The pilot and the headlight were broken. The stopcocks of the cylinder were bent and the boxes and springs of the tender were also bent. On Monday last, at Jacksonville, a little 9-year-old daughter of Linus Seely, of Waterville, nearly lost her life. While she was handing the reins to that gentleman the horse became frightened at a child's carriage, and kicked her on the head. He remained about town for several days and on Thursday received word that his wife was dead and buried.

A few days ago fishermen belonging to Prospect, who were off that place fishing, observed a large French warship steaming ahead in close proximity to the breakers which abound in that vicinity. The fishermen immediately pulled for the ship and informed those on board of the danger they were in. The engine was reversed and not a bit too soon, as the ships bottom scraped over the rocks. And had she stopped on her course five minutes longer she would have been dashed to pieces and those on board perished.

Good results immediately follow its use. I know its value from personal experience, having been troubled for 9 or 10 years with Dyspepsia, and since using it digestion goes on without that depressing feeling so well known to dyspeptics. THE OKLAHOMA BOOM.

FORMS an instance of a wild rush for an uncertainty, which is just opposite of the steady boom enjoyed by Burdock Blood Bitters. Buyers of this medicine get a certainty—an unequalled remedy for all diseases of the stomach, liver, bowels, kidneys and the blood.

J. H. Earl, West Sheffield, P.
