

News of the Week.

NEW BRUNSWICK.

The navies on the Tobique Valley railway have struck for their pay, some of which is due, they claim since May last.

A number of railway men, principally New Brunswick railway employees, have made application for the incorporation of the Skiff Lake Fishing Club, with a capital stock of \$9,000.

Walter Willis, painter in Miller's carriage factory, and his son met with a bad accident Wednesday evening. They were in a lumber wagon on King street when the seat broke down and the horse started, both being thrown head foremost to the ground.

The saw and carding mill or A. H. Larlee at Perth Centre, Carleton Co., was destroyed by fire Wednesday with most of its contents. The plant consisted of a rotary and carding mill, two shingle mills and a clapboard machine, the two latter machines being owned by J. V. Armstrong. There was no insurance on either the building or machinery.

Simmons and Burpee of this city, have assigned. The hanging up of the firm's lumber operations this year is said to be the chief cause of the financial difficulty. The liabilities are believed to be between forty and fifty thousand dollars. The principal creditors are in Fredericton and include Hon. A. G. Blair, Hon. F. P. Thompson, George T. Baird, M. P. P., and James Hodge, flour merchant.

A school teacher at Upper Millstream, King's Co., it is said, will probably be the defendant in an interesting breach of promise suit.

At the Moncton case of Dr. Brydges vs. "Dr." Carleton Stipendiary Warrant gave judgment fining the accused \$20 and costs. The case will be appealed.

The wires for the Fredericton trunk line of the New Brunswick Telephone company are now strung a few miles below Oak Point and the posts have been placed in position within a few miles of the city. Conversation has been held between Oak Point and Fredericton, when everything was found to be in perfect working order. All the posts on the Moncton line are now in position.

Arthur Norman, son of Wm. Norman, engineer of Messrs. Richards & Hickson's mill, Newcastle, disappeared on Sunday evening and it is feared he fell into the river and was drowned.

It looks as though Moncton might be involved in another lawsuit. Some time ago W. F. Ferguson had a small building moved on Harper Street and left there, claiming that the ground belonged to him and that the street lines were farther above. Complaint was made to the council with the result that that body, after searching the county records and consulting a lawyer, ordered the building to be removed, which has been done by town officials. Now, it is said, Mr. Ferguson intends bringing an action against the town for several thousand dollars.

Keith's mill Moncton was burned down a few nights since with all its contents. Loss about three thousand; no insurance; quite a quantity of lumber was also burned. Circumstances point strongly to incendiarism.

In the case of Willie Hawkes who died last week in St. John from the effects of shot fired by a boy named James Bennett, the Coroner's jury gave the following verdict: We, the jury empanelled to inquire into the cause of the death of Willie Hawkes, say that from the evidence produced we believe that Willie Hawkes came to his death accidentally by being shot by a revolver in the hands of James Bennett at the Ballast wharf on Tuesday, the 13th inst. In returning the verdict Mr. Jones, the foreman, said that dealers who sell revolvers or cartridges to children were deserving of the severest censure.

Governor Tilley is to open the maritime exhibition in Moncton next month.

Samuel Campbell, a section man on the St. Martin's railway, was run over on Monday at McAfee's Mills by a trolley and was severely injured, having an arm and a leg broken, besides other injuries less serious.

Linus Seely's little girl, who was dangerously injured on the head by the kick of a horse last week, is under a fair way for recovery, under the treatment of Dr. Connell.

Crowley West, of Fredericton, had a narrow escape from death at Babbitt's saw mill at Gibson, one day last week. Falling on a circular saw in motion, he had his shoulder bore cut almost to the joint and one of his arms badly lacerated.

The government is undertaking extensive repairs on the Moncton bridge. The repairs include the complete rebuilding of the short way on the Albert side, of rebuilding the short spans with entirely new piers, also a reconstruction of a new draw.

A terrible accident, which is nearly certain to result fatally, occurred at Cape Tormentine about eight o'clock on the evening of the 23rd. A girl named Domital Bourque of Cape Bald, who was employed by Mr. Tucker of the Seaside hotel, accidentally upset a lamp which had been left on the kitchen floor. The lamp exploded and set fire to her clothes and the girl rushed screaming out of doors. A young man named Costin of Baie Verte, employed by Contractor Murphy, got a quilt and tried to wrap it round the girl, but she was frantic with fear and broke away from him several times. When he at last succeeded in putting out the fire the girl was desperately injured and he was severely burned. Several men were looking on, but offered no assistance. Dr. Carter, who is in attendance, says there is no hope of the girl's recovery.

