

brought to the Saviour. The congregations throughout were unusually large. The one communion service, when forty-five Christians sat around the Table of the Lord, and also the administering the ordinance of baptism, were occasions of the presence and power of the Holy Ghost.

There was special canvassing for the INTELLIGENCER, though not with as large results as I would like. The foreign mission field was remembered, and in this presentation of Christian work we found the people willing to do their share. A few hymn books were sold, and orders for more, as well as for some Hand-Books, were given to me.

The brethren remembered, too, that "it is more blessed to give than to receive," when before leaving they presented me with the sum of \$24.70, which increased by collections made \$30.00. May God bless them.

They have no pastor as yet, but Bro. A. Stults of the Moncton Church, who has been granted license, is disposed to labor with the people. If Bro. Stults can get the few churches near there, the Sixth District will be nearly all supplied.

A. H. McLEOD.

Temperance Notes.

The Voice says there are eighty shops in Halifax selling liquor contrary to law.

At Salisbury, W. Co., on the 16th, Mrs. Eliza Wilson was convicted of violation of the Scott Act and paid \$50. The case against Mrs. Mary Ann Brown was postponed until the 22nd, and papers have been served on Mrs. Moses Wilson.

Recently Judge Blanchard, one of the county court judges of Nova Scotia, decided that the Scott Act was not in force in counties where no licenses had been issued before the act was adopted by the people. This decision affects twelve or thirteen counties and was based on the fact that the revisors of the Canadian statutes in the revision and codification thereof, omitted from the Canada Temperance act the special section enacted to cover such cases and providing that in non-license counties the Scott act should take effect and be in force in thirty days from date of its adoption. The department of justice does not concur in Judge Blanchard's decision and the deputy minister has just issued instructions to the department's representative in Nova Scotia to test the matter, the cost to be borne by the federal government.

Summer School of Hebrew.

It is interesting to note the progress made of late years in Summer School work. Hundreds of busy men and women are looking forward to the vacation weeks as the time when they may store up new material for thought and use in the months to follow. At the various Chautauqua Assemblies, and at many other places of resort, educational courses are offered under eminent instructors which fairly rival for the time being, the advantages of our best colleges. Nor should there be overlooked in this connection the work of the American Institute of Hebrew of which Dr. W. R. Harper of Yale is the Principal. For a number of years, schools of three weeks each have been held in different parts of the country to encourage a more general acquisition of the Hebrew and its cognate languages. They have an increasing constituency, not merely of ministers, desiring to "brush up," and of theological and college students, but also of unprofessional men and women, who are eager to become competent as investigators of Old Testament questions. These weeks seem short but they are weeks of concentrated, rapid work. A student carries along almost all that he learns; he has no time to forget it. Some ambitious students attend several successive schools and acquire thus a really creditable grasp of Hebrew literature in very brief time. Some have objected to summer work, on physical grounds; thus far, however, no injurious effects of the system have been noticed. The whole movement is a significant and characteristic one.

RUM MEN'S CRIME.—From Sydney, Cape Breton, comes the following: The construction of the Cape Breton railway and the employment of hundreds of navvies has greatly increased demand for liquors in Cape Breton, and the result has been deplorable, and several deaths from the results of drinking have recently been recorded. Recently a temperance league was formed and one thousand dollars subscribed. Many convictions have been recorded from various parts of the county and culprits have gone to jail, but in North Sydney the thirty illicit rum-sellers combined to fight the Scott Act and have entered upon the fight with lawyers, bombs, the incendiary's torch and brute force. A few nights ago George K. McKeen, a prominent and active temperance man, was beaten on the public streets. Last night his barn was burned. The prosecutions are conducted in the name of the town clerk. Last night, an explosive missile was thrown into his dwelling and his house set on fire, but the building was saved from destruction. These acts of incendiarism have aroused public indignation and today the town council offers a reward of seven hundred dollars for the discovery and conviction of the incendiaries, and a public subscription is being taken up to reimburse McKeen for his destroyed property.

THE EXTRADITION BILL.—The Dominion Government has taken charge of the Weldon Bill, which provides for the extradition of nearly all classes of criminals not included in British extradition treaties, saving only political offenders. The effect of the measure will be, if it becomes law, that Canada will no longer be a city of refuge for hoodling aldermen, embezzling bank cashiers and others betrayers of trust who flee from the United States. As the Government has become responsible for the bill, there is little danger of the Senate throwing it out, as they did in the case of the Kirkpatrick Wrecking Bill, another wise measure effecting Canada's relations with the United States. The United States Congress will probably reciprocate by providing for the extradition of Canadian criminals of the same classes who take refuge in the United States. If it does not, the United States is, of course, welcome to all criminals as far as Canada is concerned. If any case, Canada will be the gainer, and so far as Canada is concerned, the demands of justice will be satisfied. The introduction at last of this common sense method of dealing with a great evil shows the advantage of a newspaper hammering away at a thing, even though no one seems to heed.—*Montreal Witness.*

