

Parliament.

The resolutions concerning Irish affairs passed, after several amendments had been voted down. The Premier took the ground that it was injudicious to pass the resolutions.

In answer to questions the premier stated that the government was collecting information respecting the P. E. I. subway.

The Minister of Justice said Jeremiah Travis would not be appointed to the northwest bench.

Jones, Kenny and Bordon discussed the need of better accommodation at Halifax for trains and freight from the Windsor and Annapolis railway.

Perry made a vigorous appeal for justice to P. E. I., and set forth at length the difficulties in the way of winter communication. It was his belief that the province would cease to regard itself a member of the confederation unless a subway was constructed.

Jones moved for returns of correspondence between the department of railways and the chamber of commerce, Halifax, respecting the rights of the Windsor and Annapolis Railway Co., under their agreement with the government, dated September, 1872, to the use of the Intercolonial railway extension into the city of Halifax.

Pope said he would bring down the returns. A large sum of money had already been spent on railway extension to Halifax, but the government were considering whether something could not be done speedily to obviate the present difficulties. The matter had been pressed upon the ministry on several occasions by the junior member for Halifax, Mr. Kenny.

DAVIS' PAIN-KILLER is the best medicine in the world for all Diseases of the Bowels.

NEW BRUNSWICK.

The ice has gone from the river.

Mr. John Camber, an old and respected resident of Kingsclear died on Tuesday night of last week. He was 84 years old.

A drunken man named John Chalmers lying on the railway track, near Belledune, was run over and killed by a freight train.

H. B. White took his last drove of cattle to St. Stephen lately; one of the steers weighed 1500 lbs. He has taken from here since September last about one thousand head of cattle, two hundred sheep, a large number of hogs and large quantities of potatoes, hay and oats.

The storm of last Friday night was very severe, in St. John the wind blowing at the rate of from 30 to 40 miles an hour. There was a very heavy sea running outside.

On shore quite a number of fences trees and chimneys were blown down.

The Carleton Sentinel says that the ladies of the W. C. T. U., are meeting with considerable encouragement in their canvass of the town for subscriptions towards the establishment of a Coffee Room here. This is a commendable measure and we trust the ladies may find a liberal and general response to their appeal.

Messrs. Andrew Eaton, David Eaton and Nelson Eaton, with Messrs. Robt. McLeod, John Lamb, Wm. Graham and John Graham and Amasa Kenney of Sussex, have formed themselves into a company for the manufacture of butter in St. John. The company believe that the business can be carried on more profitably than it was in Sussex, because all the surplus milk coming here and unsold can be made into butter.

The general estimate of the lumber that would be cut on the St. John river during the past winter, outside of Mr. Gibson's cut, was in the vicinity of 150 million feet B. M. It is now supposed that there will be a falling off of one-third or more in this quantity, owing to the deep snow, etc. The prospect for a successful drive is good, however. There is plenty of snow in the woods at this time and if the ice above the Grand Falls remain firm for a week longer until the booms are placed, the last year's logs which are in the river above the Grand Falls and which amounted to from 15 to 17 million feet will be all secured.

USE CAMPBELL'S CATHARTIC COMPOUND FOR Liver Complaints and Bilious Disorders.

NOVA SCOTIA.

The Provincial Secretary Fielding has given notice for a conference with the legislative council with a view to the abolition of the latter body.

The annexation resolution in the N. S. legislature received one vote. Attorney General Longley has given notice of the following: "Whereas, Butterworth, member of congress from Ohio, has introduced into the house of representatives at Washington a bill which in effect, is designed

to secure unrestricted commercial relations between the United States and Canada, which bill will be brought before the next meeting of the United States congress for consideration, and whereas such unrestricted commercial relation between this country and the United States would be the greatest possible advantage to various industries of this province, and meet in a large measure the difficulties of our present positions; resolved that this house representing the people of Nova Scotia declares its approval of the object sought to be attained by the said bill, and express the hope that it may be adopted by the congress of the United States as promoting the commercial advantages of the people of this province, and tending if approved by the government and parliament of Great Britain to cement the friendly relations between the English speaking people of the British empire and the United States.