The Empire and Phoenix flour mills, at St. Martins both owned by Sylvester Neeton, were totally destroyed by fire on the 23rd. The Empire mill was the finest and largest in the country and was erected a few years ago at a cost of nearly \$100,000.

The post office at Campbellton was broken into late Thursday night or very early Friday morning, as it was found open by the courier who called for the night's mails. It was found that the bags from the Quebec side as well as those from down the coast made up for the Quebec clerks had been carried into the back yard and their contents examined. Six registered letters were stolen, but it is understood that only two or three contained any considerable amount.

Rev. Chas. S. Medley, rector of Trinity Church, Sussex, died at that place on Sunday, after a lingering illness. The Rector was in the 54th year of his age.

A serious accident occurred at Belleisle creek on Friday. A team heavily laden, was crossing the bridge at Gillis' when the structure broke down. It is quite a high bridge with considerable length of span. One horse was slightly injured and the other, it is feared, fatally. The team belonged to James Reickertson. James Burns of Sussex, who happened to be on the wagon at the time, was badly shaken up and injured his knee quite severely. The falling arches of the bridge pinned his hat between them, crushing it out of shape and just grazing his head. It was a very narrow escape. The driver of the team was not injured. Pending the rebuilding of the bridge, wagons will have to ford the stream, which is attended with considerable difficulty with loaded teams.—Sun.

There is considerable freight traffic over the Central between Norton and Chipman. The work of ballasting is progressing on the St. Martins branch. Contracts have been let for six new bridges on the latter, but the building of these is not intended to interfere with traffic on the line, which it is expected will be open before the opening of the seminary at St. Martins.

A widow named Brett, living with William Quigley and his wife about four miles from Sussex, left the house on Wednesday evening last and has not since been seen. She has been very melancholy of late, and fears are entertained that she may have strayed into the dense woods near by and died of exhaustion.

NOVA SCOTIA.

The pickling establishment at Gasperaux, King's Co., N. S. will handle 3,000 bushels of cucumbers this season. They pay the farmers 1½ cents per pound.

The herring fishery in Shelburne County, N. S., is uncommonly productive. All along the shore, from Baccaro to the West Bay, netting is in full blast, and the catches show no signs of dwindling. The fish are large and of excellent quality. Local buyers are offering good prices and the market abroad is said to be buoyant.

The wife of Adam McKeen, a highly respected farmer of Rodgers Hill, Pictou, N. S., suicided by drowning Tuesday night.

Joseph Tutty, a native of Cape Breton, was drowned near Vancouver, B. C., last week. He belonged to North Sydney, was 36 years old and leaves a wife and five children. Thos. Stewart, who leaves a wife and two children in Colchester county, N. S., was also drowned in British Columbia, last week.

At South Maitland W. P. Cameron has a vessel of 1,000 tons on the stocks. At Maitland Messrs. McDougall have a barque of same tonnage well under weigh. At Avondale the largest ship ever constructed at that place is now nearing completion. As she now stands well up on the ways, her appearance is that of a vast ship of war; 230 feet keel, 46 feet wide and 25 feet depth of hold and 2,000 tons measurement.

Nova Scotia boasts of a heavy weight, in the person of a five-year-old son of J. S. Gillis, of Acadia Mines who tips the scales at 185 pounds.

Wm. Lawson, of Lawson, Harrington & Co., has been appointed consul of the Argentine confederation, in Halifax. There has hitherto been no consulate of the confederation at that city.

A Pictou county payer says: The ford pit shaft is at last freed of water, after nine years work. The shafts have been reached, rails have been laid in the direction of the square pit to facilitate the removal of debris. The remains of a horse were taken out the other day. The bottom of the pit is in no worse condition than anticipated.

Miss Mary Reynolds died at Musquodoboit, Halifax county, on Sunday, at the age of 103 years.

On Saturday the body of an Italian navy was found in the river at Baie Verte. The head was badly cut up and a knife was sticking in the throat. The body was nude with the exception of one sock and one boot. The man is supposed to have been murdered by two other Italians on Friday night.

