

News of the Week.

NEW BRUNSWICK.

The report from Westmorland says:—Two hundred and fifty cords of wood belonging to F. C. Jones, piled up about four miles from Moncton, on the Caledonia road, caught fire from bush fires yesterday and was destroyed. Loss \$500, insured for \$300.

Three or four hundred entries for the Moncton exhibition were received in one day.

Moncton is threatened with two more actions for damages, one by Ephraim Gould, for injuries sustained by his son in falling on Robinson street sidewalk, and another by Pascal Herbert, for alleged false arrest by Marshal Thibedeau.

New rails are being laid on the Intercolonial from Bathurst west at the rate of a mile a day.

The woman who left William Quigley's Sussex, about three weeks ago, and for whom so much searching was made in the woods near by, is said to have been found in next to a nude state, and is at the house of a Mr. Parlee at the head of the Millstream, in Studholm. How she has existed does not appear. She says she picked berries and saw numbers of bears during her stay in the woods. Mr. Quigley went after her.

At Penobscot, an adopted child of Mr. Asa Sprague was drowned in the river. Mr. Sprague had gone across the stream for his cows, and the little one was drowned in attempting to follow.

The wires on the Moncton trunk line of the New Brunswick Telephone Co. have been strung as far westward as Rosheasy.

Detective Skeffington has been making enquiries respecting Michael Leary, whose remains were found near Campbellton some months ago. His late employer in Ireland, Henick, for whom he worked as a butler, says in a letter that he gave Leary over \$110 before he left Ireland. No money was found on the remains and the circumstances point strongly to the supposition that Leary was murdered for his money. The Toronto police have been unable to find George Terry and wife, who came out on the steamer with Leary and started for Toronto with him on the train. They stopped over Sunday with him at Campbellton, but continued their journey on Monday without him and do not seem to have made any enquiries regarding his absence.

There was a meeting at the Orange Hall, in St. John, of the various committees having in charge the celebration by the Orangemen, on July 12th, 1890, in that city. Grand Master Armstrong was chosen chairman and Grand Secretary Mosher elected secretary. A committee was appointed to obtain headquarters and one to have a uniform dress among the members of the order. It was decided, when all arrangements are completed, to notify the lodges throughout the province. Several Nova Scotian and American lodges have stated that they would be present.

At the formal opening of the Normal school, Principal Mullin spoke of the unusually large attendance of students. Every county in the province was represented. Never before at the beginning of a term was there such a large enrollment as this year. The actual attendance, including the French department, was about 200, and he felt safe in saying that when the advanced classes entered in January next they would reach an enrollment of 240. He regarded the increased attendance as the best proof of the efficiency of our common school system. The teachers of New Brunswick compared very favorably with any similar bodies of teachers anywhere physically, intellectually and in every other respect. Chief Superintendent Crockett gave the students some excellent advice, and there were also interesting speeches by Prof. Harrison of the university and Mr. Creed.

Mr. Sutcliffe, agent of the British American Book and Tract Society, is on his annual trip through New Brunswick. He will visit St. John about the end of this month.

In various parts of Kent, Westmorland and Albert counties much valuable timber has no doubt been destroyed during the past few weeks. At St. Louis, Kent C., a few days since, the bush fires surrounded Omore Gallant's place and his house, crops and fences were destroyed.

About two miles out the Mountain road, Mr. W. O. Schwartz lost about 12 cords of wood, and Mr. Smith Brown some fencing.

The bush fires are said to be responsible for the death of a man named Keith near Salisbury last week. The inhaling of the smoke caused a violent fit of coughing and the bursting of a blood vessel, and the man died in a short time.

Travelling along roads through the woods is anything but pleasant just now owing to the heat and smoke from fires.

Besides the destruction of timber by forest fires, the dry weather has caused many of the streams to dry up, and brooks which were never known to be dry before have not a drop of water in them. Water for stock and for household use has sometimes to be hauled a long distance. Prayers for rain were publicly offered in many of the churches throughout the country on Sunday last.

A scarcity of logs has caused a suspension of work in R. A. Gregory's mill, West End.

Slight rain Sabbath afternoon and evening came as a grateful and valuable relief to the protracted dry weather.

Two cases of scarlet fever, one of a very malignant type, are reported in Moncton.

