UNITED STATES.

A well authenticated report comes of the disastrous wreck of a construction train on the Mexican National road, at Front, in which 15 men were killed.

"This is only a prelude," said a central station detective to a Chicago reporter, speaking of the arrest of the Bohemian dynamiters. On Tuesday, in Chicago, Inspector Bonfield, took five special officers, surrounded a house, arrested the owner and captured twelve dynamite bombs, revolvers and knives. He subsequently arrested two other men in the neighborhood. Bonfield said they were anarchists. About twenty determined murderers were in the conspiracy. At a certain hour after midnight, they were to be at the homes of Judges Gunnell, Gary, himself (Bonfield), Frank Walker, General Stiles and others prominent in the prosecution of the anarchists. Dynamite was to be placed beneath the houses and the powerful explosives were to be touched off simultaneously. The board of trade was to be blown to the sky, and at the same time a wholesale reign of terror was to be inaugurated. The arrested men are Bohemians. One of them told the story of the plot to a friend who detailed it to Inspector Bonfield. After the executions last November a movement was started among the followers of the revolution, and the groups disbanded as soon as the marked bombs burst, were reorganized. To avoid the danger of informers it was concluded that each group, as reorganized, was to have only three members. The three men arrested constituted a group, and in their hands was left the pleasant occupation of blowing up residences until the act of last November was considered fully wiped out in blood.

His suicide confirms the popular belief that Mandeville was cruelly treated by the prison officials. Ponayne the visiting justice, testified his request that Mandeville be put in hospital was disregarded. Dr. Cremin said bread and water was improper treatment for a person suffering from diarrhoea. Your agent was then on his regular trip, and she asked him if he could cure her. He told her Dr. Thomas' Electric Oil was a sure cure. She tried it, and judge of her astonishment when in a few days the pain was allayed and the foot restored to its natural condition. It is also the best remedy for burns and bruises I ever used.