At Amherst Saturday, Mrs. C. R. Fuller, niece of Sir Charles Tupper and Miss Chapman, were out driving, the horse ran away and the ladies were thrown out on a heap of stones. Mrs. Fuller had an arm and leg broken, and her head badly cut up. Miss Chapman escaped without serious injury.

Charles R. Lantz and Wm. R. Langille were lost from the fishing vessel White Cloud during a fog. They were in a dory without food or water for three days and two nights, and then landed on Guyon island, off Cape Breton.

A sensation has been produced in Bridgewater by the disappearance of the collector of customs there, leaving a deficiency of over \$1,500, it is alleged.

Alice Doyle, aged 12, and her brother Willie, aged 6, were playing on a wharf in the north end of Halifax, when Willie wandered too close to the edge and fell into the water. Alice, without a moment's delay, jumped in after her brother, and succeeded in placing him in a boat near by. The brave girl was so exhausted that she could not get into the boat herself, and sank. A young man who had witnessed the accident jumped into the water and as she was going down for the third time brought her ashore.

A north end man, the head of a family, went out of his house the other day with \$750 in his pocket. He got on a spree, spent money freely, treated and was cheated, and had quite a time generally. On his arrival home says the Halifax Mail, much to the horror of his wife, he had but \$35 in his pocket, the balance of the \$750 having vanished. The wife takes the loss hard. The money referred to was saved (after much denial) to go toward the erection of a small house. The man can hardly account for the loss of so much money, but says the bar-rooms, bad company and betting took the money out of him.

OTHER PROVINCES.

Mrs. Webster of Montreal has taken action for \$11,000 damages against the Methodist Church of Canada and the Trustees of St. James street congregation, owners of the Temple building elevator at which latter, her husband was killed some time ago.

Says the Charlottetown Examiner: A man named Hector Douglas broke out of jail a few nights ago by crawling through a 7x13 opening in the window.

The crop reports from all parts of Manitoba state that wheat harvesting is now in full swing and about two-thirds finished and in many places will be completed by the end of the week. Farmers are themselves astonished at the way the crop is turning out, the heads being extraordinary large and plump in spite of the shortness of the straw.

Rev. Mr. McKenzie, Presbyterian missionary to Labrador, writes that there is great destitution there, and urges that a movement be made to transport the inhabitants to the Northwest.

A horrible accident occurred on the Canada Atlantic railway Thursday afternoon, when John, the 11 year old son of Conductor Leon O'Leary of the Canadian Pacific railway had both legs cut off by a train which ran over him. He died a few minutes later.

Word comes from parts of the Island that much of the wheat and oat crop of this island is being cut down and hauled into the barnyards for manure. A blight has seized much of the wheat and rust has spoiled much of the oats so that the prospects are that with many of the farmers poor crops will rule the fall.

Mrs. Considine of Point St. Charles who has been deranged for some time past, threw herself in front of an incoming Grand Trunk train, on Saturday, and received injuries which will probably prove fatal.

Donald McLennan of Springfield, Que., who was run over on the Canadian Pacific railway, died from the effect on Friday morning. A bottle of whiskey was found in his coat pocket broken, and another at his side.

The steamer Port Augusta sailed Saturday afternoon from Vancouver for China with 1,789 tons of cargo, twelve cabin passengers and 67 Chinese. The cargo is consigned principally to Shanghai and Hong Kong.

UNITED STATES.

Forest fires which have been raging all over Montana for three weeks and have destroyed thousands of dollars worth of timber have reached most alarming proportions. On the ranges in Chouteau county which heretofore have escaped, and on which cattle men were depending to keep their stock this winter, thousands of heads of cattle are burning! Couriers report the utmost consternation prevailed at Georgetown. In Yellowstone county the fire covers an area of eight miles, and is spreading rapidly. The ranges in that section have been almost entirely destroyed.

In Pittsburg, Wednesday morning an explosion occurred in a large oil refinery. Immediately flames spread in all directions. A tank of white oil was the first to ignite and it was soon followed by a large receptacle of ordinary brand and 25,000 barrels, which were all ablaze at once. The refinery is a total loss. It was valued at \$225,000; little if any insurance.

A horrible wreck occurred on the Knoxville, Cumberland Gap and Louisville Railway, at Flat Gap Creek. The train was the first to go over the new road, and carried an excursion. Two cars left the track at the crossing. The rear car went down the trestle. Three men died from their injuries and others cannot live. Out of 56 persons on the train 41 are injured.