The Halifax Herald says a new feature of inter-provincial trade is the demand from Ontario for Nova Scotia potatoes. The Ontario crop has been a failure; there is a great scarcity for seed potatoes, and there is a demand there for all that Nova Scotia can send. Some 50,000 bushels have already been shipped or are in course of shipment by Messrs. J. P. Cox, Swinerton, and others. The average price paid in Cornwallis is thirty cents per bushel. Cornwallis potatoes are preferred to any other. Kings county farmers have made a bonanza out of their produce this year—not so much in the prices obtained, although good prices have in all cases been realized—but in the fact that every bushel of fruit and produce has been in demand.

So far, 16 vessels belonging to the fishing fleet are in port for repairs. A heavy southeasterly gale is now raging, and vessels on the Banks must suffer severe damage. The schooner Mary Ann, reported abandoned by her crew off Louisbourg, has been brought into Main-deu full of water and without a rudder.

Premier Fielding has delivered his budget speech. The estimated revenue is \$678,000 including \$71,000 which, it is expected, will be refunded, by the Dominion government on account of piers and breakwaters built by the province since confederation. Without this expected increase there will be a deficit of from \$20,000 to \$30,000 if the same services are continued as last year. If this money is received, \$30,000 will be devoted partly to paying off a floating debt of \$20,000, and for the purchase of a farm for a school for agriculture \$6,000 is asked. The expected royalty from mines is \$125,000. There is an increase of \$10,000 in the grant to roads and bridges, making now \$140,000. There is also \$16,000 for the Victoria General Hospital. The amount to the credit of the province at Ottawa is \$804,000, plus the \$250,000 on the Baring Bros. deposit forfeited by not carrying out the syndicate proposal in 1881.

Alderman O'Mallin was elected mayor of Halifax on Wednesday last. He is the head of a firm of Brewers. Bad for Halifax.

Henry James of South Bay (near St. John, N. B.), after threatening the life of Rosanna Miller, a widow at Hubbard's Cove, deliberately set fire to her house, which was burned to the ground, together with all its contents, on Monday night. He was arrested, taken before a local magistrate, pleaded guilty to the several charges preferred against him, and brought to town to await trial at the supreme court.

Barque Joe Read, from Charlottetown, Capt. Edworth, was wrecked off Canso on a reef at Wednesday night. The crew abandoned the wreck and the vessel immediately after leaned over and sank. The men remained on the ice all night and in the morning sighted a Newfoundland schooner and reached Halifax all right.

THE SUPERIORITY of the "Royal Flavoring Extracts" is purity and strength.

OTHER PROVINCES.

In the Quebec Legislature, after a long debate on a want of confidence motion, and a continuous sitting of 30 hours, the Government was sustained by a majority of eight.

A total prohibition motion was lost in the Newfoundland Legislature by only the casting vote of the Speaker.

In Montreal the worst of the flood being over, merchants, storekeepers and others affected by the flood set about getting things into working order. The streets, that for two days were under water, present a pitiable sight, being all covered with mud and debris. The damage cannot yet be estimated.

FOR COUGHS and Colds, use Allen's Lung Balm. Relief is warranted or money refunded.

UNITED STATES.

A despatch from the city of Mexico announces the discovery of two of the seven lost Mexican bonanza mines, by an American party of prospectors. There is great excitement in mining circles.

Harry Gill, Michael Bohannon, Harry Marron, Daniel Finn and Eben Frances were killed by an explosion at the tunnel colliery, Ashland, Penn. on Thursday.

At least 400 children are said to be down with measles in Madison, Wis. Many adults are affected. The public schools have been closed.

Just as the memorial day procession was entering Oakland cemetery, Atlanta, Ga., Tuesday, and while the streets were thronged with troops and spectators, a horse became frightened and ran away through the crowd, trampling down people and causing the wildest panic. One lady was kicked in the head and probably fatally injured, and a large number of other persons had arms or legs broken or dislocated.

The people of Aroostook County are naturally up in arms over the new freight tariff as it must eventually kill their tremendous trade with Boston. The Aroostook Herald says that the net price which the Aroostook farmer receives from his potatoes has been reduced 4 cents a bushel and this 4 cents a bushel makes a difference of between \$80,000 and \$90,000 a year to the whole county.

