

THE PRESBYTERY of St. John met in the Kirk in this city on Wednesday last. The business was chiefly routine.

A VALUABLE OFFICE.—The office of Sheriff of the county of New York is one of the most profitable in the States.

THE SEMINARY opens to-morrow (Thursday). An excursion train is to be run to accommodate those who wish to be at the opening.

W. C. T. UNION.—The Maritime Convention, held in St. Stephen last week, was, evidently, a meeting of much interest.

B. Smith, Windsor; unfermented wine, Miss Archibald, Truro; scientific temperance, Mrs. Phillips, Fredericton, N. B. dress and hygiene, Mrs. Sutherland, Newcastle. At the evening meeting, Mrs. Trenholm, of Hantsport, was appointed Maritime organizer for the next year.

S. S. WORK.—Mrs. Wilber F. Crafts, the well-known S. S. worker, was in this city from Friday till Monday and gave several addresses on S. S. teaching.

THE NORMAL SCHOOL began work on Monday. The examinations for entrance were held last week. Of 176 who presented themselves, 13 were unable to pass.

ALL SORTS.

During forty-eight hours of recent warm weather in New York City, two hundred and thirty-eight deaths of children were reported to the board of health.

The use of tobacco at Yale College is decreasing each year. The athletic association does not allow members to smoke or chew.

Yeljoro Ono, a Japanese, took the highest honors in a class of 115 graduates in the literary department of the University of Michigan.

The Swiss watchmakers have invented a watch for the blind. A small peg is set in the middle of each figure. When the hour hand is moving toward a given hour, the peg for that hour drops. The person finds the peg is down and then counts back to twelve.

In spite of the concordat, which tolerates only a limited number of monastic orders in Spain, there are in that country 29,200 monks and 25,000 nuns.

The interest with which a young man watches the growth of hair on his upper lip is only equalled by that with which the man of forty watches its disappearance from the top of his head.

Rev. Dr. Prim: "Do you preach extempore, Brother Yallerby, or do you take notes?" Brother Yallerby (from the South): "Well, sah, thar was once a time I took notes; but I've found it safest, down in my deestrick, to insist on habing de cash down."

Literary Notes.

Wide Awake for September opens a new story for girls who have their living to earn; it is called "A Little Knight of Labor." The Peppers serial is full of good times and exciting happenings. An article of interest relates to "Maria Mitchell at Vassar" there is a good portrait of the famous woman astronomer. The last of the Around the World Stories is perhaps the most entertaining of them all. Mrs. Kate Upon Clark has an amusing account of a mother's experience with three boys and three birds. Mrs. White's Public School Cookery concerns fish and eggs. The boys will enjoy the article about "Swimming." The "Men and Things" pages are full of bright anecdotes and talks. Wide Awake is \$2.40 a year. D. Lothrop Company, Publishers, Boston, Mass.

Flossie is six years old. "Mamma," she asked one day, "if I get married will I have to have a husband like Pa?" "Yes," replied the mother, with an amused smile. "And if I don't get married will I have to be an old maid like Aunt Kate?" "Yes," "Mamma,"—after a pause—"it's a tough world for us women, ain't it?"

The largest hotel in Chicago now is the Richelieu, which has recently been very greatly enlarged and beautified. The oil paintings with which it is decorated inside cost over \$200,000, whilst all the rooms are most expensively fitted up.

Mr. DONALD CAMERON, a young Glasgow man, in company with Mr. A. Bowman, of Newcastle, has just completed the feat of walking round Europe. They commenced their journey at Aberdeen twelve months ago, their entire impediment consisting of a knapsack and a stout stick each.

The smallest screws in the world are made in a watch factory. They are cut from steel wire by a machine, but as the chips fall down from the knife it looks as if the operative was simply cutting up the wire for fun. One thing is certain, no screws can be seen, and yet a screw is made every third operation.

Tennyson was always absent-minded and the progress of time brings him no relief in this respect. It is told of the poet that once, when in full conversation with Robert Browning, he said, apparently apropos de bottles, "I wonder how Browning's getting on?" "Why," exclaimed Robert, "I am Browning." "Nonsense!" replied Tennyson, with almost an attempt at roughish raillery: "I know the fellow well, so you can't tell me you are he."

By a new process, the rubber in the milk collected from India-rubber trees is now coagulated instantaneously. The operation is so simple that any native can carry it out at the foot of the tree which has been bleeding; and thus, instead of carrying large cans of milk of great weight, and entailing great loss on the way, he simply carries in the sack solid rubber, which, on his arrival at camp, can at once be prepared for the market and shipped.