Sabbath morning Cornelius McGillivray was taken to the general public hospital with his right arm badly shattered, as the result of the accidental discharge of his gun. When young men who go out shooting learn to handle their weapons with care! McGillivray saw a porcupine, but between it and him there was considerable brush. He pushed the brush aside with his left hand and was dragging his gun forward with the other, when the trigger caught and the weapon was discharged.

NOVA SCOTIA.

Hantsport, N. S., has formed a joint stock company to erect, equip and run a foundry at that place. The capital, \$1,000, has all been subscribed in the village, and the building, 150x50 feet is almost completed.

While driving down the mountain at Aylesford, N. S., Rev. P. M. Holden was thrown from his carriage and severely cut and bruised.

The leaves of plants and trees in Kentville, N. S., and vicinity are covered with a black viscid matter and soot, supposed to be the result of fires and the peculiar condition of the atmosphere of this season.

A company has been formed to furnish Springhill, N. S., with a water supply.

A branch of the Imperial Federation league is to be formed in Yarmouth.

By jumping from one train within touch of another passing at Londonderry, N. S., on Monday, a man named Melanson of Memramcook got his jaw and collar bone broken, besides other injuries. He will probably recover.

New Glasgow, N. S., has a new paper called the Vindicator. There are now three papers published in New Glasgow.

Coal has been discovered within 200 yards of Maccan station. The seam is 3ft. 4 in. clear. Startling results are expected.

The following steamers, in which Halifax money is invested, are now running regularly out of that port: Halifax, to Boston; Beta, to Havana; Alpha, to Bermuda and Jamaica; Electra, to Lunenburg; Arcadia, to Mahone Bay; Princess Beatrice, to Charlottetown, P. E. I., and eastern ports; City of St. John, to Yarmouth and western ports; Bridgewater, to Bridgewater; Harlaw, to Cape Breton and Newfoundland ports; St. Pierre to St. Pierre. —Chronicle

On Tuesday night Rev. W. B. Higgins was ordained in the Baptist church at Wolfville. The ordination sermon was preached by Rev. G. O. Gates of St. John and the clergymen who assisted were: Revs. W. H. Cline of Halifax; S. B. Kempton of Cornwallis; W. C. Vincent of Canning; P. S. McGregor of Hantsport; Joseph Murray of Falmouth; C. F. Williams of Dartmouth; M. P. Freeman of Gasperaux; David Freeman of Canning; E. O. Read of Berwick. Rev. Dr. Higgins, the pastor of the church, was present and acted as chairman. Rev. Mr. Higgins, who is one of the missionaries of the Baptist convention of the maritime provinces, leaves on the steamer Damara for London. He will go to the Madras presidency to the work among the Telugus.

Rev. Dr. Rand the venerable Micmac missionary is seriously ill at his home at Hantsport.

On Monday week two boys belonging to Selma, Hants county, one a son of Martin Murphy, and the other a son of Mrs. Royals, a widow, went bathing in the Shubenacadie river, near its mouth, and both were drowned.

A terrible shooting accident is reported from Ship Harbour, thirty miles east of Halifax. Four men were in the woods on Friday morning hunting. They were named Taylor, Annand, Cyrus Mitchell and Thomas Webber. They became separated during the afternoon. Taylor and Annand saw the bushes moving and thinking it was a moose fired. The supposed moose were Mitchell and Webber. A bullet passing through Webber's neck and entered Mitchell's body, killing both men instantly. When Taylor and Annand discovered their fatal mistake they were frantic. The bodies were brought down to Lakeville in a boat. The dead men were uncle and nephew.

H. Elderkin & Co. of Port Greville, N. S., have just successfully launched a beautiful schooner of large dimensions that will be a very worthy addition to the new Parraboro fleet. She is called the Wentworth, and was measured by surveyor F. C. Rand of Kentville. Her gross tonnage is over 350 tons.

OTHER PROVINCES.

Montreal, Sept. 11.—The traffic returns of the Canadian Pacific Railway, September 1st to 7th, were \$335,000, an increase of \$77,000 over the corresponding period last year.

Montreal, Sept. 10.—The city council has taken preliminary steps for submitting to popular vote a scheme for spending \$1,000,000 on harbor improvements.

Fourteen Chinamen have been bonded by customs officers Montreal. They arrived in port yesterday on the Melbourne steamer Haverton, where they were employed as firemen, having been shipped on the voyage from Melbourne, Australia, to London.

