitchell & Platt, druggists, London Ont., write Dec. 1, 1881: "We have sold Dr. Thomas' Electric Oil since its first introduction, and we can safely say, no medicine on our shelves has had a larger sale, or gives better satisfaction. We always feel safe in recommending to our customers."

HOW TO GAIN FLESH AND STRENGTH

Use after each meal Scott's Emulsion; it is as palatable as milk. Delicate people improve rapidly upon its use. For Consumption, Throat affections and Bronchitis it is unequalled. Dr. Thos. Prim, Ala, says: "I used Scott's Emulsion on a child eight months old; he gained four pounds in a month." Put up in 50c. and \$1 size.

The great lung healer is found in that excellent medicine sold as Bickle's Anti-Consumptive Syrup. It soothes and diminishes the sensibility of the membrane of the throat and air passages, and is a sovereign remedy for all coughs, colds, hoarseness, pain or soreness in the chest, bronchitis, etc. It has cured many when supposed to be far advanced in consumption.

Avoid the use of calomel for bilious complaints. Ayer's Cathartic Pills, entirely vegetable, have been tested forty years, and are acknowledged to be the best remedy for torpidity of the liver, costiveness, and indigestion.

Ayer's Sarsaparilla operates radically upon the blood, thoroughly cleansing and invigorating it. As a safe and absolute cure for the various disorders caused by constitutional taint or impaction, this remedy has no equal. Take it this month.

BRIDGES' FOOD
For INFANTS and INVALIDS

It is without doubt the best of the many foods now in the market. Its great popularity is due to its intrinsic worth, as by observing "Special Directions" not only will the feeblest infant be nourished without distress, but it will furnish a full meal for the healthy, growing child. It produces bone and muscle, not a puffy, flabby skin. For prevention of (and as a dietetic) in Cholera Infantum, Diarrhoea, etc., it is invaluable. It is neutral in its action on the bowels.

LIVER COMPLAINT

CURED BY

Gates' Life of Man Bitters

—AND—

INVIGORATING SYRUPS.

PARRSBORO, July 10, 1887.

MESSERS. C. GATES, SON & CO.:

GENTLEMEN, — This is to certify that about a year ago I was suffering with what the Doctors said was Liver Complaint, and had tried medical treatment all to no purpose, but continued growing worse, and thought I should never be well again. A friend persuaded me to try your medicines, and I felt so badly that I knew something must be done, so I purchased a bottle of your No. 2 BITTERS and one of your No. 1 SYRUP, and before I had taken half I felt like a new being and when I had finished them I felt as well as ever.

I would recommend them to the public as an invaluable remedy.

Yours, etc.,

J. W. JENKS,
Postmaster.