At a children's party in London, a number of the guests were seized with curious symptoms, which could not be traced to the infection of any particular food or liquid of which they had partaken. Attention was then drawn to the candles used on the Christmas tree, many of which were green; and these, when submitted to analysis, proved to contain arsenic, which was diffused through the atmosphere and inhaled as the poisonous candles burned.

The widening of the Suez Canal has been undertaken, the width of 22 metres being increased to 65, 75, and 80 metres. The depth is also to be increased, as well as the number and breadth of sidings for vessels passing each other. Navigation by night is facilitated by luminous buoys and tow-paths; and vessels using the electric light are now able to traverse the canal in 20 hours, the time hitherto varying from 35 to 40 hours.

It is estimated that the number of horses and mules employed for street car services in Canada and the United States is, in round numbers 115,000; 1 being the smallest number owned by any one company, 7,683 the largest, and 165 the average. The general average of feed per animal is 20 1/2 pounds, and the average for Kentucky is 45 pounds. The daily consumption of food is approximately 1,600 tons, or 584,000 tons per annum; and the cost of feed per animal varies from 17 to 50 cents per day, according to locality and season of the year.

People talk glibly about a million bushels of wheat, but very few of them realize what a vast amount that is. A wheat broker says "that if a million bushels were loaded on freight cars, 500 bushels to a car, it would fill a train over 15 miles long; if transported by wagon, 44 bushels per wagon, it would make a line of teams 142 miles long. If made into bread, reckoning a bushel to every 60 pounds of flour, it would give each man, woman and child in the United States a 2-pound loaf of bread.

In 1883, a Jewish penman at Vienna, Austria, wrote four hundred letters on a common-sized grain of wheat. It seems that the emperor had failed to sign a bill allowing the Jew to become a clerk in some of the royal departments, giving as a reason that it was absolutely necessary to have an uncommon good penman in that department. After finishing the cereal wonder and despatching it to his Majesty, the Jew picked up a common visiting card and wrote a prayer for the imperial family on its edge. This was also sent to the emperor. It is needless to add that the dexterous Hebrew was installed at the head of department the next day.

A FEW HENS FOR PROFIT.

One of the most successful men with a few hens, that we know, is Mr. A. F. Hunter, who conducts a small but very profitable poultry farm near Boston. It has been well said of him "he writes sound common sense for his readers and he evidently knows what he is talking about." His long connection with the New England Farmer and contributions to the poultry columns of other papers has taught practical people to look upon him as an authority upon poultry raising topics. He is an easy pleasant writer who has learned all he knows by hard earned experience. For this reason alone we believe he is especially fitted to edit a poultry paper. And we are more than gratified to receive a copy of a new poultry paper, entitled FARM-POULTRY,—wherein Bro. Hunter figures as having entire charge of the editorial columns. The paper is to be published monthly from the house of I. S. Johnson & Co., Boston, Mass., and is to be devoted entirely to the interest of persons raising poultry, on farms and in the suburbs of towns. "How to make money with a few hens" is the motto of the new paper. If any one can give points on that motto, it is Mr. Hunter; for he has the faculty of making his hens lay when prices are highest. Last year, 113 pullets and 12 year old hens paid him \$167 in one hundred and fifty-four days, during the winter, a record not easily beaten. The publishers propose to give the readers of FARM-POULTRY from eight to twelve pages of new, fresh, live, interesting experiences of practical persons in each number, all for the small sum of fifty cents per year. A list of breeders and market men will be published monthly, worth many times the cost, to any one desiring to buy or sell poultry and eggs. On receipt of 50 cents in stamps, I. S. Johnson & Co. will send the paper to any address, one full year, or a sample copy for five cents. Address, FARM-POULTRY, 22 Custom House street, Boston, Mass.

ADVISE TO MOTHERS.—Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of Cutting Teeth? If so send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers; there is no mistake about it. It cures Dysentery and Diarrhoea, regulates the Stomach and Bowels, cures Wind Colic, softens the Gums, reduces Inflammation, and gives tone and energy to the whole system. "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price twenty-five cents a bottle. Be sure and ask for "MRS. WINSLOW'S SOOTHING SYRUP," and take no other kind.

Special Announcement.

We have made arrangements with Dr. B. J. Kendall Co., publishers of "A Treatise on the Horse and his Diseases" which will enable all our subscribers to obtain a copy of that valuable work free by sending their address (enclosing a two-cent stamp for mailing same) to Dr. B. J. Kendall Co., Enosburgh Falls, Vt. This book is now recognized as standard authority upon all diseases of the horse, as its phenomenal sale attests, over four million copies having been sold in the past ten years, a sale never before reached by any publication in the same period of time. We feel confident that our patrons will appreciate the work, and be glad to avail themselves of this opportunity of obtaining a valuable book. It is necessary that you mention this paper in sending for the "Treatise." This offer will remain open for only a short time.—6w.