Two children of John McPhee, Cape Traverse, P. E. I., died one day the latter part of last week, within about twelve hours of each other. The cause of death is supposed to have been sunstroke.

An unknown man walked into a barn near Dunville, Ont., on Saturday; set it on fire and suicided. He was burned to death.

Montreal, Sept. 10.—T. G. Shaughnessy, assistant general manager of the Canadian Pacific, has been appointed assistant president. He has left for England via New York, to let the contract, it is said, for the steamers for the Pacific mail service from Vancouver to China and Japan. The steamers are to be of the same model and design as the North German Lloyds steamer Lahn, to cost \$1,000,000 apiece, and to be delivered at Vancouver in 18 months. President Van Horne in an interview said that nothing short of universal disaster would prevent the company from earning \$20,000,000 next year, and \$8,000,000 net, or six per cent. on the capital.

Mr. Shaughnessy is still quite a young man, being but thirty-six years of age, and holds one of the most important positions in the railway world. He commenced his railway career in 1868, as a clerk in the purchasing department of the Chicago, Milwaukee & St. Paul railway, and finally became general storekeeper and purchasing agent, which office he held until he joined the C. P. R. in 1882 in same capacity, a year later he became assistant general manager.

UNITED STATES.

The Chicago Times, Sept. 10th, says a syndicate has been formed that has already put up six millions and when the plans are completed will have a backing of 35,000,000 to assure the World's fair to Chicago.

New York, Sept. 11.—Steamships arriving to-day from the east and south report passing through a storm of almost unexampled severity.

A cave occurred at White Ash Coal Mine, near Golden, Colorado, and ten miners were buried. It is believed they are all dead.

Washington, Sept. 12.—Sir Edwin Arnold, author of the Light of Asia, and chief editor of the London Telegraph, with his daughter, called on President Harrison to-day, with whom they had a few moments pleasant conversation. Their visit to Washington was a flying one. They left here this afternoon for Philadelphia and thence will go to New York for a few days.

Lynchburg, Va., Sept. 12.—In an accident at the Jellico Coal mines, Tennessee, yesterday, 18 persons were killed. No details.

BRITISH AND FOREIGN.

City of Mexico, September 10.—A terrible storm has prevailed at Tampico. Two hundred and fifty families are sheltered in the public buildings of the city. The towns of Panuco and Temporal are flooded and the crops are destroyed in the surrounding country.

Brussels, Sept. 12.—A cable despatch from Zanzibar to the government of the Congo state says that Henry M. Stanley is expected to reach the eastern sea coast about the end of October.

His Holiness has abandoned the idea of leaving Rome, the German government having assured him that in the event of war, Italy would strictly respect his position.

Liverpool, Sept. 11.—The municipal authorities of Liverpool have voted an appropriation of £30,000 for the purpose of the construction of depots for the storage of petroleum at isolated points, thus reducing to a minimum the dangers arising from fire and explosions. The tanks to be built will have a total capacity of 19,000 tons.

The coughing and wheezing of persons troubled with bronchitis or the asthma is excessively harassing to themselves and annoying to others. Dr. Thomas' Electric Oil obviates all this, entirely, safely and speedily, and is a benign remedy for lameness, soreness, injuries, piles, kidney and spinal troubles.

Jabesh Snow, Gunning Cove, N. S., writes:—"I was completely prostrated with the asthma, but hearing of Dr. Thomas' Electric Oil, I procured a bottle, and it did me so much good that I got another, and before it was used, I was well. My son was cured of a bad cold by the use of half a bottle. It goes like wild-fire, and makes cures wherever it is used."

AT DEATH'S DOOR.

MY little boy had diarrhoea and came very near dying. After the failure of every thing else we used Dr. Fowler's Extract of Wild Strawberry which caused a quick cure, and I know of two others who were cured by the same remedy.

FREEMAN C. AMON, Hillier, Ont.

GOOD ADVICE.

TO be healthy and have lots of life and vim, be careful in diet, take plenty of sleep, and regulate the bowels, bile and blood with Burdock Blood Bitters, a sure cure for constipation, biliousness, dyspepsia, all blood humors, scrofula and all broken down conditions of the system.

Messrs. C. C. Richards & Co. Gents.—I have used your MINARD'S LINIMENT successfully in a serious case of croup in my family. In fact I consider it a remedy no home should be without.