Fire started in the smoke house of the packing house of Swift & Co., Kansas city, Kansas, at 9.30 a. m., which with the rendering house was consumed. Owing to insufficient water pressure the firemen could not gain control of the fire for an hour. A change in the wind saved the rest of the establishment. During the fire the master mechanic Tate fell upon the roof and was instantly killed. The total loss on buildings, machinery and stock is placed at \$150,000 with \$120,000 insurance.

The most exquisite handkerchief perfume—"Lotus of the Nile."

BRITISH AND FOREIGN.

Severe storms passed over parts of Austria Tuesday. Many persons were killed.

Mrs. Maybrick's sentence has been commuted to penal servitude for life.

The revival of trade is making itself felt in everything in England just now. It began slowly in 1887 and is now in full blast. The foreign trade of Great Britain in 1888 amounted to £218,500,000; in 1887 it exceeded that amount by £24,000,000; in 1888 it increased it by £42,500,000 and in the first six months of this year an increase of \$26,000,000 is shown. A rise of nearly £100,000,000 in three years is more than the most sanguine would have hoped during the long period of depression. Emigration and pauperism are both decreasing and capital is remarkably confident with regard to new investments.

The Rome correspondent of the Chronicle, London, asserts that preparations are being made for the Pope's departure from Rome.

Minard's Liniment Cures Diphtheria.

C. C. RICHARDS & Co.

Gents.—I have used your MINARD'S LINIMENT in my family for years and believe it the best medicine in the market as it does all it is recommended to do.

DANIEL KIERSTEDT.

Canaan Forks, N. B.

John Mader, Mahone Bay, informs us that he was cured of a very severe attack of rheumatism by using MINARD'S LINIMENT.

THE FOUR CARDINAL POINTS.

THE stomach, the liver, the bowels and the blood are the four cardinal points of health. These Burdock Blood Bitters acts upon to strengthen, regulate, cleanse and purify, thus restoring and maintaining perfect health. B. B. B. is nature's true tonic and renovator.

Food for Consumptives.

Scott's Emulsion of Cod Liver Oil, with Hypophosphites, is a most marvelous food and medicine. It heals the irritation of the throat and lungs, and gives flesh and strength quicker than any other remedy known. It is very palatable, having none of the disagreeable taste of the crude oil. Put up in 50c. and \$1 size.

FOR DELICACY and richness of flavor use "Royal Extracts."

3 YEARS IN BED.

GENTLEMEN, I tried your Dr. Fowler's Extract of Wild Strawberry and was perfectly cured from sickness. I was sick in bed for three years and after taking six bottles I was perfectly cured, and now I would not be without the medicine in the house.

MISS EMMYRA FULLER, Vereker P. O., Ont.

The great lung healer is found in that excellent medicine sold as Bickie's Anti-Consumptive Syrup. It soothes and diminishes the sensibility of the membrane of the throat and air passages and is a sovereign remedy for all coughs, cold, hoarseness, pain or soreness in the chest, bronchitis, etc. It has cured many when supposed to be far advanced in consumption.

A. B. DesRochers, Athabaskaville, P. Q., writes: Thirteen years ago I was seized with a severe attack of rheumatism in the head, from which I nearly constantly suffered, until after having used Dr. Thomas' Eclectic Oil for nine days bathing the head, &c, when I was completely cured, and have only used half a bottle.

USE "MAUD S." CONDITION POWDERS, for Horses, Cattle, Sheep, Hogs and Poultry.

THE OKLAHOMA BOOM.

FORMS an instance of a wild rush for an uncertainty, which is just opposite of the steady boom enjoyed by Burdock Blood Bitters. Buyers of this medicine get a certainty—an unequalled remedy for all diseases of the stomach, liver, bowels, kidneys and the blood.

The rock on which many a constitution goes to pieces is Dyspepsia. The loss of vigor which this disease involves, the maladies which accompany it, or which are aggravated by it, the mental despondency which it entails, are terribly exhaustive of vital stamina. Its true specific is Northrop & Lyman's Vegetable Discovery and Dyspepsia Cure, which likewise overcomes bilious maladies, female ailments and those coupled with impurity of the blood.

For Cramps, Cholera, Diarrhoea, Summer complaint, use Kendrick's Mixture, a positive cure in nearly every case. Sold by all dealers. 25 cents.
