Mr. Lugin, Secretary of the Board of Agriculture has issued his report on the harvest of 1889. The season has been a good one and highly favorable to farm work, both as respects seed time and harvest time. The light snowfall of the winter, the long drought of the latter summer, and other minor causes have reduced the quantity of the yield below what is, strictly speaking, a full one, yet generally quantities are good, potatoes being an exception. The averages of sixty-five reports show that buckwheat and barley are 91 per cent. of a full crop, corn 88, wheat 85, hay 83, potatoes 77, oats 71. The dairy output is well below the average and the fruit crop is a comparative failure. Still, from many points there is a surplus of crops announced, and the details of the report are generally favorable.

Sunday School Announcement.

WIDE-AWAKE Sunday-school superintendents and teachers are already on the lookout for the best things for the new year. Such of these as are already acquainted with The Sunday School Times know that no effort nor expense is spared to secure for that paper, each year, that which will be in the highest degree helpful to its readers. It is believed that the following outline of its plans will meet with general approval, and also that the new publications for Sunday-school scholars, The Scholar's Magazine, and The Scholar's Lesson Guide, will be welcomed as fresh and timely helpers in their field.

THE SUNDAY SCHOOL TIMES. A 16 page weekly paper for superintendents, pastors, teachers, the older scholars, and all Bible students. This paper has been so widely adopted by schools of all denominations that its regular issue during the past year has exceeded 125,000 copies per week.

The variety of reading-matter, outside of the lesson department, will, for 1890, include special articles, already definitely arranged for, from many eminent Christian writers, among whom are:

Rev. Wm. William Ewart Gladstone, M. P., who will write one or more articles on "The Impregnable Rock of Holy Scripture." Bishop Elliott, Canon Farrar, Professor A. H. Sayce, and Miss Amelia B. Edwards, of England; Professor Franz Delitzsch of Germany; Professor Godes of Switzerland; and, from America, the Rev. Dr. S. S. Storrs of Brooklyn, President Patton of Princeton, Professor Fisher of Yale University, Professors Briggs and Schaff of Union Theological Seminary, Bishop Foss of the Methodist Episcopal Church, and President Broadus of the Southern Baptist Theological Seminary.

The International Sunday-school lessons will be treated in The Sunday School Times each week, during 1890, as follows:—President Dwight, of Yale University, will furnish the "Critical Notes" on the New Testament lessons, and Professor Green, of Princeton, those on the Old Testament. Dr. Cunningham Gekie, of England, will present, in his graphic way, "The Lesson Story." The eloquent Dr. Alexander McLaren, of England, will continue his practical lesson articles. Bishop Warren will give his vigorous "Teaching Points." Dr. Trumbull, the Editor of the paper, will supply "Illustrative Applications." Dr. A. F. Schaeffer will continue the "Teaching Hints," as will Faith Latimer the "Hints for the Primary Teacher;" while the "Oriental Lesson-Lights" will come from the pen of Canon Tristram, of England, the noted Palestinian traveler and writer.

REDUCED TERMS: One copy, one year, \$1.50; to ministers, \$1.00. School clubs for any number of copies (more than one) mailed to individual addresses, \$1.00 each per year. Five or more copies in a package to one address, 50 cents each per year.

WHO CAN NOW AFFORD IT. At the above rates a school which can take a teachers' periodical of any kind can afford to take The Sunday School Times. Indeed, it is believed that, in many schools, the question as to suitable reading matter for distribution among the older scholars will be settled by supplying them with The Sunday School Times at the package rate. This course has already been taken by a number of the most progressive Sunday-schools. Where such a plan is not adopted, individual teachers of advanced classes will be inclined to subscribe for class packages.

THE SCHOLAR'S LESSON GUIDE. Issued quarterly, 16 pages. A brief history of the study of the International Sunday-school lessons. In the preparation of this quarterly the aim has been to present a brief and simple plan of lesson study which the scholar would undertake, rather than a complicated one which he would let alone. It is prepared by a skilled worker at lesson help. It is cheaper even than Lesson Leaves. Five or more copies, one cent each per quarter; four cents each per year. Specimen copies free.

THE SCHOLAR'S MAGAZINE. A 32 page monthly publication, containing wholesome home reading for the scholars, also the International Sunday-school lessons. It is believed that this magazine will at once find its way into thousands of schools. Surely its price will not be a barrier. The January number contains stories and articles by F. B. Stanford, Emily Huntington Miller, Rev. Edward A. Rand, Mrs. J. B. M. Bristol, and Eben E. Rexford. One copy, one year, twenty-five cents; five or more, one cent each per month, or twelve cents per year. Specimen copies free.

POCKET EDITION of the International Sunday-school lessons, with both the Common and the Revised Version, given in full on opposite pages. A little book (2 1/4 x 4 inches, 136 pages) containing all the lessons of the year, and 52 blank pages for notes. It is printed on thin, tough paper, and neatly bound in cloth, with side stamp in color and gold. About a quarter of an inch thick. Just the thing for those who wish to look over the lesson at odd moments. Choice enough for a gift to teachers or scholars at Christmas. Single copy, by mail, twenty-five cents; five or more, twenty cents each. Bound in the leather, fifty cents; five or more, forty cents each.