The British steamship Benhope, from Vera Cruz for New York, was burned 30 miles off Tybee, Ireland. The officers and crew were rescued and brought to Savannah.

LADIES go into ecstasies over the new perfume, "Lotus of the Nile."

BRITISH AND FOREIGN.

The Marquis of Hartington presides over a meeting of Liberal unionists to-morrow, to consider the proposed amendments to the Irish crimes act amendment bill. The principal amendment does away with, or greatly modifies the clause permitting the crown to change the venue to England in a certain class of Irish cases.

The house of commons, this afternoon, went into committee on the Irish crimes act amendment bill. T. M. Healy proposed that the word offence be changed to the word crime. Dillon and Bradlaugh supported this. Mr. Balfour, chief secretary for Ireland, declined, on behalf of the government to accept the change. Mr. Gladstone advised the government to concede Healy's amendment. A division was taken and the amendment defeated by 157 to 120.

Premier Coblet has received a despatch stating that Prince Bismarck has ordered the release of M. Schnaebles.

It is expected that Schnaebles will be placed on the retired list. It is announced that the Emperor William has signed an order releasing M. Schnaebles. The North German Gazette says: In ordering his release the government placed a broad interpretation upon the matter, regarding the invitation addressed to M. Schnaebles by the German police commissary as a sort of safe conduct, although the arrest itself was effected independently of the invitation and without the knowledge of Commissary Cautsch by two Berlin officials.

Advices from St. Petersburg say that revolutionary proclamations were secretly placarded throughout that city on Sunday, threatening with death royalty, judges and officials if the plotters against the Czar were condemned to death.

The storm of Tuesday was of exceptional violence in Moravia and Galicia. Twenty railway workmen sought shelter in a building which was struck by lightning, and two were killed and others rendered deaf. Twenty-three peasants were crossing the river Soan during the storm when the boat upset and the greater number was drowned.

Customs officers throughout Great Britain and Ireland have received stringent orders to search all vessels arriving from America, China and the East, the government having been warned that explosives had been sent from San Francisco to ports in the East to be transhipped to England.

The mail steamer Finland from Sable Ray for Magitius has foundered. All mail matter and every body on board was saved. She was a British vessel of 2,869 tons.

A MATTER OF FACT.

One of the few preparations that seldom disappoints on trial, is that old standard throat and lung medicine, Hays's Pectoral Balsam, for coughs, colds, bronchitis, asthma, sore throat and other diseases of the air passages.

F. Burrows, of Wilkesport, writes: that he was cured of a very dangerous case of inflammation of the lungs, solely by the use of five bottles of Dr. Thomas' Electric Oil. Feels great pleasure in recommending it (for many of the diseases it mentions to cure) through his friends, and in nearly every instance it was effectual.

Mr. Henry Marshall, Reeve of Dun, writes: "Some time ago I got a bottle of Northrop & Lyman's Vegetable Discovery from Mr. Harrison, and I consider it the very best medicine extant for Dyspepsia." This medicine is making marvellous cures in Liver Complaint, Dyspepsia, etc., in purifying the blood and restoring manhood to full vigor.

There are cases of consumption so far advanced that Bickle's Anti-Consumptive Syrup will not cure, but none so bad that it will not give relief. For coughs colds and all affections of the throat, lungs and chest, it is a specific which has never been known to fail. It promotes a free and easy expectoration, thereby removing the phlegm, and gives the diseased parts a chance to heal.

A MODERN MIRACLE.

The story comes to us of a man, who more than twenty years ago, injured his knee by being thrown from a horse. The leg was bent at right angles and stuck straight out behind. After abandoning all hope of ever limbering his knee joint, he had a wooden leg fitted from the knee down, and thus he walked for more than twenty years. A few months ago, hearing of the marvellous relaxing power of Johnson's Anodyne Liniment, he was induced to make a trial of it and strange as it may seem after rubbing in the liniment twice a day for nearly five weeks, the cords were entirely relaxed and the leg straightened. Several months have elapsed since this occurrence took place and yet the knee joint is as serviceable as the other, with no tendency to become stiff again.