NOT SO RAPID.—The way French Canadians multiply and extend has frequently of late been referred to as if it threatened the overthrow and expulsion of the English-speaking people from both Ontario and Quebec. We have strong confidence in the vital energy of the Anglo-Saxon race. We believe that the English language is destined to be the most widely-spoken language in the world. The comparison should be made on the broader scale as to time. Prof. Schurman, in a recent article on Canada, in the *Forum*, has shown that the facts do not justify the assumptions respecting the rapid increase of the French population. He says: "Considering the duration of the occupancy of Canada by the French their numbers are not really large. According to the census of 1881, Quebec had 1,359,027 souls, out of 4,324,810 souls for the whole of Canada. And judging from characteristics of races, it seems certain that the whole North-West will be filled up by an English-speaking population. In this way Ontario has grown up to a population of over 2,000,000. It was not settled till after the American revolution, whereas in 1759, when Canada passed under English rule, the French population already numbered 65,000." He maintains also that Canada has increased in population faster than the United States.

DARWIN'S THEORY.—Darwin's theory of the "survival of the fittest" is simply that the weak die, while the robust and hardy thrive and live. How true this is of all seed growth, and how necessary to sow only that which is suited by nature to live and develop. D. M. Ferry & Co., the great Seed Growers and Seed Dealers, of Detroit, Michigan, and Windsor, Ontario, supply only the best and purest, raising their own seeds by the most improved methods and with the greatest care, bringing to their business the invaluable aid of more than thirty years' experience. Their Seed Annual for 1889 is a real help to the gardener, and should be in the hands of all who desire to purchase pure and true seed. Send your name to the firm's address at Windsor, Ontario, and they will forward you a copy.

A BISHOP'S EXPERIENCE.—Bishop Temple, of London, relates that when he was once worshipping in an East end church where a hearty musical service is a distinguishing feature, he joined in the singing to the best of his ability. He has a stentorian voice, and the effect of his efforts on those sitting near him may be imagined. At the conclusion of the second verse of the hymn the patience of a workman on his immediate left seemed fairly exhausted. Not recognizing the dignitary beside him, the poor man, in sheer desperation, gave the Bishop a sharp dig in the ribs, and the latter, on turning round for an explanation, was thus addressed in subdued but distinct tones: "I say, guv'ner, you dry up; you're spoiling the whole show."

THE NUN OF KENMARE, who fell out with, has finally fallen out of, the Catholic Church. She is now Miss Mary F. Cusick of the Episcopal Church, and as such was introduced to his audience in Boston by Joseph Cook, March 26. This is not a very long step as advanced in years and not in robust health. She sought the nearest fold to Rome.

ONE CAUSE.—The *Christian Irishman*, writing on the causes of the poverty of Ireland, appeals with fearlessness to Roman Catholics, whether it is not their general belief that their clergy are as a rule unfeelingly exorbitant in the matter of money. It mentions the case of a respectable, hard working servant girl who, the other day had to give £4 to her priest before she could get the nuptial tie fastened. The Irish laity, as they grow in intelligence and in intercourse with other countries, are becoming more aware of the undoubted fact that the religion of their Church is pre-eminently a religion of money.

THE LOCAL LEGISLATURE was prorogued Thursday afternoon. The last matter dealt with was the bill uniting St. John and Portland. The session was about a week longer than it would have been but for that.

THANK YOU.—Our thanks are due those friends who have sent us new names on the terms of the special offer now made.

We are hoping to receive many more. Every friend of the paper and its work can help in this. Now is the time.

GUILTY.—Guion, Tennant and Lowe, charged with violating the C. T. Act, pleaded guilty and were fined \$50.00 each.

THE UNION.—The Act uniting St. John and Portland will come into operation on the 18th of May.

A SAILOR'S HOME is to be built in St. John. Miss Hutchinson is the promoter of the good work.

PROHIBITION CONVENTION.—There is talk of a Prohibition Convention for the Maritime Provinces being held in Moncton in August. We hope it will be held.

ALL SORTS.

The government of Russia has granted a concession for a period of 81 years to a company which proposes to join the Black Sea and the Sea of Azov. The company has a capital of 85,000,000 francs.

An independent old lady, speaking of Adam's naming all the animals, said she didn't think he deserved any credit for naming the pig. Any one would know what to call him.

Twenty three women are employed in the New York Custom House at a salary of \$20 a week each. In the United States between 14,000 and 15,000 women are fulfilling the duties of commercial travellers.