J. F. CUNNINGHAM, Cape Island.

So SAY ALL.—That MINARD'S LINIMENT is the standard liniment of the day, as it does just what it is represented to do.

THE MOST EXQUISITE handkerchief perfume—"Lotus of the Nile."

Minard's Liniment Cures Distemper.

For Children Starving to Death.

On account of their inability to digest ordinary food, Scott's Emulsion can be digested and give strength and flesh when all other food fails. See what Dr. A. H. Peck, Penn. Med. College, Petittocid, says: "I have used and prescribed Scott's Emulsion of Cod Liver Oil, and find it an excellent preparation, agreeing well with the stomach, and its continued use adding greatly to the strength and comfort of the patient." Put up in 50c. and \$1 size.

Among the many remedies for Worms, McLean's Vegetable Worm Syrup takes the lead; it is the original and only genuine.—Pleasant to take and sure in effect. Purely Vegetable.

A FACT WORTH REMEMBERING.

MR. JAS. BINNIE, of Toronto states that his little baby when three months old was so bad with summer complaint that under doctors' treatment her life was despaired of. Four doses of Dr. Fowler's Extract of Wild Strawberry cured her.

FOR DELICACY and richness of flavor, use "Royal Extracts."

USE "MAUD S." CONDITION POWDERS for Horses, Cattle, Sheep, Hogs and Poultry.

Free and easy expectoration immediately relieves and frees the throat and lungs from viscid phlegm, and a medicine that promotes this is the best medicine to use for coughs, colds, inflammation of the lungs and all affections of the throat and chest. This is precisely what Bickel's Anti-Consumptive Syrup is a specific for, and wherever used it has given unbounded satisfaction. Children like it because it is pleasant, adults like it because it relieves and cures the disease.

ON THE SURFACE.

SKIN diseases appear on the surface and are often humiliating to the sufferer from them. From two to three bottles of Burdock Blood Bitters will cure salt rheum, erysipelas, shingles, tetter, nettle rash, eczema, boils, pimples, or blotches, at the same time restoring the general health.

Northrop & Lyman's Vegetable Discovery has worked wonders for dyspepsia, and we don't think there is a case of Dyspepsia to be found that it will not cure if the directions are followed. Mr. C. E. Williams, Druggist, Wingham, says: "The Vegetable Discovery is selling well, and I know of one bad case of Dyspepsia that it has completely cured."

You hardly realize that it is a medicine, when taking Carter's Little Liver Pills: they are very small; no bad effects; all troubles from torpid liver are relieved by their use.

A LINE FROM GLADSTONE.

MY little son aged two, was seized with diarrhoea, followed by piles, two doses of Fowler's Extract of Wild Strawberry gave great relief and half a bottle completed a cure. Mrs. J. A. McIntyre, Gladstone, Man. This medicine is a specific for all summer complaints of children or adults.

Do not suffer from sick headache a moment longer. It is not necessary. Carter's Little Liver Pills will cure you. Dose, one little pill. Small price. Small dose. Small pill.

My friend, look here! you know how weak and nervous your wife is, and you know that Carter's Iron Pills will relieve her, now why don't you be fair about it and buy her a box?

A NOVA SCOTIAN'S OPINION.

Robert C. Woodman, Digby, N. S., writes as follows:—"Enclosed find \$1 for another large bottle of Nasal Balm, which you will please send me by first mail. The bottle I sent for some time ago benefited me very much more than any other preparation I ever tried."

WHEREAS.

WHEREAS much disease is caused by wrong action of the stomach, liver, kidneys, bowels and blood, and whereas Burdock Blood Bitters is guaranteed to cure or relieve dyspepsia, liver complaint, kidney complaint, dropsy, rheumatism, sick headache, etc. Therefore, Be it resolved that all sufferers should use B. B. B. and be restored to health.

Dyspepsia or Indigestion is occasioned by the want of action in the biliary ducts, loss of vitality in the stomach to secrete the gastric juices, without which digestion cannot go on; also, being the principal cause of Headache. Parnelee's Vegetable Pills taken before going to bed, for a while, never fail to give relief and effect a cure. Mr. F. W. Ashdown, Ashdown, Ont., writes: "Parnelee's Pills are taking the lead against ten other makes which I have in stock."