Another case fully as remarkable, if not more so, comes to us from Nova Scotia.

Horton, King's Co., Nova Scotia. Dear Sir,—I esteem it a duty I owe you and the public, to make known the very extraordinary, and I may say astonishing, cure effected on my daughter, a miss of thirteen years of age, by your invaluable medicine. In consequence of taking cold after being inoculated for the knee pox, the whole spine became diseased, and she lost the use of all her limbs, and her back was rounded up like a bow; she was utterly disabled for work, and almost helpless for about eighteen months. I had able medical advice, both in this Province and from an eminent physician in New York, in the United States; and they all pronounced it a very difficult, if not incurable case. We used your Johnson's Anodyne Liniment with entire success. She is now well, and about the house.

EDWARD BAYER.

IN A BAD CONDITION.

"I was so bad with dyspepsia that I could not take food of any kind without distress, and could not take a drink of water for a month at a time. I have been a great sufferer from liver complaint and dyspepsia for many years," says Mrs. Nelson W. Whitehead, of Nixon, Ont., whom two bottles of Burdock Blood Bitters cured.

Abundant proofs are given where Ridge's Food has been adopted when children have been taken from the mother's breast when the taint of hereditary disease has been present and the child has grown up hearty and strong. It is neutral in its action on the bowels, and a perfectly safe diet if used according to the Special Directions around each can; will prove the desideratum for the weakest infant and is also the only food which will furnish a full meal for a growing child.

WIND THE CLOCK.

The best clock needs regulating and winding when the main-spring runs down. So, too, when the human machinery gives out, it needs regulating and the main-spring (pure blood) needs toning. Burdock Blood Bitters will regulate and tone all broken down conditions of the system. In purchasing B. B. B. beware of counterfeits.

A FAIR OFFER.

For many years the proprietors of Hagyard's Yellow Oil have offered to refund the money to all purchasers of that medicine where it failed to give relief in case of pain or painful affections, such as rheumatism, neuralgia, sore throat, deafness, burns, bruises, sprains, stiff joints and cords, and internal or external inflammation.

OFFICE FURNITURE, &c., ON HAND.

All of the above will be sold LOW for cash or approved payments.

J. C. RISTEEN & CO.

No. 2 Queen Street.

Have you a Pain anywhere about you? USE PERRY DAVIS' "PAIN KILLER" and Get Instant Relief. BEWARE OF IMITATIONS. 25 Cts. Per Bottle.

BRIDGE'S FOOD FOR INFANTS AND INVALIDS.

It is without doubt the very best of the many foods now in the market. Its great popularity is due to its intrinsic worth, as by observing "Special Directions" not only will the feeblest infant be nourished without distress, but it will furnish a full meal for the healthy, growing child. It produces bone and muscle, not a puff, flabby skin. For prevention of (and as a dietetic) in Cholera Infantum, Diarrhoea, etc., it is invaluable. It is neutral in its action on the bowels.

IN A BAD CONDITION.

"I was so bad with dyspepsia that I could not take food of any kind without distress, and could not take a drink of water for a month at a time. I have been a great sufferer from liver complaint and dyspepsia for many years," says Mrs. Nelson W. Whitehead, of Nixon, Ont., whom two bottles of Burdock Blood Bitters cured.

Abundant proofs are given where Ridge's Food has been adopted when children have been taken from the mother's breast when the taint of hereditary disease has been present and the child has grown up hearty and strong. It is neutral in its action on the bowels, and a perfectly safe diet if used according to the Special Directions around each can; will prove the desideratum for the weakest infant and is also the only food which will furnish a full meal for a growing child.

NO MORE PILLS!

MOTHERS LIKE IT! CHILDREN LIKE IT!

Because it is agreeable to take. IT CURES LIVER COMPLAINT, BILIOUS DISORDERS, ACID STOMACH, DYSPEPSIA, LOSS OF APPETITE, SICK HEADACHE, CONSTIPATION OR COSTIVENESS.

PRICE, 25c. PER BOTTLE.