A Building eighteen feet by twenty-two feet and fourteen feet high, made of canvas and paper, and built in sections for convenient transportation, has been made for the Harvard South American astronomical party. A galvanized iron cupola surmounts the structure.

A drop of ink is sufficient to write from 100 to 500 words, according to the fineness of the pen, and the handwriting. The average writer puts 150 written words on a page of note-paper, or 225 on a page of foolscap, and in an hour uses about five drops of ink, writing from 1,000 to 1,500 words, while his pen travels about an eighth of a mile.

A process has lately been invented whereby milk may be kept from souring for a month, grape and apple juice for six months, and sweet wine for a year. The inventor is now experimenting on an apparatus which it is claimed will keep subscribers from souring on the editor.

A boy of eleven, crazed by cigarette-smoking, has been taken to an insane asylum in Orange County. He is considered a violent and dangerous maniac, and displays some of the symptoms peculiar to hydrophobia. By the way, when is the law forbidding the sale of cigarettes to boys under sixteen going on the statute book?

A heathen king, who had been for years confirmed in the sin of drunkenness by the evil practices of white men on the Sandwich Islands, had been led to forsake this dreadful habit. He said to a missionary: "Suppose you put \$400 in one hand, and a glass of rum in the other; you say, 'You drink this rum, and I will give you this money.' I no drink it. You say you kill me. I no drink it."

Literary Notes.

In the *May Missionary Review* of the World the leading article is by Dr. Pierson, entitled *The Mission and Commission of the Church*. It is a forcible exposition of Scripture teaching on these two fundamental subjects. The *Marvels of Mormon Missions* will be read with keen zest. Pastor Harms and his work tells a story of sacrifice and enterprise that cannot fail to thrill the heart. The *Story of Siam*, is another of the *Miracles of Missions*. Dr. Brockett gives the first part of a comprehensive history of Madagascar from a missionary standpoint. We note a little change in the arrangement of the several departments which we think an improvement. The Editorial Notes are full and important. Organized Missionary Work and Statistics, contain the last reports of several missionary societies, and several valuable Tables of Statistics. The *Monthly Bulletin* gives the latest news from all parts of the world-field. The number is one of much interest. Published by Funk & Wagnalls, 18 and 20 Astor Place New York. \$2 per year; 25 cents for single numbers. In clubs of ten, \$1.50.

Footcoring in the Dark.

No sensible surgeon will attempt the performance of an operation involving human life in a room secluded from the proper amount of light. A practitioner will not attempt the diagnosis of a complicated disease unless he can see the sufferer and make an examination upon which to base his opinion relative to the treatment necessary to bring about restoration to health.

Notwithstanding the impropriety of such action there seems to be a great deal of doctoring done in the dark. It needs no illustrations to demonstrate that gross ignorance has caused many fatal mistakes in the treatment of diseases by those who profess to be learned in the art of healing.

In many diseases several organs are more or less implicated and what seems a primary ailment may be quite remote. For instance, a severe headache may have its origin in a disturbed stomach. On the other hand, sickness at the stomach may be caused by a blow on the head. The seat of typhoid fever is in the upper part of the bowels, but most of its worst symptoms are often in the brain.

Symptoms of disease as well as diseases themselves are oftentimes followers or concomitants of some unsuspected organic disease and this is peculiarly true of lung, liver, brain and heart diseases in general, for it is now known that they are the result of kidney disease, which shows its presence in some such indirect manner.

Several years ago a gentleman became convinced of the truth of this and through his efforts the world has been warred of kidney disease and as a result of continued effort a specific known as Warner's Safe Cure was discovered, the general use of which has shown it to be of inestimable benefit in all cases where kidney treatment is desirable or necessary.

When consumption is threatened so to it that the condition of the kidneys is immediately inquired into and if they are found diseased, cure them by an immediate use of Warner's Safe Cure and the symptoms of lung decay will rapidly disappear.

There are too many instances already recorded of the terrible results produced by a lack of knowledge concerning the cause of disease, and human life is of too much importance to be foolishly sacrificed to bigotry or ignorance.

Special Announcement.

We have made arrangements with Dr. B. J. Kendall Co., publishers of "A Treatise on the Horse and his Diseases" which will enable all our subscribers to obtain a copy of that valuable work free by sending their address (enclosing a two-cent stamp for mailing same) to Dr. B. J. Kendall Co., Enosburgh Falls, Vt. This book is now recognized as standard authority upon all diseases of the horse, as its phenomenal sale attests, over four million copies having been sold in the past ten years, a sale never before reached by any publication in the same period of time. We feel confident that our patrons will appreciate the work, and be glad to avail themselves of this opportunity of obtaining a valuable book.

