He says:

"A new religion has been initiated, which is no more Christianity than His speeches in Parliament on the chalk is cheese; and this religion, being destitute of moral honesty, palms itself off as the old faith with slight improvements, and on this plea usurps pulpits which were erected for Gospel preaching. The Atonement is scouted, the inspiration of Scripture is derided, the Holy Spirit is degraded into an influence, the punishment of sin is turned into fiction, and the resurrection into a myth, and yet these enemies of our faith expect us to call them brethren, and maintain a confederacy with them!"

He contends that the Union should not retain members who hold and promulgate these unscriptural and pernicious things. And if he has not made a grave mistake in attributing such beliefs and teachings to some of the members, his protest is none too strong, and his withdrawal is more than justified.

It is claimed by officers of the union and others, that his charges are quite extravagant, and not sake of evangelical truth we could Jesus, made his arraignment of the alleged offenders more sweeping and make statements at random.

What the ultimate effect of his withdrawal from and his arraignment of, the union will have it is difficult to even conjecture. We incline to think, however, that, whether the case is as bad as it is represented or

good words of it. It is a valuable book, sure to be of great service in the family. It is not (as some might

think from the terms on which we are offering it) an old and shelf-worn edition or a bankrupt-sale lot, but a brand-new edition, printed from new plates, on good paper, and neatly and substantially bound. It is sure to give satisfaction. Send for it. Send some new names, too.

-To GET, RID OF. To be successful, a minister must get rid of all personal ambition. It is a long road for a man to get to the end of himself; but a minister has to do it. So Mr. Moody says, and he is right.

-SUNDAY OBSERVANCE. In the United States christians have had t complain much of the introduction there, by the German population, of the German Sabbath. They make it

a day of recreation and revelry. It is a fact worthy of note that a movement has been inaugurated in Germany to reform Sabbath observance there. is said to be a strong movement, and meets with increasing favour. The

liberties that have been permitted have robbed the Lord's day of much of its sanctity, and religion has suffered in consequence.

-LITTLE THINGS. A minister lately spoke, in a sermon, of the lad who brought the barley loaves and the woman who made them. Little did she think, as she pounded the grain and mixed the dough and tempered the heat of the oven, that her loaves were to feed the gathered companies, who sat down in orderly ranks on the green grass, and were refreshed by a meal presided over by Christ. As little do we know whereunto one small act of ours may grow. The obscure agents in this world are often stronger than those which are seen.

-THE PLACE FOR THEM. Turkey, if any place on earth, is where the Mormons ought to be. They would be disturbed but little, if at all, in that country of many wives and loose morals. Itis reported that the Mormon authorities have made application to the Turkish Government for permission to carry on their work there. The S:andard suggests that they remove en masse to Turkey, where their polygamous faith and practice will not be objectionable. Such a harem-scarum religion as theirs might make a close alliance with Mohammedanism. They might soon raise up a new force of inspired prophets from among the howling and dancing dervishes, and the university at Cao could supply them with any number of barefooted misand water. 1 Go, by all means.

He has preached several times in Plymouth church, and has made so favourable an impression that the church is anxious to secure him.

-BLAKE. It is stated, apparently with some authority, that Hon. Ed. ward Blake is likely to secure a seat in the British Parliament. He is at present in England or Ireland. Of course, if this report be true, he will have to abandon life in Canada and his place in the Canadian Parliament.

This is, we think, to be regretted. Canada can not well spare any of her leading statesmen.

-GERMANY, The aged Emperor of Germany, now past 90 years ge, is in a very frail state of health, and his death any day would not be a surprise. His son, the Crown Prince, is evidently suffering from what may be a very serious trouble and which may cause his death very soon. The statements about his condition are conflicting, and it is difficult to form a correct opinion of his state. But there is no little anxiety.

He affected to have nothing to do with the rumselling part of the steamer's unjust attacks on opponents. Too business. Somebody ought to know something about the affair, and some attempt ought to be made to find out all there is to know. Unjust Attacks

It is one of the worst features of political warfare that the zeal of party ism seems easily to incite the most many strong party men are not satisfied with opposing the political ideas which they regard wrong, nor even with opposing the corrupt acts of their opponents ; they often seem determined to make it appear that there is no virtue, either political or personal, in the men of other political faith than their own. And it sometimes seems that the more straightforward aman is, the more his life, private and public has been actuated by high moral ness and integrity, the more persist ent certain ones are in their attacks discredit him in the public opinion their political feelings allow them selves to forget that men may differ from them and yet be honest. Nor unjust treatment of opponents confined to one party. The guilty ones are

in both parties. The most notable case of unjust treat ment of a public man, which has recentcomment. His course has been both Geo. E. Foster. Mr. Foster has abilities were quickly recognized. He brought to the consideration and discussion of public questions a clear, bating ability and great power in public address. It is not surprising that he was soon accorded a place amongst the leaders.

From his boyhood he has taken interest in temperance and the Prohibi-

paper. It has no politics. But it is for temperance and prohibition in the most pronounced way. In unjust attacks on leading temperance men, no matter to what party they belong, we see harm to the cause we love, and we would, as far as possible, correct the wrong impressions made. If Mr. Foster were untrue to prohibition we would not hesitate a moment to con-

demn him and publish his unfaithfulness everywhere. But he has not been unfaithful. He is as true to the cause as man can be. His whole course proves his faithfulness to it. We are sure that he would unhesitatingly sacrifice any position he occupies domination and that of the irresponsior may occupy rather than abate one jot of his loyalty to the principles which are dear to him and of which England and elsewhere, desire to he has for years been so worthy and continue their mission of disruption able an advocate. There is not in unchecked. Noris the INTELLIGENCER Canada, nor elsewhere for that matter, a truer friend nor abler advocate of its attacks on ministers and other prohibition. As to Mr. Foster's feeling about the attacks upon him, we think it prob able that he cares very little about them. Knowing whence they come and why, and conscious of his own integrity, he is not, we think, disposed to pay any attention to them. Whenever necessary he is certainly quite able to take care of and defend himself. But knowing his record, and appreciating the worth of his services churches. The purpose of his camto the prohibition movement, we have thought that silence on the part of a pronounced prohibition paper, as the INTELLIGENCER has always been, might be misconstrued, and have felt that we ought to say these things. We know whereof we write.

Men of the world, when they cannot answer your arguments and yet feel obliged to make a reply, will call you hard names. The INTELLIGENCER demonstrates its unchristian character by following this method with repicion. ference to the Witness. We do not 6. It is not likely that we shall pay rejoin "you're another." saying that Free Baptists have made a radical departure from all evangelica creeds, which is as flagrantly incorcect as. anything it has said, and concludes by imputing still another bad motive.

4-We wish to assure our readers. that while the Witness has for a considerable time pursued the Free Baptist Conferences of New Brunswick and Nova Scotia with a good deal of malignity, and is evidently determined to do them all the harm in its power, it is about equally vindictive and dishonest in its treatment, of others who have provoked its ill-will by declining to submit to its bles in and about Boston who having made havocin nota few churches in New the only paper which has had to repel Christians who do not pronounce its Methodism, referring to certainof its charges against Methodist ministers, sort of 'Ishmaelite in religious journalism.