It is necessary that you mention this paper in sending for the "Treatise." This offer will remain open for only a short time.—6w.

ADVICE TO MOTHERS.—Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of Cutting Teeth? If so send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it; mothers; there is no mistake about it. It cures Dysentery and Diarrhoea, regulates the Stomach and Bowels, cures Wind Colic, softens the Gums, reduces Inflammation, and gives tone and energy to the whole system. "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind. July 16th

Counterfeits are always made to look as near like the original as possible. Housekeepers are cautioned against any worthless and damaging imitations of James Pyle's Pearline, some put up in similar looking packages, and others with names sounding like Pearline, which dealers may endeavor to urge upon them.

In Guy's (London) Hospital Reports, vol. 1, page 396, is found the statement: "Simple hypertrophy (enlargement) of the heart, especially of the left ventricle, is found without valvular incompetency. In this numerous class the cardiac is secondary (a symptom) to the renal affection." This explains why Warner's Safe Cure is effectual in cases of heart disease. It removes from the blood the kidney acid which causes the heart disease.

Mr. W. Thayer Wright, P. Q., had Dyspepsia for twenty years tried many remedies and doctors, but got no relief. His appetite was very poor, had a distressing pain in his side and stomach, and gradual wasting away of flesh, when he heard of, and immediately commenced taking, Northrop & Lyman's Vegetable Discovery. The pains have left and he rejoices in the enjoyment of excellent health, in fact he is quite a new man.

Mr. J. Leist, warehouseman for Lautz Bros., Buffalo, N. Y., says he had a swelling on the foot which he attributed to chilblains. He used Dr. Thomas' Electric Oil, and is troubled no longer.

Marriages.

McFARNS-ROBERTS.—In Portland, April 15th, by Rev. E. H. Nobles, Walter McFarns of Boston, Mass., to Annie Roberts, of St. John, N. B.

GODDARD-YEMANS.—At the Free Baptist Parsonage, Petticoadie, on the 22nd ult. by Rev. A. C. Thompson, Hiram Goddard and Ada Younman.

McLEOD-BRANSCOMB.—At the residence of the bride's parents, Corn Hill, April 6, by Rev. A. C. Thompson, Bruce McLeod and Rachael Branscomb.

KETH-BRANSCOMB.—At the residence of the bride's parents, Corn Hill, April 10th, by Rev. A. C. Thompson, George W. Keth and Elizabeth Branscomb.

O'BLENIS-CLOSE.—At the residence of Henry O'Blenis, Petticoadie, April 16th, by Rev. A. C. Thompson, David S. O'Blenis, and Annie Close.

EBBETT-YERKA.—At Kewwick, on the 17th instant, by Rev. William Downey, Ernest Ebbett of Douglas, to Carrie, eldest daughter of Isaac Yerka of Bright.

MUNROE-NEGUS.—At Apple River, N. S., on the 6th inst., by Rev. D. T. Porter, John A. Munroe and Hattie M. Negus, both of Apple River, N. S.

Deaths.

McCORKELL.—At Hibernia, Q. Co., on the 29th ult., Hugh J. McCorkell, of consumption aged 34 years. "Blessed are the dead that die in the Lord."

PATTERSON.—At Jerusalem, Q. Co., on the 2nd inst., Mrs. Margaret Patterson, aged 72 years, beloved wife of James Patterson.

GOLDING.—At New Ireland, Q. Co., on the 10th inst., Francis Golding, aged 50 years. Sister G. professed religion about fifteen months ago. She died happy in Jesus.

SWIM.—At Prince William, York Co., on the 16th inst., Minnie Blanche, aged 3 months and fifteen days, infant child of Rev. Gideon Swim.

THOMPSON.—At St. John, April 5th, of typhoid fever, Phoebe M., fourth daughter of Tyler Thompson, in the 33th year of her age. The body was taken to Woodstock for interment.

EVERETT.—In St. John Saturday 20th inst., C. D. Everett Esq., in the 87th year of his age.

MANUEL.—At Bear Island, York Co., on the 9th inst., of consumption, Almira, beloved wife of Simon Manuel, aged 58 years. A large circle of friends mourn her death. For many years Sister M. was a professed disciple of Christ and honored Him by a devoted Christian life. She died triumphant in the faith. The funeral service was by the writer; text Ps. 116:15.—GIDEON SWIM.

There are too many instances already recorded of the terrible results produced by a lack of knowledge concerning the cause of disease, and human life is of too much importance to be foolishly sacrificed to bigotry or ignorance.

**ROYAL BAKING POWDER**  
Absolutely Pure.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum and phosphate powders. Sold only in cans. ROYAL BAKING POWDER CO. 106 Wall Street, N. Y.
